AFFIDAVIT OF MAILING
OF HEARING NOTICE

Notice is hereby given that the November 2016 issue of *KENTUCKY LIVING*, bearing official notice of hearing of PSC Case No. 2016-00247, for the purposes of examining the application of the Fuel Adjustment Clause of OWEN ELECTRIC COOPERATIVE from November 1, 2015, through April 30, 2016, was entered as direct mail at Florence, Kentucky on October 28, 2016.

Anita Travis Richter
Editor
Kentucky Living

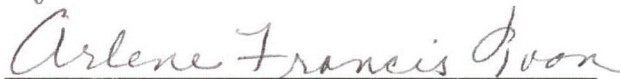

County of Jefferson

State of Kentucky

Sworn to and subscribed before me, a Notary Public,

This 28th day of October, 2016.

My commission expires January 19, 2020

Notary Public, State of Kentucky

HEARING NOTICE

A public hearing will be held on Wednesday, November 9, 2016, at 9 a.m., Eastern Standard Time, at the offices of the Kentucky Public Service Commission, 211 Sower Boulevard, Frankfort, Kentucky, to examine the application of the fuel adjustment clause of the following corporations for the period of November 1, 2015, through April 30, 2016. Individuals interested in attending this hearing shall notify the Public Service Commission in writing of their intent to attend no later than November 7, 2016. If no notices of intent to attend are received by this date, this hearing will be cancelled. Written notice of intent to attend this hearing should be sent to: Executive Director, Kentucky Public Service Commission, P.O. Box 615, Frankfort, Kentucky 40602.

ENERGY 101

Call before you dig

Know what's below

If your fall projects require digging—such as planting trees or shrubs, or setting posts—please stop and dial 811 first.

Underground utilities, such as buried gas, water, and electric lines, can be a shovel thrust away from turning a fall project into a disaster.

Play it safe by dialing 811 to find out

ENERGY BASICS

where utility lines run on your property. Your call will

be routed to a local “one call” center. Tell the operator where you’re planning to dig and what type of work you will be doing, and affected local utilities will be notified.

In a few days, a locator will arrive to designate the approximate location of any underground lines, pipes, and cables. These areas will be marked with flags or paint so you will know where it’s safe to dig.

Although many homeowners tackling do-it-yourself digging projects are aware of “Call Before You Dig”

services, over 50 percent of people do not take advantage

of the service according to Common Ground Alliance (CGA), a federally mandated group of underground utility and damage prevention industry professionals. CGA data also shows that an underground utility line is damaged every six minutes in the U.S. because someone decided to dig without first dialing 811.

Even simple tasks like installing a new mailbox post can damage utility lines, which can disrupt service to an entire neighborhood, harm diggers, and potentially result in fines and repair costs.

Never assume the location or depth of underground utility lines. The 811 service is free, prevents the inconvenience of having utilities interrupted, and can help you avoid serious injury. For more info: www.811.com.
