That rendered the service to be intolerable and irresponsible. NO actions were taken to prevent the problem, and the frequent leaks, even though they have the money. This problem is so annoying and unbearable, to the point that I have to find another house and move to another water district. There are many people affected, some of them got used to the problem, unfortunately. Wherefore, complainant asks to replace all pipes and prevent leaks -
 (Specifically state the relief desired.)

I lived in Harlan City, water works district, for 2 years and never had a day without water, even in extreme weather conditions -

Having water is NOT something complimentary, it is vital to survive, like the oxygen we breathe -
