Gentlemen and/or Ladies,

Louisville Gas and Electric wants a raise and has petitioned for that. I can't afford it.

There are people with good paying jobs but not as many as I'd like for us to have. I am an elderly handicapped woman/widow on Social Security. It used to be that my house was warm in winter. LGE-E came out and worked on my pipes outside. That took care of my warmth and chewed a bigger chunk of my purse. My last billed report shot up really high before this past weekend! No telling what it will be the end of this month. I wear layers of

clothing to keep warm.

My solution is to charge the elderly less and to get a small increase. They shouldn't automatically get this high increase just because they ask for it.

I am sure they have enough money to do what they want now. I want a fair deal and I want to stay in my house as long as I am able. I'd like to die here, not freeze to death! Please keep the elderly in mind when considering their proposal. I would work but I am unable. Please reconsider.

Sincerely,
Shirley A. Denver
