Dear Public Information Officer,

I am writing in regards to the proposed rate increase by LG&E on electric and gas rates. I understand that increases are necessary sometimes but I am on a fixed income and do not get a COLA on my Social Security (at least I don't remember when the last time I got one). When all the utility companies increase their rates, we seniors are left with less and less income. I think there should be some kind of consideration for those who cannot afford all these rate increases.

Sincerely,

Martha Pousardien
