**APPLICATION**

Kentucky Power Company applies to the Public Service Commission of Kentucky pursuant to 807 KAR 5:001, Section 5(5) to replace paragraph 52 of the Company's February 23, 2017 verified application with Substitute Paragraph 52 below:

52. Customers engaged in coal extraction and processing may nominate interruptible load in any amount, subject to a one MW minimum, up to a maximum contract load of 75,000 kW for all customers taking service under the tariff. There currently is 12,400 kW of interruptible load subject to the tariff, leaving customers the ability to nominate any portion of the balance of 62,600 kW, subject to the minimum, under the tariff. Because the amount of load to be nominated under the tariff is not knowable, it is not practicable to estimate the effect of the proposed amendment on the amounts paid by customers subject to Tariff P.P.A.

Substitute Paragraph 52 provides the interruptible load nominated under Tariff CS-IRP, as well as the balance that could be nominated under the tariff.

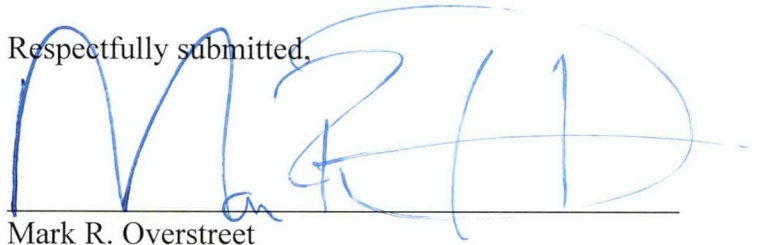

The verification of Matthew J. Satterwhite is attached.

WHEREFORE, Kentucky Power Company requests that the Commission issue an Order:

- (1) Replacing paragraph 52 of the verified application with Substitute Paragraph 52;
- (2) Granting the Company all relief requested in its February 23, 2017 verified application;
- (3) Granting all other required relief or approvals.

This 9<sup>th</sup> day of March, 2017.
