

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

TARIFF FILING OF MEADE COUNTY RURAL)
ELECTRIC COOPERATIVE CORPORATION TO) CASE NO.
REVISE CERTAIN DEMAND-SIDE MANAGEMENT) 2017-00394
PROGRAMS)

ORDER

On September 5, 2017, Meade County Rural Electric Cooperative Corporation (“Meade RECC”) filed revised tariff sheets terminating one demand-side management (“DSM”) program and revising one DSM program. The revised tariffs have a proposed effective date of July 31, 2017.¹ Meade RECC proposes to terminate Schedule 35 – Residential Weatherization Program-Primary Heating Source Non-Electric and revise Schedule 30 – Residential Weatherization Program.

Pursuant to KRS 278.180(1), no change shall be made by any utility in any rate except upon 30 days’ notice to the Commission. Since Meade RECC did not provide the Commission 30 days’ notice, the earliest date Meade RECC’s proposed tariff revisions could become effective is October 5, 2017.

Having reviewed the proposed revisions, the Commission finds that this proceeding should be established to investigate the reasonableness of Meade RECC’s proposed tariff revisions. The Commission further finds that such investigation cannot be completed prior to October 5, 2017. Accordingly, the proposed tariffs should be suspended for up to five months, pursuant to KRS 278.190(2).

¹ Meade RECC’s proposed tariffs were filed via the Commission’s electronic Tariff Filing System and docketed as TFS2017-00502.

IT IS THEREFORE ORDERED that:

1. This proceeding is established to investigate the reasonableness of Meade RECC's proposed tariff revisions.

2. The proposed tariff revisions are suspended for five months from October 5, 2017, the earliest possible effective date, up to and including March 4, 2018.

By the Commission
