1. ALL UNDERGROUND WILL BE STANDARD (2) 1-1/4" I.D. SDR-13.5 ROLLED DUCT UNLESS OTHERWISE SPECIFIED WITHIN DESIGN DRAWINGS OR APPROVED BY METRONET (MNT) CONSTRUCTION MANAGER. IF THERE IS NO DUCT / CONDUIT SYMBOL ALONG TRENCH LINE IN DESIGN, THE TRENCH FOOTAGE IS ONLY FOR REFERENCE FOR FUTURE GROWTH AND SHOULD NOT BE BUILT UNTIL A REVISION IS RELEASED.
2. ALL AERIAL STRAND WILL BE SHOWN IN DESIGN AS IN THE LEGEND (SOLID LINE WITH FOOTAGE). NON STRAND, OR BETWEEN DROP POLES WILL BE SHOWN IN DESIGN AS A SOLID LINE ONLY, WITHOUT FOOTAGE, AND SHALL NOT BE STRANDED UNLESS NOTED ON DRAWING FOR ANCHOR PLACEMENT.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UTILITIES 72-HOURS PRIOR TO CONSTRUCTION. IN CASES OF WILLFUL OR CARELESS DESTRUCTION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR RESTORATION WITH FINAL APPROVAL FROM METRONET CONSTRUCTION MANAGER.
4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL RAILROAD COMMUNICATION AND SIGNAL CABLES A MINIMUM OF 48-HOURS PRIOR TO CONSTRUCTION.
5. ALL HANDHOLES SHALL BE BURIED WITH THE COVER FLUSH TO THE GROUND ELEVATION.
6. SHORING MAY BE REQUIRED AND SHALL COMPLY WITH O.S.H.A. STANDARDS.
7. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE METRONET CONSTRUCTION MANAGER OF ANY ACCIDENTS. THE CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR COMPLYING WITH ALL FEDERAL, STATE AND LOCAL SAFETY REQUIREMENTS INCLUDING THE OCCUPATIONAL SAFETY AND HEALTH ACT OF 1970. THE CONTRACTOR SHALL ALWAYS EXERCISE CAUTION FOR THE PROTECTION OF PERSONS (INCLUDING EMPLOYEES) AND PROPERTY. IT SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR TO INITIATE, MAINTAIN AND SUPERVISE ALL SAFETY REQUIREMENTS, PRECAUTIONS AND PROGRAMS IN CONNECTION WITH THE WORK, INCLUDING THE REQUIREMENTS FOR CONFINED SPACES.
8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL PROPERTY DAMAGE OR DISTURBED AREAS, BOTH RESIDENTIAL AND/OR COMMERCIAL DURING CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL RESTORATIONS TO EQUAL OR BETTER CONDITION THAN EXISTED BEFORE CONSTRUCTION. ADDITIONALLY, NON-RUBBER TIERED VEHICLES SHALL NOT BE MOVED ON OR ACROSS PUBLIC STREETS OR HIGHWAYS WITHOUT WRITTEN PERMISSION OF METRONET.
9. THE CONTRACTOR WILL BE RESPONSIBLE FOR DAILY WORK SITE CLEANUP. TRACKING OR SPILLING MUD, DIRT OR DEBRIS UPON STREETS, RESIDENTIAL OR COMMERCIAL DRIVES, SIDEWALKS OR BIKE PATHS IS PROHIBITED. ANY SUCH OCCURRENCE SHALL BE CLEANED UP IMMEDIATELY BY THE CONTRACTOR AT NO COST TO METRONET. IF THE CONTRACTOR FAILS TO REMOVE SUCH MUD, DIRT, DEBRIS, OR SPILLAGE, METRONET RESERVES THE RIGHT TO REMOVE THESE MATERIALS AND CLEAN AFFECTED AREAS, THE COST OF WHICH SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
10. CONTRACTOR SHALL FOLLOW ALL D.O.T. SAFETY REQUIREMENTS. IN ADDITION, THE FOLLOWING SUPPLEMENTAL REFERENCED SPECIFICATIONS SHALL BE OBSERVED:
 - 10.1 Occupational Safety and Health Code (OSHA) - (latest edition).
 - 10.2 Applicable power and telephone pole attachment agreements.
 - 10.3 Applicable city, county and state ordinances.
 - 10.4 National Electric Safety Code (latest edition).
 - 10.5 National Electric Code (latest edition).
 - 10.6 Applicable government agencies for safety and health for the work force.
 - 10.7 Manufacturers specifications.
11. THE CONTRACTOR SHALL TRIM ONLY THE LIMBS THAT INHIBIT FIBER OPTIC CABLE PLACEMENT AND IN ACCORDANCE WITH LOCAL GOVERNING AGENCY. ALL SIGNS, LANDSCAPING, STRUCTURES OR OTHER APPURTENANCES WITHIN THE RIGHT-OF-WAY WHICH IS DISTURBED OR DAMAGED DURING CONSTRUCTION SHALL BE REPLACED OR REPAIRED TO THE SATISFACTION OF METRONET. THE COST OF THIS WORK SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
12. THE CONTRACTOR SHALL PLACE BARRICADES AROUND OPEN TRENCHES AND EQUIPMENT.
13. NO ADDITIONAL CABLE CUTS WILL BE ADDED WITHOUT PRIOR APPROVAL OF THE METRONET CONSTRUCTION MANAGER. SHOULD THE FIBER WORK NEED TO BE CONTINUED TO THE NEXT DAY AND THE FIBER LEFT OVERNIGHT, THE SECURITY OF THE FIBER SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
14. ALL WORK TO BE PERFORMED IN STRICT ACCORDANCE WITH ALL REQUIREMENTS OF ANY REGULATING GOVERNMENT AGENCY OR THE RIGHT OF WAY GRANTOR. MUNICIPAL, COUNTY, STATE OR FEDERAL REGULATIONS MAY ALTER CONSTRUCTION SPECIFICATIONS IN SOME AREAS. IF CONSTRUCTION SPECIFICATIONS ARE ALTERED FROM THESE STANDARDS, CONTRACTOR MUST REQUEST IN WRITING AND ALTERATIONS SHALL BE APPROVED BY METRONET IN ADVANCE.
15. THE OWNER RESERVES THE RIGHT TO CHANGE OR REVISE THE CONSTRUCTION SPECIFICATIONS TO ADAPT TO LOCAL CONDITIONS OR DATA NECESSARY TO SECURE COMPLETION OF THE WORK. IN SUCH CASE, THE CONTRACTOR SHALL BE NOTIFIED IN WRITING.
16. IN CASE OF DISCREPANCY OR OMISSIONS, METRONET SHALL BE CONSULTED FOR ADJUSTMENTS OF ANY COMPLICATIONS RESULTING FROM THE DISCREPANCY OR OMISSION.
17. THE CONTRACTOR'S WORK SHALL INCLUDE BUT IS NOT LIMITED TO, UNLOADING, HAULING, STORING, AND PROTECTING ALL METRONET FURNISHED MATERIAL FROM THE DELIVERY POINT THROUGH FINAL ACCEPTANCE OF THE WORK.
18. THE CONTRACTOR SHALL PROVIDE, CONSTRUCT AND MAINTAIN ALL ACCESS ROADS, ACCESS ROAD IMPROVEMENTS, FENCES AND GATES REQUIRED BY THE CONTRACTOR IN THE EXECUTION OF THE WORK.
19. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL LOADING AND UNLOADING REQUIRED TO RETURN ANY MATERIALS TO METRONET. METRONET SHALL ISSUE SPECIFIC INSTRUCTIONS FOR THE RETURN OF THE MATERIAL BY THE CONTRACTOR.
20. THE CONTRACTOR SHALL BE RESPONSIBLE FOR HAVING A SUPERVISOR ON-SITE AT ALL TIMES. METRONET RESERVES THE RIGHT TO INSPECT THE WORK FOR COMPLIANCE AND DEFECTS.

IF THERE IS NO DUCT / CONDUIT SYMBOL ALONG TRENCH LINE IN DESIGN, THE TRENCH FOOTAGE IS ONLY FOR REFERENCE FOR FUTURE GROWTH AND SHOULD NOT BE BUILT UNTIL A REVISION IS RELEASED.
2. ALL AERIAL STRAND WILL BE SHOWN IN DESIGN AS IN THE LEGEND (SOLID LINE WITH FOOTAGE). NON STRAND, OR BETWEEN DROP POLES WILL BE SHOWN IN DESIGN AS A SOLID LINE ONLY, WITHOUT FOOTAGE, AND SHALL NOT BE STRANDED UNLESS NOTED ON DRAWING FOR ANCHOR PLACEMENT.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UTILITIES 72-HOURS PRIOR TO CONSTRUCTION. IN CASES OF WILLFUL OR CARELESS DESTRUCTION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR RESTORATION WITH FINAL APPROVAL FROM METRONET CONSTRUCTION MANAGER.
4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL RAILROAD COMMUNICATION AND SIGNAL CABLES A MINIMUM OF 48-HOURS PRIOR TO CONSTRUCTION.
5. ALL HANDHOLES SHALL BE BURIED WITH THE COVER FLUSH TO THE GROUND ELEVATION.
6. SHORING MAY BE REQUIRED AND SHALL COMPLY WITH O.S.H.A. STANDARDS.
7. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE METRONET CONSTRUCTION MANAGER OF ANY ACCIDENTS. THE CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR COMPLYING WITH ALL FEDERAL, STATE AND LOCAL SAFETY REQUIREMENTS INCLUDING THE OCCUPATIONAL SAFETY AND HEALTH ACT OF 1970. THE CONTRACTOR SHALL ALWAYS EXERCISE CAUTION FOR THE PROTECTION OF PERSONS (INCLUDING EMPLOYEES) AND PROPERTY. 8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL PROPERTY DAMAGE OR DISTURBED AREAS, BOTH RESIDENTIAL AND/OR COMMERCIAL DURING CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL RESTORATIONS TO EQUAL OR BETTER CONDITION THAN EXISTED BEFORE CONSTRUCTION. ADDITIONALLY, NON-RUBBER TIERED VEHICLES SHALL NOT BE MOVED ON OR ACROSS PUBLIC STREETS OR HIGHWAYS WITHOUT WRITTEN PERMISSION OF METRONET.
9. THE CONTRACTOR WILL BE RESPONSIBLE FOR DAILY WORK SITE CLEANUP. TRACKING OR SPILLING MUD, DIRT OR DEBRIS UPON STREETS, RESIDENTIAL OR COMMERCIAL DRIVES, SIDEWALKS OR BIKE PATHS IS PROHIBITED. ANY SUCH OCCURRENCE SHALL BE CLEANED UP IMMEDIATELY BY THE CONTRACTOR AT NO COST TO METRONET. IF THE CONTRACTOR FAILS TO REMOVE SUCH MUD, DIRT, DEBRIS, OR SPILLAGE, METRONET RESERVES THE RIGHT TO REMOVE THESE MATERIALS AND CLEAN AFFECTED AREAS, THE COST OF WHICH SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
10. CONTRACTOR SHALL FOLLOW ALL D.O.T. SAFETY REQUIREMENTS. IN ADDITION, THE FOLLOWING SUPPLEMENTAL REFERENCED SPECIFICATIONS SHALL BE OBSERVED:
 - 10.1 Occupational Safety and Health Code (OSHA) - (latest edition).
 - 10.2 Applicable power and telephone pole attachment agreements.
 - 10.3 Applicable city, county and state ordinances.
 - 10.4 National Electric Safety Code (latest edition).
 - 10.5 National Electric Code (latest edition).
 - 10.6 Applicable government agencies for safety and health for the work force.
 - 10.7 Manufacturers specifications.
11. THE CONTRACTOR SHALL TRIM ONLY THE LIMBS THAT INHIBIT FIBER OPTIC CABLE PLACEMENT AND IN ACCORDANCE WITH LOCAL GOVERNING AGENCY. ALL SIGNS, LANDSCAPING, STRUCTURES OR OTHER APPURTENANCES WITHIN THE RIGHT-OF-WAY WHICH IS DISTURBED OR DAMAGED DURING CONSTRUCTION SHALL BE REPLACED OR REPAIRED TO THE SATISFACTION OF METRONET. THE COST OF THIS WORK SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
12. THE CONTRACTOR SHALL PLACE BARRICADES AROUND OPEN TRENCHES AND EQUIPMENT.
13. NO ADDITIONAL CABLE CUTS WILL BE ADDED WITHOUT PRIOR APPROVAL OF THE METRONET CONSTRUCTION MANAGER. SHOULD THE FIBER WORK NEED TO BE CONTINUED TO THE NEXT DAY AND THE FIBER LEFT OVERNIGHT, THE SECURITY OF THE FIBER SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
14. ALL WORK TO BE PERFORMED IN STRICT ACCORDANCE WITH ALL REQUIREMENTS OF ANY REGULATING GOVERNMENT AGENCY OR THE RIGHT OF WAY GRANTOR. MUNICIPAL, COUNTY, STATE OR FEDERAL REGULATIONS MAY ALTER CONSTRUCTION SPECIFICATIONS IN SOME AREAS. IF CONSTRUCTION SPECIFICATIONS ARE ALTERED FROM THESE STANDARDS, CONTRACTOR MUST REQUEST IN WRITING AND ALTERATIONS SHALL BE APPROVED BY METRONET IN ADVANCE.
15. THE OWNER RESERVES THE RIGHT TO CHANGE OR REVISE THE CONSTRUCTION SPECIFICATIONS TO ADAPT TO LOCAL CONDITIONS OR DATA NECESSARY TO SECURE COMPLETION OF THE WORK. IN SUCH CASE, THE CONTRACTOR SHALL BE NOTIFIED IN WRITING.
16. IN CASE OF DISCREPANCY OR OMISSIONS, METRONET SHALL BE CONSULTED FOR ADJUSTMENTS OF ANY COMPLICATIONS RESULTING FROM THE DISCREPANCY OR OMISSION.

1. ALL UNDERGROUND WILL BE STANDARD (2) 1-1/4" I.D. SDR-13.5 ROLLED DUCT UNLESS OTHERWISE SPECIFIED WITHIN DESIGN DRAWINGS OR APPROVED BY METRONET (MNT) CONSTRUCTION MANAGER. IF THERE IS NO DUCT / CONDUIT SYMBOL ALONG TRENCH LINE IN DESIGN, THE TRENCH FOOTAGE IS ONLY FOR REFERENCE FOR FUTURE GROWTH AND SHOULD NOT BE BUILT UNTIL A REVISION IS RELEASED.
2. ALL AERIAL STRAND WILL BE SHOWN IN DESIGN AS IN THE LEGEND (SOLID LINE WITH FOOTAGE). NON STRAND, OR BETWEEN DROP POLES WILL BE SHOWN IN DESIGN AS A SOLID LINE ONLY, WITHOUT FOOTAGE, AND SHALL NOT BE STRANDED UNLESS NOTED ON DRAWING FOR ANCHOR PLACEMENT.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UTILITIES 72-HOURS PRIOR TO CONSTRUCTION. IN CASES OF WILLFUL OR CARELESS DESTRUCTION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR RESTORATION WITH FINAL APPROVAL FROM METRONET CONSTRUCTION MANAGER.
4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL RAILROAD COMMUNICATION AND SIGNAL CABLES A MINIMUM OF 48-HOURS PRIOR TO CONSTRUCTION.
5. ALL HANDHOLES SHALL BE BURIED WITH THE COVER FLUSH TO THE GROUND ELEVATION.
6. SHORING MAY BE REQUIRED AND SHALL COMPLY WITH O.S.H.A. STANDARDS.
7. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE METRONET CONSTRUCTION MANAGER OF ANY ACCIDENTS. THE CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR COMPLYING WITH ALL FEDERAL, STATE AND LOCAL SAFETY REQUIREMENTS INCLUDING THE OCCUPATIONAL SAFETY AND HEALTH ACT OF 1970. THE CONTRACTOR SHALL ALWAYS EXERCISE CAUTION FOR THE PROTECTION OF PERSONS (INCLUDING EMPLOYEES) AND PROPERTY. 8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL PROPERTY DAMAGE OR DISTURBED AREAS, BOTH RESIDENTIAL AND/OR COMMERCIAL DURING CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL RESTORATIONS TO EQUAL OR BETTER CONDITION THAN EXISTED BEFORE CONSTRUCTION. ADDITIONALLY, NON-RUBBER TIERED VEHICLES SHALL NOT BE MOVED ON OR ACROSS PUBLIC STREETS OR HIGHWAYS WITHOUT WRITTEN PERMISSION OF METRONET.
9. THE CONTRACTOR WILL BE RESPONSIBLE FOR DAILY WORK SITE CLEANUP. TRACKING OR SPILLING MUD, DIRT OR DEBRIS UPON STREETS, RESIDENTIAL OR COMMERCIAL DRIVES, SIDEWALKS OR BIKE PATHS IS PROHIBITED. ANY SUCH OCCURRENCE SHALL BE CLEANED UP IMMEDIATELY BY THE CONTRACTOR AT NO COST TO METRONET. IF THE CONTRACTOR FAILS TO REMOVE SUCH MUD, DIRT, DEBRIS, OR SPILLAGE, METRONET RESERVES THE RIGHT TO REMOVE THESE MATERIALS AND CLEAN AFFECTED AREAS, THE COST OF WHICH SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
10. CONTRACTOR SHALL FOLLOW ALL D.O.T. SAFETY REQUIREMENTS. IN ADDITION, THE FOLLOWING SUPPLEMENTAL REFERENCED SPECIFICATIONS SHALL BE OBSERVED:
 - 10.1 Occupational Safety and Health Code (OSHA) - (latest edition).
 - 10.2 Applicable power and telephone pole attachment agreements.
 - 10.3 Applicable city, county and state ordinances.
 - 10.4 National Electric Safety Code (latest edition).
 - 10.5 National Electric Code (latest edition).
 - 10.6 Applicable government agencies for safety and health for the work force.
 - 10.7 Manufacturers specifications.
11. THE CONTRACTOR SHALL TRIM ONLY THE LIMBS THAT INHIBIT FIBER OPTIC CABLE PLACEMENT AND IN ACCORDANCE WITH LOCAL GOVERNING AGENCY. ALL SIGNS, LANDSCAPING, STRUCTURES OR OTHER APPURTENANCES WITHIN THE RIGHT-OF-WAY WHICH IS DISTURBED OR DAMAGED DURING CONSTRUCTION SHALL BE REPLACED OR REPAIRED TO THE SATISFACTION OF METRONET. THE COST OF THIS WORK SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
12. THE CONTRACTOR SHALL PLACE BARRICADES AROUND OPEN TRENCHES AND EQUIPMENT.
13. NO ADDITIONAL CABLE CUTS WILL BE ADDED WITHOUT PRIOR APPROVAL OF THE METRONET CONSTRUCTION MANAGER. SHOULD THE FIBER WORK NEED TO BE CONTINUED TO THE NEXT DAY AND THE FIBER LEFT OVERNIGHT, THE SECURITY OF THE FIBER SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
14. ALL WORK TO BE PERFORMED IN STRICT ACCORDANCE WITH ALL REQUIREMENTS OF ANY REGULATING GOVERNMENT AGENCY OR THE RIGHT OF WAY GRANTOR. MUNICIPAL, COUNTY, STATE OR FEDERAL REGULATIONS MAY ALTER CONSTRUCTION SPECIFICATIONS IN SOME AREAS. IF CONSTRUCTION SPECIFICATIONS ARE ALTERED FROM THESE STANDARDS, CONTRACTOR MUST REQUEST IN WRITING AND ALTERATIONS SHALL BE APPROVED BY METRONET IN ADVANCE.
15. THE OWNER RESERVES THE RIGHT TO CHANGE OR REVISE THE CONSTRUCTION SPECIFICATIONS TO ADAPT TO LOCAL CONDITIONS OR DATA NECESSARY TO SECURE COMPLETION OF THE WORK. IN SUCH CASE, THE CONTRACTOR SHALL BE NOTIFIED IN WRITING.
16. IN CASE OF DISCREPANCY OR OMISSIONS, METRONET SHALL BE CONSULTED FOR ADJUSTMENTS OF ANY COMPLICATIONS RESULTING FROM THE DISCREPANCY OR OMISSION.
17. THE CONTRACTOR'S WORK SHALL INCLUDE BUT IS NOT LIMITED TO, UNLOADING, HAULING, STORING, AND PROTECTING ALL METRONET FURNISHED MATERIAL FROM THE DELIVERY POINT THROUGH FINAL ACCEPTANCE OF THE WORK.

3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL UTILITIES 72-HOURS PRIOR TO CONSTRUCTION. IN CASES OF WILLFUL OR CARELESS DESTRUCTION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR RESTORATION WITH FINAL APPROVAL FROM METRONET CONSTRUCTION MANAGER.
4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR LOCATING ALL RAILROAD COMMUNICATION AND SIGNAL CABLES A MINIMUM OF 48-HOURS PRIOR TO CONSTRUCTION.
5. ALL HANDHOLES SHALL BE BURIED WITH THE COVER FLUSH TO THE GROUND ELEVATION.
6. SHORING MAY BE REQUIRED AND SHALL COMPLY WITH O.S.H.A. STANDARDS.
7. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE METRONET CONSTRUCTION MANAGER OF ANY ACCIDENTS. THE CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR COMPLYING WITH ALL FEDERAL, STATE AND LOCAL SAFETY REQUIREMENTS INCLUDING THE OCCUPATIONAL SAFETY AND HEALTH ACT OF 1970. THE CONTRACTOR SHALL ALWAYS EXERCISE CAUTION FOR THE PROTECTION OF PERSONS (INCLUDING EMPLOYEES) AND PROPERTY. 8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL PROPERTY DAMAGE OR DISTURBED AREAS, BOTH RESIDENTIAL AND/OR COMMERCIAL DURING CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL RESTORATIONS TO EQUAL OR BETTER CONDITION THAN EXISTED BEFORE CONSTRUCTION. ADDITIONALLY, NON-RUBBER TIERED VEHICLES SHALL NOT BE MOVED ON OR ACROSS PUBLIC STREETS OR HIGHWAYS WITHOUT WRITTEN PERMISSION OF METRONET.
9. THE CONTRACTOR WILL BE RESPONSIBLE FOR DAILY WORK SITE CLEANUP. TRACKING OR SPILLING MUD, DIRT OR DEBRIS UPON STREETS, RESIDENTIAL OR COMMERCIAL DRIVES, SIDEWALKS OR BIKE PATHS IS PROHIBITED. ANY SUCH OCCURRENCE SHALL BE CLEANED UP IMMEDIATELY BY THE CONTRACTOR AT NO COST TO METRONET. IF THE CONTRACTOR FAILS TO REMOVE SUCH MUD, DIRT, DEBRIS, OR SPILLAGE, METRONET RESERVES THE RIGHT TO REMOVE THESE MATERIALS AND CLEAN AFFECTED AREAS, THE COST OF WHICH SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
10. CONTRACTOR SHALL FOLLOW ALL D.O.T. SAFETY REQUIREMENTS. IN ADDITION, THE FOLLOWING SUPPLEMENTAL REFERENCED SPECIFICATIONS SHALL BE OBSERVED:
 - 10.1 Occupational Safety and Health Code (OSHA) - (latest edition).

 - 10.7 Manufacturers specifications.
11. THE CONTRACTOR SHALL TRIM ONLY THE LIMBS THAT INHIBIT FIBER OPTIC CABLE PLACEMENT AND IN ACCORDANCE WITH LOCAL GOVERNING AGENCY. ALL SIGNS, LANDSCAPING, STRUCTURES OR OTHER APPURTENANCES WITHIN THE RIGHT-OF-WAY WHICH IS DISTURBED OR DAMAGED DURING CONSTRUCTION SHALL BE REPLACED OR REPAIRED TO THE SATISFACTION OF METRONET. THE COST OF THIS WORK SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
12. THE CONTRACTOR SHALL PLACE BARRICADES AROUND OPEN TRENCHES AND EQUIPMENT.
13. NO ADDITIONAL CABLE CUTS WILL BE ADDED WITHOUT PRIOR APPROVAL OF THE METRONET CONSTRUCTION MANAGER. SHOULD THE FIBER WORK NEED TO BE CONTINUED TO THE NEXT DAY AND THE FIBER LEFT OVERNIGHT, THE SECURITY OF THE FIBER SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
14. ALL WORK TO BE PERFORMED IN STRICT ACCORDANCE WITH ALL REQUIREMENTS OF ANY REGULATING GOVERNMENT AGENCY OR THE RIGHT OF WAY GRANTOR. MUNICIPAL, COUNTY, STATE OR FEDERAL REGULATIONS MAY ALTER CONSTRUCTION SPECIFICATIONS IN SOME AREAS. IF CONSTRUCTION SPECIFICATIONS ARE ALTERED FROM THESE STANDARDS, CONTRACTOR MUST REQUEST IN WRITING AND ALTERATIONS SHALL BE APPROVED BY METRONET IN ADVANCE.
15. THE OWNER RESERVES THE RIGHT TO CHANGE OR REVISE THE CONSTRUCTION SPECIFICATIONS TO ADAPT TO LOCAL CONDITIONS OR DATA NECESSARY TO SECURE COMPLETION OF THE WORK. IN SUCH CASE, THE CONTRACTOR SHALL BE NOTIFIED IN WRITING.
16. IN CASE OF DISCREPANCY OR OMISSIONS, METRONET SHALL BE CONSULTED FOR ADJUSTMENTS OF ANY COMPLICATIONS RESULTING FROM THE DISCREPANCY OR OMISSION.

Subject: MetroNet Lexington Applications

Lauren,

We have received 375 poles over 18 applications from MetroNet since March 14. We can only accept 300 poles over a 30 day rolling calendar period to allow our field adequate time to survey these poles.

Since we are over the 300 poles we allow, the next application date we will be able to start processing application from MetroNet will be 04/18/18. By this date, 191 poles will have rolled out of the 30 days and we will be able to accept 116. After that date we will be able to stay at 300 poles for the 30 day period.

Let me know if you have any questions or concerns.

Thank you,

Sarah Hays

Lauren,

Here is the response from our engineer. It was a new question to her, but this is what she said:

I'd say it's the lowest power on the pole period.

Thank you,
Sarah

Ok,

So there is still an issue with the photo labeling as they both require different terminology. KU is looking for "Top Comm" & "Bottom Comm" where Windstream is looking for "Highest Tel Cable" & Highest Tel Drop" only. We currently don't call out drop cables for KU permits.

We are still unclear as to what Windstream wants to see labeled as "Lowest Power". Is this the lowest power cable attachment (bolt) on the pole or the lowest governing power (attachment, streetlight, riser, drip loop, etc)? Or is this just the lowest power on the pole period even though it may not be the NESC governing measurement?

Good afternoon Sarah,

As far as our pole photos for PLA do we model the pole as it is today (Existing) or with make ready and proposed Metronet plant installed?

I would assume the second since we are doing our own make ready for these poles?

Thanks,

Lauren Sandefur

Lauren,

Here is the response from our engineer:

Same as K.U. with proposed make ready requests will work.

Thank you,
Sarah

Good Morning Sarah,
I was hoping that you had an update regarding this?
Kentucky Utilities is requiring these photos to be marked with our make ready response proposed.
So we were assuming that it would be the same for Windstream.
Thanks!

Yes, our application does state that but we were wondering how you would like the pole photos. Either with existing attachments as it is today or with our make ready proposed.

Lauren,

MetroNet will need to note on the applications where they are wanting to attach and where they are wanting Windstream to lower/move to. MetroNet cannot move or touch Windstream facilities.

Let me know if you have any questions.

Lauren,

This is the same as LX135-01W.

Windstream is rejecting this application submission.

I have attached a previous email. We do not have enough information with the files you have attached.

Windstream OSP previously stated they would accept the Pole Inventory Report in replacement of the Pole Data Sheet, but we did not receive a Pole Inventory Report with this application submission.

Please resubmit with the Pole Inventory Report or please fill out the Windstream Pole Data Sheet for each pole MetroNet is wanting to attach.

Let me know if you have any questions or concerns.

Thank you,

Sarah Hays

Attachments: Application and pole data sheet.xlsx

Good morning Lauren,

Windstream OSP has reviewed the information you provided and they will accept the Pole Inventory Report in replacement of the Pole Attachment Data Sheets, however they will require a signed standard Windstream Pole Attachment Application form – see attached.

There is a \$75.00 application processing fee – with a maximum of 25 poles/application and a \$50.00 post inspection fee/pole.

Please note: Windstream will accept up to 300/poles per 30 rolling calendar days.

Please let me know of any other questions or concerns.

Thank you,

Kim

Good morning Lauren,

The Windstream OSP Managers/Supervisors in the field are currently reviewing the application/inventory report you provided to determine if this is acceptable. Since these are not the Windstream standard forms for pole attachments, I will need their approval to accept.

As soon as they have reviewed and provide their feedback, I will let you know.

Thank you,

Kim

Per my conversation yesterday with Brandie, she was reviewing our application to see if this would be ok to submit.

If you have a chance to review it today that would be great, I just need an update for Monday morning.

Attached are the files for LX135-01, please let me know if these will work for you.

When applying we have to apply under the name 'CMN-RUS, Inc'.

There is a LX135-02 that will be submitted once we get this one figured out.

Lauren,

Here is the paraphrased answer from our engineer for the area.

"I'd be fine with the pole inventory report if it were filled out. However, if you open this one, column H for "Make Ready 1 = non, 2 = comms, 3 = elec, etc..." isn't populated and only some of the poles have column I populated for "Make Ready Remedies". (see snip below where I captured info on 2 of the poles). I'm fine with "attach to new pole" in column I on the 2nd pole on this example, but "unk" for make ready on both of them doesn't tell me what I need to know."

Let me know if this makes sense to you all.

Lauren,

Windstream is rejecting this application submission.

I have attached a previous email. We do not have enough information with the files you have attached.

Windstream OSP previously stated they would accept the Pole Inventory Report in replacement of the Pole Data Sheet, but we did not receive a Pole Inventory Report with this application submission.

Please resubmit with the Pole Inventory Report or please fill out the Windstream Pole Data Sheet for each pole MetroNet is wanting to attach.

Let me know if you have any questions or concerns.

Thank you,

Sarah Hays

Attachments: Application and pole data sheet.xlsx

Good morning Lauren,

Windstream OSP has reviewed the information you provided and they will accept the Pole Inventory Report in replacement of the Pole Attachment Data Sheets, however they will require a signed standard Windstream Pole Attachment Application form – see attached.

There is a \$75.00 application processing fee – with a maximum of 25 poles/application and a \$50.00 post inspection fee/pole.

Please note: Windstream will accept up to 300/poles per 30 rolling calendar days.

Please let me know of any other questions or concerns.

Thank you,

Kim

Good morning Lauren,

The Windstream OSP Managers/Supervisors in the field are currently reviewing the application/inventory report you provided to determine if this is acceptable. Since these are not the Windstream standard forms for pole attachments, I will need their approval to accept.

As soon as they have reviewed and provide their feedback, I will let you know.

Thank you,

Kim

Good Morning Kim,

Per my conversation yesterday with Brandie, she was reviewing our application to see if this would be ok to submit.

If you have a chance to review it today that would be great, I just need an update for Monday morning.

Thanks!

Good Morning Brandie,

Attached are the files for LX135-01, please let me know if these will work for you.

When applying we have to apply under the name 'CMN-RUS, Inc'.

There is a LX135-02 that will be submitted once we get this one figured out.

Thank you!

Good morning,

The information you are sharing with us is very concerning to us as well. As MetroNet's Director, Safety & Quality Assurance one of my goals is to help ensure we are doing everything we can to protect the facilities of other utilities.

I will be in Lexington next Monday and Tuesday. Who can I meet with to review these concerns? Do you have a field operations manager and a damage prevention manager or are there other people that would be better to meet with? Protecting your facilities is important to us!

Please let me know who, when and where and I will be there. This is important to me.

Best regards,
George

Tom/George/John, See below and please apply to all to address these concerns.

Kim,

We are adding our underground team to this email. We most definitely contact 811 and take every precaution to avoid any disturbances. I am unaware of the recent incident you describe. I am on the aerial permitting team, but can assure you the gentleman mentioned above will get back to you as soon as possible.

Lauren/Nicole,

Please see the email string below regarding Windstream cut cables – at 248 Catera Trace and another on Darlington Circle. Is the MetroNet contractor contacting 811 or taking normal precautions before digging? This is impacting

Windstream customers in the area and this is completely unacceptable. Windstream has escalating concerns on how many Windstream cables are being cut. What are the next steps to getting these issues addressed and to have the cuts Windstream has identified properly fixed? Will MetroNet please send notification of all cuts to Windstream for inspection and to properly resolve? We would like to have a meeting as soon as possible to discuss this in detail.

Please advise ASAP.

Subject: METRONET CONSTRUCTION

Just to update everyone Metro net has cut two more cables today. One at 248 Catera Trace a 200 pair cable in the East and one on Darlington Circle in the Lakeside was a 400 pair, possible dead cable though. The other thing that has come up is there are numerous buried drops that have been cut during this process as well. Metronet contractor is putting wire nuts on the pairs and then taping it up with electrical tape and then putting back in the ground and covering it up. We know of 4 – 5 drops, but do not know how many they have done that we do not know about. Without having the Ranger-seal closure on the splice, it will sooner or later go bad and will need replaced. I am not quite sure what steps should be taken either by Metronet to let us know a drop has been cut or to prevent them from splicing them together the way they are.

Good morning,

The information you are sharing with us is very concerning to us as well. As MetroNet's Director, Safety & Quality Assurance one of my goals is to help ensure we are doing everything we can to protect the facilities of other utilities.

I will be in Lexington next Monday and Tuesday. Who can I meet with to review these concerns? Do you have a field operations manager and a damage prevention manager or are there other people that would be better to meet with? Protecting your facilities is important to us!

Please let me know who, when and where and I will be there. This is important to me.

Best regards,
George

Lauren/Nicole,

Please see the email string below regarding Windstream cut cables – at 248 Catera Trace and another on Darlington Circle. Is the MetroNet contractor contacting 811 or taking normal precautions before digging? This is impacting Windstream customers in the area and this is completely unacceptable. Windstream has escalating concerns on how many Windstream cables are being cut. What are the next steps to getting these issues addressed and to have the cuts Windstream has identified properly fixed? Will MetroNet please send notification of all cuts to Windstream for inspection and to properly resolve? We would like to have a meeting as soon as possible to discuss this in detail.

Please advise ASAP.

Lauren,

We have received 375 poles over 18 applications from MetroNet since March 14. We can only accept 300 poles over a 30 day rolling calendar period to allow our field adequate time to survey these poles.

Since we are over the 300 poles we allow, the next application date we will be able to start processing application from MetroNet will be 04/18/18. By this date, 191 poles will have rolled out of the 30 days and we will be able to accept 116. After that date we will be able to stay at 300 poles for the 30 day period.

Let me know if you have any questions or concerns.

Lauren,

We have received 375 poles over 18 applications from MetroNet since March 14. We can only accept 300 poles over a 30 day rolling calendar period to allow our field adequate time to survey these poles.

Since we are over the 300 poles we allow, the next application date we will be able to start processing application from MetroNet will be 04/18/18. By this date, 191 poles will have rolled out of the 30 days and we will be able to accept 116. After that date we will be able to stay at 300 poles for the 30 day period.

Let me know if you have any questions or concerns.

Thank you,

Subject: Clarifying MetroNet Authorization on Windstream Attachments

MetroNet,

Windstream has received information from the field that indicates MetroNet understands they have the authority to move existing Windstream attachments on Windstream owned poles and non-Windstream owned poles. We would like to clarify, as this is incorrect. MetroNet does not have authorization to move any Windstream attachments. Only Windstream OSP personnel are authorized to move a Windstream attachment.

Please let us know if you have any questions or concerns.

Hi Lauren,

This helps a little but I still have several questions. I noticed the proposed strand height on her example is only 37" from power and the antenna is higher than the tip of the proposed pole they will be placing.

Column 4: Should we use "WXM" to signify Windstream pole ownership. It would appear so based on her example.

Column 5: Is this actually the highest Telephone cable or highest comm attachment on the pole?

Column 10: Does Icon propose attachment height or Windstream?

Column 11: Does Icon propose MRE or Windstream?

For PLA do we model the pole as it is today (Existing) or with make ready and proposed Metronet plant installed?

Addison,

We communicated with MetroNet that since the initial batch of applications from MetroNet included 375 poles, the engineer would need 60 days to respond since this was 75 poles over the 300 poles for the rolling 30 calendar days and then the 14 days for make ready response.

There are three applications that we are waiting to respond to, and I have contacted the engineer and have still not heard a response back. It looks like she's been in meetings since lunch.

I will check with her in the morning to see if she has an update.

Thank you,

Hey Sarah,

Thank you very much for the information. According to FCC guidelines, there is 45 days to survey and an additional 14 days for a make ready response. All applications in question are past 60 days for both survey and make ready with no progress or response. With the restrictions of only being able to submit 300 poles a month, there is a strong emphasis and focus on those applications outstanding with Windstream. I want to ensure that we are in good communication and standings with Windstream during this process but at the same time processing applications within FCC guidelines.

I greatly appreciate your willingness to help and the open line of communication you have provided. My fear is going forward this could potentially be an issue for both sides regarding timelines. If there is anything we can do to contribute in this process, let me know. Fill free to reach out with any questions or concerns.
