In the Matter of:

***DSM Filing of Big Rivers Electric Corporation on behalf of Itself,
Jackson Purchase Energy Corporation, and Meade County Rural
Electric Cooperative Corporation and Request to Establish a
Regulatory Liability – Case No. 2018-00 236***

Dear Ms. Pinson:

Enclosed for filing on behalf of Big Rivers Electric Corporation (“Big Rivers”), Jackson Purchase Energy Corporation (“Jackson Purchase”), and Meade County Rural Electric Cooperative Corporation (“Meade County”) are an original and ten (10) copies of a Notice, Application, and Motion for Deviation (“Application”), which Application includes revised tariff sheets for Big Rivers, Jackson Purchase, and Meade County terminating seven (7) existing demand-side management (“DSM”) programs, and modifying Jackson Purchase and Meade County’s other existing DSM programs.

Please confirm the Commission’s receipt of filing by placing its file-stamp on the enclosed additional copy and returning it in the self-address, post-paid envelop, and please feel free to contact me should you have any questions about this filing.

Sincerely,

A handwritten signature in blue ink, appearing to read "TK", is written over a faint, larger version of the signature.

NOTICE, APPLICATION, AND MOTION FOR DEVIATION

7

1. Big Rivers Electric Corporation ("Big Rivers") on behalf of itself and

8

two of its three member distribution cooperative-owners, Jackson Purchase Energy

9

Corporation ("Jackson Purchase") and Meade County Rural Electric Cooperative

10

Corporation ("Meade County") files this Notice, Application, and Motion for

11

Deviation ("Application") pursuant to KRS 278.040, KRS 278.180, KRS 278.220, 807

12

KAR 5:001 Section 14, and 807 KAR 5:011 to provide statutory notice to the

13

Kentucky Public Service Commission ("Commission" or "PSC") of the withdrawal or

14

revision of certain existing energy efficiency/demand-side management ("DSM")

15

programs and tariffs, and to seek an order from the Commission authorizing Big

16

Rivers to establish a regulatory liability to defer certain revenues related to the

17

withdrawal of the DSM programs and tariffs. Big Rivers' third member distribution

18

cooperative-owner, Kenergy Corp. ("Kenergy") made a separate DSM filing with the

19

Commission on or about June 14, 2018, withdrawing all of its existing DSM

20

programs. (Jackson Purchase, Kenergy, and Meade County are collectively referred

1 to herein as the "Members." Jackson Purchase and Meade County are collectively
2 referred to herein as the "Participating Members.") In support of this Application,
3 Big Rivers states as follows:

4 **Introduction**

5 2. Big Rivers is a rural electric cooperative corporation organized
6 pursuant to KRS Chapter 279; its full name is Big Rivers Electric Corporation; its
7 mailing address is P.O. Box 24, Henderson, Kentucky 42419-0024; and its address
8 for electronic mail service is regulatory@bigrivers.com. 807 KAR 5:001 Section
9 14(1). Big Rivers was incorporated in the Commonwealth of Kentucky on June 14,
10 1961, and hereby attests that it is currently in good standing in Kentucky. 807
11 KAR 5:001 Section 14(2).

12 3. Jackson Purchase is a rural electric cooperative corporation organized
13 pursuant to KRS Chapter 279; its full name is Jackson Purchase Energy
14 Corporation; its mailing address is P.O. Box 4030, Paducah, Kentucky 42002; and
15 its address for electronic mail service for this proceeding is
16 dennic.cannon@jpenergy.com. 807 KAR 5:001 Section 14(1). Jackson Purchase was
17 incorporated in the Commonwealth of Kentucky on June 12, 1937, and hereby
18 attests that it is currently in good standing in Kentucky. 807 KAR 5:001 Section
19 14(2).

20 4. Meade County is a rural electric cooperative corporation organized
21 pursuant to KRS Chapter 279; its full name is Meade County Rural Electric
22 Cooperative Corporation; its mailing address is P.O. Box 489, Brandenburg,

1 test for seven² of the existing DSM programs no longer exceed 1.0, and these
2 programs and the corresponding tariffs are being withdrawn by Big Rivers and the
3 Participating Members immediately.

4 8. The four other existing DSM programs have a TRC greater than one.
5 Big Rivers and the Participating Members are phasing these programs out over the
6 remainder of 2018 and 2019 to allow commercial and industrial customers who have
7 made investments in DSM/energy efficiency projects in anticipation of receiving
8 incentives under the programs to complete those projects. Jackson Purchase and
9 Meade County are proposing revised tariff sheets for these four programs to include
10 “up to” language that matches the corresponding Big Rivers tariff sheets, which will
11 provide them flexibility to reduce the available incentives to assist with the gradual
12 phase out of the programs.

13 9. Big Rivers’ revised tariff sheets eliminating the seven DSM programs
14 with TRC tests less than 1.0 are attached hereto as Exhibit C; Jackson Purchase’s
15 revised tariff sheets eliminating eight DSM programs and inserting the “up to”
16 language in the other programs are attached hereto as Exhibit G; and Meade
17 County’s revised tariffs eliminating the seven DSM programs and inserting the “up
18 to” language in the other programs are attached hereto as Exhibit K. Once the four
19 remaining programs are phased out next year, Big Rivers, Jackson Purchase, and
20 Meade County will file revised tariff sheets eliminating those programs.

² The existing Clothes Washer and Refrigerator Replacement Incentives are two separate tariffs but are treated as a single DSM program.

1 10. Big Rivers and the Participating Members' revised tariff sheets are
2 being filed pursuant to KRS 278.180(1) and 807 KAR 5:011 Section 6.

3 11. Redline mark-ups of the proposed tariff sheets showing the changes
4 from the Big Rivers, Jackson Purchase, and Meade County tariffs currently on file
5 with the Commission are attached hereto as Exhibit D, H, and L, respectively.

6 12. On this date, Big Rivers is providing notice of its proposed tariff
7 changes to each of its three customers (the Members) by mailing them a copy of this
8 Application, including a copy of the proposed tariff sheets. 807 KAR 5:011 Section
9 8(2)(a). Pursuant to 807 KAR 5:011 Section 8(4):

- 10 a. The revised tariff sheets are expected to be filed with the
11 Commission on July 6, 2018, and the proposed effective date is
12 August 6, 2018.
- 13 b. Attached hereto as Exhibit E is a schedule showing the present
14 rates and proposed rates for each customer class to which the
15 proposed rates will apply and the amount of the change requested
16 in both dollar amounts and percentage change for each customer
17 classification to which the proposed rate change will apply. Note
18 that the only Big Rivers customer class to which the DSM tariffs
19 apply is Big Rivers' Rural class and that the rates under the DSM
20 tariff sheets are incentives and not charges. Also, because the
21 incentives paid under the DSM tariff sheets are not dependent on
22 usage, Big Rivers and its Members are not including in their

1 customer notices the amount of the average usage and the effect
2 upon the average bill for each customer class to which the proposed
3 rate change will apply.

4 c. A person may examine this tariff filing and any other documents
5 Big Rivers has filed with the Public Service Commission at the
6 offices of Big Rivers located at 201 Third Street, Henderson,
7 Kentucky 42420, and on the Big Rivers website at
8 <http://www.bigrivers.com/regulatory-affairs/>. A person may
9 examine this tariff filing at the Commission's offices located at 211
10 Sower Boulevard, Frankfort, Kentucky, Monday through Friday,
11 8:00 a.m. to 4:30 p.m., or through the Commission's website at
12 <http://psc.ky.gov>. Comments regarding this tariff filing may be
13 submitted to the Public Service Commission through its website or
14 by mail to Public Service Commission, Post Office Box 615,
15 Frankfort, Kentucky 40602.

16 d. The rates contained in this notice are the rates proposed by Big
17 Rivers but the Public Service Commission may order rates to be
18 charged that differ from the proposed rates contained in this notice.
19 A person may submit a timely written request for intervention to
20 the Public Service Commission, Post Office Box 615, Frankfort,
21 Kentucky 40602, establishing the grounds for the request including
22 the status and interest of the party. If the Commission does not

1 receive a written request for intervention within thirty (30) days of
2 the mailing of this notice, the Commission may take final action on
3 the tariff filing.

4 13. An affidavit from an authorized Big Rivers representative verifying the
5 contents of the notice, that notice was mailed to all customers, and the date of the
6 mailing is attached hereto as Exhibit B. 807 KAR 5:011 Section 8(3)(a).

7 14. Jackson Purchase anticipates providing notice to its retail
8 members/customers of its proposed tariff changes by publishing notice in
9 newspapers of general circulation in August 2018 pursuant to 807 KAR 5:011
10 Section 8(2)(b). A copy of Jackson Purchase's affidavit regarding this notice is
11 attached as Exhibit F; a copy of Jackson Purchase's notice is attached hereto as
12 Exhibit I.

13 15. Meade anticipates providing notice to its retail members/customers of
14 its proposed tariff changes in the August 2018 edition of Kentucky Living magazine,
15 a trade publication which will be mailed to all of its retail members/customers
16 around. 807 KAR 5:011 Section 8(2)(b). A copy of Meade County's affidavit
17 regarding this notice is attached as Exhibit J; a copy of Meade's notice is attached
18 hereto as Exhibit M.

19 16. After Jackson Purchase and Meade's notices are published, they will
20 file affidavits with the Commission verifying the contents of their notices; that the
21 notices were published in a newspaper or trade publication; and the dates of the
22 newspapers' publication or trade publication's mailing. 807 KAR 5:011 Section 8(3).

1 **Motion for Deviation**

2 17. Although Jackson Purchase and Meade have also been communicating
3 with their retail members/consumers about the phase out of their DSM programs,
4 they could not provide formal notice of their tariff changes until Big Rivers and the
5 Members determined which programs would be terminated immediately and which
6 programs would be phased out over time. Because of the timing of that decision,
7 the decision of Big Rivers and its Members to make a joint filing, and the delay
8 associated with publishing notices, Jackson Purchase and Meade’s formal notices of
9 their tariff changes will not be published until after this Application is filed with
10 the Commission. Further, because the incentives paid under the existing DSM
11 programs are not charges and are not dependent on usage, not all of the notice
12 requirements in 807 KAR 5:011 Section 8 are applicable. As such, Big Rivers and
13 the Participating Members request a deviation pursuant to 807 KAR 5:011 Section
14 15 from any notice requirements with which their notices do not comply.

15 **Request for Regulatory Liability**

16 18. In its December 21, 2017, order in P.S.C. Case No. 2017-00278, the
17 Commission directed, “No later than June 30, 2018, Big Rivers shall submit a plan
18 to earmark the annual difference between its DSM expenditures for the programs
19 that remain and the amount included in Big Rivers’ base rates for DSM
20 expenditures.”³

³ *In the Matter of: Tariff Filing of Big Rivers Electric Corporation to Revise Certain Demand-Side Management Programs*, Order, P.S.C. Case No. 2017-00278, Ordering Paragraph No. 3.

1 19. As explained in more detail in the Direct Testimony of Russell L.
2 Pogue, Big Rivers' current Rural base rate demand charge includes a DSM
3 component of \$0.195 per kW, which was approved in Big Rivers' most recent rate
4 case (Case No. 2013-00199) based on forecasted annual DSM spending of
5 approximately \$1 million.

6 20. As Mr. Pogue explains in his testimony, Big Rivers is not only
7 withdrawing its existing DSM programs, but it is also implementing a new Energy
8 Efficiency Education initiative and a new Low-Income Weatherization initiative.
9 Even with the new initiatives, as a result of the withdrawal and phase out of the
10 existing DSM programs, Big Rivers will likely spend less on DSM in future years
11 than the amount it recovers through rates (the "DSM Savings"). Big Rivers has
12 already spent most of the \$1 million DSM budget for 2018 and does not anticipate
13 that there will be any material reduction in DSM spending in 2018. However, in
14 2019, Big Rivers anticipates that it will spend about \$250,000 on the remaining
15 DSM programs, as well as \$250,000 on Energy Efficiency Education and Low-
16 Income Weatherization, resulting in DSM Savings in 2019 of approximately
17 \$500,000. After the remaining DSM programs are phased out in 2019, Big Rivers
18 anticipates that going forward, its DSM spending will be limited to the \$250,000
19 annual spend on Energy Efficiency Education and Low-Income Weatherization,
20 resulting in annual DSM Savings of approximately \$750,000 beginning in 2020. Big
21 Rivers requests that the Commission grant it the authority to defer the DSM
22 Savings in a regulatory liability

1 21. As Mr. Pogue further explains, in Big Rivers’ most recent rate case
2 (Case No. 2013-00199), the Commission required Big Rivers to defer through a
3 regulatory asset the annual depreciation expense for Big Rivers’ Wilson generating
4 station. In Big Rivers’ next rate case, Big Rivers will seek to recover the amount in
5 the Wilson regulatory asset through rates. The annual depreciation expense on
6 Wilson is approximately \$20 million. In order to reduce the amount in the Wilson
7 regulatory asset that Big Rivers will need to recover through its rates in its next
8 rate case, Big Rivers proposes that the revenues it defers in the DSM regulatory
9 liability be offset against the Wilson regulatory asset. Big Rivers would then seek
10 recovery in its next rate case of only the net amount remaining in the Wilson
11 regulatory asset.

12 22. To establish a regulatory liability to defer recognition of the DSM
13 Savings, Big Rivers needs the approval of both the Rural Utilities Service (“RUS”)
14 and the Commission. RUS’ letter authorizing Big Rivers to establish the regulatory
15 liability is attached hereto as Exhibit N. Big Rivers requests that the Commission
16 likewise authorize Big Rivers to establish a regulatory liability. The authority of
17 the Commission to allow utilities to establish regulatory accounts “arises under the
18 Commission’s plenary authority to regulate utilities under KRS 278.040 and the
19 Commission’s authority to establish a system of accounts under KRS 278.220.”⁴

20 WHEREFORE, Big Rivers respectfully requests that the Commission:

⁴ *In the Matter of: The Application of East Kentucky Power Cooperative, Inc. for an Order Approving Accounting Practices to Establish a Regulatory Asset related to Certain Replacement Power Costs Resulting from Generation Forced Outages*, Order, P.S.C. Case No. 2008-00436 (Dec. 23, 2008), at p. 4.

**DIRECT TESTIMONY
OF
RUSSELL L. POGUE**

5 **I. INTRODUCTION**

6 **Q. Please state your name, business address and occupation.**

7 A. My name is Russell L. Pogue, and my business address is Big Rivers
8 Electric Corporation ("Big Rivers"), 201 Third Street, Henderson, Kentucky,
9 42420. I am the Manager, Member Relations for Big Rivers. I report to
10 Mark J. Eacret, Big Rivers' Vice President Energy Services.

11
12 **Q. Please summarize your education and professional experience.**

13 A. I have Bachelor of Science degree in Engineering Management/Mechanical
14 Engineering from the Missouri Institute of Science and Technology. I am a
15 Certified Energy Manager (C.E.M.), Certified Business Energy Professional
16 (CBEP), a Certified Demand Side Manager (CDSM), and a member of the
17 Association of Energy Engineers. Prior to joining Big Rivers, I designed
18 and implemented Demand-Side Management ("DSM") programs at
19 Associated Electric Cooperative in Springfield, Missouri, and was a Senior
20 Project Engineer at the Mid-America Manufacturing Technology Center in
21 Rolla, Missouri.

22
23 **Q. Please summarize your duties at Big Rivers.**

24 A. I am responsible for Big Rivers' Member relations. Among other things, I
25 work with Big Rivers' Members on the administration, development, and
26 documentation of their respective Demand-Side Management/Energy
27 Efficiency ("DSM/EE") programs. This includes periodic meetings of the
28 joint Big Rivers/Members DSM/EE Working Group which has oversight of
29 these programs. I also am responsible for a major component of Big Rivers

1 Integrated Resource Plan (“IRP”) including the IRP’s DSM/EE Potential
2 Study Report and its related appendices.

3
4 **Q. Have you previously testified before this Commission?**

5 A. Yes. I testified on behalf of one of Big Rivers’ Members, Meade County
6 Rural Electric Cooperative Corporation (“Meade County”) in one of Meade
7 County’s general rate proceedings, Case No. 2010-00222. I have answered
8 data requests in Big Rivers’ DSM/EE tariff filings – Case Nos. 2012-00142,
9 2013-00099, 2015-00118, and 2017-00278. I was also a witness responding
10 to data requests in Big Rivers’ most recent IRP filings – Case Nos. 2010-
11 00443, 2014-00166, and 2017-00387. I also sponsored direct testimony and
12 answered data requests in Big Rivers’ declaratory request related to
13 construction of seven solar arrays. Finally, I either responded to, or drafted
14 responses to, certain DSM/EE-related data requests in Big Rivers’ two most
15 recent general rate proceedings – Case Nos. 2012-00535 and 2013-00199.

16
17 **Q. For whom are you testifying in this proceeding?**

18 A. I am testifying on behalf of Big Rivers and two of its three distribution
19 cooperative member-owners, Jackson Purchase Energy Corporation
20 (“Jackson Purchase”) and Meade County. Collectively, Jackson Purchase
21 and Meade County are Big Rivers’ “Participating Members.” Big Rivers’
22 other Member is Kenergy Corp. (“Kenergy”), who made a separate filing on
23 or about June 14, 2018, to withdraw all of its existing DSM programs.
24 Collectively, Jackson Purchase, Kenergy, and Meade County are Big Rivers
25 “Members” or “Member-Owners.”

26
27 **Q. What is the purpose of your testimony in this proceeding?**

1 A. The purpose of my testimony is to explain and support the changes which
2 Big Rivers and the Participating Members are making to their respective
3 DSM programs currently on file with the Commission, and to describe the
4 Energy Use Education and Low-Income Weatherization Assistance that Big
5 Rivers and its Members plan to implement. As part of these DSM program
6 changes, I will describe the process for ending, or winding down, the DSM
7 programs. Finally, I will outline how Big Rivers proposes to address the
8 differences between the current amount for DSM included in Big Rivers'
9 base rates and the amount Big Rivers will spend on DSM, retail member
10 education, and low income weatherization going forward.
11
12

13 **II. BIG RIVERS DSM PROGRAMS**

14 **Q. What DSM programs does Big Rivers propose to discontinue?**

15 A. Big Rivers is proposing to discontinue all of its existing DSM programs. Big
16 Rivers proposes to discontinue the following DSM programs immediately:

- 17 1. DSM-01 - High Efficiency Lighting Replacement,
- 18 2. DSM-02 - ENERGY STAR® Clothes Washer Replacement Incentive,
- 19 3. DSM-03 - ENERGY STAR® Refrigerator Replacement Incentive,
- 20 4. DSM-06 - Touchstone Energy® New Home,
- 21 5. DSM-07 - Residential/Commercial HVAC & Refrigeration Tune-Up,
- 22 6. DSM-09 - Commercial/Industrial General Energy Efficiency, and
- 23 7. DSM-13 - Residential Weatherization A La Carte.

24

25 **Q. Why is Big Rivers proposing to immediately discontinue these DSM**
26 **programs?**

27 A. The Total Resource Cost ("TRC") tests for each of these programs no longer
28 exceed 1.0. As such, these programs are no longer cost effective.

20
21
22
23
24
25
26
27
28

Q. What is Big Rivers proposing with regard to its other DSM programs?

- A. Big Rivers proposes to phase the following DSM programs out over time:
1. DSM-04 - Residential High Efficiency Heating, Ventilation and Air Conditioning ("HVAC"),
 2. DSM-08 - Commercial / Industrial High Efficiency Lighting Replacement Incentive,
 3. DSM-11 - Commercial High Efficiency Heating, Ventilation and Air Conditioning ("HVAC"), and
 4. DSM-12 - High Efficiency Outdoor Lighting.

The individual TRC tests for each of these programs exceeds 1.0

Q. Why is Big Rivers proposing to phase these programs out over time?

A. Big Rivers and its Members discussed our options to comply with Ordering Paragraph No. 3 of the Commission's Order dated December 21, 2017, in Case No. 2017-00378. Since the Participating Members had promoted their respective DSM programs and, therefore, their respective retail members were aware of them, the Participating Members were concerned about immediately ending programs where retail members may have begun to make investments in reliance on the incentives, especially for commercial and industrial projects where the lead time can be substantial. We concurred that those programs which were no longer cost-effective, *i.e.*, had a TRC of equal to or less than 1.0, should be withdrawn immediately. The remaining DSM programs with a TRC equal to or greater than 1.0, would be phased out overtime. Big Rivers and the Participating Members' current target for doing so is explained below.

12
13
14
15
16
17

Q. When does Big Rivers anticipate that these programs will be completely phased out?

A. Big Rivers currently anticipates that these programs will be completely phased out no later than June 30, 2019, at which time Big Rivers will make a tariff filing to withdraw the tariffs for these programs.

Q. Does Big Rivers have an exhibit listing the individual TRC test results for all the aforementioned programs?

A. Yes. A table showing the results of the program analysis, including Net Present Value (“NPV”) of benefits and costs plus the TRC test results, is shown at the top of the following page. The results for the four remaining DSM programs are shaded in light green. GDS Associates, Inc., a consultant working with Big Rivers, performed the analysis and provided the results.

Big Rivers Electric Corporation					
Summary of DSM Program Analysis (Benefits/Costs) and TRC Test Ratios					
Program Name		NPV Benefits (a)	NPV Costs (b)	NPV Savings (a) – (b)	TRC Test Ratio
DSM-01	High Efficiency Lighting Replacement	\$0.1	\$0.2	(\$0.01)	0.7
DSM-02 DSM-03	ENERGY STAR® Clothes Washer & Refrigerator Replacement Incentives	\$0.1	\$0.2	(\$0.01)	0.7
DSM-04	Residential High Efficiency HVAC	\$0.3	\$0.3	\$0.00	1.1
DSM-05	Residential Weatherization ^a	Not Applicable			
DSM-06	Touchstone Energy® New Home	\$0.1	\$0.2	(\$0.01)	0.5
DSM-07	Residential/Commercial HVAC & Refrigeration Tune-Up	\$0.1	\$0.4	(\$0.03)	0.2
DSM-08	Commercial/Industrial High Efficiency Lighting Replacement Incentive	\$1.9	\$0.9	\$1.0	2.2
DSM-09	Commercial/Industrial General Energy Efficiency	\$0.1	\$0.1	\$0.0	1.0
DSM-10	Residential Weatherization Program – Primary Heating Source Non-Electric ^a	Not Applicable			
DSM-11	Commercial High Efficiency HVAC	\$0.4	\$0.2	\$0.02	2.3
DSM-12	High Efficiency Outdoor Lighting	\$1.5	\$0.8	\$0.07	1.9
DSM-13	Residential Weatherization A La Carte	\$0.4	\$0.7	(\$0.02)	0.7

a. DSM programs previously withdrawn per Commission's December 21, 2017, Order in Case No. 2017-00278.

2

3 **Q. Is Big Rivers filing tariff sheets reflecting these proposed changes?**

4 A. Yes. As Exhibit C of this DSM Tariff Filing, Big Rivers is providing the
5 proposed tariff sheets with an Issue Date of July 6, 2018, and an Effective
6 Date of August 6, 2018. Big Rivers is also providing a redline mark-up of
7 the proposed tariff sheets to show the changes from Big Rivers' Tariff
8 currently on file with the Commission.

9

10

11

1 **III. MEADE COUNTY DSM PROGRAMS**

2 **Q. What changes is Meade County proposing in its DSM programs?**

3 A. Meade County's proposal has two components. First, Meade County is
4 proposing to discontinue those DSM programs which are comparable to the
5 programs Big Rivers is discontinuing. Second, of the DSM programs which
6 will remain in Meade County's tariff, Meade County is proposing the
7 insertion of 'up to' language so that it may adjust the incentives available
8 under the remaining DSM programs.

9 With the capability to adjust the DSM program incentives. Meade
10 County will be able to phase out the DSM programs which will remain on
11 its tariff. As such, Meade County currently anticipates that the tariffs for
12 these programs will eventually be withdrawn, no later than June 30, 2019.

13

14 **Q. Is Meade County filing tariff sheets reflecting this action?**

15 A. Yes. As Exhibit K of this DSM Tariff Filing Meade County is providing the
16 proposed tariff sheets with an Issue Date of July 6, 2018, and an Effective
17 Date of August 6, 2018. Meade County is also providing a redline mark-up
18 of the proposed tariff sheets which show the changes from Meade County's
19 Tariff currently on file with the Commission.

20

21

22 **IV. JACKSON PURCHASE DSM PROGRAMS**

23 **Q. What changes is Jackson Purchase proposing in its DSM programs?**

24 A. Jackson Purchase's proposal, like Meade County's proposal, has two
25 components. First, Jackson Purchase is proposing to discontinue those
26 DSM programs which are comparable to the programs Big Rivers is
27 discontinuing. Second, of the DSM programs which will remain in Jackson
28 Purchase's tariff, Jackson Purchase is proposing the insertion of 'up to'

1 language so that it may adjust the incentives available under the remaining
2 DSM programs.

3 With the capability to adjust the DSM program incentives, Jackson
4 Purchase will be able to phase out the DSM programs which will remain on
5 its tariff. As such, Jackson Purchase currently anticipates that the tariffs
6 for these programs will eventually be withdrawn, no later than June 30,
7 2019.

8
9 **Q. Is Jackson Purchase filing tariff sheets reflecting this action?**

10 **A.** Yes. As Exhibit G of this DSM Tariff Filing Jackson Purchase is providing
11 the proposed tariff sheets with an Issue Date of July 6, 2018, and an
12 Effective Date of August 6, 2018. Jackson Purchase is also providing a
13 redline mark-up of the proposed tariff sheets which show the changes from
14 Jackson Purchase's Tariff currently on file with the Commission.

15
16
17 **V. ENERGY USE EDUCATION AND LOW-INCOME WEATHER-**
18 **IZATION ASSISTANCE**

19 **Q. Earlier you mentioned Energy Use Education. Please describe this**
20 **initiative?**

21 **A.** Educating the retail members in the safe, effective and efficient use of
22 electricity has always been a primary function of Big Rivers as part of its
23 shared services efforts with its Member-Owners. Big Rivers provides
24 energy education and staff assistance as part of the current DSM programs
25 and, before those programs were instituted in 2012, Big Rivers provided
26 financial and staff support to provide its Members both on-site assistance
27 and funding of education efforts and communication. With the DSM
28 program programs being phased out, additional efforts are needed to

1 communicate with retail members about the efficient use of energy and
2 other opportunities to benefit them. Information about power for electric
3 vehicles, renewable energy, and continuing efficient electric use will require
4 both planning and coordination with the Members and education of their
5 retail members. Use of these funds to provide electricity use education and
6 communication will allow the Member-Owners and Big Rivers to continue
7 providing the retail members with straightforward information on which to
8 make safe and beneficial energy-use decisions.

9
10 **Q. Please describe how the Energy Use Education will operate.**

11 A. Big Rivers will coordinate with, and distribute funds to, its Members to
12 assist with the process of communication. Big Rivers will assist the
13 Members with the development of the information the Members will
14 provide. Each Member will determine the actual communication methods
15 to use, *e.g.*, website, bill inserts, newsletters, annual meetings, *et. al.*

16
17 **Q. You also mentioned Low-Income Weatherization Assistance. Please
18 describe this program?**

19 A. Big Rivers will work with Community Action Agencies within its Members'
20 respective service territories to provide weatherization assistance for
21 weatherization-related measures that otherwise would not be completed
22 due to restrictions of other funding on health and safety measures, or a lack
23 of available funding.

24
25 **Q. Please describe how Low-Income Weatherization Assistance will
26 operate.**

27 A. Big Rivers will work directly with the Community Action Agencies and the
28 Kentucky Housing Corporation to monitor opportunities to support

1 weatherization on behalf of, or in conjunction with, the Members as
2 appropriate. Big Rivers will provide funds to the Community Action
3 Agencies with the requirements that (i) the Agencies can only use the funds
4 to support weatherization measures for low-income households who are
5 served by one of Big Rivers' Members, and (ii) the funds should only support
6 weatherization measures that would not otherwise be completed.

7
8 **Q. How much does Big Rivers anticipate it will spend on these**
9 **initiatives?**

10 **A.** Big Rivers and its Members anticipate spending approximately \$250,000
11 annually to fund the Energy Use Education and Low-Income
12 Weatherization initiatives.

13
14
15 **VII. REGULATORY LIABILITY**

16 **Q. What is the purpose of the regulatory liability Big Rivers is**
17 **requesting in this filing?**

18 **A.** Big Rivers' base rates include a DSM component. Big Rivers' current Rural
19 base rate demand charge of \$13.8050 per kW includes a DSM component of
20 \$0.195 per kW, which was approved in Big Rivers' most recent rate case
21 (Case No. 2013-00199) based on forecasted annual DSM spending of
22 approximately \$1.0 million. Big Rivers' current Industrial rates do not
23 include a DSM component, since customers served by those Industrial rates
24 do not participate in the DSM program.

25 Big Rivers anticipates that going forward, its spending on the DSM
26 programs that are being phased out, and the spending on the two new
27 initiatives, will be less than the amounts it collects through base rates. For
28 2018, Big Rivers has already spent most of its \$1.0 million DSM budget and

1 does not anticipate that there will be any material reduction in DSM
2 spending in 2018, even after the withdrawal of the seven DSM programs.
3 In 2019, Big Rivers anticipates that it will spend about \$250,000 on the
4 remaining DSM programs, as well as \$250,000 on Energy Use Education
5 and Low-Income Weatherization Assistance. After the remaining DSM
6 programs are phased out in 2019, Big Rivers anticipates that, going
7 forward, its spending will be limited to the \$250,000 annual spend on
8 Energy Use Education and Low-Income Weatherization Assistance.

9 Because Big Rivers anticipates that its future spending on DSM will
10 be less than the amount it collects through base rates for DSM, Big Rivers
11 is requesting to defer in a regulatory liability the recognition of the DSM
12 revenues that it collects through base rates that exceed the amount Big
13 Rivers spends on DSM and the two new initiatives each year.

14 Further, in Big Rivers' most recent rate case (Case No. 2013-00199),
15 the Commission required Big Rivers to defer through a regulatory liability
16 the annual depreciation expense for Big Rivers' Wilson generating station.
17 In Big Rivers' next rate case, Big Rivers will seek to recover the amount in
18 the Wilson regulatory asset through rates. The annual depreciation
19 expense on Wilson is approximately \$20 million. In order to reduce the
20 amount in the Wilson regulatory asset that Big Rivers will need to recover
21 through its rates in its next rate case, Big Rivers proposes to offset the
22 Wilson regulatory asset with the revenues it defers in the DSM regulatory
23 liability. Big Rivers would then seek recovery in its next rate case of the
24 net amount remaining in these two accounts.

25
26
27

1 **VIII. CONCLUSION**

2 **Q. What action is Big Rivers requesting from the Commission?**

3 A. Big Rivers is requesting that the Commission approve the proposed tariff
4 changes of Big Rivers and the Participating Members shown in Exhibit D,
5 Exhibit H, and Exhibit L, respectively, of this filing.

6 Big Rivers is also requesting the Commission to approve the
7 establishment of a regulatory liability representing the difference between
8 the amount Big Rivers collects through base rates for DSM and the amount
9 annually spent on the DSM programs, Energy Use Education, and Low-
10 Income Weatherization Assistance. Big Rivers further requests the
11 Commission's approval for Big Rivers to offset the amount in this
12 regulatory liability against the regulatory asset that the Commission
13 ordered to defer depreciation expense on Big Rivers' Wilson generating
14 station.

15

16 **Q. Does this conclude your testimony?**

17 A. Yes.

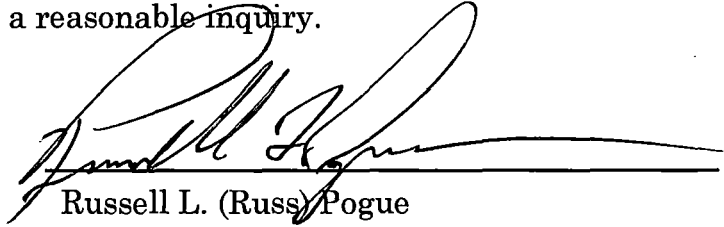

18

BIG RIVERS ELECTRIC CORPORATION

**DSM FILING OF BIG RIVERS ELECTRIC CORPORATION ON BEHALF OF
ITSELF, JACKSON PURCHASE ENERGY CORPORATION, AND MEADE
COUNTY RURAL ELECTRIC COOPERATIVE CORPORATION
CASE NO. 2018-00_____**

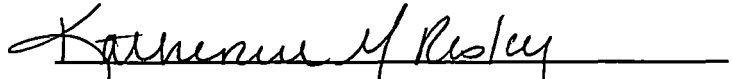

VERIFICATION

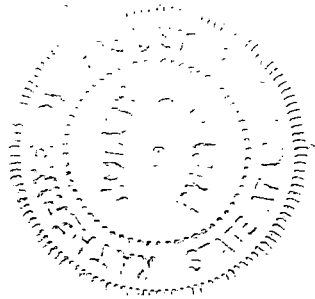

I, Russell L. (Russ) Pogue, verify, state, and affirm that I prepared or supervised the preparation of my Direct Testimony filed with this Verification, and that Direct Testimony is true and accurate to the best of my knowledge, information, and belief formed after a reasonable inquiry.

Russell L. (Russ) Pogue

COMMONWEALTH OF KENTUCKY)
COUNTY OF HENDERSON)

SUBSCRIBED AND SWORN TO before me by Russell L. (Russ) Pogue on
this the 7th day of July, 2018.

Notary Public, Kentucky State at Large
My Commission Expires 10-31-2020

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

AFFIDAVIT OF ROGER D. HICKMAN

COMMONWEALTH OF KENTUCKY)
COUNTY OF HENDERSON)

Comes the affiant, Roger D. Hickman, and after being duly sworn, states as follows:

1. I am employed by Big Rivers Electric Corporation ("Big Rivers") as its Regulatory Affairs Manager. I am an authorized representative of Big Rivers for purposes of this affidavit.

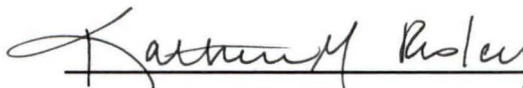

2. On July 6, 2018, Big Rivers filed revised tariff sheets to immediately terminate seven existing demand-side management ("DSM") programs and to phase-out over time the four remaining DSM programs.

3. Pursuant to 807 KAR 5:011 Section 8(3)(a), I verify that on July 6, 2018, Big Rivers mailed the notice required by 807 KAR 5:011 Section 8 to its only three customers (its three member distribution cooperatives).

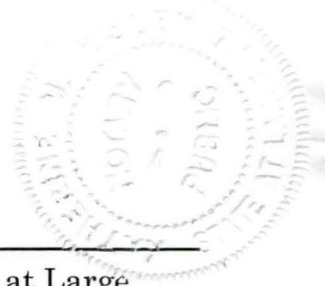

Roger D. Hickman

SUBSCRIBED AND SWORN TO before me by Roger D. Hickman on this the 7th day of July, 2018.

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

AFFIDAVIT

Comes the affiant, Dennis L. Cannon, and after being duly sworn states as follows:

1. I am President and Chief Executive Officer ("CEO") of Jackson Purchase Energy Corporation ("Jackson Purchase"), 2900 Irvin Cobb Drive, P.O. Box 4030, Paducah, Kentucky. I am the authorized representative of Jackson Purchase for purposes of this affidavit.
2. On July 6, 2018, in a Joint Filing with Big Rivers Electric Corporation and Meade County Rural Electric Cooperative Corporation ("the Joint Filing"), Jackson Purchase electronically filed revised tariff sheets to immediately terminate eight existing demand-side management ("DSM") programs and to phase-out over time the three remaining DSM programs.
3. I further verify that Jackson Purchase will provide notice to its retail members of its proposed tariff changes in the newspapers of general circulation throughout our service area in August 2018. A copy of that notice is attached in the filing. In compliance with the Motion for Deviation with this Joint Filing, Jackson Purchase will file an affidavit of publication pursuant to 807 KAR 5:011 Section 8(3)(b).

Witness my hand this 3rd day of July, 2018.

DENNIS L. CANNON
JACKSON PURCHASE ENERGY
CORPORATION

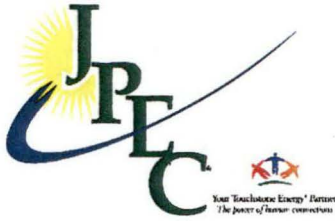

Subscribed and sworn to before me by Teresa Miller, on this the 3rd day of July, 2018.

My commission expires 3-28-2019.

DSM 04 - RESIDENTIAL HIGH EFFICIENCY HEATING, VENTILATION AND AIR CONDITIONING ("HVAC") PROGRAM

Availability

DSM program rates, terms and conditions are available to any Member receiving service under Tariff R (residential) subject to the limitations and eligibility requirements of this program, and to the rules and regulations of this tariff and as stipulated by the Big Rivers corresponding tariff.

Purpose

This program promotes an increased use of high efficiency Heating, Ventilation and Air Conditioning (HVAC) systems among eligible Members by paying an incentive for the purchase and installation of a HVAC system beyond contractor grade minimums to one of three types of HVAC systems meeting ENERGY STAR® standards ("Qualified System"). This tariff will apply to a new installation, system upgrade, or system replacement.

Member Incentives

JPEC will reimburse an eligible Member an incentive payment for the purchase and installation of a Qualified System in the Member's service area based on the following table:

Geothermal (Ground Coupled Heat Pump)	Up to:	\$ 750.00	[T]
Dual Fuel (ASHP w/Gas Backup)	Up to:	\$ 500.00	[T]
Air Source Heat Pump (ASHP)	Up to:	\$ 200.00	[T]

Terms & Conditions

To qualify for the incentive under this program, an eligible Member must submit to JPEC a copy of a receipt of purchase and installation of a Qualified System from a licensed contractor verifying installation of the Qualified System on the premises of the Member in JPEC's service territory.

DSM 07 – COMMERCIAL / INDUSTRIAL HIGH EFFICIENCY LIGHTING REPLACEMENT INCENTIVE PROGRAM

Availability

DSM program rates, terms and conditions are available to any Member receiving service under Tariff C-1, C-3 or D subject to the limitations and eligibility requirements of this program, and to the rules and regulations of this tariff and as stipulated by the Big Rivers corresponding tariff.

Purpose

This program promotes the upgrading of low efficiency commercial or industrial lighting systems by paying an incentive to eligible Members who measurably improve the energy efficiency of a commercial or industrial lighting system.

Member Incentives

JPEC will pay an eligible Member an incentive payment of up to three hundred fifty dollars (\$350.00) per kW [T] of measurable improvement in energy efficiency to an existing commercial or industrial lighting system.

Terms & Conditions

To qualify for the incentive under this program, an eligible Member must submit documentation to JPEC as specified below:

1. Information from which the energy efficiency of the existing commercial or industrial lighting system can be calculated;
2. Information from which the energy efficiency of the improved commercial or industrial lighting system can be calculated, and the improvement in the energy efficiency of the lighting system determined;
3. Information that documents the purchase and installation of the improvements to the commercial or industrial lighting system, including a copy of the invoice for materials and installation services associated with the project;

DSM 11 - COMMERCIAL HIGH EFFICIENCY HEATING, VENTILATION AND AIR CONDITIONING ("HVAC") PROGRAM

Availability

DSM program rates, terms and conditions are available to any Member receiving service from a non-dedicated delivery point and being billed under Jackson Purchase Energy Corporation's (JPEC) Rate Schedules C-1, C-3 or D, subject to the limitations and eligibility requirements of this program, and to the rules and regulations of this tariff and as stipulated by the Big Rivers corresponding tariff.

Purpose

This program promotes increased utilization of high efficiency Heating, Ventilation and Air Conditioning (HVAC) systems by providing an incentive payment to eligible Members who purchase and install an HVAC system(s) beyond minimum efficiency standards to an HVAC system(s) meeting ENERGY STAR® standards ("Qualified System"). This tariff will apply to a new installation, system upgrade, or system replacement.

Eligibility

An eligible Member is a Member served from a non-dedicated delivery point and billed under JPEC's Rate Schedules C-1, C-3 or D who upgrades an HVAC system(s) in facilities in JPEC's service area in accordance with the terms and conditions of this program.

Member Incentives

JPEC will pay an eligible Member an incentive payment of up to \$75.00 per ton (12,000 BTU per hour minimal capacity) when a non-residential Member purchases and installs a HVAC Qualified System upgrade in facilities in JPEC's service area. [T]

Terms & Conditions

To qualify for the incentive under this program, the eligible Member must submit to JPEC a copy of the receipt of purchase and installation of a Qualified System from a licensed contractor, along with a certificate from the Member

 DSM 04 - RESIDENTIAL HIGH EFFICIENCY HEATING, VENTILATION AND AIR CONDITIONING ("HVAC") PROGRAM

Availability

DSM program rates, terms and conditions are available to any Member receiving service under Tariff R (residential) subject to the limitations and eligibility requirements of this program, and to the rules and regulations of this tariff and as stipulated by the Big Rivers corresponding tariff.

Purpose

This program promotes an increased use of high efficiency Heating, Ventilation and Air Conditioning (HVAC) systems among eligible Members by paying an incentive for the purchase and installation of a HVAC system beyond contractor grade minimums to one of three types of HVAC systems meeting ENERGY STAR® standards ("Qualified System"). This tariff will apply to a new installation, system upgrade, or system replacement.

Member Incentives

JPEC will reimburse an eligible Member an incentive payment for the purchase and installation of a Qualified System in the Member's service area based on the following table:

Geothermal (Ground Coupled Heat Pump)	<u>Up to:</u>	\$ 750.00	<input type="checkbox"/>
Dual Fuel (ASHP w/Gas Backup)	<u>Up to:</u>	\$ 500.00	<input type="checkbox"/>
Air Source Heat Pump (ASHP)	<u>Up to:</u>	\$ 200.00	<input type="checkbox"/>

Terms & Conditions

To qualify for the incentive under this program, an eligible Member must submit to JPEC a copy of a receipt of purchase and installation of a Qualified System from a licensed contractor verifying installation of the Qualified System on the premises of the Member in JPEC's service territory.

DSM 07 – COMMERCIAL / INDUSTRIAL HIGH EFFICIENCY LIGHTING REPLACEMENT INCENTIVE PROGRAM

Availability

DSM program rates, terms and conditions are available to any Member receiving service under Tariff C-1, C-3 or D subject to the limitations and eligibility requirements of this program, and to the rules and regulations of this tariff and as stipulated by the Big Rivers corresponding tariff.

Purpose

This program promotes the upgrading of low efficiency commercial or industrial lighting systems by paying an incentive to eligible Members who measurably improve the energy efficiency of a commercial or industrial lighting system.

Member Incentives

JPEC will pay an eligible Member an incentive payment of up to three hundred fifty dollars (\$350.00) per kW of measurable improvement in energy efficiency to an existing commercial or industrial lighting system.

Terms & Conditions

To qualify for the incentive under this program, an eligible Member must submit documentation to JPEC as specified below:

- Information from which the energy efficiency of the existing commercial or industrial lighting system can be calculated;
- Information from which the energy efficiency of the improved commercial or industrial lighting system can be calculated, and the improvement in the energy efficiency of the lighting system determined;
- Information that documents the purchase and installation of the improvements to the commercial or industrial lighting system, including a copy of the invoice for materials and installation services associated with the project;

RATES AND CHARGES

DSM 11 - COMMERCIAL HIGH EFFICIENCY HEATING, VENTILATION AND AIR CONDITIONING ("HVAC") PROGRAM

Availability

DSM program rates, terms and conditions are available to any Member receiving service from a non-dedicated delivery point and being billed under Jackson Purchase Energy Corporation's (JPEC) Rate Schedules C-1, C-3 or D, subject to the limitations and eligibility requirements of this program, and to the rules and regulations of this tariff and as stipulated by the Big Rivers corresponding tariff.

Purpose

This program promotes increased utilization of high efficiency Heating, Ventilation and Air Conditioning (HVAC) systems by providing an incentive payment to eligible Members who purchase and install an HVAC system(s) beyond minimum efficiency standards to an HVAC system(s) meeting ENERGY STAR® standards ("Qualified System"). This tariff will apply to a new installation, system upgrade, or system replacement.

Eligibility

An eligible Member is a Member served from a non-dedicated delivery point and billed under JPEC's Rate Schedules C-1, C-3 or D who upgrades an HVAC system(s) in facilities in JPEC's service area in accordance with the terms and conditions of this program.

Member Incentives

JPEC will pay an eligible Member an incentive payment of up to \$75.00 per ton (12,000 BTU per hour minimal capacity) when a non-residential Member purchases and installs a HVAC Qualified System upgrade in facilities in JPEC's service area.

Terms & Conditions

To qualify for the incentive under this program, the eligible Member must submit to JPEC a copy of the receipt of purchase and installation of a Qualified System from a licensed contractor, along with a certificate from the Member

TITLE President & CEO

BY AUTHORITY OF ORDER OF THE PUBLIC SERVICE COMMISSION

IN CASE NO. _____ DATED _____

On July 6, 2018, Jackson Purchase Energy Corporation (“Jackson Purchase”), in a Joint Filing with Big Rivers Electric Corporation (“Big Rivers”) and Meade County Rural Electric Cooperative Corporation (“Meade County”) filed proposed changes to its tariff sheets for its Demand-Side Management programs only with the Kentucky Public Service Commission (“Commission”). Those revised sheets have an issue date of July 6, 2018, and an effective date of August 6, 2018. Essentially, Jackson Purchase immediately will discontinue eight of those programs, and will insert the phrase “*up to*” prior to the monetary incentives in the 3 remaining programs so that Jackson Purchase may phase-out those programs in 2019. A copy of this filing is available for inspection at Jackson Purchase’s offices at 2900 Irvin Cobb Drive, Paducah, Kentucky. A copy of the filing may also be examined at the Commission’s offices at 211 Sower Boulevard in Frankfort, Kentucky during normal business hours or on the Commission’s website at www.psc.ky.gov. Anyone wishing to file comments may do by mailing them to the Commission at the address noted above using zip code 40601. Anyone wishing to intervene must file a written request to do so at the same address, and must do so within 30 days of the last publication of this notice.

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

IN THE MATTER OF:

APPLICATION OF MEADE COUNTY)
RURAL ELECTRIC COOPERATIVE)
CORPORATION TO TERMINATE AND)
REVISE DEMAND-SIDE MANAGEMENT)
(DSM) PROGRAMS)

CASE NO. -----

AFFIDAVIT

Comes this affiant, Marty Littrel, President/CEO of Meade County Rural Electric Cooperative Corporation, 1351 Highway 79, P O Box 489, Brandenburg, Kentucky, states that I am the authorized representative of Meade County Rural Electric Cooperative Corporation for purposes of this affidavit.

1. On July 6, 2018, Meade County Rural Electric Cooperative Corporation electronically filed revised tariff sheets to immediately terminate seven existing demand-side management ("DSM") programs and to phase-out over time the four remaining DSM programs.
2. I verify that on July 6, 2018, Meade County Rural Electric Cooperative Corporation intends to provide notice to its retail members of its proposed tariff changes in the August 2018 edition of Kentucky Living magazine, a trade publication which will be mailed to all of its retail members. A copy of the notice and affidavit of publication is attached in the filing.

Witness my hand this 3rd day of July, 2018.

Martin W. Littrel
MARTIN W. LITREL, PRESIDENT/CEO

Schedule 29	RATE PER UNIT
Residential High Efficiency Heating, Ventilation and Air Conditioning ("HVAC") Program	
Purpose	
This program promotes an increased use of high efficiency HVAC systems by providing incentive payments to eligible Customers who purchase and install an HVAC system beyond contractor grade minimums to one of three types of ENERGY STAR® rated HVAC systems ("Qualified System").	
Availability	
Each DSM program offered by the Cooperative is sponsored by Big Rivers Electric Corporation through tariffs applicable to the Cooperative. Each Cooperative DSM program's rates, terms and conditions are available to Customers of the Cooperative, subject to the limitations and eligibility requirements set forth in the Cooperative's tariffs and the sponsoring tariff of Big Rivers.	
Eligibility	
Any Customer served from a non-dedicated delivery point is eligible for a DSM program.	
Member Incentives	
The Cooperative will credit or pay an eligible Customer an incentive payment based on the following table for purchase and installation of a Qualified System HVAC upgrade, to be reimbursed by Big Rivers Electric Corporation. The incentive paid for each Qualified System of one of the following types shall be:	
Geothermal	Up to \$ 750
Dual Fuel	Up to \$ 500
Air Source	Up to \$ 200
Terms & Conditions	
To qualify for the incentive under this program, the eligible customer must submit to the Cooperative a copy of a receipt of purchase and installation of a Qualified System from a licensed contractor, along with a certificate verifying installation of the Qualified System on the premises of the Customer.	
Evaluation, Measurement and Verification	
The Cooperative will follow a process of evaluation, measurement and verification for the program. The process will ensure the quality and effectiveness of the program and optimal use of resources.

Commercial High Efficiency Heating, Ventilation and Air Conditioning ("HVAC") Program

Purpose

This program promotes an increased use of high efficiency HVAC systems by providing incentive payments to eligible Customers who purchase and install an HVAC system beyond minimum efficiency standards to HVAC systems meeting ENERGY STAR® standards ("Qualified System").

Availability

Each DSM program offered by the Cooperative is sponsored by Big Rivers Electric Corporation through tariffs applicable to the Cooperative. Each Cooperative DSM program's rates, terms and conditions are available to Customers of the Cooperative, subject to the limitations and eligibility requirements set forth in the Cooperative's tariffs and the sponsoring tariff of Big Rivers.

Eligibility

Any Customer served from a non-dedicated delivery point is eligible for a DSM program.

Member Incentives

The Cooperative will credit or pay an eligible Customer an incentive payment up to \$75 per ton (12,000 BTU per hour nominal capacity) when a non-residential customer installs a Qualified System HVAC upgrade, to be reimbursed by Big Rivers Electric Corporation.

The Cooperative is to be reimbursed reasonable costs of promoting this program, if the promotional program and its costs are pre-approved by Big Rivers.

Terms & Conditions

To qualify for the incentive under this program, the eligible customer must submit to the Cooperative a copy of a receipt of purchase and installation of a Qualified System from a licensed contractor, along with a certificate verifying installation of the Qualified System on the premises of the Customer.

Evaluation, Measurement and Verification

The Cooperative will follow a process of evaluation, measurement and verification for the program. The process will ensure the quality and effectiveness of the program and optimal use of resources.

CLASSIFICATION OF SERVICE	
Schedule 29	RATE PER UNIT
Residential High Efficiency Heating, Ventilation and Air Conditioning ("HVAC") Program	
Purpose	
This program promotes an increased use of high efficiency HVAC systems by providing incentive payments to eligible Customers who purchase and install an HVAC system beyond contractor grade minimums to one of three types of ENERGY STAR® rated HVAC systems ("Qualified System").	
Availability	
Each DSM program offered by the Cooperative is sponsored by Big Rivers Electric Corporation through tariffs applicable to the Cooperative. Each Cooperative DSM program's rates, terms and conditions are available to Customers of the Cooperative, subject to the limitations and eligibility requirements set forth in the Cooperative's tariffs and the sponsoring tariff of Big Rivers.	
Eligibility	
Any Customer served from a non-dedicated delivery point is eligible for a DSM program.	
Member Incentives	
The Cooperative will credit or pay an eligible Customer an incentive payment based on the following table for purchase and installation of a Qualified System HVAC upgrade, to be reimbursed by Big Rivers Electric Corporation. The incentive paid for each Qualified System of one of the following types shall be:	
Geothermal	Up to \$ 750
Dual Fuel	Up to \$ 500
Air Source	Up to \$ 200
Terms & Conditions	
To qualify for the incentive under this program, the eligible customer must submit to the Cooperative a copy of a receipt of purchase and installation of a Qualified System from a licensed contractor, along with a certificate verifying installation of the Qualified System on the premises of the Customer.	
Evaluation, Measurement and Verification	
The Cooperative will follow a process of evaluation, measurement and verification for the program. The process will ensure the quality and effectiveness of the program and optimal use of resources.

Residential Weatherization A La Carte Program DISCONTINUED.
Tariff Sheet CANCELLED
Reserved for Future Use

Deleted: Residential Weatherization Program A La Carte Program ¶
 ¶ Purpose¶
 This program promotes increased implementation of weatherization improvements by providing incentive payments to eligible Customers who undertake and complete residential weatherization improvements in accordance with this program.¶
 ¶ Availability¶
 Each DSM program offered by the Cooperative is sponsored by Big Rivers Electric Corporation through tariffs applicable to the Cooperative. Each Cooperative DSM program's rates, terms and conditions are available to Customers of the Cooperative, subject to the limitations and eligibility requirements set forth in the Cooperative's tariffs and the sponsoring tariff of Big Rivers.¶
 ¶ Eligibility¶
 Any Customer served from a non-dedicated delivery point is eligible for a DSM program.¶
 ¶ Member Incentives¶
 The Cooperative total reimbursement to the Rural Customer shall not exceed the amounts outlined below in Terms and Conditions.¶
 ¶ Terms & Conditions¶
 <#>The eligible Rural Customer will contract with a qualified third party Contractor that performs weatherization ¶ projects, including duct sealing. Once the Contractor has determined that a Retail Customer's home is eligible for duct sealing as outlined in Item 2 below, residential weatherization may proceed. Any Retail Customer-selected Contractor's work and documentation must meet the standards of the Commonwealth of Kentucky's Department of Housing, Building, and Construction ("KDHBC"). Failure to meet KDHBC work and documentation standards may void any Big Rivers or Cooperative reimbursements outlined below. ¶
 ¶<#>The Contractor will determine if the Rural Customers' home is eligible for duct sealing. Homes with ¶ a construction completion date within twenty-four months of the date of the site visit are not eligible for ¶ duct sealing. Homes eligible for duct sealing are those where 60% of the duct work is located outside ¶ conditioned spaces, i.e., duct work located in attic, crawl space, or unfinished basement. Duct sealing ¶ reimbursement for homes is based on the following schedule. ¶
 Home Heating Paid by ¶
 Source Cooperative ¶
 Electric Up to \$500 ¶
 Gas Up to \$250 ¶
 The Rural Customer is responsible for all payments to the Contractor. Big Rivers' reimbursement ¶ to the Cooperative and the Cooperative's reimbursement to the Rural Customer as limited as stated above.

(T)

Deleted: <#>Additional Weatherization incentives are available under this program. The Cooperative will reimburse the Rural Customer for these measures based on the following schedule:

Additional Weatherization Measure	Electric-Heated Homes	Gas-Heated Homes
Attic Insulation	Up to \$500	Up to \$250
Floor/Crawl Space Insulation	Up to \$250	\$0
Smart/Programmable Thermostat	Up to \$30	Up to \$30

The Rural Customer will be responsible for contracting the service and submitting documentation to the Cooperative. The Rural Customer is responsible for all payments to the Contractor. Big Rivers' reimbursement to the Cooperative and the Cooperative's reimbursement to the Rural Customer are limited as stated above.

4. To qualify for the additional weatherization incentives under this program, the Rural Customer must submit to the Cooperative or Big Rivers documentation supporting the purchase and installation of additional weatherization measures.

(a) Attic insulation must achieve an additional insulating value of R19 and achieve a total insulation value of R38.

(b) Floor insulation must achieve an additional insulating value of R11.

5. Big Rivers and the Cooperative will complete all reimbursements upon completion of any of the above weatherization measures and submission of an application and required documentation.

6. The Cooperative will promote this program.

Evaluation, Measurement and Verification
The Cooperative will follow a process of evaluation, measurement and verification for the program. The process will ensure the quality and effectiveness of the program and optimal use of resources.

(1)

Deleted: Residential and Commercial HVAC & Refrigeration Tune-up Program

Purpose

This program promotes annual maintenance of heating and air conditioning equipment by providing an incentive payment to eligible Customers when the Customer has performed professional cleaning and servicing of the Customer's heating and cooling system.

Availability

Each DSM program offered by the Cooperative is sponsored by Big Rivers Electric Corporation through tariffs applicable to the Cooperative. Each Cooperative DSM program's rates, terms and conditions are available to Customers of the Cooperative, subject to the limitations and eligibility requirements set forth in the Cooperative's tariffs and the sponsoring tariff of Big Rivers.

Eligibility

An eligible Customer is a Customer served from a non-dedicated delivery point whose heating and cooling system is professionally cleaned and serviced in accordance with this program.

Member Incentives

The Cooperative will pay an eligible Customer \$25 for each residential unit and \$50 for each commercial unit that is professionally cleaned and serviced, to be reimbursed by Big Rivers Electric Corporation. The incentive is available for up to three residential units per location and up to five commercial units per location. The incentive is available once per unit per year.

Terms & Conditions

To qualify for the incentive under this program, the Customer must submit to the Cooperative a copy of a receipt from a licensed contractor verifying that the heating and cooling system on the premises of the Customer has been professionally cleaned and serviced.

Evaluation, Measurement and Verification

The Cooperative will follow a process of evaluation, measurement and verification for the program. The process will ensure the quality and effectiveness of the program and optimal use of resources.

Commercial High Efficiency Heating, Ventilation and Air Conditioning ("HVAC") Program

Purpose

This program promotes an increased use of high efficiency HVAC systems by providing incentive payments to eligible Customers who purchase and install an HVAC system beyond minimum efficiency standards to HVAC systems meeting ENERGY STAR® standards ("Qualified System").

Availability

Each DSM program offered by the Cooperative is sponsored by Big Rivers Electric Corporation through tariffs applicable to the Cooperative. Each Cooperative DSM program's rates, terms and conditions are available to Customers of the Cooperative, subject to the limitations and eligibility requirements set forth in the Cooperative's tariffs and the sponsoring tariff of Big Rivers.

Eligibility

Any Customer served from a non-dedicated delivery point is eligible for a DSM program.

Member Incentives

The Cooperative will credit or pay an eligible Customer an incentive payment up to \$75 per ton (12,000 BTU per hour nominal capacity) when a non-residential customer installs a Qualified System HVAC upgrade, to be reimbursed by Big Rivers Electric Corporation.

The Cooperative is to be reimbursed reasonable costs of promoting this program, if the promotional program and its costs are pre-approved by Big Rivers.

Terms & Conditions

To qualify for the incentive under this program, the eligible customer must submit to the Cooperative a copy of a receipt of purchase and installation of a Qualified System from a licensed contractor, along with a certificate verifying installation of the Qualified System on the premises of the Customer.

Evaluation, Measurement and Verification

The Cooperative will follow a process of evaluation, measurement and verification for the program. The process will ensure the quality and effectiveness of the program and optimal use of resources.

DATED 06/28/2013 ¶

SMART SAVINGS REBATE PROGRAM

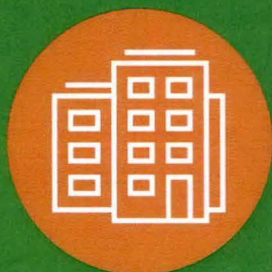

In 2012, Meade County RECC launched its energy efficiency education program, Smart Savings, to help our members save on energy dollars and become more energy efficient. This program encountered great success, giving away over \$1.5 million in energy efficiency rebates and helping customers save nearly 7 million kWh since the inception of the program.

However, due to the abundance of energy efficiency products in the marketplace along with the energy reduction goals we achieved during the past 6 years, Meade County RECC plans to discontinue a portion of the less cost-effective programs at year-end.

We will continue to honor the program in its entirety, until the end of 2018.

Starting in 2019, we will only offer the rebates that yield the greatest long-term financial rewards, which are **High Efficiency Heating & Air Conditioning (HVAC)** and the **High Efficiency Lighting** for residential and commercial applications.

NOTICE OF FILING

On July 6, 2018, in a Joint Filing before the Kentucky Public Service Commission ("PSC") with Big Rivers Electric Corporation and Jackson Purchase Energy Corporation, Meade County RECC proposed to withdraw seven (7) of its energy efficiency programs and amend four (4) others so that they may be withdrawn sometime in 2019. [807 KAR 5:011 § 8(4)(b)-8(4)(d)] The effective date of these changes would be August 6, 2018. [807 KAR 5:011 § 8(4)(a)] You may examine this filing at any Meade County office. [807 KAR 5:011 § 8(4)(e)] You may also examine it at the Commission's Frankfort, Kentucky offices on Sower Boulevard, or on the Commission's website (www.psc.ky.gov). [807 KAR 5:011 § 8(4)(f)] If you have any comments you may file them at that website or by mail at the Kentucky Public Service Commission, P.O. Box 615, Frankfort, KY 40602. [807 KAR 5:011 § 8(4)(g)] The Commission may change Meade County's proposal. [807 KAR 5:011 § 8(4)(h)] Person may file to intervene in this proceeding, however, such request must be made within thirty (30) days of this notice. [807 KAR 5:011 § 8(4)(i)], [807 KAR 5:011 § 8(4)(j)]

United States Department of Agriculture
Rural Development

MAY 30 2018

Mr. Robert Berry
General Manager
Big Rivers Electric Corporation
P. O. Box 24
Henderson, Kentucky 42419-0024

Dear Mr. Berry:

In response to a letter from Ms. DeAnna M. Speed, dated May 23, 2018, we have reviewed the information submitted regarding Big Rivers Electric Corporation's (Big Rivers) establishment of a regulatory liability. Big Rivers is requesting approval to defer the recognition of certain revenues it expects to refund as a result of modifying its offering of Demand Side Management programs.

All of the required information was submitted in the letter; therefore, the Rural Utilities Service's (RUS) approval to implement the plan is given. It should be noted, however, that our approval is based upon the understanding that the Commission authorizes these deferrals. If the Commission does not allow these deferrals, the entire deferred amount must be recognized into income immediately. It is also expected that when the regulatory liability is amortized it will be recognized against Account 447.1 – Sales for Resale – RUS Borrowers.

RUS also requires that your auditor verify the adequacy of the funds being segregated to support any revenue deferral amount and to make a disclosure in the audited financial statements each year of the deferral and amortization period.

Please contact the Technical Accounting and Auditing Staff at (202) 692-0120 if you have any questions or if we can be of any further assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Victor Vu".
