Grayson Rural Electric gives notice that it is requesting to discontinue Schedule 16, Small Commercial Demand & Energy Rate. Members on this rate will be served using Schedule 2, Commercial and Small Power Less than 50 KVA, which does not include a demand charge.

Grayson Rural Electric gives notice that it is requesting to move Schedule 5, Street Lighting Service to Schedule 6, Outdoor Lighting Service since the lighting is the same for both schedules.

T.I.E.R

January 2018's monthly O.T.I.E.R. was 7.37 with the rolling 12 month O.T.I.E.R. of (0.41).

BILLS BY COUNTY

There were 15,389 bills for January 2018. Bills per county were Carter 4,590, Elliott 3,666, Greenup 4,281, Lawrence 774, Lewis 313 and Rowan 1,765.

APPROVAL OF FINANCIAL & STATISTICAL REPORT FOR JANUARY 2018

Motion was made by Director Trent, seconded by Director Martin and unanimously agreed to approve the Financial and Statistical Report for January 2018, as presented for informational purposes only.

RATE INCREASE

President Fraley addressed a rate increase for GRECC. Bradley gave a presentation of the past 3-4 years financial reports. She explained that we could expect a letter from RUS concerning T.I.E.R. and that a rate increase would be a recommended part of the reply to that answer.

The chart on page 3 explains data from 2014-2017. Degree days have decreased by 1,400 days, dropping our revenue by almost \$5.4 million. Even though our expenses have decreased by \$3.5 million, we are at the point where our revenue is insufficient. A good portion of the increase appears to be due to weather. We have to make T.I.E.R. of 2.25 and O.T.I.E.R of 1.1, for two out of three years.

Our rate case will be based on the following reasons:

A decrease in kWh sales, resulting in diminished operating revenue. A decrease in member accounts. An increase in debt coverage. Inability to meet T.I.E.R. in 2017. Budgeted financials that indicate Grayson R.E.C.C. will be unable to meet T.I.E.R. in 2018.

PREPARED TESTIMONY OF CAROL H. FRALEY

- Q1. Would you please state your name and business address.
- R1. Carol H. Fraley, with a business address of 109 Bagby Park, Grayson, KY 41143.
- Q2. What is your occupation?
- R2. President and CEO of Grayson Rural Electric Cooperative ("GRECC").
- Q3. How long have you been employed by GRECC?
- R3. I have been employed by GRECC since January 1979 as the Manager of Marketing and Member Services. I was promoted to my current position in July 1994.
- Q4. What is your educational background?
- R4. I received a Master of Science in Education Degree from the University of Kentucky in 1980.
- Q5. Why is GRECC filing this application?
- R5. GRECC is filing this application because it was in violation of its mortgage agreement for 2017 Operating Times Interest Earned Ratio ("OTIER") of 1.10X and with the potential of not meeting this ratio for 2018.

- Q6. When was GRECC's last rate application?
- R6. GRECC's last rate application was filed in 2012 in Case No. 2012-00426.
- Q7. Are you familiar with the contents of this application?
- R7. Yes, I am familiar with the contents as I have worked closely with Mr. Bradley Cherry of GRECC and Mr. James Adkins, rate consultant, in the development of this application.
- Q8. What are the reasons for GRECC's need for an increase in revenue from rates?
- R8. GRECC needs a level of margins that provides for its operating needs, to maintain its mortgage agreements and to pay capital credits.
- Q9. What is the basis for the amount of increase that GRECC is requesting?
- R9. The amount of increase GRECC is seeking is based on its normalized test year revenues and expenses to obtain a TIER of 2.0X.
- Q10. What is GRECC doing to assist its members in the areas of rates and rate design?
- R10. GRECC continues to try to establish contracts with outside power suppliers at lower prices than those rates offered by our power supplier, East Kentucky Power Cooperative ("EKPC"). We are also working closely with EKPC's Solar Program to offer blocks of solar power to our members. We have carefully considered our rate structure and have identified several rate classes that we are proposing to combine or eliminate for the benefit of our members.
- Q11. What is GRECC doing to assist its members in the area of paying their bills?
- R11. GRECC offers budget or levelized billing payment plans and billing contracts. We continue to offer PrePay as a way for members to obtain service without paying high deposits. We work closely with Community Action Programs such as LIHEAP to make our members aware of available assistance in paying their bills.

- Q12. What costs savings measures has GRECC implemented or are implementing?
- R12. We did not replace an employee upon retirement in 2017 and will not replace another in 2018. We have instituted the use of tablets in service vehicles, which allows efficient routing of our work. We are taking advantage of programs available to us through our CIS vendor, SEDC, which will help us in increasing the automation of work. We use "just in time" purchasing, blanket purchasing, and carefully select our suppliers based on price and reliability. We have started using pole top covers to increase the life span of our poles and have instituted a pole testing program that should help us prevent service interruptions and lengthy outage times. We retrieve and reuse electric meters on a scheduled basis.
- Q13. What is the basis for the allocation of the increase to GRECC's rate classes?
- R13. The basis for the allocation of increase to GRECC's various rate classes is based on a Cost of Service Study ("COSS") included in this application as Exhibit R.
- Q14. What is GRECC's test year in this application?
- R14. The test year for this application is the twelve month period ending December 31, 2017. The Board of Directors and the management of GRECC constantly monitor the Cooperative's finances and operations on a monthly basis. After careful review of the 2017 financial reports, the Board of Directors determined that GRECC should file a rate application with the Kentucky Public Service Commission.
- Q15. Does this conclude your testimony?
- R15. Yes, it does.

Affiant, Carol H. Fraley, states that the answers given by her to the foregoing questions are true and correct to the best of her knowledge and belief.

Carol Hall Fraley, President and CEO

- Q1. Would you please state your name and business address?
- R1. James Bradley Cherry, with a business address of 109 Bagby Park Street, Grayson, KY 41143.
- Q2. What is your occupation?
- R2. I am currently the Manager of Finance & Accounting for Grayson Rural Electric.
- Q3. How long have you been employed by Grayson Rural Electric?
- R3. I have been employed by Grayson Rural Electric since January of 2011. I was hired in the position of Purchasing Agent and was later promoted in 2016 to my current position as Manager of Finance & Accounting.
- Q4. What is your education and work experience?
- R4. I graduated from the University of Kentucky in 2004 with a Bachelor of Business Administration in Decision Science and Information Systems and minor in Economics. Upon graduation, I was employed by the University of Kentucky and Chandler Medical Hospital as an IS Tech Support assistant in the Clinical Engineering department and later promoted to the Manager of the same department until leaving in 2011 for Grayson Rural Electric. While working for the University of Kentucky, I obtained my Masters of Business Administration in 2009.

Q5. Why is Grayson filing this application?

R5. Grayson is filing this application due to deteriorating financial conditions of the cooperative. Due to declining sales and increased operating costs, margins have not been sufficient in meeting financial ratios key to Grayson's mortgage agreements with RUS and CFC.

Q6. When was Grayson's last rate application?

R6. Grayson's last rate application was filed in 2012 in Case No. 2012-00426.

Q7. Are you familiar with the contents of this application and the accounting process and procedures in regards to electric cooperatives?

R7. Yes, I am familiar with the contents of this application and have assisted in the preparation of exhibits and overall supervision of the preparation of this application. I have worked closely with our rate consultants through the preparation of our Application and its Exhibits.

Q8. Is the information contained in the notice true and factual?

R8. Yes, the information contained in the notice is true and factual.

Q9. What is the basis for the allocation of the increase to Grayson's rate classes?

R9. The basis for the allocation of the increase to Grayson's various rate classes is based on a Cost of Service Study included in the application as Exhibit R. This cost of service study indicates that most rate classes are not providing revenue sufficient to recover the revenue requirements for those classes while some are providing revenue in excess of their revenue requirements. Grayson has chosen to concentrate the majority of their requested increase towards the customer service charge, as a way of mitigating no load growth, decreased sales due to weather and efficiencies, and continued rising costs.

Q10. Is Grayson providing any other changes in its rates?

R10. Grayson is requesting to discontinue two schedules that are currently available:
Schedule 3, Off-Peak Marketing Rate and Schedule 16, Small Commercial Demand &
Energy Rate. Grayson also requests to combine Schedule 5, Street Lighting Service and
Schedule 6, Outdoor Lighting Service into one schedule encompassing all Lighting
services.

Q11. Is the amount of increase requested sufficient for Grayson's present and future needs?

R11. Yes, Grayson's staff feels that the increase requested will be sufficient for present and future needs.

Q12. Does this conclude your testimony?

R12. Yes, this concludes my testimony.

GRAYSON RURAL ELECTRIC COOPERATIVE, INC. APPLICATION FOR AN INCREASE IN ELECTRIC UTILITY RATES CASE NO. 2018-00272

DIRECT TESTIMONY OF JAMES R. ADKINS

- Q1. State your name and business address.
- A1. My name is James R. Adkins and my address is 2189 Roswell Dr., Lexington, KY 40513.
- Q2. What is your past experience in cost of service studies and rate design for electric utilities?
- A2. I have been dealing with electric utility cost of service studies, rate design, revenue requirements and many different types of projects in the accounting and financial aspects of an electric utility for over forty years.
- Q3. What is your experience in the electric utility industry?
- A3. I spent twenty-five years as the rate/pricing manager for East Kentucky Power Cooperative ("EKPC"). For the last fifteen years, I have provided similar consulting services to electric cooperatives.
- Q4. Have you ever appeared as a witness before this Commission?

Witness: James Adkins

A4. I have appeared as a witness before this Commission many times for East Kentucky Power Cooperative and for all the distribution cooperatives of EKPC and for two of the distribution cooperatives of Big Rivers Electric Corporation.

Q5. What is your education background?

A5. I have a Bachelor of Science Degree in Finance and a Master's Degree in Accounting. Both of my degrees are from the University of Kentucky.

Q6. What has been your role in the preparation of this Application?

A6. My role in this application has been to assist and support to Grayson Rural Electric Cooperative, Inc. ("Grayson") in the development of revenue requirements and the completion of the cost of service study, and the rate design proposed in this Application.

Q7. What is the basis for the proposed rates and increase amounts for each rate class in this Application?

A7. Guidance on the proposed rate design has been provided by the senior management and the board of directors of Grayson. The general guidance in the proposed rates and increase amounts were the following ones:

Witness: James Adkins

 Use the results of the Cost of Service Study ("COSS") as a general guide in the development of the proposed rates and in the determination of the increase amounts for each rate class;

- Increase the customer charge for all rate classes to better reflect the customer related costs for each rate class; and
- The increase amount for the residential rate class is to be kept at a reasonable amount.
- Q8. The results of the COSS indicate that only a few rate classes are providing revenue that exceeds the costs to serve and many rate classes are providing revenues less than the costs to serve. Why are those rate classes with revenues more than the cost to service receiving an increase in their proposed rates?
- A8. These classes are receiving some type of increased in the proposed rates primarily to keep the proposed increase for the residential rate class to the stated goal. See the table provided below which indicates the percentage the total increase proposed for each rate class.
- Q9. What are the major proposals in rate design that are being proffered in this application?
- A9. It is very apparent that over fifty percent of the requested increase is going to

Rate 1 – Domestic * Farm & Home Service. A large amount of the proposed

increase is being placed on the customer charge. Emphasis is also being placed

on the customer charge in the other rate classes as well.

Q10. What is the purpose for placing most of the proposed increase on the

customer charge?

A10. The rationale for placing most of the requested increase on the customer charge

is the following ones.

• It better matches the customer/member related costs with the customer

charge but it is still very significantly less than full cost recovery,

With energy conservation and energy efficiency being promoted by all

facets of society, increasing the customer charge raises the revenue floor

for Grayson and better insures that members pay a larger amount toward

their total customer related costs.

It lessens somewhat but does not eliminate the revenue volatility for

Grayson that it now experiences especially during extreme weather

seasons of summer and winter.

And, it is the better approach to take for the future rate and revenue stability

of the Cooperative.

Q11. Do the proposed rates and increase meet the needs of Grayson?

Witness: James Adkins

A11. It meets the immediate needs of Grayson based on the guidance laid out by the senior management of the Cooperative and it has been approved by its Board of Directors.

Q12. Are you responsible for the Cost of Service Study ("COSS")?

A12. I am responsible for the COSS. The COSS is used in two primary ways in this Application. One, it is used to assist in the determination of the amount of proposed increase for each rate class and the proposed rate design. The COSS is comprised of three (3) major components: functionalization of costs with functions being based on type of plant, classification of costs into a demand, energy, and consumer components, and the allocation of costs to each rate class. The results of the COSS do indicate that some rate classes are providing revenue greater than the cost to serve while others are providing revenue less than the cost to serve.

- Q14. Does this conclude your testimony?
- A14. Yes, this concludes my testimony.

Independent Auditor's Report

To the Board of Directors Grayson Rural Electric Cooperative Corporation Grayson, Kentucky

Report on the Financial Statements

I have audited the accompanying financial statements of Grayson Rural Electric Cooperative Corporation, which comprise the balance sheets as of May 31, 2018 and 2017, and the related statements of revenue and comprehensive income, changes in equities, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

To the Board of Directors
Grayson Rural Electric Cooperative Corporation

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Grayson Rural Electric Cooperative Corporation as of May 31, 2018 and 2017, and the results of their operations and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued a report dated July 26, 2018, on my consideration of Grayson Rural Electric Cooperative Corporation's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering internal control over financial reporting and compliance.

Note 1. Summary of Significant Accounting Policies

Grayson Rural Electric Cooperative Corporation ("Grayson") maintains its records in accordance with the policies prescribed or permitted by the Kentucky Public Service Commission ("PSC") and the United States Department of Agriculture, Rural Utilities Service ("RUS"), which conform in all material respects with generally accepted accounting principles. The more significant of these policies are as follows:

Electric Plant Electric plant is stated at original cost, which is the cost when first dedicated to public service. Such amount includes applicable supervisory and overhead cost including any construction period interest and taxes. There was no interest required to be capitalized during the year.

The cost of maintenance and repairs, including renewals of minor items of property, is charged to operating expense. The cost of replacement of depreciable property units, as distinguished from minor items, is charged to electric plant. The units of property replaced or retired, including cost of removal, net of any salvage value, is charged to accumulated depreciation for distribution plant. Gain or loss is recognized on disposition of general plant items. Electric plant consists of:

| | <u>2018</u> | <u>2017</u> |
|--------------------|--------------|--------------|
| Distribution plant | \$70,949,688 | \$68,332,686 |
| General plant | 6,690,597_ | 6,691,636 |
| Total | \$77,640,285 | \$75,024,322 |

Depreciation Provision has been made for depreciation on the basis of the estimated lives of assets, using the straight-line method. In Depreciation rates are as follows:

| Distribution plant | 2.89% - 6.67% |
|-----------------------------|---------------|
| Structures and improvements | 2% |
| Transportation equipment | 16% |
| Other general plant items | 6% - 16% |

Cash and Cash Equivalents Grayson considers all short-term, highly liquid investments with original maturities of three months or less to be cash equivalents.

Off Balance Sheet Risk Grayson maintains its cash balances, which may exceed the federally insured limit, with several financial institutions. These financial institutions have strong credit ratings and management believes that the credit risk related to the accounts is minimal.

Revenue Grayson records revenue as billed to its consumers based on meter-readings taken on the 20th of each month using Automated Metering Information ("AMI") technology. All consumers are required to pay a refundable customer deposit; however, it may be waived under certain circumstances. Grayson's sales are concentrated in a six county area of eastern Kentucky. Consumers must pay their bill within 20 days of billing, then are subject to disconnect after another 10 days. Accounts are written off when they are deemed to be uncollectible. The allowance for uncollectible accounts is based on the aging of receivables. There were no customers whose individual account balance exceeded 10% of outstanding accounts receivable at May 31, 2018 or 2017.

Grayson is required to collect, on behalf of the Commonwealth of Kentucky, sales taxes based on 6 percent of gross sales from non-residential consumers, a 3 percent school tax from certain counties on most gross sales, and franchise fees in certain cities. Grayson' policy is to exclude these taxes from revenue when collected and expenses when paid and instead, record collection and payment of taxes through a liability account.

Note 1. Summary of Significant Accounting Policies, continued

Cost of Power Grayson is one of sixteen (16) members of East Kentucky Power Cooperative ("East Kentucky"). Under a wholesale power agreement, Grayson is committed to purchase its electric power and energy requirements from East Kentucky until 2051. The rates charged by East Kentucky are subject to approval of the PSC. The cost of purchased power is recorded monthly during the period in which energy is consumed, based upon billings from East Kentucky.

Fair Value Measurements The Fair Value Measurements and Disclosures Topic of the FASB ASC 820, Fair Value Measurements and Disclosures, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal, or most advantageous, market for the asset or liability in an orderly transaction between market participants at the measurement date. The Fair Values Measurements Topic establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs when possible. The three levels of inputs used to measure fair value are as follows:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measure and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The carrying amounts of Grayson's cash and cash equivalents, other receivables, inventories, accounts payable, accrued expenses and liabilities, approximate fair value due to their short maturity. Investments in associated organizations are not considered a financial instrument because they represent nontransferable interests in associated organizations. Other assets are not considered financial instruments because they represent activities specifically related to Grayson. Long term debt cannot be traded in the market, and is specifically for electric cooperatives and, therefore, a value other than its outstanding principal cannot be determined.

Grayson may, and also does, invest idle funds in local banks and in National Rural Utilities Cooperative Finance Corporation ("CFC") commercial paper. These investments are classified as held-to-maturity in accordance with provisions of the *Financial Instruments Topic* of FASB ASC 320. Held-to-maturity securities are presented at amortized cost. The fair value of held-to-maturity securities approximates cost at 2018 and 2017.

Risk Management Grayson is exposed to various forms of losses of assets associated with, but not limited to, fire, personal liability, theft, vehicular accidents, errors and omissions, fiduciary responsibility, workers compensation, etc. Each of these areas is covered through the purchase of commercial insurance.

Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates used in the preparation of the financial statements.

Note 1. Summary of Significant Accounting Policies, continued

Advertising Grayson expenses advertising costs as incurred.

Income Tax Status Grayson is exempt from federal and state income taxes under provisions of Section 501(c)(12). Accordingly, the financial statements for Grayson include no provision for income taxes. Grayson's accounting policy provides that a tax expense/benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. Management believes Grayson has no uncertain tax positions resulting in an accrual of tax expense or benefit. Grayson recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. Grayson did not recognize any interest or penalties during the years ended May 31, 2018 and 2017. Grayson's income tax return is subject to possible examination by taxing authorities until the expiration of related statues of limitations on the return, which is generally three years.

Comprehensive Income Comprehensive income includes both net margin and other comprehensive income. Other comprehensive income represents the change in funded status of the accumulated postretirement benefit obligation.

Significant Event During the audit period Grayson changed recognizing revenue to a billing cycle basis to more closely match revenue to power cost and to close its books on a more timely basis. This resulted in a reduction of revenues during the year in the amount of approximately \$1,687,000.

Subsequent Events Management has evaluated subsequent events through July 26, 2018, the date the financial statements were available to be issued. There were no significant subsequent events to report.

Note 2. Investments in Associated Organizations

Investments in associated organizations consist of:

| <u>2018</u> | <u>2017</u> |

| \$14,872,945 | \$14,368,019 |
| 178,656 | 169,283 |

| | \$14,872,945 178,656 622,441 779,707 |

Grayson records patronage capital assigned by associated organizations in the year in which such assignments are received. The CTC's from CFC are a condition of borrowing loan funds.

Note 3. Patronage Capital

Under provisions of the long-term debt agreement, return to patrons of capital contributed by them is limited to amounts which would not allow the total equities and margins to be less than 30% of total assets, except that distributions may be made to estates of deceased patrons. The debt agreement provides, however, that should such distributions to estates not exceed 25% of the net margins for the next preceding year, Grayson may distribute the difference between 25% and the payments made to such estates. At May 31, 2018, the equities and margins were 35% of total assets.

Note 4. Long Term Debt

All assets, except vehicles, are pledged as collateral on the long term debt to Federal Financing Bank (FFB), National Bank for Cooperative's (CoBank), and CFC under a joint mortgage agreement

First mortgage notes consist of:

| | <u>2018</u> | <u>20</u> 17 |
|--|--------------|--------------|
| FFB, 1.738% (0.203% in 2017) | \$23,854,431 | \$24,782,359 |

| Less current portion | 2,357,000 | 2,225,000 |
| Long term portion | \$38,612,114 | \$40,991,467 |

The long term debt payable to FFB, CoBank, and CFC are due in quarterly and monthly installments of varying amounts through 2039. RUS assess 12.5 basis points to administer the FFB loans. During 2011 and 2017 Grayson refinanced RUS loans with proceeds from CoBank and CFC, respectively. During 2013, Grayson advanced the 2.2% interest rate notes from CFC to finance the accelerated pension payment to NRECA. Grayson has unadvanced loan funds in the amount of \$14,325,000 from FFB. These funds will be used for future construction projects.

As of May 31, 2018, annual current principal due for the next five years are as follows: 2019 - \$2,357,000; 2020 - \$2,335,000; 2021 - \$2,146,000; 2022 - \$2,092,000; 2023 - \$2,101,000.

Note 5. Short Term Borrowings

Grayson has executed a short term line of credit agreement with CFC in the amount of \$6,000,000 and from CoBank in the amount of \$2,000,000. At May 31, 2018, Grayson advanced \$334,000 from CFC at an interest rate of 3.25% and from CoBank of \$1,275,000 at an interest rate of 4.09%.

Note 6. Pension Plan

All eligible employees of Grayson participate in the NRECA Retirement and Security Plan ("R&S Plan"), a defined benefit pension plan qualified under section 401 and tax exempt under section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The Plan sponsor's identification number is 53-0116145 and the Plan Number is 333. A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

Grayson's contributions to the R&S Plan in 2018 and 2017 represent less than 5 percent of the total contributions made to the plan by all participating employers. Grayson made contributions to the plan of \$715,904 in 2018 and \$653,479 in 2017. There have been no significant changes that affect the comparability of 2018 and 2017.

Note 6. Pension Plan, continued

In the R&S Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act ("PPA") of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the R&S Plan was over 85 percent funded at January 1, 2018 and 2017 based on the PPA funding target and PPA actuarial value of assets on those dates. Because the provisions of the PPA do not apply to the R&S Plan, funding improvement plans and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

At the December 2012 meeting of the I&FS Committee of the NRECA Board of Directors, the Committee approved an option to allow participating cooperatives in the Retirement Security ("R&S") Plan (a defined benefit multiemployer pension plan) to make a prepayment and reduce future required contributions. The prepayment amount is a cooperative share, as of January 1, 2013, of future contributions required to fund the R&S Plan's unfunded value of benefits earned to date using Plan actuarial valuation assumptions. The prepayment amount will typically equal approximately 2.5 times a cooperative's annual R&S Plan required contribution as of January 1, 2013. After making the prepayment, for most cooperatives the billing rate is reduced by approximately 25%, retroactive to January 1, 2013. The 25% differential in billing rates is expected to continue for approximately 15 years. However, changes in interest rates, asset returns and other plan experience different from that expected, plan assumptions changes, and other factors may have an impact on the differential in billing rates and the 15 year period.

Two prepayment options were available to participating cooperatives:

- 1. Use current assets to make the prepayment over a period of not more than 4 years, or,
- 2. Borrow funds sufficient to make the prepayment in a lump sum, with the prepayment of the borrowed amount determined by the loan's amortization schedule.

On February 14, 2013, RUS issued a memorandum to all of its borrowers regarding the proper accounting treatment of the R&S Plan prepayment. RUS stipulated that the prepayment shall be recorded as a long term prepayment in Account 186, Miscellaneous Deferred Debits. This prepaid expense shall be amortized to Account 926, Employee Pensions and Benefits, over a ten year period. Alternatively, RUS borrowers may calculate the amortization period by subtracting the cooperative's average age of its workforce as provided by NRECA from the cooperative's normal retirement age under the R&S Plan, up to a maximum period of 20 years. If the entity choses to finance the prepayment, interest expense associated with the loan shall be recorded in the year incurred as is required under the RUS Uniform System of Accounts ("USoA").

Section 6.13(e) of the RUS Loan Contract limits the amount of unsecured debt that a borrower may incur to 15% on Net Utility Plant if the equity level of the borrower, after considering such unsecured debt, is below 30% of its Total Assets, unless the borrower obtains RUS consent. RUS will consider any unsecured debt associated with the R&S Plan prepayment to be "Permitted Debt" and accordingly, it will be excluded from the application of Section 6.13(e). On March 15, 2013, the Cooperative made a prepayment of \$1,701,130 to the R&S Plan. The amount is being amortized over 15 years.

Note 7. Postretirement Benefits

Grayson sponsors a defined benefit plan that provides medical insurance coverage for retired employees and their spouses. Grayson pays all the premiums for retirees and their dependents. For measurement purposes, an annual rate of increase of 5% in 2018, then decreasing by 0.25% per year until 3% per year, in the per capita cost of covered health care benefit was assumed. The discount rate used in determining the accumulated postretirement benefit obligation was 4.5% in 2018 and 2017. There have been no significant changes that affect the comparability of 2018 and 2017.

Note 7. Postretirement Benefits, continued

The funded status of the plan is as follows:

| • | <u>2018</u> | <u>2017</u> |
|--|-----------------|---------------|
| Projected benefit obligation | (3,123,011) | (\$3,404,391) |

| Effect of 1% increase in the health care trend: | | |
| Postemployment benefit obligation | \$3,326,000 | |
| Net periodic benefit cost | \$313,300 | |

Projected retiree benefit payments for the next five years are expected to be as follows: 2019 - \$174,876; 2020 - \$165,569; 2021 - \$136,731; 2022 - \$111,246; 2023 - \$108,388.

Note 8. Commitments

Grayson has various other agreements outstanding with local contractors. Under these agreements, the contractors will perform certain construction and maintenance work at specified hourly rates or unit cost, or on an as needed basis. The duration of these contracts are one to two years.

Note 9. Environmental Contingency

Grayson from time to time is required to work with and handle PCBs, herbicides, automotive fluids, lubricants, and other hazardous materials in the normal course of business. As a result, there is the possibility that environmental conditions may arise which would require Grayson to incur cleanup costs. The likelihood of such an event, or the amount of such costs, if any, cannot be determined at this time. However, management does not believe such costs, if any, would materially affect Grayson's financial position or its future cash flows.

Note 10. Related Party Transactions

Several of the Directors of Grayson, its President & CEO, and another employee, are on the Boards of Directors of various associated organizations.

Note 11. Contingencies

Grayson is involved in litigation arising in the normal course of business. While the results of such litigation cannot be predicted with certainty, management, based upon advice of counsel, believes that the final outcome will not have a material adverse effect on the financial statements.

Note 12. Labor Force

Approximately 45% of Grayson's labor force is subject to a collective bargaining agreement. A five (5) year agreement was negotiated and approved for the period starting January 1, 2018 between Grayson and the International Brotherhood of Electric Workers ("IBEW").

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors Grayson Rural Electric Cooperative Corporation Grayson, Kentucky

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Grayson Rural Electric Cooperative Corporation, which comprise the balance sheets as of May 31, 2018 and 2017, and the related statements of revenue and comprehensive income, members' equities and cash flows for the years then ended, and related notes to the financial statements, and have issued my report thereon dated July 26, 2018.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered Grayson's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Grayson's internal control. Accordingly, we do not express an opinion on the effectiveness of Grayson's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors
Grayson Rural Electric Cooperative Corporation

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Grayson's financial statements are free of material misstatement, I performed test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance with Aspects of Contractual Agreements and Regulatory Requirements for Electric Borrowers

To the Board of Directors Grayson Rural Electric Cooperative Corporation Grayson, Kentucky

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Grayson Rural Electric Cooperative Corporation ("the Cooperative"), which comprise the balance sheet as of May 31, 2018, and the related statements of revenue and comprehensive income, patronage capital, and changes in cash flows for the year then ended, and the related notes to the financial statements, and have issued my report thereon dated July 26, 2018. In accordance with *Government Auditing Standards*, we have also issued my report dated July 26, 2018, on my consideration of the Cooperative's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. No reports other than the reports referred to above and my schedule of findings and recommendations related to my audit have been furnished to management.

In connection with my audit, nothing came to my attention that caused me to believe that the Cooperative failed to comply with the terms, covenants, provisions, or conditions of their loan, grant, and security instruments as set forth in 7 CFR Part 1773, *Policy on Audits of Rural Utilities Service Borrowers*, §1773.33 and clarified in the RUS policy memorandum dated February 7, 2013, insofar as they relate to accounting matters as enumerated below. However, my audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had I performed additional procedures, other matters may have come to my attention regarding the Cooperative's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they relate to accounting matters. In connection with my audit, I noted no matters regarding the Cooperative's accounting and records to indicate that the Cooperative did not:

- Maintain adequate and effective accounting procedures;
- Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;
- Reconcile continuing property records to the controlling general ledger plant accounts;
- Clear construction accounts and accrue depreciation on completed construction;
- Record and properly price the retirement of plant;

Board of Directors Grayson Rural Electric Cooperative Corporation

- Seek approval of the sale, lease, or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap;
- Maintain adequate control over material and supplies;
- Prepare accurate and timely Financial and Operating Reports;
- Obtain written RUS approval to enter into any contract for the management, operation, or maintenance of the borrower's system if the contract covers all or substantially all of the electric system;
- Disclose material related party transactions in the financial statements, in accordance with requirements for related parties in generally accepted accounting principles;
- Record depreciation in accordance with RUS requirements ("See RUS Bulletin 183-1, Depreciation Rates and Procedures");
- Comply with the requirements for the detailed schedule of deferred debits and deferred credits; and
- Comply with the requirements for the detailed schedule of investments, of which there were none.

My audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The detailed schedule of deferred debits and deferred credits required by 7 CFR Part 1773(h) and provided below is presented for purposes of additional analysis and is not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in my audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The deferred debits are as follows:

| Accelerated pension payment | \$836,170 |
|--------------------------------------|-------------|
| System mapping costs | 569,000 |
| | \$1,405,170 |
| The deferred credits are as follows: | |
| Consumer advances for construction | \$92,416 |

This report is intended solely for the information and use of the board of directors, management, RUS, and supplemental lenders and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distributions is not limited.

Bylaws of Grayson Rural Electric Cooperative Corporation

ARTICLE I MEMBERSHIP

SECTION 1. REQUIREMENTS FOR MEMBERSHIP. Any natural person, firm, association, corporation or body politic or subdivision thereof will become a member of Grayson Rural Electric Cooperative Corporation (hereinafter called the "Cooperative") upon receipt of electric services from the Cooperative, provided that he, she or it has first:

(a) Made a written application for membership therein;

(b) Agreed to purchase from the Cooperative electric energy as hereinafter specified;

(c) Agreed to comply with and be bound by the Cooperative's Articles of Incorporation, bylaws, and all rules, rate schedules and regulations adopted by the Board of Directors pursuant thereto (the obligation embraced such agreement being hereinafter called "membership obligations"), as all the same shall then exist or may thereafter be duly adopted or amended by the Board of Directors.

(d) Paid the membership fee together with any service security deposit, service connection deposit or fee, facility extension fee or contribution in aid of construction (hereinafter referred to as other deposits or fees) that may be required by the Cooperative, which membership fee and other deposits or fee shall be refunded in the event the application is denied by the Board.1 Provided, however, that the Board of Directors may, by resolution, deny an application and refuse to end service upon its determination that the applicant is not willing or is not able to satisfy and abide by the Cooperative's terms and conditions of membership or that such application should be denied for other good cause; provided further, however, that any person whose application, for 60 days or longer, has been submitted, but not denied by the Board of Directors and who has not been connected by the Cooperative for electric service may, by filing written requests therefore with the Cooperative at least 30 days prior to the next meeting of the Board of Directors, have his application submitted to and approved or disapproved by the vote of the Directors at such meeting.

No member may hold more than one membership in the Cooperative, and no membership in the Cooperative shall be transferrable, except as provided in these bylaws. Upon death of a member the membership may be transferred to the surviving spouse provided the surviving spouse requests such transfer and the transfer is not a violation of the deceased's Will. (Amended 1/26/96)

SECTION 2. JOINT MEMBERSHIP. A husband and wife may apply for a joint membership and, both spouses must sign the completed application and, subject to their compliance with the requirements set forth in Section 1 of this Article, may be accepted for such membership. The term "member" as used in these bylaws shall be deemed to include a husband and wife holding a joint membership and any provisions relating to the rights and liabilities of membership shall apply equally with respect to the holders of a joint membership. Without limiting the generality of the foregoing, the effect of the hereinafter specified actions by or in respect of the holders of a joint membership shall be as follows:

- (a) The presence at a meeting of either or both shall be regarded as the presence of one member and shall constitute a joint waiver of notice of the meeting;
- (b) The vote of either separately or both jointly shall constitute one joint vote;
- (c) A waiver of notice signed by either or both shall constitute a joint waiver;
- (d) Notice to either shall constitute notice to both;

(e) Expulsion of either shall terminate the John 1 of 8 membership:

(f) Withdrawal of either shall terminate the joint membership;

(g) Either, but not both, may be elected or appointed as an officer or board member, provided that both meet the qualifications for such office;

(h) Neither will be permitted to have any additional service connections except through their one joint membership. (Amended 1/26/96)

SECTION 3. CONVERSION OF MEMBERSHIP.

- (a) A membership may be converted to a joint membership upon the written request of the holder thereof and the agreement by such holder and his or her spouse to comply with the Articles of Incorporation, bylaws and rules and regulations adopted by the Board. (Amended 1/26/96)
- (b) Upon the death of either spouse who is a party to the joint membership, such membership shall be held solely by the survivor. However, the estate of the deceased shall not be released from any debts due the Cooperative. (Amended 1/26/96)

SECTION 4. PURCHASE OF ELECTRIC ENERGY. Each member shall, as soon as electric energy shall be available, purchase from the Cooperative all electric energy used on the premises specified in his application for membership, and shall pay therefore at rates which shall from time-to-time be fixed by the Board. It is expressly understood that amounts paid for electric energy in excess of the cost of service are furnished by members as capital and each member shall be credited with the capital so furnished as provided in these bylaws. Each member shall pay to the Cooperative such minimum amount regardless of the amount of electric energy consumed, as shall be fixed by the Board from time-to-time. Each member shall also pay all amounts owed by him to the Cooperative as and when the same shall become due and payable. (Amended 1/26/96)

A member may have more than one (1) bill for electric service monthly. Any payment for electric service that does not specify a specific account number to be paid shall be prorated proportionately to all existing accounts, currently receiving service

under that membership, based upon the outstanding balances due at the time payment is received, with the exception that all past due balances shall be credited up to the amount of the payment. Any remaining credit shall then be prorated to any current balances due. (Amended 6/21/85)

SECTION 5. TERMINATION OF MEMBERSHIP.

- Any member may withdraw from membership upon compliance with such uniform terms and conditions as the Board may prescribe. The Board may, by the affirmative vote of not less than two-thirds of all members of the Board, expel any member who fails to comply with any of the provisions of the Articles of Incorporation, bylaws or rules and regulations adopted by the Board, but only if such member shall have been given written notice by the Cooperative that such failure makes him liable to expulsion and such failure shall have continued for at least ten (10) days after such notice was given. Any expelled member may be reinstated by vote of the Board or by vote of the members at any annual or special meeting. The membership of a member who for a period of six (6) months after service is available to him, has not purchased electric energy from the Cooperative, or of a member who has ceased to purchase energy from the Cooperative, may be cancelled by resolution of the Board.
- (b) Termination of membership in any manner shall not release a member or his estate from any debts due the Cooperative. (Amended 1/26/96.)
- (c) In case of withdrawal or termination of membership in any manner, the Cooperative shall repay to the member the amount of the membership fee paid by him, provided, however, that the Cooperative shall deduct from the amount of the membership fee the amount of any debts or obligations owed by the member to the Cooperative. (Amended 9/24/82)

The Board of Directors may expel from membership and/or discontinue or refuse electric service to any member who fails or refuses to comply with the provisions of this bylaw. (Amended 1/26/96)

SECTION 7. SERVICE TO NON-MEMBERS. The Cooperative shall render service to its members only; provided, however, that service may be rendered with Board approval upon the same terms and conditions as are applicable to members, to governmental agencies and political subdivisions, and to other persons not in excess of ten per centum (10%) of the number of its members; and provided further, that should the Cooperative acquire any electric facilities dedicated or devoted to the public use it may, for the purpose of continuing service and avoiding hardship and to an extent which together with all other persons served by the Cooperative on a non-member basis shall not exceed forty per centum (40%) of the total number of persons served by the Cooperative, continue to serve the persons served directly from such facilities at the time of such acquisition without requiring that such persons become members; and provided further that such non-members shall have the right to become members upon nondiscriminatory terms. Grayson Rural Electric Cooperative
Case No. 2018-00272
December 31, 2017

Payroll Adjustment

To reflect the increase granted by the Board of Directors, the step increases and promotions during the year. To give recognition to employees terminated, retired, and employed during the test year. Increases are granted on the anniversary date of each non-bargaining employees. Wage increases for bargaining unit employees are January 1st of each year. Overtime pay is calculated at 1-½ times regular pay.

The Vacation Policy allows for payment after an employee becomes eligible for fifteen (15) or more annual vacation days. At the option of the Cooperative, an employee may receive pay at their base hourly rate in lieu of five (5) work days (40 hours) of vacation time, not to exceed two (2) weeks per year. If Grayson would not make payment for excess hours, employees would take the medical day and be absent from work instead of forfeiting the hours. This would cause a disruption in the work force and the timing of work crews, customer service representatives, and other departments. To ensure continuity of work, Grayson has elected to pay employees for the hours rather than allowing employees to take time off just to keep from forfeiting hours. The payment for excess hours during the test year will be representative of future years' payments for excess medical leave hours.

Grayson has always hired summer and part-time employees, and anticipates this will continue into future years. These employees were normalized at the same rate and hours during the test year.

The amount of increase was allocated based on the actual test year.

| Adjustment | \$60,428 |
|------------------|-------------|
| Test year wages | 3,409,077 |
| Normalized wages | \$3,469,505 |

Wage and salary increases for the test year and previous five (5) years are as follows:

|------|-------------|-------------|
| | Bargaining | Bargaining |
| 2018 | \$0.50 / hr | \$0.50 / hr |
| 2017 | \$1.25 / hr | 3.67% |

| 2015 | \$1.25 / hr | 3.96% |
| 2014 | \$1.25 / hr | 4.12% |
| 2013 | \$1.25 / hr | 3.29% |

Grayson Rural Electric Cooperative Case No. 2018-00272 December 31, 2017

Depreciation Expense

Depreciation is computed on a composite basis. The ending plant balance is multiplied by rates that are within RUS approved guidelines. Depreciation rates and procedures follow RUS Bulletin 183-1. Grayson has had a depreciation study performed as of December 31, 2007, and was submitted and approved by this Commission in Case No. 2008-00254.

Depreciation on transportation equipment is charged to a clearing account. Transportation costs are then cleared to various accounts based on time used for each vehicle from the daily time sheets of employees driving the vehicles.

Items of general plant that are fully-depreciated have been removed from the calculations in order to determine the normalized depreciation cost. These amounts have been separated on the right hand column of the normalized calculation.

Grayson Rural Electric Cooperative Case No. 2018-00272 Professional Services

The Board of Directors has a responsibility to select an attorney to represent the board and cooperative to maintain the legal entity. The duties and responsibilities of the attorney are to perform routine services, special services, and other services for the cooperative. The attorney also attends the monthly and special board meetings. Services are billed at the normal hourly billing rates for the attorney and his staff.

The Board of Directors hires the outside auditor to perform the annual audit.

Adjustments are to remove items that are normally excluded or rate-making purposes. Among the expenses excluded are costs for attending legal seminars, health insurance premiums, Christmas gifts, and costs for one-time events.

The list of \$34,778 of costs that have been removed for rate-making purposes is attached.

Grayson Rural Electric Cooperative Case No. 2018-00272 Director Fees and Expenses

Certain director expenses are removed for rate-making purposes. These costs include director health insurance, directors' per diems, Christmas gifts, attending the Legislative conference, directors attending either the KAEC annual meeting or EKPC annual meeting, when the director is not the representative for the respective organization. The 2017 NRECA Annual Meeting was held in San Diego. No directors attended that meeting.

Expenses that are not removed for rate-making purposes include costs of attending NRECA director training/education seminars. These seminars are critical for directors to be updated on events and activities related to the electric industry. Also included is D-O-M Liability Insurance that protects the directors for decisions they make on a monthly basis. Without DOM insurance, directors would be hesitant to make any decisions as members, consumers, or any person could file a legal claim against the director(s).

A copy of the Board Policy No. 110 regarding "Compensation, Expenses, and Travel of Directors" is attached.

Costs removed for rate-making purposes of \$82,126 are detailed on the following pages.

GRAYSON RURAL ELECTRIC COOPERATIVE CORPORATION GRAYSON, KENTUCKY

BOARD POLICY NO. 110

SUBJECT: COMPENSATION, EXPENSES AND TRAVEL OF DIRECTORS

I. <u>OBJECTIVE</u>

To ensure that Directors of GRAYSON RURAL ELECTRIC COOPERATIVE CORPORATION are fairly compensated for their efforts on behalf of the Cooperative.

II. <u>POLICY</u>

A. Per Diem and Travel

- Directors shall, as determined by resolution of the Board of Directors, receive on a per diem basis a fixed fee for attending meetings of the Board of Directors. If a Director is unable to attend a regularly scheduled meeting or a specially called meeting due to circumstances beyond his/her control such as jury duty or a family medical emergency. It must be recognized that a board member would have invested time toward the studying and preparation of board meeting material for the subsequent meeting. Therefore, he or she shall be compensated up to two times per year under such circumstances. If a Director chooses to be absent for any other reason, compensation will not be paid.
- Attendance at meetings other than regular monthly board meetings requires the prior approval of the Board.
- 3. Directors shall observe the following guidelines when determining representation of the Cooperative at necessary functions.
 - A. All Directors are eligible to attend the NRECA Annual Meeting, NRECA Region II & III Meeting, KAEC Annual Meeting, and EKP Annual meeting and any other meeting to which the Chair shall appoint them to attend as a representative of the Cooperative.
 - B. Directors may choose 10 optional days of meetings or classes per year that will strengthen their ability to serve the Cooperative in an effective manner. Travel time to and from meetings will count as optional days. Every effort will be made to insure that the Cooperative is represented at a wide variety of functions to utilize information and technologies available to us.
 - C. Directors who are seeking Board Certification will be encouraged to do so as quickly as their personal schedules permit. Additional certification is also encouraged, but requires prior approval of the Board.
 - D. Directors may, from time to time, be called upon or appointed by the Chair to attend additional functions as a representative of the full Board.
- 4. Directors will receive a per diem for (1) day each of travel time, both before and after the meeting (if necessary), a total of two (2) days per diem allowed for travel.

GRECC BOARD POLICY 110 Page 2

B. Travel and Out-of-Pocket Expenses

- 1. Directors shall also receive advancement or reimbursement of any travel and out-of-pocket expenses actually, necessarily and reasonably incurred in performing their duties.
- Normal expenses incurred during travel time will be paid by the Cooperative but the per diem for travel is limited to the two (2) days stated above. Receipts for expenses must be presented for reimbursement and receipts for charges to Cooperative credit cards must be presented to verify charges as billed.
- 3. Prior approval of the Board is required in the event of a spouse of a Director or employee attending an official function on behalf of the Cooperative. In those cases, expenses incurred by him/her shall be paid by the Cooperative.

C. Insurance Compensation

Active Directors, Attorney and Dependents

The medical insurance coverage for the Attorney and his family shall be a part of his contract with the Cooperative.

MEDICAL INSURANCE

Active Directors and their Dependents are entitled to medical insurance coverage under the current plan carried by the Cooperative in the capped amount of \$814.80 per month for a family plan or \$327.24 for a single participant. If a Director or their Dependents participate in the medical insurance program, any increase in premiums as of January 1, 2002 will be paid by the participant.

If a director leaves the board for any reason, he/she and his/her dependants forfeit paid medical insurance coverage.

CASH IN LIEU OF INSURANCE

Active Directors may elect to receive cash in lieu of insurance at the rate of \$637.63.

WHEN A DIRECTOR LEAVES THE BOARD

If a Director leaves the Board for any reason he/she can voluntarily purchase medical insurance coverage at the rate charged by the insurance carrier. This shall also apply to spouses and dependents. In the event of the death of a Director, spouses and dependents will still be eligible to purchase medical insurance, at the rate being charged by the insurance carrier.

Certain Directors are exempt from this policy due to Board action taken January 2000. A list of those exempted is a part of the minutes of the November 2001 Board meeting.

GRECC BOARD POLICY 110 PAGE 3

Past Directors and Dependents

If a Director leaves the Board for any reason, he/she can voluntarily purchase medical insurance coverage at the rate charged by the insurance carrier. Spouses and dependents are also eligible to purchase medical insurance coverage. No cash in lieu of insurance will be paid for any reason after a Director leaves the Board with the exception of those Directors who were exempted by Board action January 2000. A list of those exempted is a part of the minutes of the November 2001 Board meeting.

If a past Director returns to the board for any reason, he or she will be considered a new director. He or she will be eligible for medical insurance benefits only as long as they serve on the Board. Once they leave the Board of Directors for any reason, they are not eligible to receive any medical benefits as outlined above.

D. Other Compensation

Directors will not receive compensation for serving the Cooperative in any other capacity, unless the employment or the service of such Director is temporary and shall be specifically authorized by a vote of the Board upon their resolved determination that such was an emergency measure; provided, that a Director who is also an officer of the Board, and who as such officer performs regular or periodic duties of a substantial nature for the Cooperative in its fiscal affairs, may be compensated in such amount as shall be fixed and authorized in advance of such service by the Board of Directors.

m. RESPONSIBILITY

It shall be the responsibility of the Chairman of the Board of Directors to see that this policy is adhered

AGREEMENT

THIS AGREEMENT, made and entered into this 1st day of January, 2018, by and between the GRAYSON RURAL ELECTRIC COOPERATIVE CORPORATION OF GRAYSON, KENTUCKY, hereinafter referred to as the COOPERATIVE, and LOCAL UNION NO. 317 of the INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, AFL-CIO, hereinafter referred to as the UNION, as the collective bargaining representative for the employees of the COOPERATIVE in the classifications listed in Article VIII, Section 5 of this Agreement.

WITNESSETH:

WHEREAS, the COOPERATIVE and the UNION have a common and sympathetic interest in the electrical industry, and together with the Public will benefit from harmonious working arrangements for the adjustments of differences by rational and common sense methods, and therefore, for the purpose of facilitating the peaceful adjustments of differences that may arise from time to time, and to promote harmony and efficiency to the end that the COOPERATIVE, the UNION and the GENERAL PUBLIC may be benefited, the parties hereto contract and agree with each other as follows:

TO WIT:

ARTICLE I SCOPE

This Agreement shall constitute the complete agreement between the parties hereto with reference to wages, hours, working conditions and conditions of employment. Any additions, waivers, deletions, changes, amendments or modifications that may be made to this Agreement shall be effected through the collective bargaining process between authorized representatives of the COOPERATIVE and the UNION, subject to ratification by the employees of the COOPERATIVE covered by this Agreement. All other understandings between the parties not incorporated herein by reference or otherwise, at the effective date of this Agreement, are hereby terminated, with the exception of existing policies of the COOPERATIVE covering health and sanitation of employees while at work, which may or may not be incorporated in this Agreement. Any interpretation of this Agreement or of amendments hereto can be a proper subject for the grievance procedure.

ARTICLE II RECOGNITION

Section 1. In conformity with the Labor Management Relations Act of 1947, as amended, the COOPERATIVE recognizes the UNION as the sole and exclusive bargaining agent for those hourly employees, excluding salaried, supervisory and office personnel, included in the National Labor Relations Board Certification No. 9 RC-4683 with respect to rates of pay, wages, hours of employment, and other conditions of employment. The COOPERATIVE will bargain with no other UNION for the representation of employees within the bargaining unit during the life of this Agreement.

Section 2. The term "employee" as used herein shall mean any person represented by the UNION as set forth in Article II. Section 1 of this Agreement.

Section 3. As a means of informing all employees as to their rights, privileges and obligations under this Agreement, the UNION agrees to furnish a copy of this Agreement to each employee.

Section 4.

(a) The parties recognize that Kentucky Statute KRS 336.130 (3) (a) prohibits a union or agency shop agreement. Consequently, for as long as laws prohibiting a union or agency shop are in effect, the provisions of subsection 4 (b) below shall not be effective. However, if during the life of this Agreement, Federal or State Statutes are changed by act of a legislative body or by popular vote, such that union or agency shop provisions are no longer prohibited, or if laws prohibiting union or agency shop provisions are declared unlawful, then the provisions of subsection 4(b) will become effective where so permitted.

Page 6 of 51

(b) All employees who are members of the UNION on the effective date of this Agreement shall be required to remain members of the UNION in good standing as a condition of employment during the term of this Agreement. Huntington Local 317 will provide the COOPERATIVE with an enrollment card for any new UNION member before the 31st day of employment, so that UNION dues can be added to his/her payroll deduction. The COOPERATIVE agrees to collect UNION dues and remit them to Huntington Local 317 on a quarterly basis, and also to collect kitty fund dues and remit them to Local 317 treasurer on a monthly basis. New employees and employees who are not now members of the UNION shall be required to become and remain members of the UNION in good standing as a condition of employment within thirty-one (31) days following the date of their employment or the effective date of the Agreement, whichever is later. The terms of this Agreement shall apply to all such employees prior to their becoming members of the UNION.

Section 5. The COOPERATIVE agrees not to discriminate against any employee on account of UNION membership or UNION activity. The Employer shall, for the term of this Agreement, deduct, in addition to union dues, initiation fees, as authorized, arrears, assessments, or service fees, in an amount authorized by the Union from the weekly wages of employees covered by this Agreement who individually and voluntarily certify in writing authorization for such deductions. Any meal allowance will be paid within seven (7) days of the submission of a receipt.
- (c) No time will be deducted for meal periods during such overtime work, it being understood that they will be made as short as possible.

Lawrence County and Eastern Elliott County
Elliott County and West Carter County
Middle Carter County and North Elliott County
North Carter County and South Greenup County
North Greenup County and Lewis County

There shall be two (2) overtime areas, north of Grayson Lake and south of Grayson Lake. The boundaries of these areas shall be defined exclusively by the President and CEO and shall be based on the changing demographics of the COOPERATIVE.

Maintenance personnel assigned to each section of these areas shall be first called for overtime. He/she shall be assisted by the next available Construction Department employee who is qualified for the necessary work, with consideration given to the fair and equitable distribution of available overtime work. A record of all employees called, available and unavailable, shall be kept by the Dispatcher and by the Accounting/Payroll Clerk. In fairness to all employees, every effort shall be made to equitably distribute overtime among employees in each classification within each service area. This does not, however, restrict qualified employees from working where ever necessary. Maintenance Leadmen should make every effort to call the classification necessary to perform the job safely.

It should be recognized that some departments offer very little overtime, but should be allowed to share in overtime in other departments on work they are qualified to do and make themselves available for.

Distribution of overtime shall be considered equitable if employees who live in the sections/areas defined by the **COOPERATIVE** are within one week (40 hours) of each other.

The goal of the COOPERATIVE is to minimize the length of time any member is out of power. Every effort will be made, consistent with COOPERATIVE policy, to balance fairness of overtime with minimal response time.

- (a) Applicable overtime lists which have been established shall be posted and kept up-to-date as overtime occurs.
- (b) When determined during a standard workday that additional personnel are needed for a period of time after the end of the standard workday, the overtime will be offered to those employees who are working.
- (c) If a new employee is hired or if an employee moves to a new department he/she shall be put on the Called Overtime list according to his/her seniority and charged with the same hours as the person of the same classification having the maximum hours charged on the list.
- (d) Employees who miss overtime because they are absent for any reason, or who refuse when offered, or who are not readily available by telephone, will be charged overtime as having been offered the overtime. The Department Head or Dispatcher shall maintain a record of telephone contacts and such record will be made available to the President on request. Time shall be charged against an employee who is unavailable due to worker's compensation, sick leave, vacation or personal leave, or any other reason.

Excessive refusal or unavailability for overtime can cause undue hardship on other employees and will not be tolerated by management. Excessive unavailability may subject an employee to disciplinary measures. It is the responsibility of every employee to make themselves available for work during times of emergency, and in such cases, to contact COOPERATIVE personnel for instruction.

7

- (e) Overtime of less than thirty (30) minutes will not be charged.
- (f) On the effective date of this Agreement all prior records of overtime are null and void.
- **Section 15.** Overtime shall not be duplicated for the same hours under any of the terms of this Agreement, and to the extent that hours are compensated for as overtime under one provision they shall not be counted as hours worked in determining overtime compensation under the same or any other provisions, except as specifically provided therefore.
- Section 16. An employee who has completed his/her probationary period and is a member of a reserve component of the Armed Forces and who is required to enter upon active annual temporary training duty, shall be paid the difference between the amount of pay he/she received from the Federal or State government for such duty and his/her base hourly rate for the time lost while on such duty up to a maximum period of two (2) weeks per year, subject to the following provisions:
 - (a) An employee must submit to his/her Department Head, as soon as possible after receipt, evidence of orders to report for training.

- (b) An employee who is required to work overtime and who works ten (10) or more continuous and successive hours will be paid a meal allowance, by attaching a receipt for the meal with the names of all workers who ate written on back, unless the meal is provided by the COOPERATIVE. He /she shall be assisted by the next available Construction Department employee who is qualified for the necessary work, with consideration given to the fair and equitable distribution of available overtime work. A record of all employees called, available and unavailable, shall be kept by the Dispatcher and by the Accounting/Payroll Clerk. In fairness to all employees, every effort shall be made to equitably distribute overtime among employees in each classification within each service area. This does not, however, restrict qualified employees from working where ever necessary. Maintenance Leadmen should make every effort to call the classification necessary to perform the job safely.

It should be recognized that some departments offer very little overtime, but should be allowed to share in overtime in other departments on work they are qualified to do and make themselves available for.

Distribution of overtime shall be considered equitable if employees who live in the sections/areas defined by the **COOPERATIVE** are within one week (40 hours) of each other.

The goal of the COOPERATIVE is to minimize the length of time any member is out of power. Every effort will be made, consistent with COOPERATIVE policy, to balance fairness of overtime with minimal response time.

- (a) Applicable overtime lists which have been established shall be posted and kept up-to-date as overtime occurs.
- (b) When determined during a standard workday that additional personnel are needed for a period of time after the end of the standard workday, the overtime will be offered to those employees who are working.
- (c) If a new employee is hired or if an employee moves to a new department he/she shall be put on the Called Overtime list according to his/her seniority and charged with the same hours as the person of the same classification having the maximum hours charged on the list.
- (d) Employees who miss overtime because they are absent for any reason, or who refuse when offered, or who are not readily available by telephone, will be charged overtime as having been offered the overtime. The Department Head or Dispatcher shall maintain a record of telephone contacts and such record will be made available to the Steward on request. Time shall be charged against an employee who is unavailable due to worker's compensation, sick leave, vacation or personal leave or any other reason.

Excessive refusal or unavailability for overtime can cause undue hardship on other employees and will not be tolerated by management. Excessive unavailability may subject an employee to disciplinary measures. It is the responsibility of every employee to make themselves available for work during times of emergency, and in such cases, to contact COOPERATIVE personnel for instruction.

- (e) Overtime of less than thirty (30) minutes will not be charged.
- (f) On the effective date of this Agreement all prior records of overtime are null and void.

Section 15. Overtime shall not be duplicated for the same hours under any of the terms of this Agreement, and to the extent that hours are compensated for as overtime under one provision they shall not be counted as hours worked in determining overtime compensation under the same or any other provisions, except as specifically provided therefore.

Section 16. An employee who has completed his/her probationary period and is a member of a reserve component of the Armed Forces and who is required to enter upon active annual temporary training duty, shall be paid the difference between the amount of pay he/she received from the Federal or State government for such duty and his/her base hourly rate for the time lost while on such duty up to a maximum period of two (2) weeks per year, subject to the following provisions:

- (a) An employee must submit to his/her Department Head, as soon as possible after receipt, evidence of orders to report for training.
- (b) When the employee returns to work he/she must submit to his/her Department Head a statement supporting payment for such duty.
- (c) Time off from work paid for under this section will not be counted as hours worked in the computation of overtime or premium pay.

ARTICLE VIII WAGES

Section 1. The base hourly rates, labor grades and job classifications as set forth in Section 6 of this Article shall have been fixed on a permanent basis which remains in effect for the duration of this Agreement.

Section 2. An employee who moves to a classification having a higher labor grade shall begin at the starting rate of the higher labor grade. However, if such starting rate is the same or less than his/her existing rate, he/she shall begin at the next step rate of the higher labor grade above his/her existing rate, but not to exceed the maximum.

Section 3. An employee who at the request of the COOPERATIVE is temporarily required to do the work in a classification other than his/her own shall suffer no reduction in his/her rate of pay. An employee assigned temporarily to do work in a job classification in a higher labor grade will be paid at the starting rate for the higher labor grade.

Section 4. An employee recalled to a classification will assume a rate at the same relative position in the rate range as he/she had established when placed on the recall list for such classification.

Section 5. The COOPERATIVE agrees to pay Maintenance Leadman's pay to at least one person in the north area and the south area at all times. It shall be at the discretion of the COOPERATIVE whether to substitute a Maintenance Leadman on a daily basis, in accordance with the work load. ARTICLE XIV MISCELLANEOUS

Section 1. Non-bargaining unit personnel shall not be prevented from performing necessary functions such as instruction or assistance to employees, provided the assistance rendered does not displace any of their personnel doing the work, or from operating equipment or processes in emergencies or for experimental, developmental, statistical and engineering purposes.

Section 2.

- (a) The COOPERATIVE will contract as it deems necessary with experienced professional engineering firms registered in Kentucky, to perform work of a developmental, experimental, statistical or engineering nature, and such firm may perform manual work as required by professional employees within its employment, or the COOPERATIVE may assign employees of the bargaining unit to work with employees of the firm as shall be arranged between the COOPERATIVE and the firm so contracted with.
- (b) The COOPERATIVE agrees that in its notice to Bidders for the construction, erection and/or purchasing of electric utility plant, a statement will be made that this agreement exists between the UNION and the COOPERATIVE.
- (c) The COOPERATIVE will contract, as it deems necessary, for the construction and/or erection of electric transmission, generation and/or distribution plant, building and equipment, and single-phase, membership extensions. The COOPERATIVE will discuss with employees prior to executing such contract, whenever cost analysis indicate the need to contract for labor. It is agreed that Local Union No. 317 of International Brotherhood of Electric Workers may place on file with the COOPERATIVE a list of contractor's signatory to an agreement with I.B.E.W. The COOPERATIVE agrees to send notice to bid on proposed contracts to the contractors on said list. Contracts for construction of single-phase membership extensions will not be executed to replace any employee presently on the active recall list.
- **Section 3.** No employee shall be discriminated against by reason of race, color, or national origin, age or handicap.
- **Section 4.** The UNION shall be permitted the use of exclusive bulletin space in the main office and garage readily accessible to employees for the purpose of posting notices and announcements of official UNION business. The COOPERATIVE will be advised of all such notices before posting.
- **Section 5.** The UNION agrees to furnish the COOPERATIVE with a current list of its accredited representatives. The COOPERATIVE agrees to furnish the UNION with a current list of supervisors concerned with the administration of the provisions of this Agreement. Revisions to such lists are to be furnished as changes are made by either party.
- **Section 6.** The COOPERATIVE will give the UNION prior written notice, where practicable, of changes in policies contained in the COOPERATIVE's Policy Manual which directly affect employees of the bargaining unit.

Page 48 of 51

Section 7. In the event that any of the provisions of this Agreement are found to be in conflict with any valid Federal or State laws now existing or hereinafter enacted, it is agreed that such law shall supersede the conflicting provisions without in any way affecting the remainder of these provisions.

Section 8. Should any job classification be omitted from Article VIII, Section 6, or created after the signing of this Agreement, the UNION and the COOPERATIVE shall meet and negotiate to amend this Agreement to include such classification.

Section 9. The COOPERATIVE acknowledges receipt of a copy of the constitution of the INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS and the UNION agrees to notify the COOPERATIVE of any changes or amendments thereof within sixty (60) days after they become effective.

Section 10. Dues Deduction. Effective First day of July, 1975. (Amended 5/1/75) Subject to applicable laws and upon receipt of a written authorization from an employee within the bargaining unit, written on a form approved by the COOPERATIVE, the COOPERATIVE shall deduct from each weekly pay due such employee union dues not to exceed an amount certified by the UNION. Such authorization shall continue in effect for the duration of this agreement, or until receipt by the COOPERATIVE of a written notice of revocation of such authorization by the employee, or when the employee ceases to be represented by the UNION in the bargaining unit, whichever occurs earlier.

The COOPERATIVE shall have no obligation to collect UNION dues for any week in which the employee's pay (after all other deductions) is less than the amount of such dues.

The UNION shall indemnify and save the COOPERATIVE harmless against any and all claims, demands, lawsuits, or other forms of liability that may arise out of or by reason of action taken by the COOPERATIVE in making payroll deductions of UNION membership dues as hereinabove defined.

The sum of UNION dues so collected shall be paid quarterly by the COOPERATIVE to the Financial Secretary of Local Union #317 of the INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, AFL-CIO. The Financial Secretary will issue a receipt in the name of the Local Union for each payment. The COOPERATIVE shall prepare and submit to the Financial Secretary quarterly a list of employees from whom UNION dues deductions were designating the amount deducted from each employee, plus a list of the names of employees removed from or added to the payroll during the current quarter.

ARTICLE XV EMPLOYEES' COOPERATION

Section 1. It is understood by both parties hereto that a greater part of the COOPERATIVE's lines are rural lines and that the revenue from said lines does not justify the paying of the same rate of pay as urban utilities' rates of pay, and that the workmen of the COOPERATIVE shall not follow the usual strict lines of demarcation of limited services usually specified to each class of workmen. It is therefore agreed by the UNION that all employees regardless of their classification, shall assist fellow employees in any work they are capable of doing or may be called on to perform that tends to expedite the business of the COOPERATIVE and on the particular job to which they have been assigned.

ARTICLE XVI TERM OF AGREEMENT

Section 1. This Agreement shall become effective as of January 1, 2013. Except as provided in Section 3 below, it shall continue in effect for a term of approximately five (5) years until 12:01 a.m., <u>January 1, 2018</u>, and shall automatically be renewed thereafter from year to year unless written notice is given by either party sixty (60) days prior to the expiration date that it is desired to terminate or amend this Agreement.

Section 2. Both notice of request for re-negotiation and lists of items to be amended will be sent by registered mail to the following:

(a) INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, LOCAL UNION NO. 317,

(b) GRAYSON RURAL ELECTRIC COOPERATIVE CORPORATION, Grayson, KY.

Section 3. Successor Clause

This agreement shall be binding upon the parties hereto, their successors and assigns. In the event that the Employer sells or transfers that part of its operations covered by this Agreement, such part of its operations shall continue to be subject to the terms and conditions of this Agreement for the term of said Agreement. The employer shall give notice of the existence of this Agreement to any purchaser or transferee of that part of the Employer's operation covered by this Agreement.

ARTICLE XVII APPROVAL

This Agreement between the UNION and the COOPERATIVE is subject to ratification by the employees covered by this agreement and to the approval of the International Office of the UNION and shall be effective only if so approved.

IN WITNESS WHEREOF the duly chosen representatives of the parties to this Agreement have hereunto set their hands this 20th day of December 2012.

GRAYSON RURAL ELECTRIC COOPERATIVE CORPORATION

BOARD POLICY NO. 204

SUBJECT: EQUITY MANAGEMENT/CAPITAL CREDITS POLICY

I. OBJECTIVE

- A. Assure the financial integrity of Grayson Rural Electric Cooperative Corporation at all times so that it can be certain of providing high quality electric service on a continuing basis to its members.
- B. Establish means whereby Grayson Rural Electric Cooperative Corporation's members will, in fact, receive electric service at cost taking into account reasonable reserves for proper operations and maintenance of the system), and as a result, enable them to clearly see the benefits of receiving service from their Cooperative as compared to an investor-owned utility or municipality.
- C. To establish the standards, rules, methodologies and procedures governing the Cooperative's retirement of capital credits.

II. POLICY

- A. Capital credit retirements will be made only upon authorization by the Board of Directors based upon its determination that such is in the best interest of the Cooperative and will not impair the Cooperative's financial condition. Such retirements shall also be subject to any applicable restrictions contained in the Cooperative's mortgages or loan contracts with the United States Rural Utilities Service (RUS), National Rural Utilities Cooperative Finance Corporation (CFC) or any other lender of funds to the Cooperative and shall also be subject to any orders or regulations of the Public Service Commission of Kentucky (PSC) as are applicable to the Cooperative.
- B. Capital credits will be paid on a discounted basis, at the discretion of the Board of Directors, including deceased estates which shall be paid up to the date of death of the deceased member.
- C. No retirement of capital that has been separately accounted for and credited to a patron in relation to capital credits issued to the Cooperative by an affiliated organization (such as G & T) shall be authorized or made until and unless the Cooperative shall have received its own retirement of such credits in cash or by way of billing credits.
 - 1. Estates of deceased members will be paid first should capital credit refunds be appropriated under the guidelines of (A) above.
 - Capital credits will first be applied to any indebtedness owed to the Cooperative and then may be paid by check or by way of billing credits, whichever is decided to be most effective and in the Cooperative's best interest.
 - 3. In accordance with the Bylaws of the Cooperative, Article I., Section 1, "Upon the death of a member the membership may be transferred to the surviving spouse provided the surviving spouse requests such transfer and the transfer is not a violation of the deceased's Will." At that time the surviving spouse may apply for the capital credits accrued to the estate of the deceased member.
- D. Capital credits will be accrued to the date of death of the member. If there is no surviving spouse, application for payment of capital credits can be made by the legal representative of the estate or its' heirs. All capital credits accrued after the death of a member shall be forfeited unless the account is transferred in accordance with Cooperative policies within six months of the death of said member to

GRECC BOARD POLICY NO. 204 PAGE 2

the surviving spouse. If the legal representative(s) of a deceased member's estate shall request in writing that the capital credited to the account of the deceased member be paid, the Board of Directors, acting under such terms and conditions of the Cooperative's Bylaws, shall approve the payment of capital credits assigned at the time of application, to the estate of the deceased member. However, the financial condition of the Cooperative must not be impaired thereby. No account can be left in the name of the deceased member. Any additional capital credits assigned to a deceased member's account shall be paid at the next general rotation of capital credits, at the discretion of the Board.

- E. Except for the priority of settlement of estates of deceased members, any other general rotations/retirements in any given year shall be made in such aggregate amounts and for all or a portion of such one or more years as the Board of Directors, in its discretion, shall determine.
- F. The discretionary powers of such capital credits repayment shall remain with the Board of Directors of Grayson Rural Electric Cooperative Corporation as stated in the Cooperative's Bylaws, Article VII, Section 2, and nothing stated in this policy will diminish that right.

III. RESPONSIBILITY

It shall be the responsibility of the Board of Directors and the President and CEO to see that this policy is adhered to. This revised policy is a combination of former policies 204, 205, and 206, thus updating Policy 204 and rescinding 205 and 206.
