State the nature of your concern: In the Matter of: Case # 2018-00291 Northern Kentucky Water District: Motion for decision on record and waiver of hearing. Responding to NKWD submitted by John N. Hughes & T. Alex Mattingly, Manager of Legal Compliance & Regulatory Affairs requesting proposed tariff changes be resolved "outside of this rate case which will eliminate the need for further review." Mr. Huges continues his rant..."No party intervened, there have been no public comments filed...at the public hearing held January 24 there were only a few comments from those in attendance that directly related to NKWD. The lack of involvement by the people affected by the rate suggests that the application has not created concern among the NKWD customer base." Therefore, Mr. Hughes is requesting elimination of the evidentiary hearing February 27, 2019. NKWD #2018-00291 was >1,300 pgs...given the scope and sized of the rate request, we the Ratepayers demand a thorough and extensive review evaluating this unconscionable presentation. Perhaps the most obvious sign, these ill-intended lawyers want to throw aside the system that determines if the NKWD's request for a rate increase is fair, just and reasonable before the Public Service Commission (PSC). If we the Ratepayers leave these decisions to unaccountable, unelected bureaucrats to assess these rate increases...that is simply UNACCEPTABLE!
