COMMENTS: The proposed L&SE  
rate hike is not in the  
best interest of poor  
working people. We  
already must work  
many hours a week  
to supply food to my family.  
Over the years my bill  
has gone up, however,  
the service I receive has  
not improved.  
During the past years we  
have had four different  
meters installed by L&SE  
sub contractors however  
we have not had im-  
proved services. Those  
of us who work for the  
\$7.25 an hour have difficulty  
paying for our basic needs.  
Placing a meter top will fur-  
ther cause our families to be without
