MOTION FOR DECISION ON RECORD

Webster County Water District (WCWD) requests a decision on the record in Case No. 2019-00048. The Commission issued an order February 18, 2019 outlining a procedural schedule. Since the order WCWD has responded to a data request and an order to answer Commission staff questions.

The procedural schedule issued on February 18, 2019, provided for intervention not later than March 15, 2019. No party has intervened. There have been no written public comments filed in this case. Due to the lack of public comment by WCWD's customers suggests that the ServLine Leak Protection Program has not created a concern for WCWD customers.

Given the thoroughness of the Commission's data request and WCWD's responses WCWD believes the record is adequate for the purpose of reviewing, evaluating and deciding the proposed Protection Program.

Elimination of a hearing will save both WCWD and the Commission, time, effort, and expense. Given the Commission's current workload and

schedule, avoiding the preparation for and the presence at a hearing will be an efficient use of limited resources.

For these reasons, WCWD moves for a decision on the record.
