RE: Application of Kentucky Utilities Company for a Certificate of Public Convenience and Necessity Authorizing KU to Bid on a Franchise Established by the City of Prestonville

Dear Ms. Pinson:

Enclosed please find an original and 10 copies of an Application for a Certificate of Public Convenience and Necessity ("CCN"), to enable Kentucky Utilities Company (the "Company") to apply for an electric franchise with the City of Prestonville (the "City") pursuant to KRS 278.020(5). In a public meeting held on April 15, 2019, the City Council of Prestonville, Kentucky passed Ordinance No. 19.01, which directed the advertising for bids and selling of an electric franchise in the City. The Company asks that the Commission enter an Order granting a Certificate of Public Convenience and Necessity to bid for and acquire a franchise from the City on or before May 15, 2019.

For many years, the Company has been the owner of a franchise granted by the City to erect facilities for providing electric service to the City and the inhabitants thereof. The franchise to be obtained will replace the previous franchise.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

PUBLIC NOTICE

On April 8, 2019, we will begin our annual spring flushing.

Each year, the Henry County Water District begins its comprehensive unidirectional flushing program throughout the counties we provide water to. Our goal is to ensure the water quality is maintained at optimal levels. This is done by properly maintaining the District's water distribution system.

The flushing process is when water is moved through a water line at a high velocity so that a "scouring" action is created. This removes material build-up in the water line. The entire flushing process is critical to the maintenance of water quality to our system.

Iron sediments and manganese both occur naturally in water. The sediments do not pose any health concerns, but they do affect the taste, clarity and color of the water. We recommend you do not use the water or do any laundry for about an hour if you notice a reddish, yellow or brown tint to your water. If you notice these changes in your water, run your faucets for a few minutes to make sure the water is clear and you may resume normal water usage.

We apologize for any inconvenience; however, this a mandatory flushing program that must be done.
