John,

Our Owingsville District Manager had one of his Customer Service Representatives actually go to West Lane and verify the addresses. The Google map does not show the correct location for 65 West Lane. Attached is the Google map that you sent me. It has been marked with the actual location of 65 West Lane and the location of the excavation damage. Also attached is a copy of Delta's system map.

I hope these maps help you. Please let me know if you have any questions or need any additional information.

Mary Virginia

Mary V., do you have a map of the lines in that area and can pin point exactly where the damage occurred? I have attached an aerial of the location. Once upon a time you provided me a diagram of another incident and it helped immensely.
