Call Center

Description of Incident Tuffy Coyle was using a mini-excavator to install drain tile when he hit and severed a two-inch plastic gas main line. Bruce Hubbard, the property owner, had hand dug and found the 3/4-inch service line that was running somewhat parallel to the main.

Summary Information

8/14/2018

Full details such as the cause Kentucky 811 was not called to request a line location prior to starting this excavation project. Bruce Hubbard stated that Jim Miller had called 811 several months ago for both his and Jim's properties. After Delta further researched their records, it was determined that Jim Miller called 811 on March 15, 2018 to request a line location on this property. A Delta employee located and marked the pipeline at that time. At the time of the incident, the 811 ticket had expired.

Extent of the damage There were no injuries or property damage attributable to this incident. Delta employees replaced two-feet of plastic pipe and installed two electrofusion couplings.

Cost of the damage \$1,489.00

Steps taken to prevent re-occurrence Tuffy Coyle and Bruce Hubbard were informed that 811 locate requests are only valid for twenty-one (21) calendar days from the day of the initial request. Therefore, they were required by law to call 811 to request another line location prior to starting any excavation work on this property.

Amount billed to excavator \$0.00
