Dear Mr. Cicero,

We are against the seizure of Bernheim land for the construction of the LG&E natural gas pipeline through Bernheim Arboretum and Research Forest. Bernheim protects endangered species, provides clean air, water, scenic beauty and brings joy to hundreds of thousands of visitors each year. The pipeline threatens this pristine and protected conservation land.

We at Loretto Motherhouse worked against the building of a pipeline through our property in 2014 and the company found another route. We urge you to encourage LG&E to do the same.

Sincerely,
