DRAWINGS

The following questions have arisen, and our responses are attached as follows:

The architectural drawings call for FAUX beams and posts at all entrances and the drive thru. These entrances and drive thru **DO NOT** need FAUX posts and beams. They are stand-alone per structural Drawings.

SPECIFICATIONS

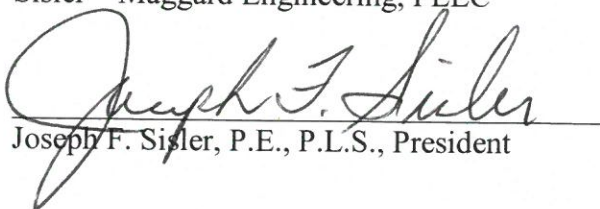

1. All Exterior doors shall be hollow metal pursuant to Specification Section 8110 – Steel Doors & Frames. The main entrance door #1 called for on Drawing A-2 calls for glass door Type A. This door shall be Type C as are the other 2 (two) entrance doors. However, the adjacent 1'-2" glass panel by the main entrance door shall remain with **tempered** glass.

The main entrance door shall also have a **secure** drop slot for after hour payments.

2. The drive thru window is sized and specified for type, size with drawer and audio requirements around a particular manufacturer to show intent and need. This is an **approved equal** project and substitutions may be approved as "equal".

Bidders for this Contract must acknowledge this Addendum No. 2 on the bid documents.
