Re: Case Number 2020-00398

Kentucky Public Service Commission
211 Sower Blvd.
Frankfort, KY 40602-0615

Dear whom it may concern,

I would like to be considered for reappointment to the Breathitt County Water District.

My background is as follows and a resume along with reference letters are attached.

I have been a member of the Breathitt County Water District for 14 years serving under and being reappointed by three administrations. While serving my terms, I have been Chairman for 10 years.

During the terms I've served, the water board has obtained over 45 million dollars in funding for water projects, laid nearly 300 miles of water lines, constructed 19 water storage tanks, 16 pump stations and made it possible for over 3300 homes to have access to county water service. Currently, the district has a 61% sign up rate or 2011 customers. When I became a board member, we had under a 48% sign up rate. As a board member, I along with other board members promoted the water service and provided education on why county water service was more feasible and safer than other water services in the area such as drilled wells. Currently, the district has approximately 300 miles of waterlines laid and has approximately 450 miles of county roads in the county road system.

Projects completed in the district during my tenure include the following:

1. Kentucky Hwy 205 Extension
2. KY 15 Watts
3. KY 1110 Phase 1
4. KY 1110 Phase 2
5. Canoe Phase 1
6. Canoe Phase 2
7. KY 30 West
8. KY 30 West Houston Road
9. KY 30 East
10. Roark Branch
11. Airport Road including the National Weather Service (NWS) and Airport. (The NWS has been in Breathitt County over 30 years and provided several jobs and had no water service except other than hauling it to a tank)
12. Turners Creek
13. Panbowl
14. South Fork Phase 1

15. South Fork Phase 2
16. South Fork Elk View (Tourism and campground)
17. KY 476
18. Duck Hollow
19. Copeland
20. River Caney
21. KY 315
22. KY 28
23. Bethany Road
24. Frozen Creek Phase 1
25. Frozen Creek Phase 2
26. Frozen Creek Phase 3
27. Frozen Creek Phase 4
28. Warshoal Branch
29. Robinson Fork
30. Rode Fork
31. Old Bailey Hollow
32. Currently approved for funding are as follows: War Creek, Creekside Road, Manns Road, Joe Ward Fork, KY Hwy. 30 East to the Magoffin/Breathitt County lines, Wolf Creek and rehab projects. These projects will allow 100 plus more households to have access to clean potable water.
33. Currently awaiting funding: KY Hwy. 542, Stray Branch, Fire Trail, Keck Lane, Johnson Fork, Puncheon Creek Road, Highland Road, Snake Branch, Bryants Creek, Chester Bailey Road, Little Leatherwood Road, Cedar Rd. and Mill Creek Lawson Road.

I have met with many officials and attended many meetings to obtain funding for water projects. Even though I am exempt from training under the KRS due to being a member since 2008, I have still attended training to stay up to date on subjects dealing with various water districts across the state. I also met with the Mayor of the Village of Buckhorn last year and an agreement was worked out to provide their area with water in case of emergency outages. I have a great working relationship with state and federal officials.

Since being on the board, all audits have had a great rating and our finances have always been in the black when it comes to monthly operating and maintenance balances. In fact, the district received a statewide award a few years ago at the Rural Water Conference.

The current board has also put together a great staff over the years.

As for attendance, I have attended ALL meetings since being on the board 12 years with the exception of three in which I was recuperating from surgery due to cancer and kidney stones and once with COVID.

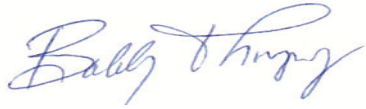

I would also ask to be reappointed to the board for another term. We currently have applications in for funding totaling over \$6.5 million dollars with \$4 million already approved and I will continue to work hard along with other board members to make those projects a reality.

I realize that the PCS wants the district to have a depreciation fund and the board did have a rate study completed in 2021 and the PSC has asked for a new study to be done in which RCAP is working on at this time. Once the rate study is completed, the board will act accordingly.

I also realize that the catastrophic flooding in our county damaged much of the infrastructure and during this time, I have seen other county water district staff members and even water board

members in Breathitt County including myself out in the creeks tapping broken service lines, reconnecting lines and rebuilding lines. It makes me proud to see everyone working as a team to accomplish helping people.

Thank you for your consideration.

A handwritten signature in blue ink that reads "Bobby Thorpe, Jr." in a cursive style.

Bobby Thorpe, Jr.

Chairman

Breathitt County Water District Board

Bobby Thorpe, PO Box 1015, Jackson, KY 41339

Phone [REDACTED]

E-mail: [REDACTED]

To whom it may concern:

It is a pleasure to recommend Bobby Thorpe to the Breathitt County Water Board. Bobby has been the most effective Chairman that I have known in terms of his diligence and expertise in acquiring money for local water projects. Mr. Thorpe will do research, call politicians, work with engineers, and work with the public, work with local governments. In fact, I know that he will and has gone far beyond what would be considered a normal work ethic in acquiring funding.

Mr Thorpe is a local businessman who has dealt a major health issue over the past few years. He has done that without any complaints and he has not slowed down in his efforts to serve our county. We are blessed to have Bobby Thorpe in our county. He is a truly selfless individual who puts his community above any personal agenda.

I recommend him without reservation.

A handwritten signature in cursive script that reads "Cluster Howard". The signature is written in dark ink and is positioned above the printed name.

To Whom It May Concern,

It has been an honor to work alongside Chairman Bobby Thorpe since August 2007. The Breathitt County Water District as well as the customers have seen positive outcomes with the assistance of Bobby's knowledge and expertise. He has assisted in bringing in over \$40 million in funds to the district.

Bobby has an exceptional professional relationship with the contractors, grant writers, and the current Breathitt County Water Board as well as elected officials on local, state, and national levels. His leadership and the abundant hours he spends as Chairman is a quality we appreciate.

He has attended all meetings in the past 13 years with the exception of two in which he was ill.

He has also accompanied me to work sites and meetings in Frankfort in order to obtain funds for projects.

With the recommendation of Bobby, our department has incorporated several bill pay options to the customers of the district such as a payment drop-box and online and over the-phone bill pay. Customers also have the option of viewing their bills online.

Bobby has attended several trainings even though his attendance is not required.

In my opinion, Bobby has been the most dedicated water board member the water district has ever had.

As Superintendent of the Water District, I highly recommend Bobby to continue as a member of the Water Board.

Best Regards,

Estill McIntosh
Breathitt County Water Board Superintendent

To whom it may concern,

I would like to recommend that Bobby Thorpe be reappointed to the Breathitt County Water District as a board member.

I have known Bobby over 30 years and know he is civic minded.

He has served on the Breathitt County Water District Board for 13 years, with 10 years being as Chairman of the board. He has traveled to many meetings and to Frankfort to meet with legislatures and officials in order to promote projects in order to obtain funding. He is also Vice President of the Jackson Lions Club, a member of the Chamber of Commerce, and other groups.

I have also seen Bobby on the location of water projects and meeting with members of the community to get input on projects.

I am aware that Bobby and other board members have obtained over 40 million dollars in funding for projects and laid over 300 miles of water lines for our county which has provided 3,300 homes access to water service.

Taking all of this information into consideration, I highly recommend Bobby remain on the water board.

Thank you for your consideration.

Jamon Halvaksz

Re: Bobby Thorpe- Breathitt County Water District Board Member

To whom it may concern;

As members of the Breathitt County Fiscal Court serving as Magistrates, we have recommended and will continue to recommend that Bobby Thorpe remain a member of the Breathitt County Water District as a board member.

Bobby has been very accessible to the fiscal court since we have served as Magistrates.

He has met with local, state, and federal officials to help promote funding of various water projects in our county.

During his tenure, Thorpe has taken part in working with officials to obtain funding for nearly \$40,000,000 for waterlines consisting of nearly 300 miles of water lines, 16 tanks, and 14 pump stations. Bobby also keeps us updated on proposed and approved projects.

He has also attended training, which he was exempt from, in order to keep up with updates and changes.

During our fiscal court meetings, we have questioned why Thorpe cannot be recommended to be reappointed to the water board and the County Judge Executive will not give us a valid reason.

In conclusion, we, the majority members of the Breathitt County Fiscal Court, would like to recommend without reservation that Bobby Thorpe be reappointed to the Breathitt County Water District as a board member.

Thank You for your consideration.

Donnie Bush-
Magistrate District 1

Ray Moore-
Magistrate District 3

Ellis Tincher-
Magistrate District 4
