INCIDENT

The Operator reports that the Excavator damaged a correctly marked ¾ inch gas service with a hole-hog installing underground conduit. More specifically there were three pipelines in the work area, two were energized, the other was dead and all three lines were located and marked correctly. The Excavator exposed one pipeline and found another line when they dug six-feet on the other side of the exposed pipe. The Excavator assumed that the lines were not marked correctly since two lines were exposed. The service line was damaged when the Excavator ran the hole-hog next to the open hole which was in the vicinity of the third pipeline.

The Damage Report is include as Attachment 1.

INVESTIGATION

On 03/10/19 an attempt to contact the Excavator resulted in speaking to a representative (unable to understand name) of Internattional Inc. (586-675-4169) whom stated Aragon Synergy was subcontracted and he would have someone call back.

On 03/11/20 a representative of Internattional Inc. (unable to understand name) left a voice message to return his call, 313-784-0972.

On 03/17/20 a representative of International, Ciprian Virlan, stated that Aragon Synergy was working as International Inc. Mr. Virlan stated that the line damaged was not marked, but he would need additional time to research before making a statement and would call back this afternoon.

On 03/21/20 the Operator, Delta's Mary Virginia Rupard, stated via email, there were three pipelines in the work area. Two of the lines were energized and one was dead. Ms. Rupard stated that all three lines were located, marked correctly by a Delta employee and the excavator exposed one of the three pipelines. Ms. Rupard stated that the Excavator found another line when they dug six-feet on the other side of the exposed pipe. Ms. Rupard stated that the Excavator assumed the lines were not marked correctly since the Excavator already exposed two lines. Ms. Rupard stated that the Excavator punctured the service line when the Excavator ran the hole-hog next to the open hole which was in the vicinity of the third pipeline. Ms. Rupard provided a picture indicating the pipeline damaged was marked correctly.

Ms. Rupard's email and photograph are include as Attachment 3.

On 03/23/20, via email, Delta's email and photograph (See Attachment 3) were sent to Mr. Virlan and a follow-up call was made on 03/25/20 resulting in Mr. Varlan stating additional time to research was needed and he would email any information discovered on 03/27/20.

On 03/30/20 Mr. Varlan (313-784-0972, cvirlan@mileniumbors.com) stated that Internattional Inc. has no evidence to dispute the evidence provided by Delta, Mr. Varlan was receptive to attending the Damage Prevention Course and paying the reduce penalty of \$250.00.

Excavation Damage: Failure to use hand tools where required

Description of Incident Samuel Herman with Aragon Synergy was using a hole-hog to install underground conduit when he hit and punctured a 3/4-inch plastic service line.

Summary Information

7/18/2019

Full details such as the cause Aragon Synergy employees called 811 to request a line location prior to excavating. There were three pipelines in the work area. Two of the lines were energized and the other line was dead. All three lines were located and marked correctly by a Delta employee. Aragon Synergy employees exposed one of the three pipelines. They found another line when they dug six-feet on the other side of the exposed pipe. At that point, they assumed that the lines were not marked correctly since they already had two lines exposed. The service line was damaged when they ran the hole-hog next to the open hole which was in the vicinity of the third pipeline that was marked correctly. There were no injuries or property damage attributable to this incident. Delta employees replaced two feet of 3/4-inch plastic pipe and installed two socket couplings.

Extent of the damage employees replaced two feet of 3/4-inch plastic pipe and installed two socket couplings.

Cost of the damage \$136.00

Steps taken to prevent re-occurrence Samuel Herman was advised that when excavation is necessary within the approximate location of the pipeline (18-inches on either side) the law requires hand-digging or the use of non-intrusive means to avoid damage to the pipeline. He was also told that hand digging is required in all areas marked with flags and paint.

Amount billed to excavator \$0.00

Eric,

There were three pipelines in the work area. Two of the lines were energized and one was dead. **ALL** three lines were located and marked correctly by a Delta employee. The excavator exposed one of the three pipelines. They found another line when they dug six-feet on the other side of the exposed pipe. They assumed that the lines were not marked correctly since they already had two lines exposed. They punctured the service line when they ran the hole-hog next to the open hole which was in the vicinity of the third pipeline.

Attached is a picture showing that the pipeline that was damaged was marked correctly. I do not have any additional information concerning this incident other than what was submitted on the Gas Excavation Damage Report sent to the PSC. We did not bill Aragon Synergy for this incident.

INVESTIGATION

On 09/09/20 the Excavator Prowire Tech's Raul Rodriguez, stated that the incident location was not marked. Mr. Rodriguez stated that the Operator marked up to the permanent gas marker and stopped. Mr. Rodriguez stated that the damage occurred three foot past the permanent gas marker where no temporary markings were placed. Mr. Rodriguez stated that he would attempt to obtain photographs/reports by 09/10/20 from the general contractor Metronet.

On 09/10/20, via two emails, the Operator, Columbia's Ryan Twait, provided the following documents:

- Photographs: Indicating the damage occurred between the permanent marker and temporary markings within the approximate location / "tolerance zone" of 18 inches.
- Damage Prevention Root Cause Analyses: Indicating the damage occurred within in the approximate location / "tolerance zone" of 18 inches of the gas main.
- Invoices: Indicating the Operator billed the Excavator on 01/07/20 and 03/05/20 for the damage totaling \$2,798.67 and no payment has been made.

Mr. Twait's Documents are include as Attachment 3.

On 09/10/20, via email, Metronet's Vice President of Safety & Quality Assurance George Kemp, stated that the main was marked correctly and Prowire's inefficient potholing resulted in this damage.

Mr. Kemp's email is include as Attachment 4.

On 09/14, 15, 16 & 17/20 a follow up call to Mr. Rodriguez resulted in a message stating this is Raul, wherein a message was left.

On 09/18/20 Mr. Rodriguez, via voice mail, was informed if no contact is made Prowire Tech will be assessed a penalty

of \$1,250.00.

On 09/21/20 contact was made with Mr. Rodriguez, he stated that he was out of the county, he thought his research in this matter would be complete this afternoon. Mr. Rodriguez was informed of Mr. Kemp's statement and copies of the photographs were emailed to raulrod1981@prowiretech.com for Mr. Rodriguez's review and response.

On 09/23/20 a follow up call to Mr. Rodriguez resulted in a message being left.

On 09/28/20, via email, Mr. Rodriguez stated that Prowire Tech will pay the full penalty payment amount of \$1,250.00. **Mr. Rodriguez's email is include as Attachment 5.**

Eric,

I've requested the billing/payment info from our damage collections group, and will forward that to you once they get it to me. Here are the pictures of the damage, and it shows temporary marks leading up to the permanent marker. I've also included the root cause analysis and tailgate documentation from our DP specialist, and she determined that they hand exposed the main 4' from the damage, which tells me that they lost track of the bore head and it crossed in a marked area that that they did not have uncovered:

Damage Prevention Root Cause Analysis

Morning Glory Lane, Lexington; 12/12/2019

JO#; 811 #; 1912031814

Description

- 4" plastic main that was stuck by mechanized equipment (boring rod). They did hand spot the main but they didn't hand spot the main where they were going to be crossing our line the area they spotted was 4' away from the actual bore path.

Cause of Damage

- Didn't hand spot the facility where they were going to be working

Lessons Learned

- You must hand spot where you are crossing a gas facility and the bore must be a minimum of 12" away

Good Morning Eric,

I am traveling at the moment but I was able to pull up our files and this is what we found for the utility hit in question.

On 12/12/2019 Prowire damaged a 4" Columbia Gas gas main. The damage was caused from a rock that was pushed up into the gas main, damaging it. The gas main was properly marked. If Prowire had done a better job of potholing the gas main they would have been able to avoid this damage. By law and by MetroNet requirements they must effectively pothole each utility to ensure it is safe while they working around it.

WARNING: This mail is from an external source

Good Morning Mr. Kemp,

Per my investigation regarding the above noted matter Metro Net contracted ProWire Tech Inc. to bore conduit for Metro Net in the area of Morning Glory Ln., Lexington, KY. The Commission received a report from Columbia Gas that on 12/12/19 ProWire damaged Columbia Gas's underground facility at the stated location. Does Metro Net have records/photographs/damage reports of this incident? If so please provide.

Mr. Rodriguez,

The below email was sent on 09/21/20 requesting a response and as of this email none has been received. This being your company's first offence there are three options to resolve this incident:

1. Pay the reduce penalty of \$250.00 and have a representative of the company attend the Damage Prevention course held in Frankfort at the Commission on the first Monday of each month from 1-3 p.m. (Postponed until further notice)
2. Pay the full penalty of \$1,250.00.
3. Request a hearing before the Commission. (Any partnership, corporation, or business entity (including a limited liability company) must be represented by an attorney licensed to practice law in Kentucky).

If you chose option one or two I will draft a letter outlining the details of the exact date of the course and 30 days to make the payment.

If no response is received by 09/28/20 option two will be chosen and in the event the penalty payment is no paid (30 days from the date of the letter to be sent) the hearing process will commence.

Please respond.

On 10/13/20 the Operator, Columbia's Ryan Twait, provide photographs indicting the damage occurred on the same side of the street as 1728 Hilton Ave. Mr. Twait was unable to state if the damage was associated with the movement of the equipment as describe by Mr. Ferguson.

Mr. Twait Photos are include as Attachment 4.

On 10/15/20, via email, Mr. Twait provided a positive response dated 11/15/19 regarding LT... 0962 indicating an abandon service line on the property, a curb box is marked with paint by another employee and a four-inch main is

across the street.

The Positive Response is included as Attachment 5.

On 10/15/20 an attempt to contact Mr. Ferguson resulted in a message being left.

On 10/16/20 Mr. Ferguson provided LT...0962 which has been outlined above.

Mr. Ferguson's LT is include as Attachment 6.

On 10/27/20 Mr. Ferguson stated he felt he did what was needed to avoid this damage and was not responsible. Mr. Ferguson was informed of his options and was reluctant, but did accept the Damage Prevention Course and reduced penalty of \$250.00. Mr. Ferguson stated he did not want attorney fees.

Hello Eric,

We searched between 9/1/2019 and 2/29/2020 and only found ticket 1911120962, which was submitted by Fer-Co Enterprises for address 1728 Hilton Ave. There were no other tickets submitted for this address during that time frame.

The member utilities notified on the ticket were not participating in our Electronic Positive Response at that time, so we are unaware of any Clear/Marked responses. They may have responded to the excavator directly, but we wouldn't have record of that.

If you have any further questions, please let us know.

Hello Ryan,

The Excavator stated that a Loacte Ticket 1911120962 was obtained. (This ticket expired 49 day prior to the incident). I need to know if he received an all clear/no facilities email and/or the USIC technician gave an all clear/no facilities for this ticket. He stated he received a call from a neighbor at the incident location, stating one night his equipment was being moved. He stated that when he investigated his equipment was intact, but was moved and he noticed excavation across the street from the incident location. Could this have been where the damage occurred?

*Thanks,

No call to 811	Mechanized / Not Specified	\$2,018.00	\$2,018.00

INVESTIGATION

On 06/12/20 the Excavator, Moody Excavating's Tom Moody, stated that this incident should not be attributed to his company Moody Excavating LLC. Mr. Moody stated that he was working for Economy Home Improvements (EHI), John Book (859-396-8814) as an hourly worker. Mr. Moody stated that EHI called 811 and the gas service was mismarked.

On 06/12/20 Mr. Book stated that Moody Excavating is an hourly sub-contractor, hourly invoices (See Attachment 2) are provide by Moody Excavating indicating equipment use and labor. Mr. Book stated that no W-2s are provided to Mr. Moody or his employees. Mr. Book stated that EHI obtained a Locate Ticket (LT), 1908260604, which expired prior to the incident date. Mr. Book provide photographs of the Incident Location depicting the damage with no location marks visible.

Mr. Book's email, Photos & Invoice are include as Attachment 2.

LT Summary

Ticket #	Valid	Initial Date	Expiration Date (21 calendar days from Initial date)	Incident Date	# of Days Expired	Within Scope of Excavation
1908260604	for EHI	08/26/19	09/16/19	09/23/19	7	Yes

The Locate Ticket(s) is/are include as Attachment 3.

On 06/16/20 Mr. Moody stated that he disagrees and felt that he is and hourly employee event though no W-2 is received from EHI and felt Moody Excavating should not be penalized. Mr. Moody stated that EHI obtained the LT, but he was unaware the ticket was expired. Mr. Moody was receptive to attending the Damage Prevention Course and paying the \$250.00 reduced penalty.

On 06/16/20 the Operator, Columbia's Ryan Twait, stated, via email, that there is some dispute on who is responsible for the bill/damage, Moody Excavating was billed, but it was not paid.

Mr. Twait's email is include as Attachment 4.

Eric,

Here is the original Confirmation number for 625 Beaumont Ave. 1908260604 we had a ticket for 30" deep no blasting. Upon hitting the line I called in to 811 and notified them and they notified the fire dept. I met them (Fire dept. and Columbia gas) on site and they two members from Columbia gas showed up. the first I don't have a name, the second person was JoAnne Parks.

I will forward the Bill I paid to Moody excavation shortly.

Ryan,

This bill is not paid at this time and I have been talking to Sue and James Rice to see if he would have anymore information on this before we turn it over to Litigation.

We have a problem with who the damager is because Moody Excavating stated he was working for John Book - Economy Home Improvement.
