Regarding: APPLICATION OF RUSSELLVILLE SOLAR, LLC

This is a written request for a leave to intervene concerning an application filed by Russellville Solar, LLC. to construct a solar farm in Logan County, Kentucky. The following is a request for a local public meeting to be held concerning this proposed project..

This request is on behalf of Lynn Dawson. I reside in Logan County and own land in this area where the proposed solar farm is to be constructed. I have concerns about taking land out of farming production, concerns about electromagnetic radiation, the appearance of the solar panels themselves, and the long term effects on the land -- such as destroying the basil soils structure, not realizing the value of todays production in food value, calories per acre, conversion of carbon to oxygen.

Length of life with good management land will last thousands of years.. The solar farm as described life span will be 24 to 48 years. Most industrial and commercial projects the life is less than 60 to 100 years. Agriculture has been asked CAN YOU FEED A WORLD POPULATION OF 10 BILLION.PEOPLE. I, therefore, request a local public meeting in Logan County, Kentucky concerning this construction..

Thank you for your time and attention to this request. I look forward to hearing from you in the near future.

Thank you.

Lynn Dawson
