Description of Incident Brandon Nichols with Nichols Contracting LLC was digging with an excavator to install an electric line when he hit and punctured a 2" plastic natural gas main line.

Summary Information

3/4/2020

Full details such as the cause Brandon Nichols with Nichols Contracting LLC did not call 811 to request a line location prior to excavating and therefore they did not know the location of the existing 2" plastic natural gas main line.

Extent of the damage There were no injuries or property damage attributable to this incident. Delta employees replaced approximately 2' of 2" plastic pipe and installed (2) 2" electrofusion couplings to re-establish service to the (8) customers that had been impacted by the event.

Cost of the damage \$549.00

Steps taken to prevent re-occurrence Brandon Nichols with Nichols Contracting LLC was informed that the law requires anyone that is going to do any type of excavation work must call 811 and request a line location at least two working days prior to starting work and, when excavation is necessary within the approximate location of the pipeline (18" on either side), the law requires hand digging or use of non intrusive means to avoid damage to the pipeline.

Amount billed to excavator \$0.00

Excavation Summary			
Excavation Within Tolerance Zone	Type Of Equipment Used	Cost of Damage (Per Operator)	Amount Billed (Excavator)
N/A	Mechanized	\$0.00	\$0.00

The operator reports that Boss Construction LLC. was installing a retaining wall. While excavating the hill side they inadvertently came into contact with Duke Energy's gas service line. After further investigation I discovered that Boss Construction LLC. had not notified the One-Call System prior

to excavation. This is the second time this gas service was damaged by Boss Construction. See incident # 32502.

INVESTIGATION

November 6, 2020

- Called 859.628.2739, spoke to Mr. Ormes, who stated he called 811 twice and couldn't get Duke to mark the lines due to debris in the yard. While moving some rock one fell and broke the line. I requested that he find the numbers and gave him my phone number and email address.

November 13, 2020

- Called 859.628.2739, he asked that I send him the information on resolution, he stated the company was in bankruptcy and he needed to discuss with his attorney. He provided: bosselectricllc@gmail.com.
- Mr. Ormes indicated this was the second time they hit the line, and they were digging with a shovel.

November 20, 2020

- Having heard nothing from Mr. Ormes, the decision is to send a demand letter for \$1250 for this incident, and a second demand letter for \$2000 for incident # 32503.

November 23, 2020

- Received two dig tickets from 811, the first dated 12/9/19 and the second dated 12/16/19. The first dig ticket would have expired on 12/30/19, and the second would have expired on 1/6/20. The incident occurred on March 3, 2020, 57 days after the ticket expired.

VIOLATION

KRS 367.4911 (8) The excavator shall contact the protection notification center to request remarking two (2) working days in advance of the expiration of each twenty-one (21) day period while excavation or demolition.

KRS 367.4911 (7) If, after the two (2) day period provided by KRS 367.4909(5)(a), the excavator finds evidence of an unmarked underground facility at the site, he shall immediately notify the protection notification center.

Description of Incident This is the second time this gas service was damaged by Boss Construction. They failed to notify 811 to have the underground utilities marked.

Summary Information

3/30/2020

Full details such as the cause Boss Construction LLC. was installing a retaining wall. While excavating the hill side they inadvertently came into contact with Duke Energy's gas service line. After further investigation I discovered that Boss Construction LLC. had not notified the One-Call System prior to excavation.
Extent of the damage Gas service damaged by tractor.
Cost of the damage \$0.00
Steps taken to prevent re-occurrence
Amount billed to excavator \$0.00

Mr. Ormes,

To resolve the first violation, the options are:

1. A \$1,250 civil penalty reduced to \$250 provided a representative of your company participates in a damage prevention training to be held in the future online;
2. No one has to participate in the training, but the full \$1,250 civil penalty would be due; or
3. You may request a hearing before the commissioners.

To resolve the second violation, we cannot reduce the penalty and the amount is \$2,000.

I have included the original Duke reports.

We agreed that you would contact me next week.

The operator reports that per damage investigator's notes: Mr. Ormes confirmed that they were performing excavation around the gas line, they did not hit it but during their excavation a rock fell onto the line in which damaged it.

INVESTIGATION

This would be the company's first violation.

November 6, 2020

- Called 859.628.2739, spoke to Mr. Ormes, who stated he called 811 twice and couldn't get Duke to mark the lines due to debris in the yard. While moving some rock one fell and broke the line. I requested that he find the numbers and gave him my phone number and email address.

November 13, 2020

- Called 859.628.2739, he asked that I send him the information on resolution, he stated the company was in bankruptcy and he needed to discuss with his attorney. He provided: bosselectricllc@gmail.com.
- Mr. Ormes indicated this was the second time they hit the line, and they were digging with a shovel.

November 23, 2020

- Received two dig tickets from 811, the first dated 12/9/19 and the second dated 12/16/19. The first dig ticket would have expired on 12/30/19, and the second would have expired on 1/6/20. The incident occurred on March 3, 2020, 57 days after the ticket expired.

VIOLATION

KRS 367.4911 (8) The excavator shall contact the protection notification center to request remarking two (2) working days in advance of the expiration of each twenty-one (21) day period while excavation or demolition.

The note from the Duke Energy first responder on this damage is "Found service C-M cut in half by Boss Construction". I don't see anything else that contradicts Boss's statement.

Boss Construction did not have a dig ticket, so they were charged for the repair costs.

Good morning Laura,

I was wondering if you had any additional information on this one.

Also, the excavator claimed a rock fell on the gas line. Did that sound reasonable based on the damage?

Thanks.

SUMMARY

On Tuesday, March 3, 2020, I was notified by Duke Energy about damage at 720 Roberts, Newport, KY 41071. Duke Energy's Underground Facilities were damaged at the above stated location by unsecured debris during excavation.

STATEMENTS

USIC / Fact Based Investigation Report Notification ID 22320200303023 - "Cause Factors No ticket / locate request"

Brian Ormes / Damaging Party / Boss Construction - "We are working on a retaining wall at the address the gas line was hit. We were digging around the gas line and a rock fell onto the line that we were working near and it broke."

DETERMINATION

It has been determined that on March 3rd, 2020 Boss Construction LLC was performing a retaining wall installation in the front residential yard of the above stated location. During this time, as the result of an excavation performed by Boss an unsecured rock came into contact with and thus damaged an underground natural gas facility owned by Duke Energy Company. Boss Construction LLC failed to request or obtain a locate ticket via One-Call center prior to excavation at the damage location as well as failed to properly expose and protect and underground utility facility.

Law(s): **KRS 367.4911**

Excavator or person responsible for excavation to notify operator of work schedule -- Responsibilities of excavator. (1) (a) Each excavator, or person responsible for an excavation, planning excavation or demolition work shall, not less than two (2) full working days nor more than ten (10) full working days prior to commencing work, notify each affected operator of the excavator's intended work and work schedule. Contacting the applicable protection notification centers shall satisfy this requirement. Excavator or person responsible for excavation to notify operator of work schedule -- Responsibilities of excavator.

Mr. Ormes,

To resolve the first violation, the options are:

1. A \$1,250 civil penalty reduced to \$250 provided a representative of your company participates in a damage prevention training to be held in the future online;
2. No one has to participate in the training, but the full \$1,250 civil penalty would be due; or
3. You may request a hearing before the commissioners.

To resolve the second violation, we cannot reduce the penalty and the amount is \$2,000.

I have included the original Duke reports.

We agreed that you would contact me next week.
