PUBLIC SERVICE
COMMISSION

To whom it may concern:

I am sending this attachment to submit my interest in filling the vacant position on the Rattlesnake Ridge Water District Board. I am a lifelong resident of Carter County, and a customer of the aforementioned.

I feel as though my experience, skills, and abilities would lend themselves to success in serving on the Board. For years I have happily worked with the public in response to complaints; I have overseen multiple projects daily alongside various contractors while managing a crew of employees; I have obtained both a Roads Scholar and Roads Master certification from the University of Kentucky: Kentucky Transportation Center, including classes on topics such as erosion control and employee management; and for 10 years I have set on the Board of Trustees for Huff Run Church, overseeing our property, upkeep of the buildings, and ensuring all bills are paid. Under my supervision, the Carter County Maintenance Facility was selected as the overall winner of the 2019 Facilities Pride award for our district, acknowledging cleanliness and organization of our maintenance lot.

It would be both a privilege and honor to serve the citizens of Carter and surrounding counties while helping to provide a much-needed resource. Please see my resume below and should you need any further information, feel free to call me at (606) 474-4725. I appreciate your consideration for this position.

Sincerely,

Stephen E. Rogers
