

I'm responding to the ad for Rattlesnake Ridge
Water District Commissioner, Case No. 2021-00340

I'm a customer of the Water District, I've been
retired for two years, so I have time to invest
in this position. I have worked 45 years in
construction, some underground piping.

I understand how companies need to operate
within budgets and being a customer I'm
concerned with costs and service for all
customers. With many friends, neighbors
and family that are customers and knowing
several employees of the Water District. I
would be able to help address any problems
or concerns that might arise and have time
to talk with people about these and speak
for customers and employees at Board meetings

Thank you,

Brent Steele
