ORDER

On September 27, 2022, the Commission issued an Order granting Garrard County Water Association (Garrard County Water) a Certificate of Public Convenience and Necessity (CPCN) pursuant to KRS 278.023. The Order required Garrard County Water to provide the Commission with a copy of its revenue sufficiency report for the year ended December 31, 2022, and any board meeting minutes that report the board's decision on the need for a rate application.

Upon Garrard County Water's failure to timely file its revenue sufficiency report and related board minutes, the Commission reopened this matter by Order dated October 10, 2023, and required Garrard County Water to file the required information and explain why it had not filed the information within 30 days of service of the Order.

Garrard County Water subsequently filed its revenue sufficiency report and related board minutes on October 11, 2023. Garrard County Water also indicated that it had generated the report but failed to file it with the Commission due to an oversight. The board determined that based on a 4.12 percent revenue shortfall, Garrard County Water

would not seek a rate adjustment during the fiscal year ending June 30, 2024. The Commission has reviewed the filing and determined that Garrard County Water has complied with the September 27, 2022 Order, that a rate adjustment should not be required during the fiscal year ending June 30, 2024, and that this case should be closed and removed from the Commission's docket.

IT IS THEREFORE ORDERED that:

1. Garrard County Water's October 11, 2023 filing in this case complies with the Commission's September 27, 2022 Order.
2. Garrard County Water is not required to file for a rate adjustment during the fiscal year ending June 30, 2024.
3. This case is closed and removed from the Commission's docket.
