COMMISSION

03/06/2023

To Whom It May Concern:

I am writing in response to the letter received indicating a future increase in my water bill by **694.9%**. According to World Population Review ([Water Prices by State 2023 \(worldpopulationreview.com\)](https://worldpopulationreview.com)), the average water bill in KY is approximately \$49. At the proposed increase, my individual monthly water bill would increase from between \$45-\$55 to \$312.71-\$382.20. This is dramatically outside the standard deviation of water expenses throughout the state of Kentucky, as well as the nation, and is unacceptable.

I oppose this bill and am requesting immediate intervention, as this is simply unaffordable.

Thank you for your time.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brian Shelton', with a long horizontal flourish extending to the right.

Brian Shelton
