Subject: Public comment on PSC case #2023-00159

Dear Kentucky Public Service Commission,

Kentucky Power customers are already paying the highest power bills in the state. We need warm homes, affordable energy, clean air, and a safe climate - NOT HIGHER BILLS. Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs..... If my electric bill goes up 18% I will be at a loss. I'm already on a budget plan... I cannot afford to have my electric bill raise. At that point I will be picking between groceries or keeping the lights on. Shame on you KP and AEP!!! If your CEO is pulling 16 million a year then that means I'm contributing to that pay and I do not think I should be paying a millionaires salary off of my measly weekly checks!

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Sincerely,
Ms. Tiffany Caudill
208 Pomeroy St Grayson, KY 41143-1041

Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs. I work with families across the mountain region. Some are already living without power due to the extreme cost. An increase will mean more will have to do without. Children should not have to suffer due to corporate greed, but they are.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Sincerely,
Mrs Kristin Pollard

Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs.

Many in Eastern Kentucky already have to decide between food and heat; raising the electric bills even higher will make this much, much worse. We cannot afford ANOTHER rate hike! Please Commissioners, look out for the citizens of Kentucky!

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Dear Kentucky Public Service Commission,

Kentucky Power customers are already paying the highest power bills in the state. We need warm homes, affordable energy, clean air, and a safe climate - NOT HIGHER BILLS. Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs. I am a single parent with 2 boys (6&7), if this hike jumps 18%, I will not be able to pay my power bill. This will not only affect my family but others also. The community as a whole will most likely fall to poverty level and even be homeless. Kentucky Power has cheated people and gotten by with it. You can't argue with them either, knowing that you are right and they are wrong. What they say goes. So you either pay it or no electricity. I do not like Kentucky Power. Let someone else come in and do the work and listen to what people have to say. Kentucky Power is ridiculous. Thanks,
Melissa Mayhew.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

This Message Originated from Outside the Organization

[Report Suspicious](#)

This Message Is From an External Sender.

I would like to express my opposition to the rate increase KY Power is proposing. There is so much poverty in the area KY Power covers, how does it expect its customers to pay? Isn't it the responsibility of the power company to put customers before profit? Instead of raising rates, why doesn't KY Power help its customers weatherize their homes and offer solar panels following. It seems to me that would reduce usage and lower the costs of KY Power. Please put customers first.
Thank you.

Subject: Public Comment in Case #2023-00159

Dear Commissioners

Case #2023-00159 KY Power Rate Case

I am outraged that a rate increase is being proposed. We are struggling as small business owners as it is with high interest rates, taxes, fees and the prices we must pay for inventory. I don't know how much more we can stand. Please reconsider this rate increase.

Sincerely,
Bernie Justice

Dear Kentucky Public Service Commission,

Kentucky Power customers are already paying the highest power bills in the state. Many in the most economically challenged part of the state are on fixed incomes, and often have to decide between paying their power bill, or paying for food and medications.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Dear Kentucky Public Service Commission,

Kentucky Power customers are already paying the highest power bills in the state. We need warm homes, affordable energy, clean air, and a safe climate - NOT HIGHER BILLS. Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs. I am a business owner and our residents cannot afford this increase to meet the projections for shareholders. Utilities should not be connected to our he stock market. The CEO of AEP was paid a salary over 16 million. AEP has shown exorbitant profits. Residents are forced to make decisions to purchase food, medicine or electric bill. We should not have to make these decisions. Pray about this!

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Sincerely,
Mr. Gregory Walker

Dear Kentucky Public Service Commission,

When my wife and I bought and restored our small home in Jackson back in 1989, we chose to heat our home with electricity from Kentucky Power rather than using the local gas company because it was the cheaper option. That has ceased being the case many years ago. Kentucky Power has been making some bad business decisions that they want their customers to pay for. No CEO should be making \$16 million dollars a year while Kentucky Power customers in eastern Kentucky have to choose between heating their homes or buying food or medicine. Kentucky Power customers are already paying the highest power bills in the state. We need warm homes, affordable energy, clean air, and a safe climate - NOT HIGHER BILLS. Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs.

Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs. A majority of your customers are on fixed incomes and are already facing food v/s Rx delimas monthly without the additional burden of an electricity cost increase. Please...convince your wealthy shareholders to take less profits for a couple of years until the economy improves. They will survive that loss...many of us will not survive a rate increase & will end up with wood stoves heating our homes out of necessity.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs

I know how much my mom and other members of my family struggled to pay their electric bills, especially in the winter months. They were on fixed incomes as a lot of Ky Power customers are I am sure. I work and I make a decent salary but I also have a hard time meeting the bills you get in the winter months. That's why I had a propane heater put in my house because it was cheaper than paying to heat with only electric in the winter months. Not everyone has that choice. I am sure it will put people in a really tough place if you pass the 18% increase that they are asking for. Eastern Ky is still struggling to get back on its feet from the floods so please do not add more problems on them by increasing their rates on the electricity they have to have. Thank you for your consideration.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

As someone with a college education and two working adults in my home, we still struggle to pay outrageously high power bills. Knowing that many of my neighbors have much lower income and struggle to make ends meet, I have no clue how they pay their power bill's already, much less with another rate hike. We simply cannot let this happen to eastern Kentuckians.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Sincerely,
Mrs. Ashton Bartley
