Dear Kentucky Public Service Commission,

Please reject Kentucky Power's proposal to raise residential rates by over 18%. People just can't afford this and it will force people to have to choose between keeping warm or buying needed food or medicine which are necessities not luxuries. I have a decent income but it's just overwhelming how expensive everything is. Homeowners, auto & health insurance costs just keeps increasing. I'm trying to help my kids who both have law degrees but are saddled with student loan debt in addition to the everyday costs of living. They nor I can afford to pay more for electricity. The CEO of AEP is no different than the robber barons of the late 1800 and early 1900 Hundreds. This corporate greed is ruining our country.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Sincerely,  
Joetta Reed
