Comments: I am a new resident of Barren County and I would like to file a complaint against the Wood Duck Solar project. I moved here from New Underwood, SD where we had a 1500 acre solar farm built in 2023. Not only is this farm aesthetically displeasing, residents are faced with rising temperatures around the farm, blinding reflections, impacts on local wildlife and habitats. The amount of land use for a solar farm permanently impacts the community for the life of the farm and in perpetuity once the farm is abandoned. This policy of taking open land should be rethought into an opportunity to utilize already developed areas such as industrial parks, on top of buildings, degraded land. The last option should be taking away open spaces for these monstrosities.
