Hello,

My name is Catherine Beck Nupp. My residence is [REDACTED] Louisville, KY, 40216. I am reaching with the following comments:

Approve compensation for NMS-2 customers that fairly reflects the full range of benefits solar provides to the utility and all ratepayers, as described in James Fine's testimony for the Joint Intervenor, and at minimum, approve the continuation of current NMS-2 rates as described in the settlement agreement.

- Approve LG&E and KU's commitment to keep NMS-2 service open to new customers at least

until the conclusion of their next rate case in 2028.

Please consider this moving forward.

PSC,

I am writing to urge you to support fair compensation for KU solar net metering. LGE-KU has not provided good faith analysis or compensation to current and future NM2 customers who deserve to be payed for the value they provide to the utilities and their non-solar customers. Your oversight is what all utility customers rely on as a check on the monopoly power of the utilities. Please support continued thorough analysis by all parties involved and urge our utilities to compensate solar customers appropriately for the value they generate.

Colin Goggin
