Comments: LG&E should not build MORE fossil fuel plants, especially for the support of data centers. These, if necessary, should be fueled by solar, and they should be paid for by the data centers. CO2 is now above 425 ppm and we see the results around the world in flood, fire, heat deaths, etc. LG&E has a plan to reduce its reliance on fossil fuels but this is clearly a ruse. Louisville passed a resolution to reduce its greenhouse gases but,

like LG&E, is doing very little to implement this. Don't approve more fossil fuel plants!
