

meter has been covered for years and customer will not pay and we could not pull until meter was uncovered. Defendant also checked drawing records, and we believe that the tap was installed prior to the drawings which are from 1994. See drawing record attached.

2. Explain why there was not a meter installed with the original installation of the service line.

RESPONSE: Defendant believes that there was a meter in place when Complainant's parents owned the property. Defendant does not know when or how the meter was covered up or buried.

3. Explain how Martin District determines the bill for the residence without a meter installed.

RESPONSE: The bill is estimated at a base rate minimum bill each month.

4. Provide any agreements between owners of the subject property and Martin District concerning water service to the subject residence.

RESPONSE: Defendant does not have any agreements on file for the property with Complainant, and she has not provided any agreements. She has persistently refused to sign an easement or other agreement to allow Defendant on the property.

Respectfully submitted,

KINKEAD & STILZ, PLLC

/s/ Dustin C. Haley
