

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC TARIFF FILING OF	)	
CAMPBELLSVILLE MUNICIPAL WATER AND	)	CASE NO.
SEWER SYSTEM REVISING ITS WHOLESALE	)	2026-00194
WATER SERVICE RATES	)	

COMMISSION STAFF'S FIRST REQUEST FOR INFORMATION
TO CAMPBELLSVILLE MUNICIPAL WATER AND SEWER SYSTEM

Campbellsville Municipal Water and Sewer System (Campbellsville Water), pursuant to 807 KAR 5:001, shall file with the Commission an electronic version of the following information. The information requested is due on August 28, 2026. The Commission directs Campbellsville Water to the Commission's July 22, 2021 Order in Case No. 2020-00085¹ regarding filings with the Commission. Electronic documents shall be in portable document format (PDF), shall be searchable, and shall be appropriately bookmarked.

Each response shall include the question to which the response is made and shall include the name of the witness responsible for responding to the questions related to the information provided. Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the

¹ Case No. 2020-00085, *Electronic Emergency Docket Related to the Novel Coronavirus COVID-19* (Ky. PSC July 22, 2021), Order (in which the Commission ordered that for case filings made on and after March 16, 2020, filers are NOT required to file the original physical copies of the filings required by 807 KAR 5:001, Section 8).

person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

Campbellsville Water shall make timely amendment to any prior response if Campbellsville Water obtains information that indicates the response was incorrect or incomplete when made or, though correct or complete when made, is now incorrect or incomplete in any material respect.

For any request to which Campbellsville Water fails or refuses to furnish all or part of the requested information, Campbellsville Water shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied and scanned material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, Campbellsville Water shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Provide all schedules, source data, assumptions, allocation factors, and analyses used to calculate the proposed wholesale water increase in Excel spreadsheet format with all formulas, rows, and columns unprotected and fully accessible.

2. Refer to the city of Campbellsville Ordinance No. 26-04. Explain the rational of the \$1.00 increase to all wholesale water rates.

3. Refer to the letters of notice sent to the impacted water districts. Provide an update on the second reading of the proposed rate ordinance.

4. Refer to Ordinance No. 26-04 and the notice sent to Green-Taylor Water District (Green-Taylor District).

a. Provide the signed and adopted ordinance.

b. Reconcile the \$4.46 Green-Taylor District rate stated in the ordinance with the \$4.36 rate stated in the notice and proposed tariff.

c. Reconcile the ordinance's July 1, 2026 beginning date with the August 1, 2026 effective date stated in the notices and tariffs.

d. After identifying the intended Green-Taylor District rate, provide the correct dollar and percentage increase. If the intended rate is \$4.36, confirm that the increase is 29.7619 percent, or 29.8 percent rounded to one decimal place, rather than 27.90 percent. If not confirmed, explain the response.

5. Refer to the handwritten schedules included with the tariff filing. The handwritten schedules appear to use calendar-year 2025 water-production data, customer sales data for an unidentified period, and expense and water-production information extending through January 2026.

a. Identify the period covered by each expense, sales, and water-production amount used to develop the proposed rates.

b. Explain why information from different periods was used.

c. Confirm whether the \$2,532,342.11 in water-treatment expense includes 13 months of expenses. If not confirmed, provide the period and calculation supporting that amount.

d. Provide all rate calculations restated using a single, consistent 12-month test period.

6. Refer to the handwritten wholesale-rate calculations on the filing stamped “Received” on June 18, 2026.

a. The handwritten calculations appear to produce rates of approximately \$9.03 per 1,000 gallons for Green-Taylor District and \$11.33 per 1,000 gallons for the other wholesale customers. Confirm that these are the calculated rates. If not confirmed, provide the corrected calculations.

b. Explain why Campbellsville Water proposed a \$1 increase rather than the rates produced by the calculations.

c. Explain why the same dollar increase was applied to customers having different existing rates.

7. Refer to Ordinance No. 26-04, which states that existing revenues are inadequate to fund operations, repairs, improvements, and related obligations. Identify and quantify each financial need supporting the proposed increase, including any targeted debt-service coverage, reserves, capital expenditures, or other financial requirements.

8. Provide every notice and communication concerning the proposed increase sent to each affected wholesale customer, together with the date and method of delivery and proof of receipt.

9. Explain why the filing contains no transmittal letter to Columbia/Adair Utilities District.

10. Refer to the Marion County Water Purchase Agreement, Section 9, dated January 2, 1999,² wherein it appears to require written notice at least 30 days before Campbellsville Water applies to its governing body for a rate modification. Explain how the June 12, 2026 notice and June 15, 2026 first reading complied with that requirement.
