Comments:

As a 3 time member of of Sewater assoc. I am asking the commission to review Sewaters sudden deletion of its public corporate statistics just days before my filing my formal complaint 2026-00191 in early July.

Sewater completely scrubbed it public website of all previous official stats boasting about its 11 water towers and 709 avg meters per tower and 18-21\$ million in assets ?? please investigate

Why this asset data was hidden from the

Public right before the the utility APPLIED for a system-wide rate increase

Under 2026- 00233

Comments:

As a member of S.E.WATER , I will soon have to pay a staggering 96\$ monthly minimum bill on 3 separate meters on the same family farm before I use a single drop of Lake Cumberland water ?? I am asking the commission to review the utilities billing and accounting records before deciding on this INCREASE. There is a active dispute next door in kpc case 2026-00191

Regarding old billing histories, disconnected lines and continuous late. fees.(2026-00191) Please unsure these billing and account integrity issues are fully resolved before placing HIGHER RATES on the members of this water association. Thank you.
