Subject: Re: #2026-00233 and# 2026-00191 Notice of Patently Defective Order and notice of additional information

Please look and place these attached screenshots straight from your public commission website.#2006-00371 to the Public Comments section of # 2026-00233 that you recently confined me too! But explicitly encourageed me participate IN... This new (5th)rate increase directly effects other 8336 members. I am not reading LAND rights costs on #2006-00371 to USDA & RAD FUNDING applications correctly?? but it is the only FIXED cost on that original report that didn't increase in the REVISED version.. Logically can't be a double typo! It conflicts with actual pulaski county clerk of court 2006 deeds in South Eastern Water association llc. name which IT states $ 2500 purchase price... already on 2026-00191/2023-00233 docket. But seems its not under commission 278.260 jurisdiction like my September amended complaint cited which I specifically asked for procedural guidance to amended complaint from filing mgr.Mr.Klein with digital records of all emails but you suddenly dismissed entire case for the exact reason I asked for guidance procedurly? Like I stated to Mr Klein complete Hypocrisy .A misrepresentation on the court/ commission is a not under commission jurisdiction you claim officially in this totally conflicting Defective ORDER.In your decision to clear the docket. I propose maybe because

of lack of public transparency (and/or possibly backbone) more contradictions.? YOUR COPIES OF MY pay history print out you attached to the defective order WAS ENTERED BY OPPOSING LAWFIRMS STOLL KEENON AND OGDEN PLLC,Tina Fredericks (former kpc employee)which shows 2008-2009 ghost billing loop with stacked late fees for 12 months suddenly paid off by WHO? without any bank proof definitely falls under 278.260 .LOCICALLY This is a fraudulent billing loop with digital evidence. That same history shows I didn't legally hook pipes & start legal services to that specific meter for 16yrs...AGAIN logically how could I have been sold water by SEWATER with zero pipes.on my side of meter sitting on public road easment property UNTIL March 2024. the contract you attached to the defective order also from 2005, saying send all future bills to a Cincinnati mailing address. Is the contract for this meter in 2005

I have never received any invoices from South Eastern Water association [9]for water sales between 1998 until 2016 only one canceled ck. For $525 written in 2005 at a office meter #1 visit. Zero invoices at my Cincinnati address,until 2016.This is when I enlarged my agricultural business at 6271 blue John rd Burnside ky by adding a meter #2 &

neighboring 9 acres and house ,for my eldlerly mother and brother to live near me here and have been ky residents for decades prior to moving to 6271/6605 & legally they don't need a agricultural exemptions to avoid state taxes on their water bills being legal residents dating prior to 2016 according to the applicable Kentucky state statues recently discovered information I'm my mom's legal representative POA since prior to 2016 after my father's passing, l handle all financial issues for them since they both moved to blue john rd on my now 72.5 ac classified tree farm business

(Circa 2002)

Seems to be a POSSIBLE COLOR OF LAW , DUE PROCESS,& civil rights violation are happening again.

Thank you Michael Hemphill PRO se

Subject: #2026-00233 and# 2026-00191 Notice of Patently Defective Order..

Please disregard the last email concerning your Final order 🙏 I will let it speak for itself..It does validate that fraudulent misrepresentations to this commission, (2006-00371) possible decades old rate fraud(2026-00191) from those sworn statements are ok & not in your jurisdiction ..but are definitely in the jurisdiction of the Federal authorities which case 2026-00191 clearly shows on this docket under whistleblower case #s and 8/13/26 clearly before the $ 21 million rate hike 2026-00233 was ever filed...Land fraud for funding seems like it would fall under your jurisdiction UNDER 278.260..MY facts have not waivered since June. Only silence from your FORMER KPC employee for Kentucky citizens. .STOLL KEENON OGDEN PLLC Tina Fredericks and City Burnside ky Attorney Molly Hardy pplc opposing ky citizens now Until I tried to enter & consolidate the newly filed rate increase, another one of many conflicts of interest in this case 2026-00191 and 2026-00233. As a Pro se complaint to this Kentucky Utility Commission since June, I realize you must clear way on the dockets to push (by sweeping my complaints UNDER the rug again) For another rate increase the 5th now because of your strict timelines So with complete public transparency . So we can add this email to the public Comments on 2026-00233 like you have before with other offical notifications. I just got a phone call 10/25/2026 from Adam Childers Ky.state police officer Adam Childers confirmed that a forgery and Indentiy theft contract dated 10/15/25 from South Eastern Water association LLC. # 11-26-0514 is going to Ky commonwealth Attorneys. Out of Pulaski County..

Dear Kentucky Tree Farmer:

Your Kentucky Tree Farm #1787 in Oldham County, Kentucky has been inspected and recertified to the mutual standards with your updated information.

As Chairman of the Kentucky Tree Farm Committee, I would like to congratulate you and extend my personal thanks for your wise use of Kentucky's forests, our renewable resource. I appreciate the efforts you have made managing your forestland and hope you will promote the Tree Farm Program to other landowners throughout the state.

I am always open to any ideas or questions concerning the Tree Farm Program and again thank you for your support for sustainable forestry in Kentucky.

Sincerely,

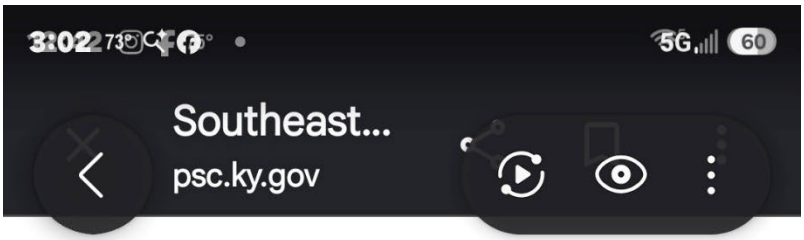

Doug McLaren, Chairman
Kentucky Tree Farm Committee

Bids were received on June 6, 2006. Five (5) bids were received for Contract 5 – Water System Extensions and two (2) bids were received for Contract 6 – Blue John Storage Tank. The low bidder for Contract 5 was D.F. Bailey, Inc. Owingsville, Kentucky in the amount of $1,722,589.28 for the base project and $2,795,946.72 which included Additive Alternates 1-6. The low bidder for Contract 6 was Caldwell Tanks, Inc., Louisville, Kentucky in the amount of $370,300. A copy of the certified bid tabulations is included in this report.

The project funding, per the Rural Development Letter of Conditions, is $3,534,000. There is, however, a Tobacco Development Fund Grant, in the amount of $413,000, that is allocated to be used for this project. The project funding is therefore revised to $3,947,000. The funding sources available for this project are as follows:

Rural Development Loan	$2,754,000
Rural Development Grant	700,000
Local Contribution	80,000
Total per RD Letter of Conditions	$3,534,000
Tobacco Fund Grant	413,000
Total Funding Available	$3,947,000

The construction bids for this project, including Additive Alternates 1-6 as contained in the Contract 5 bid, are within the project funding budget with the inclusion of the $413,000 Tobacco Fund Grant. A revised project cost breakdown is as follows:

BUDGET ITEM	R.D. LETTER OF CONDITIONS	REVISED	
Development	$2,824,000	$3,166,247	
Land & Rights	10,000	10,000	
Legal & Administrative	13,000	13,000	
Engineering	307,000	322,932	(1)
Interest	100,000	100,000	
Contingencies	280,000	334,821	
	$3,534,000	$3,947,000	(2)

(1) ENGINEERING

Design (6.67%)	$207,853
Construction Observation (2.95%)	91,929
Preliminary Engineering Report	8,000
Surveying	3,000
Environmental	4,500
Archaeological	3,050
Geotechnical	[illegible]
	$322,932

Subject: Clarify Final order text 2026-00191

The Commission's final Order handled down late Friday afternoon is not correct and contradicts itself on the docket it states dismissed with prejudice but the typed findings say the complete opposite..dismissed without prejudice, more conflicting filings just like what happened with my hand delivered records to Frankfort in July containing my rebuttal to dismiss filings. REMEMBER Mr. KLINE had to call me personally to correct that unjustified disection of my original stamped filings leading to misleading omittions & mishandled coping mistakes placed in this docket for days by kpc Commission employees at my due process rights expense..please clarify in writing what the final order is legally saying, besides you are passing this political 🔥 potato 🥔 on to some other taxpayer funded agency just like every other Kentucky Public consumer watchdog has done before now to protect (the Good Ole boys club)Now this tribunal has put in writing a excuse for non -action on clear violations under KRS. 278.260 with in this commissions jurisdiction of & issued Final order .

Case Filings

Filing	Documents
10/23/2026 4:21:14 PM Final Order Entered: 1. The complaint filed by Michael Hemphill is dismissed with prejudice. 2. A copy of this Order shall be served on Mr. Michael Hemphill, by U.S. Postal Service, Certified Mail, Return Receipt Requested, and First-Class Mail at 6271 Blue John Road, Burnside, Kentucky 42519. Service shall be considered complete on the	PSC_ORDER

.ky.gov

jurisdiction over the regulation of rates and service of utilities[.]"[24] While expansive in scope with regards to ensuring "fair, just and reasonable"[25] service, the Commission's authority is not limitless.

Pursuant to KRS 278.260, the Commission has jurisdiction over complaints regarding rates or service, which states:

> [t]he commission shall have original jurisdiction over complaints as to rates or service of any utility, and upon a complaint in writing made against any utility by any person that any rate which the complainant is directly interested is unreasonable or unjustly discriminatory, or that any regulation, measurement, practice or act affecting or relating to the service of the utility or any service in connection therewith is unreasonable, unsafe, insufficient, or unjustly discriminatory, or that any service is inadequate or cannot be obtained[.][26]

As KRS 278.260 makes clear, complaints must be related, in some causal way, to the Commission's jurisdiction over rates and service.

DISCUSSION AND FINDINGS

Following review of the record and as further discussed below, the Commission finds that the complaint should be dismissed without prejudice, and the case closed.

Mr. Hemphill has three water meters in his name. For clarity in this discussion, Meter #1 will refer to the meter installed during July of 2008 and located at 6271 Blue John Road; Meter # 2 will refer to the meter in which Mr. Hemphill requested service be transferred to his name during March 2016 and located at 6605 Blue John Road; and

[24] Indeed, the Commission's authority regarding ratemaking is both "plenary" and broad. *See e.g. Kentucky Public Service Com'n v. Com. ex rel. Conway*, 324 S.W.3d 373 (Ky. 2010).

[25] KRS 278.040.

[26] KRS 278.206.

Meter #3 will refer to the meter installed during October 2025 and located at 6271B Blue John Road.

In his amended complaint, Mr. Hemphill alleged that South Eastern Water improperly, unjustly, and inaccurately enforced untariffed minimum monthly bills and applied arbitrary customer classifications fees against the three meters located on his farm.[27]
