Comments:
We can not afford theses gas rate increases we are choosing where to buy food now or pay bills these are small communities of retired people who live on fixed incomes. Big companies from out of state should not be allowed to buy and control gas this way. They come in here then they have to purchase the gas and then we are punished for it. there is something very wrong about this. No company should be allowed a 100% raise at any point and time. This commission is not representing the state of KY they are representing rich companies.
