ATTENTION: FILINGS BRANCH / EXECUTIVE REGISTRY OF THE COMMISSION

Please accept for formal docketing and immediate entry onto the active public record the attached formal pleading in the matter of **LEMAR NATHANIEL COLLIER VS. LOUISVILLE GAS AND ELECTRIC COMPANY, CASE NO. 2026-000304**.

Enclosed is **Complainant's Formal Notice of Open Records Non-Compliance and Supplement to Motion to Compel Discovery**, executed this 5th day of November, 2026, under full reservation of all unalienable rights.

As detailed in the attached instrument, the Public Service Commission's dedicated records custodian (psc-ora_Custodian@ky.gov) has failed to comply with the statutory mandates of the Kentucky Open Records Act. The five (5) business day window under **KRS 61.880(1)** to produce the unredacted word-for-word internal screen logs and database narratives recorded by staff members Becky and Stacey expired precisely at **4:30 PM EST today, November 5, 2026**, with zero delivery of data.

Because this agency records default directly mirrors the ongoing discovery default of Defendant LG&E, this formal Notice is submitted as an immediate evidentiary supplement to the pending *Motion to Compel Discovery* filed on October 31, 2026. This ongoing discovery controversy remains anchored as an active **Disconnection Bar**, legally prohibiting any remote software or physical smart-meter infrastructure lockout at **2605 Thomas Ave, Louisville, KY 40216**, pending a final determination by this Commission.

Thank you for your administrative diligence in maintaining the complete transparency of this regulatory court file.

Sincerely,
Lemar-Nathaniel: Collier, Chief Trustee, *Sui Juris*
Authorized Representative for THE BLUE TOPAZ PRIVATE HOLDING TRUST

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

CASE NO. 2026-000304

In the Matter of:

LEMAR NATHANIEL COLLIER (THE BLUE TOPAZ TRUST) – COMPLAINANT

VS.

LOUISVILLE GAS AND ELECTRIC COMPANY – DEFENDANT

COMPLAINANT'S FORMAL NOTICE OF OPEN RECORDS NON-COMPLIANCE AND SUPPLEMENT TO MOTION TO COMPEL DISCOVERY

Complainant Lemar-Nathaniel: Collier, appearing *Sui Juris* as Chief Trustee and Authorized Representative for the Private Estate Trust **THE BLUE TOPAZ PRIVATE HOLDING TRUST** (backed by Kentucky Secretary of State UCC-1 File No. 2026-341729-37 & Amendment .02), respectfully submits this formal Notice of Open Records Non-Compliance as an immediate evidentiary supplement to the pending *Motion to Compel Production of Records and Discovery Response* filed on October 31, 2026.

In support of this filing, Complainant states as follows:

I. RELEVANT STATUTORY GROUNDING

1. On October 30, 2026, Complainant served a formal *Mandatory Public Records Demand* pursuant to **KRS 61.872** onto the Public Service Commission's dedicated records custodian (`psc-ora_Custodian@ky.gov`), demanding the unredacted, word-for-word internal screen notes, case narratives, and database tracking entries recorded by staff members **Becky** and **Stacey** regarding the Complainant's informal consumer inquiry profile metrics.
2. Pursuant to the explicit mandate of the Kentucky Open Records Act (**KRS 61.880(1)**), a public agency has exactly five (5) business days to either produce the requested records in full or issue a binding, written response citing specific statutory exemptions.
3. The Commission Custodian's strict statutory window to comply or answer expired precisely at **4:30 PM Eastern Standard Time on Thursday, November 5, 2026**.
4. A comprehensive audit of the Complainant's secure network interface confirms that the Commission Records Custodian has completely failed to deliver the records, failed to respond, and failed to communicate any lawful exemption, placing the agency's discovery division in total, un-rebutted administrative default.

II. EVIDENTIARY SUPPLEMENT TO DISCOVERY CONTROVERSY

The Commission Records Desk's failure to comply with KRS 61.880 mirrors the ongoing discovery default of Defendant LOUISVILLE GAS AND ELECTRIC COMPANY, whose statutory window to answer Complainant's *Motion for Production of Records* expired on October 27, 2026.

This parallel administrative obstruction directly prevents the Complainant from extracting the native Oracle Utilities database transaction logs and internal interaction text note histories required to resolve this dispute. The unredacted screen notes of Becky and Stacey are vital to expose the backend coordination between the PSC staff and the compliance desks of the regulated utility providers regarding the manual voucher deletion loops executed on September 21, 2026.

III. RELIEF DEMANDED

WHEREFORE, Complainant respectfully requests that this Commission integrate this Notice into the active case record and immediately enter an Order:

1. **GRANTING** Complainant's pending Motion to Compel Discovery in its entirety;
2. **COMMANDING** Defendant LOUISVILLE GAS AND ELECTRIC COMPANY to produce all unedited database interaction screens and call logs within three (3) business days; and
3. **MAINTAINING** an absolute **Disconnection Bar** prohibiting any physical, remote, or smart-meter infrastructure disruption at **2605 Thomas Ave, Louisville, KY 40216**, pending a final written determination on this discovery non-compliance track.

Dated: November 5, 2026

Respectfully submitted,

By: _Lemar-Nathaniel: Collier_____
