Re: Kentucky Utilities Company
Petition Requesting Confidential Treatment received 4/5/13
PSC Reference – Admin. Case # 387 – FERC Form No 1 Report

Dear Ms. Cocanougher:

Pursuant to 807 KAR 5:001, Section 13(3), Kentucky Utilities Company ("KU") by Petition received on April 5, 2013, requested confidential treatment of certain materials filed with the Commission outside of a formal proceeding. 807 KAR 5:001, Section 13(3)(d), of that regulation provides that the Commission's "executive director, as official custodian of the commission's records, shall determine if the material falls within the exclusions from disclosure requirements established in KRS 61.878 and the time period for which the material should be considered as confidential and shall advise the requestor of the determination by letter." This letter constitutes my determination of that request.

The information you seek to have treated as confidential is identified as being contained in KU's supplement to its Annual Report (FERC Form 1) filed pursuant to Commission Order dated December 20, 2001, Appendix G, and Amended Order dated March 29, 2004. The information is described as Item No. II – information regarding scheduled outages or retirements of generating capacity; and Item No. 14 – the need for transmission capacity additions, and planned transmission capacity additions, including expected in-service date, size and site.

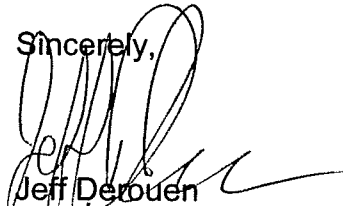

Your justification for having the Public Service Commission handle this material as confidential is that the public disclosure of the information could result in an unfair commercial advantage to competitors, and a threat to public safety.

Based on a review of the information and pursuant to KRS 61.878 and 807 KAR 5:001, Section 13, it has been determined that the information requested to be held confidential is of a proprietary nature, which if publicly disclosed would permit an unfair commercial advantage to KU's competitors, and disclosure of infrastructure materials could result in a threat to public safety. Therefore, the information requested to be treated as confidential **meets the criteria for confidential protection** pursuant to KRS 61.878(1)(c)(1) and KRS 61.878(1)(m), and will be removed from the public record and maintained as a nonpublic part of the Commission's file in this case for an indefinite period of time, or until further Orders of the Commission. The procedure for usage of confidential materials during formal proceedings may be found at Section 13(9) of 807 KAR 5:001.

If the information becomes publicly available or no longer warrants confidential treatment, Kentucky Utilities Company ("KU") by Section 8(9)(a) of 807 KAR 5:001 to inform the Commission so that the information may be placed in the public record.

Any questions regarding this letter should be directed to Richard Raff, General Counsel at (502) 782-2588.

Sincerely,

Jeff Derouen
Executive Director
