Section 8 - Other Events

Item 8.01 Other Events

On March 20, 2018, the Kentucky Public Service Commission ("KPSC") issued an order in the proceeding related to Louisville Gas and Electric Company's ("LG&E") and Kentucky Utilities Company's ("KU", and collectively with LG&E, the "Companies") January 29, 2018 proposed settlement agreement (the "Settlement") to reduce gas and electricity rates to reflect changes in federal income tax rates under the Tax Cuts and Jobs Act. The KPSC order approves, but makes certain modifications to, the Companies' previously submitted unanimous Settlement in the matter.

The KPSC estimates that, pursuant to its modifications, LG&E and KU electricity revenues and LG&E gas revenues would incorporate reductions of approximately \$79 million, \$108 million and \$17 million, respectively, in estimated tax-reform related savings to Kentucky customers for the period January 2018 through April 2019. These amounts represent aggregate increased reductions from the amounts proposed in the Settlement of approximately \$10 million for LG&E electricity customers and \$17 million for KU electricity customers. Because the amounts to be credited to customer bills to implement the reductions are based upon energy usage, ultimate aggregate reduction amounts may vary. The KPSC order provides for the rate changes to begin April 1, 2018.

The order and the original Settlement both provide for updated, comparable tax-reform related credits to continue after May 2019, in the event the base rates of the Companies have not been otherwise reset via base rate proceedings. The Companies have indicated their expectation to submit such applications to change base rates during 2018.

On March 26, 2018, the Companies filed a petition for reconsideration and request for hearing with the KPSC, taking exception with the KPSC's modifications and the process, and also requested certain relief from implementing the amounts represented by the additional reductions until the matter is fully resolved. The Companies cannot predict the ultimate outcome of this matter.

Statements in this report regarding future events and their timing, including the Companies' proposed rate changes, future rates, rate mechanisms or returns on equity, as well as statements as to future costs or expenses, regulation, corporate strategy and performance, are "forward-looking statements" within the meaning of the federal securities laws. Although the Companies believe that the expectations and assumptions reflected in these forward-looking statements are reasonable, these expectations, assumptions and statements are subject to a number of risks and uncertainties, and actual results may differ materially from the results discussed in the statements. The following are among the important factors that could cause actual results to differ materially from the forward-looking statements: subsequent phases of rate proceedings and regulatory cost recovery; market demand and prices for electricity and natural gas; political, regulatory or economic conditions in states and regions where the Companies conduct business; and the progress of actual construction, purchase or installation of assets or operations subject to tracker mechanisms. All forward-looking statements

should be considered in light of these important factors and in conjunction with PPL Corporation's, LG&E and KU Energy LLC's and the Companies' Form 10-K and other reports on file with the Securities and Exchange Commission.
