PUBLIC SERVICE  
COMMISSION

**Re: Case No. 2015-00413  
In the Matter of the Application of Duke Energy Kentucky, Inc. for  
Declaratory Order**

Dear Ms. Mathews:

Duke Energy Kentucky is providing the enclosed information in compliance with the Commission's directive from Case No. 2015-00413 to file a final organizational structure once the structure is determined and is completed.

As you are already aware, on October 3, 2016 the Piedmont Acquisition was officially completed. The remaining portion of 2016 was spent making the transition as seamless as possible. The Company had previously notified the Commission of the first and second level organizational structure for the gas operations, which confirmed Mr. Frank Yoho as Executive Vice President, Natural Gas Operations, (reporting directly to Ms. Lynn Good, CEO of Duke Energy Corp.) and Mr. Victor Gaglio, Senior Vice President and Chief Operating Officer of Natural Gas Utility Operations. With that announcement, Mr. Gary Hebbeler was also named as Vice President of Gas Operations, with responsibilities over the Duke Energy Midwest natural gas utility operations. Mr. Hebbeler is a direct report to Mr. Gaglio, and has been directly involved with the operations of Duke Energy Kentucky's natural gas business for many years. Both Mr. Yoho and Mr. Hebbeler were present for the annual meeting with Commissioners by Duke Energy's CEO and Executive Leadership that occurred on December 2, 2016. Jim Henning remains the President of Duke Energy Kentucky.

The enclosed organizational chart depicts the reporting/responsibility structure for Duke Energy Corp.'s, natural gas business operations. For the Commission's convenience and information, the Company is also providing a listing of all Duke Energy employees who will be

involved (continue to be involved) in the Midwest natural gas utility operations for Ohio and Kentucky.

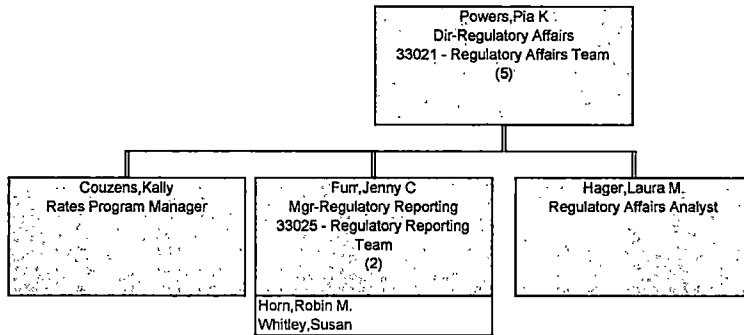

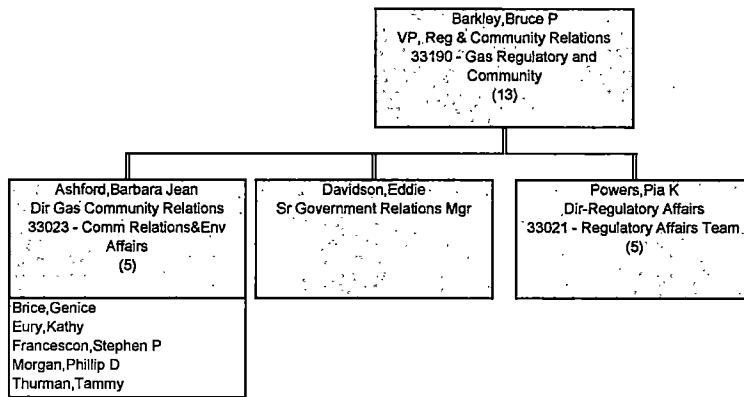

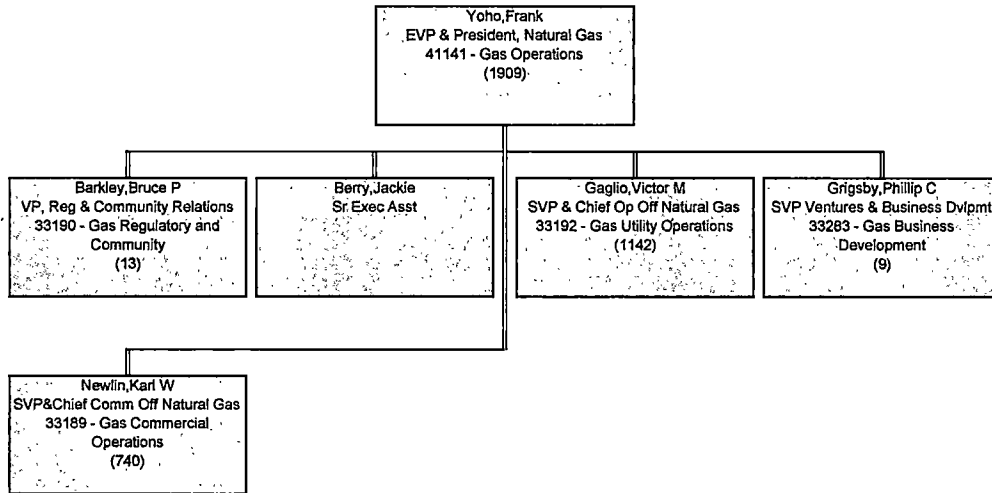

If you have any further questions, please do not hesitate to contact me.

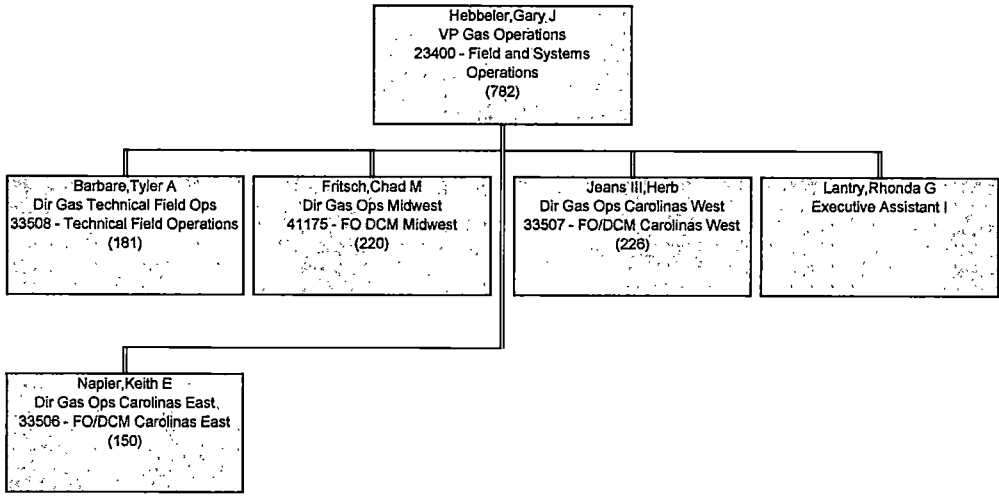

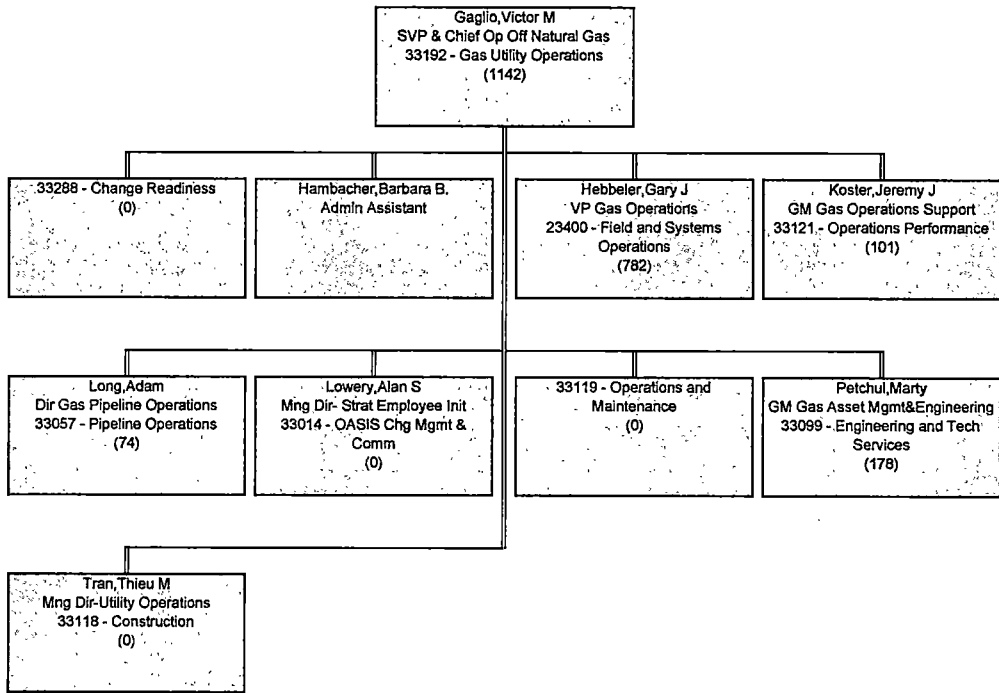

Sincerely,

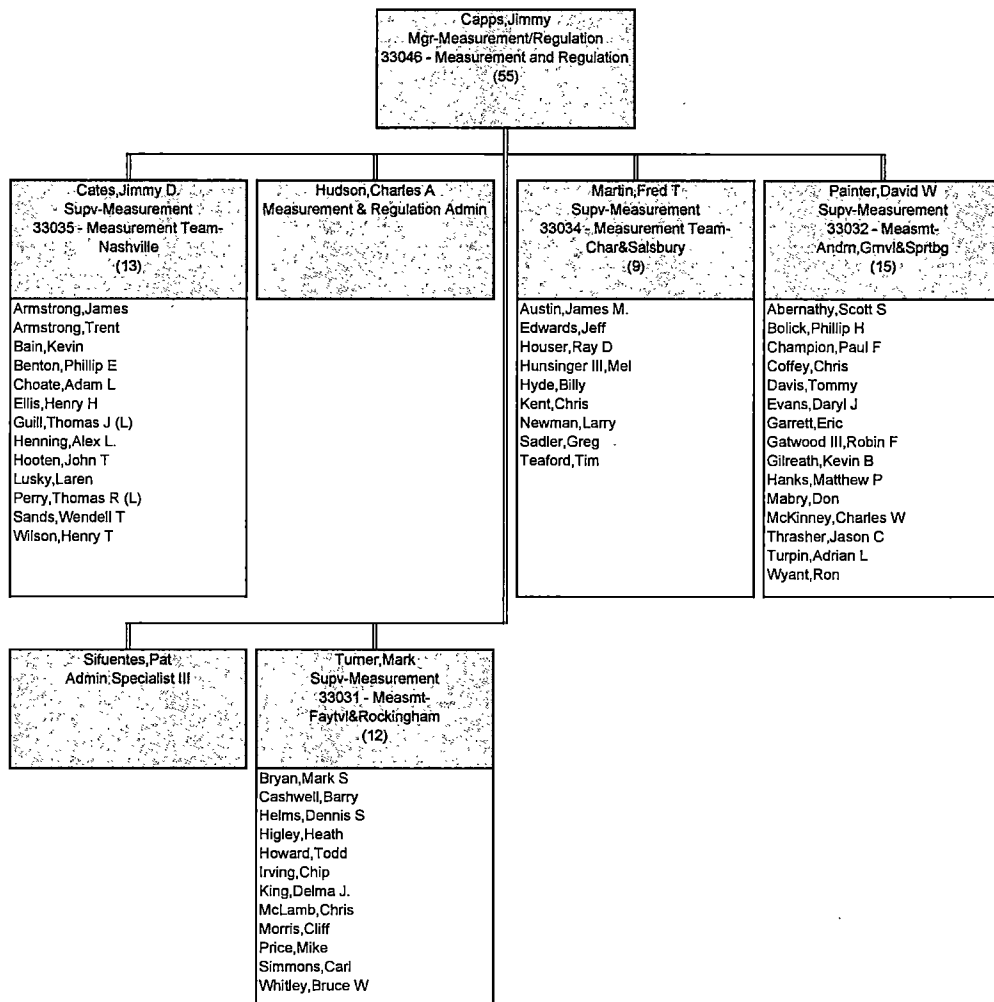

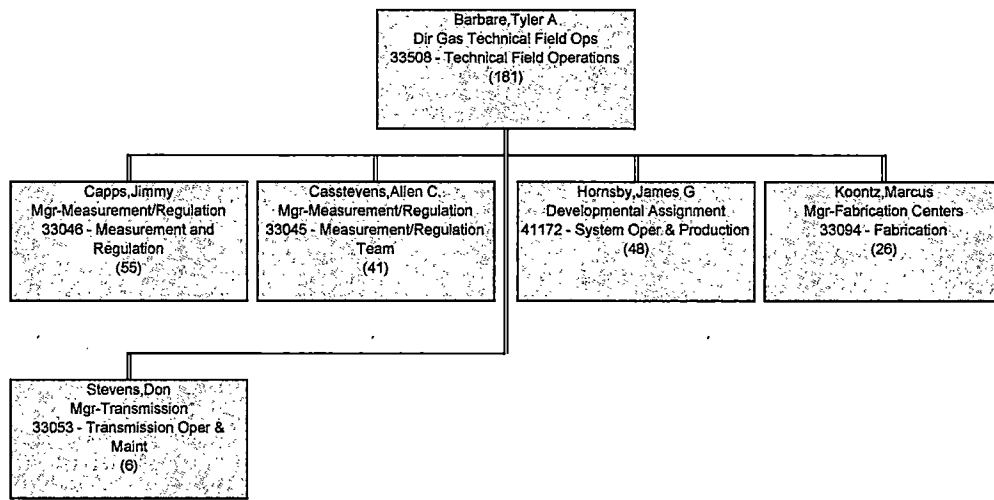

A handwritten signature in blue ink, consisting of a large, stylized loop followed by a horizontal line that tapers to the right.
