Subject: Public Comment in Support of Wood Duck Solar - PSC Case No. 2024-00337

Dear Kentucky Public Service Commission,

I am writing to express my strong support for the Wood Duck Solar project in Barren County (PSC Case No. 2024-00337). This 100-megawatt clean energy project represents exactly the kind of responsible economic development our community needs.

Wood Duck Solar will create good-paying construction and maintenance jobs right here in Barren County – jobs that can't be outsourced and will strengthen our local workforce. The project will generate substantial tax revenue that flows directly to our schools, county services, and infrastructure improvements, providing long-term economic stability for decades to come.

This project respects landowner rights and supports our farming families by providing reliable lease income that helps farmers keep their land and continue agricultural operations. Solar operates quietly and cleanly, making it a true good neighbor that preserves our rural character while bringing modern economic benefits.

Wood Duck Solar represents clean energy leadership that positions Kentucky for future economic growth while respecting both our economic needs and our commitment to responsible development. The benefits – jobs, tax revenue, and economic activity – stay right here in our community where they belong.

I urge the Public Service Commission to approve Wood Duck Solar for Barren

County. Thank you for your consideration.

Sincerely,
Mary Bodemer
Bardstown, KY 40004
