RE: KY PSC Case No. 2008-00415

Dear Mr. Gantley:

On October 31, 2008, Fleming-Mason Energy submitted an application to pass-through any wholesale rate adjustment granted to East Kentucky Power in Case No. 2008-00409. In the application, Fleming-Mason proposed the increase be passed through on a proportional basis and that the rate design structure proposed for each retail rate schedule not change the rate design currently in effect.

On March 31, 2009, the PSC issued its order in Case No. 2008-00415, finding that Fleming-Mason's approach complies with the provisions of KRS 278.455(2) and 807 KAR 5:007, Section 2 (2), and accepted the pass-through increase.

For service rendered on and after April 1, 2009, Inland Container Corporation's rates are as follows:

Inland Electric:

Customer Charge	\$5,041.00/Month
Energy Charge	\$.03669/kWh
Demand Charge	\$6.63/KW

Inland Steam:

Energy Charge	\$3.916/MMBTU
Demand Charge	\$547.87/MMBTU

All other provisions of the contract remain the same as those in effect prior to this order.

Please contact the office if further information is needed.

Sincerely,

Christopher S. Perry  
President & CEO
