RULES AND REGULATIONS

Schedule 1-NF, and 3-F - Continued

T

Minimum Annual Charge for Seasonal Service:

Consumers requiring service only during certain seasons not exceeding nine months per year may guarantee a minimum annual charge, in which case there shall be no minimum monthly charge. The minimum annual charge shall be sufficient to assure adequate compensation for the facilities installed to serve the customer, and in no event shall be less than twelve times the monthly minimum as set forth in Rate Schedule 1-NF and 3-F.

T

Terms of Payment:

The above rates are net, the gross rates being ten percent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from the due date, the gross rates shall apply.

Special Terms and Conditions:

Service under this schedule is subject to the Special Terms and Conditions set forth herein.

Special Terms and Conditions Relating to the Application of Residential and Farm Rate.

Multiple Units:

Service supplied under rate schedule 1-NF and 3F is based on service to a single unit at one point of delivery through a single meter. Where the premises consist of two or more units, Schedules 1-NF and 3-F may be applied only if separate circuits are provided without cost to the Distributor. If it is not practical to provide for separate metering of each unit, the entire premises will be served under the appropriate commercial rate.

T

RULES AND REGULATIONS

Schedule 1-NF and 3-F - Continued

T

Commercial Use of Portions of Dwellings:

The residential rate is not applicable to the space in the dwelling which is regularly used for commercial purposes, such as offices, beauty shop, studio, tea room, or store, or for other gainful activities. In such cases, if a separate circuit is provided at no cost to the Distributor, for the portion of the dwelling so used, the residential rate will be applied to the balance of the power requirements and the commercial rate will be applied to the portion of the dwelling used for commercial purposes. If a separate circuit is not provided, the entire power requirements of the premises must be billed under the commercial rate. If the premises are used primarily as a private dwelling and space in the dwelling occasionally used for commercial purposes, such as occasional rentals of surplus rooms, dress making, laundering etc., the residential rate should be applied to the entire power requirements.

Domestic Power Use:

A farm on which is located a single dwelling and its appurtenances, including barns, domestic servants quarters, and out-buildings, and which processes only its own products, shall be considered a domestic farm and shall be entitled to the residential rate for all of its power requirements, including motors up to and including rated capacity of five horsepower (5 H.P.). Motors of capacities larger than five horsepower (5 H.P.) shall not be installed except by written permission of the Cooperative. Service to dwellings other than the main buildings such as tenant houses etc., must be separately metered and billed under the residential rate. This interpretation is not applicable to commercial dairies as defined below.

Commercial Farm Use:

1. Farm service shall be metered and billed under the commercial lighting and power rate if other dwellings beside the main dwelling are not separately metered and are served through the

same point of delivery, or if products of other farms are processed for sale. The main dwelling and domestic servants quarters may be metered and billed under the residential rate if a separate circuit is provided for all of the other farm uses in cases where products of other farms are processed for sale.

2. If a farm customer's barn, pump house or other outbuildings are located at such distances from his residence as to make it impractical to supply service thereto through his residential meter, the separate meter required to measure service to such remotely located buildings will be considered a separate service contract and billed as a separate customer.

3. All motors rated above one-half horsepower ($\frac{1}{2}$ H.P.) must be 240 volt motors. All motor installations, fluorescent and other gaseous lighting installations must conform with the Cooperative's power factor correction rule applicable thereto.

4. Three-phase service will not be made available under Rate Schedule 1-NF and 3-F. Consumers requiring three-phase service shall be billed on the Cooperative's applicable power rate subject to the rules and regulations covering such service.

Commercial Rate: - Continued

2. All motors rated above one-half horsepower ($\frac{1}{2}$ H.P.) must be 240 volt motors. All motor installations, fluorescent, or other gaseous lighting installations must conform with the Cooperative's power factor correction rule applicable thereto. (As set forth in rate schedule for Commercial and Industrial Lighting and Power.)

3. Three-phase service will not be made available under Commercial Rate 2-C. Consumers desiring to contract for three-phase service will be required to make application to the Cooperative for such service stating the location desired and shall be billed on the Cooperative's applicable power rate subject to the rules and regulations covering such service.

4. Consumers having a total connected power load in excess of 10 KV billing demand shall be billed on the Cooperative's appropriate rate schedule.

5. Temporary service shall be supplied under this rate except that the consumer shall pay in addition to the foregoing charges the total cost of connecting and disconnecting service less the value of materials returned to stock. A deposit, in advance, may be required of the full amount of the estimated bill for service, including the cost of connection and disconnection.

RULES AND REGULATIONS

Schedule 2B-C - Continued

Minimum Bill:

Consumers and municipalities receiving service under the above rate will be required to execute contracts for minimum terms of one year. The minimum monthly charge shall be the minimum charge specified in the contract for service.

Method of Determining Distributor's Investment:

The investment in property and equipment used as a basis for the investment charge contained in this schedule shall consist of the cost of such property and equipment, including the full amount shown in the plant account entitled "Street Lighting and Signal System". If any part of the street-lighting system has not been built at the expense of the Distributor, a deduction shall be made from the annual investment charge in the amount of six percent (6%) of the investment in such part.

Lamp Renewals:

Distributor shall keep a record of the number and type of lamp replacement and customer shall be billed monthly for the replacements during the month at actual cost to Distributor, including appropriate overheads.

Relocation of Lamps:

Distributor shall, at the request of customer, relocate or change existing equipment. Customer shall reimburse Distributor for such changes at actual cost, including appropriate overheads.

Metering:

All energy consumed under this schedule shall be metered excepting installations where, in the opinion of Distributor metering would be impracticable.

Metering: - Continued

When the consumption is metered, the meters shall be installed in or connected to the lighting circuit and the billing shall include the energy delivered to and consumed in all circuits and equipment used exclusively for street lighting purposes. If more than one meter is used, the readings shall be consolidated for billing purposes.

When the energy is not metered and also when a meter reading is found to be in error, the consumption for billing purposes shall be computed from the rated capacity of the lamps plus five percent (5%) for losses, multiplied by the number of hours of use.

Payment:

The rates included herein are net, the gross rates being ten percent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from due date, the gross rates shall apply.

Power Factor Adjustment:

The consumer shall at all times take and use power in such manner that its average power factor shall be as near one hundred percent (100%) as is consistent with good engineering practice, but in no case shall the power factor be lower than ninety percent (90%) lagging. The Distributor reserves the right to measure the power factor at any time. When the power factor is found to be lower than ninety percent (90%) lagging, the consumer will be required to correct its power factor to ninety percent (90%) at the consumer's expense. The demand shall be defined as ninety percent (90%) of the highest average kilovolt-amperes measured during any fifteen consecutive-minute period of the month.

T

Fuel Cost Adjustment Charge:

In case the rate under which Seller purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision in Seller's wholesale power contract, the foregoing energy charges shall be adjusted each month by the same amount per KWH as the fuel cost adjustment per KWH in Seller's wholesale power bill for the next preceding month.

Minimum Monthly Charges:

The minimum monthly charge shall be the highest one of the following charges as determined for the consumer in question.

1. The minimum monthly charge specified in the contract for service.
2. A charge of \$0.75 per KVA of installed transformer capacity.
3. A charge of \$25.00.

Determination of Billing Demand:

The billing demand shall be the maximum kilowatt demand established by the consumer for any period fifteen consecutive-minutes during the month for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as follows:

Power Factor Adjustment:

The consumer shall at all times take and use power in such manner that its average power factor shall be as near one hundred percent (100%) as is consistent with good engineering practice, but in no case shall the power factor be lower than ninety percent (90%) lagging. The Distributor reserves the right to measure the power factor at any time. Should such measurements indicate that the power factor at the time of his maximum demand is less than ninety percent (90%), the demand for billing purposes shall be the demand as indicated or recorded by the demand meter multiplied by ninety percent (90%) and divided by the percent power factor. When the power factor is found to be lower than ninety percent (90%), the consumer will be required to correct its power factor to ninety percent (90%) at the consumer's expense. The demand shall be defined as ninety percent (90%) of the highest average kilovolt-amperes measured during any fifteen consecutive-minute period of the month.

Fuel Cost Adjustment Charge:

In case the rate under which Seller purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision in Seller's wholesale power contract, the foregoing energy charges shall be adjusted each month by the same amount per KWH as the fuel cost adjustment per KWH in Seller's wholesale power bill for the next preceding month.

RULES AND REGULATIONS

Schedule CP-4A - Continued

Special Rules and Conditions:

1. Motors having a rated capacity in excess of five horsepower (5 H.P.) must be three-phase unless written permission has been obtained from the Seller.

2. All wiring, pole lines, and other electrical equipment beyond the metering point, shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.

3. Service hereunder will be furnished at one location. If the consumer desires to purchase energy from the Cooperative at two or more locations, each such location shall be metered and billed separately from the other under the above rates.

4. When lighting is installed under the above rate, the lighting load shall not exceed ten percent (10%) of the maximum power load. All equipment necessary to provide lighting shall be installed, owned and maintained by the consumer.

5. All motors in excess of ten horsepower (10 H.P.) rating shall have reduced voltage starters.

Schedule 6-C - Continued

N

Minimum Annual Charge for Seasonal Service:

Consumers requiring service only during certain seasons not exceeding nine months per year may guarantee a minimum annual charge, in which case there shall be no minimum monthly charge. The minimum annual charge shall be sufficient to assure adequate compensation for the facilities installed to serve the customer, and in no event shall be less than twelve times the monthly minimum as set forth in Rate Schedule 6-C.

N

Terms of Payment:

The above rates are net, the gross rates being ten percent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from the due date, the gross rates shall apply.

N

Special Terms and Conditions:

Service under this schedule is subject to the Special Terms and Conditions set forth herein. Special Terms and Conditions Relating to the Application of Schedule 6-C, Schools and Churches.

Multiple Units:

Service supplied under rate Schedule 6-C is based on service to a single unit at one delivery point through one single meter. Where premises consist of two or more units, Schedule 6-C may be applied only if separate circuits are provided without cost to the Distributor. If it is not practical to provide for metering of each unit, the entire premises will be served under the appropriate commercial rate.

Outdoor Lighting Service -Individual Consumers

RATE
 PER UNIT

Applicable:

Entire territory served.

Availability of Service:

Available to consumers who abide by the rules, regulations and by-laws of the Cooperative and will sign a contract agreement for service in accordance with the special terms and conditions set forth herein.

Character of Service:

This rate schedule covers electric lighting service to outdoor equipment for the illumination of streets, driveways, yards, lots and other outdoor areas. Cooperative will provide, own and maintain the lighting equipment, as hereinafter described and will furnish the electrical energy to operate such equipment. Service under this rate will be available on an automatically controlled dusk-to-dawn every-night schedule of approximately 4000 hours per year. Units installed shall be security light type or units as specified herein.

Rates:

175 Watt, Mercury Vapor Unit	Per Month	3.00
400 Watt, Mercury Vapor Unit	Per Month	3.75
400 Watt, Mercury Vapor Flood Light	Per Month	3.75

State and Federal Tax will be added to above rate when applicable.

Terms of Payment:

Accounts not paid when due may incur a delinquent charge for collection, a disconnect and reconnect fee of \$3.00.

Schedule 1-SL -Outdoor Lighting Service - Continued

Special Terms and Conditions:

1. Cooperative will furnish and install the lighting unit complete with lamp, fixture or luminaire, control device, and mast arm. The above rates contemplate installation on an existing pole in Cooperative's system. If the location of an existing pole is not suitable for the installation of a lighting unit, the Cooperative will extend its secondary conductor one span, not to exceed 150 feet, and install an additional pole for the support of such unit and the member shall pay an additional charge of .25¢ per pole per month per pole installed. If more than one pole is required, the member agrees to pay the actual cost of construction beyond the first pole and the first 150 feet.
2. All lighting units, poles and conductors installed in accordance herewith shall be the property of Cooperative, and Cooperative shall have access to the same for maintenance, inspection and all other proper purposes. Cooperative shall have the right to make other attachments to the poles and to further extend the conductors installed in accordance herewith when necessary for the further extension of its electric service. Lighting units will be removed at the request of the member on 30 days notice upon the anniversary date of the signed agreement in any year. The minimum such period shall be one year; and shall continue from month to month thereafter until terminated by either party giving 30 days notice to the other, for which the member agrees to pay the rates as set forth herein.
3. When it becomes necessary to install the lighting unit on the load side of the member's meter, at the member's request, the KWH consumption will be included in the regular meter reading; and billed in the regular monthly electric bill. In which case the rental charge only for the specific unit or units installed, including pole rental if any, will be added to the member's monthly bill.

4. This schedule covers service from overhead circuits only, with installation on wood poles; provided however, that when feasible, flood lights served hereunder may be attached to existing metal street lighting standards supplied from overhead or underground circuits. If any permit is required from municipal or other governmental authority with respect to the installation and use of any of the lighting units served hereunder, it will be the responsibility of the member to obtain such permit. N

5. The member further agrees that the units, together with the poles and conductors, may be removed at any time by the Cooperative upon failure to pay the charges set forth herein in accordance with the Cooperative's established rules and regulations for billing and collecting of electric accounts. N

6. The member agrees to exercise proper care to protect the property of the Cooperative on its premises and in the event of loss or damage to the Cooperative's property arising from negligence of the member to care for same, the cost of necessary repair or replacement shall be paid by the member. N

7. All servicing and maintenance will be performed only during regular scheduled working hours of the Cooperative. The member shall be responsible for reporting outages or other operating faults. The Cooperative will make a diligent effort to service the unit at the earliest possible date or within 48 hours after notice is received. No reduction will be made to members monthly charges for service interruption time due to lamp failure, or other causes beyond control of the Cooperative. N

8. In the event that service hereunder is applied for by sub-division developers or other parties whose interest may be temporary, Cooperative may require reasonable contractual assurance that the service will be continued after the interest of such developer or other party has terminated. N

RULES AND REGULATIONS

Addendum - Underground Service

The Cooperative will install underground distribution lines to a residential subdivision under the following conditions:

1. The subdivision being developed must consist of a tract of land which is divided into ten (10) or more lots for the construction of new residential buildings or the land on which is constructed two (2) or more new multiple occupancy buildings (refer to PSC Electric Rules, Appendix A for definitions of terms).
2. Developer or owner of subdivision (shall) or (may be required) to advance to the Cooperative an amount equal to an "estimated average cost differential," if any, between the average or representative cost of underground distribution systems in residential subdivisions and of equivalent overhead distribution systems within the utility service areas. If the amount deposited exceeds the normal charge for underground extensions, the amount in excess shall be refunded over a period of ten (10) years. The amount of refund per service connected shall be the amount contributed in excess of the normal underground cost differential, divided by the total lots to be served from the primary extension.
3. The Cooperative will construct underground distribution facilities in the subdivision adequate to render single phase 120/240 Volt service.
4. Three phase primary mains or feeders required within a subdivision to supply local distribution or to serve individual three phase loads may be overhead unless underground is required by governmental authorities or chosen by applicant, in either of which case the differential cost of underground shall be born by the applicant.
5. Developer or successor in title shall grant a right-of-way satisfactory to the Cooperative for the installation, operation and maintenance of its underground facilities.

6. If developer provides the secondary service lines to the residence from service pedestal located on easement, the Cooperative shall credit the applicant fifty dollars (\$50.00) or the equivalent cost of an overhead service line to the applicant's meter base, whichever is greater. Service lines to house (provided by developer) shall be installed and ready for inspection at the same time as the residence. Trench is to be left open until inspection has been made. If the Cooperative provides secondary service lines, applicant shall pay the "estimated average cost differential" between overhead and underground service.
7. For all developments that do not meet the conditions set forth in paragraph 1 above, underground distribution will be installed provided an advance to the Cooperative is made in an amount equal to the difference between the Cooperative's estimated cost of underground facilities and overhead facilities, which it would otherwise provide.
8. The applicant shall be required to perform all necessary trenching and backfilling in accordance with the Cooperative's specifications.
9. The estimated cost differential per foot of conductor is for normal soil conditions and does not include rock, estimated rock cost shown on Exhibit A.
10. The estimated cost differential per foot of conductor is filed herewith as Exhibit "A".
