CLASSIFICATION OF SERVICE

Schedule 1

Residential, Farm and Non-Farm, Schools & Churches

RATE  
PER UNIT

Applicable:

Entire territory served.

Availability of Service:

Available to customers of the Cooperative located on its lines for service including lighting, incidental appliances, refrigeration, cooking, home heating, and power for motors up to and including seven and one-half (7 1/2 H.P.); Corporation covering this service.

Character of Service:

Single Phase, 60 hertz, at Seller's standard voltages.

Rates: Monthly

First 30 KWH per month or less (minimum bill)  
Next 70 KWH per month  
Next 200 KWH per month  
Next 700 KWH per month  
All over 1000 KWH per month

*(I)*  
*C 10/10*  
*(I)*

\$3.45  
5.408¢ per KWH  
2.918¢ per KWH  
2.058¢ per KWH  
1.728¢ per KWH

State & Federal tax will be added to above rate where applicable.

Minimum Monthly Charge:

In no case shall the monthly minimum bill be less than \$3.45 per month. *(I)*

Fuel Cost Adjustment:

The monthly rates may be increased or decreased by an amount per KWH equal to 1.10 times the fuel adjustment per KWH as billed by the wholesale power supplier in the preceding month. The adjustment shall be applied to the nearest 0.01 mills per KWH. *(C)*

Tariff Consumers - Fuel Clause Lag Surcharge:

The following surcharge shall be applicable to all classes of tariff customers: In the event the rate under which the Corporation purchases power at wholesale is adjusted in accordance with a fuel lag energy surcharge provision made a part of the tariff of Corporation's wholesale power supplier by order of the Public Service Commission of Kentucky in Case NO. 6761, then each month the Corporation shall add to every kilowatt hour sold a surcharge equal to the dollar amount of the fuel lag energy surcharge cost in the Corporation's wholesale power costs for the next preceding month divided by total kilowatt hours sold in the billing month. *(N)*

RULES AND REGULATIONS

Schedule 1 - Continued

Terms of Payment:

The above rates are net, the gross rates being ten per cent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from the due date, the gross rates shall apply.

Multiple Units:

Service supplied under rate Schedule 1 is based on service to a single unit at one point of delivery through a single meter. Where the premises consist of two or more units, Schedule 1 may be applied only if separate circuits are provided without cost to the Distributor. If it is not practical to provide for separate metering of each unit, the entire premises will be served under the appropriate commercial rate.

Commercial Use of Portions of Dwellings:

The residential rate is not applicable to the space in the dwelling which is regularly used for commercial purposes, such as office, beauty shop, studio, tea room, or store, or for other gainful activities. In such cases, if a separate circuit is provided at no cost to the Distributor, for the portion of the dwelling so used, the residential rate will be applied to the balance of the power requirements and the commercial rate will be applied to the portion of the dwelling used for commercial purposes. If a separate circuit is not provided, the entire power requirements of the premises must be billed under the commercial rate. If the premises are used primarily as a private dwelling and space in the dwelling occasionally used for commercial purposes, such as occasional rentals of surplus rooms, dress making, laundering, etc., the residential rate should be applied to the entire power requirements.

Domestic Power Use:

A farm on which is located a single dwelling and its appurtenances, including barns, domestic servants quarters, and out-buildings, and which processes only its own products, shall be considered a domestic farm and shall be entitled to the residential rate for all of its power requirements, including motors up to and including rated capacity of seven and one-half horsepower (7 1/2 H.P.). Motors of capacities larger than seven and one-half (7 1/2 H.P.) shall not be installed except by written permission of the Cooperative. Service to dwellings other than the main buildings such as tenant houses, etc., must be separately metered and billed under the residential rate. This interpretation is not applicable to commercial dairies as defined below.

Issued by authority of an order of the Public Service Commission of Kentucky in Case No. 6801 dated July 20, 1977.

MEADE COUNTY RURAL ELECTRIC  
COOPERATIVE CORPORATION.

RULES AND REGULATIONS

Commercial Farm Use:

1. Farm service shall be metered and billed under the commercial lighting and power rate if other dwellings beside the main dwelling are not separately metered and are served through the same point of delivery, or if products of other farms are processed for sale. The main dwelling and domestic servants quarters may be metered and billed under the residential rate if a separate circuit is provided for all of the other farm uses in cases where products of other farms are processed for sale.

2. If a farm customer's barn, pump house or other out-buildings are located at such distances from his residence as to make it impractical to supply service thereto through his residential meter, the separate meter required to measure service to such remotely located buildings will be considered a separate service contract and billed as a separate customer.

3. All motors rated above one horsepower (1 H.P.) must be 240 volt motors. All motor installations, fluorescent and other gaseous lighting installations must conform with the Cooperative's power factor correction rule applicable thereto.

4. Three-phase service will not be made available under Rate Schedule 1. Consumers requiring three-phase service shall be billed on the Cooperative's applicable power rate subject to the rules and regulations covering such service.

Addendum - Underground Service

The Cooperative will install underground distribution lines to a residential subdivision under the following conditions:

1. The subdivision being developed must consist of a tract of land which is divided into ten (10) or more lots for the construction of new residential buildings or the land on which is constructed two (2) or more new multiple occupancy buildings (refer to PSC Electric Rules, Appendix A for definition of terms).
2. Developer or owner of subdivision (shall) or (may be required) to advance to the Cooperative an amount equal to an "estimated average cost differential" if any, between the average or representative cost of underground distribution systems in residential subdivisions and of equivalent overhead distribution systems within the utility service areas. If the amount deposited exceeds the normal charge for underground extensions, the amount in excess shall be refunded over a period of ten (10) years. The amount of refund per service connected shall be the amount contributed in excess of the normal underground cost differential, divided by the total lots to be served from the primary extension.

MEADE COUNTY RURAL ELECTRIC  
COOPERATIVE CORPORATION.

RULES AND REGULATIONS

3. The Cooperative will construct underground distribution facilities in the subdivision adequate to render single-phase 120/240 Volt service.
4. Three-phase primary mains or feeders required within a subdivision to supply local distribution or to serve individual three-phase loads may be overhead unless underground is required by governmental authorities or chosen by applicant, in either of which case the differential cost of underground shall be born by the applicant.
5. Developer or successor in title shall grant a right-of-way satisfactory to the Cooperative for the installation, operation and maintenance of its underground facilities.
6. If developer provides the secondary service lines to the residence from service pedestal located on easement, the Cooperative shall credit the applicant fifty dollars (\$50.00) or the equivalent cost of an overhead service line to the applicant's meter base, whichever is greater. Service lines to house (provided by developer) shall be installed and ready for inspection at the same time as the residence. Trench is to be left open until inspection has been made. If the Cooperative provides secondary service lines, applicant shall pay the "estimated average cost differential" between overhead and underground service.
7. For all developments that do not meet the conditions set forth in paragraph 1 above, underground distribution will be installed provided an advance to the Cooperative is made in an amount equal to the difference between the Cooperative's estimated cost of underground facilities and overhead facilities, which it would otherwise provide.
8. The applicant shall be required to perform all necessary trenching and backfilling in accordance with the Cooperative's specifications.
9. The estimated cost differential per foot of conductor is for normal soil conditions and does not include rock, estimated rock cost shown on Exhibit A.
10. The estimated cost differential per foot of conductor is filed herewith as Exhibit "A".

Addendum - Underground Service

EXHIBIT A

AVERAGE UNDERGROUND COST DIFFERENTIAL

(Filed in compliance with Appendix to the Order of the Public Service Commission in Administrative Case No. 146, dated February 2, 1973.)

Average cost per foot of underground primary	\$4.40
Average cost per foot of overhead primary	<u>3.15</u>
Average cost differential per foot of primary conductor	\$1.25
Average cost per foot of underground residential service	\$1.40
Average cost per foot of overhead residential service	<u>0.85</u>
Average cost differential per foot of service conductor	\$0.55

Note: Above estimated cost for underground does not include the cost of trenching and backfilling. If the Cooperative performs the trenching and backfilling the actual cost will be added to the above price.

Note: The estimated cost for rock removal for underground installation \$9.50 per foot.

Schedule 2 - Continued

Terms of Payment:

The above rates are net, the gross rates being ten percent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from the due date, the gross rates shall apply.

Special Terms and Conditions:

Service under this schedule is subject to the Special Terms and Conditions set forth herein.

Special Terms and Conditions Relating to the Application of Commercial Rate:

1. The Commercial Rate 2 is available and shall be applied to all consumers using single-phase service 120/240 volts, 60 hertz alternating current, (except those to whom service is available under the Residential and Farm rate, Code 1) for lighting and general usage, and power for motors up to and including seven and one-half horsepower (7 1/2 H.P.). Written permission must be obtained from the Cooperative for motors rated above seven and one-half horsepower (7 1/2 H.P.).

2. All motors rated above one horsepower (1 H.P.) must be 240 volt motors. All motor installations, fluorescent, or other gaseous lighting installations must conform with the Cooperative's power factor correction rule applicable thereto. (As set forth in rate schedule for Commercial and Industrial Lighting and Power.)

3. Three-phase service will not be made available under Commercial Rate 2. Consumers desiring to contract for three-phase service will be required to make application to the Cooperative for such service stating the location desired and shall be billed on the Cooperative's applicable power rate subject to the rules and regulations covering such service.

4. Consumers having a total connected power load in excess of

**RULES AND REGULATIONS**

Schedule 3 - Continued

Power Factor Adjustment:

The consumer shall at all times take and use power in such manner that its average power factor shall be as near one hundred percent (100%) as is consistent with good engineering practice, but in no case shall the power factor be lower than ninety percent (90%) lagging. The Distributor reserves the right to measure the power factor at any time. Should such measurements indicate that the power factor at the time of his maximum demand is less than ninety percent (90%), the demand for billing purposes shall be the demand as indicated or recorded by the demand meter multiplied by ninety percent (90%) and divided by the percent power factor. When the power factor is found to be lower than ninety percent (90%), the consumer will be required to correct its power factor to ninety percent (90%) at the consumer's expense. The demand shall be defined as ninety percent (90%) of the highest average kilovolt-amperes measured during any fifteen consecutive-minute period of the month.

Fuel Cost Adjustment:

The monthly rates may be increased or decreased by an amount per KWH equal to 1.10 times the fuel adjustment per KWH as billed by the wholesale power supplier in the preceding month. The adjustment shall be applied to the nearest 0.01 mills per KWH.

(C)

Tariff Consumers-Fuel Clause Lag Surcharge: The following surcharge shall be applicable to all classes of tariff customers:

In the event the rate under which the Corporation purchases power at wholesale is adjusted in accordance with a fuel lag energy surcharge provision made a part of the tariff of Corporation's wholesale power supplier by order of the Public Service Commission of Kentucky in Case No. 6761, then each month the Corporation shall add to every kilowatt hour sold a surcharge equal to the dollar amount of the fuel lag energy surcharge cost in the Corporation's wholesale power costs for the next preceding month divided by the total kilowatt hours sold in the billing month.

(N)

Minimum Monthly Charges:

The minimum monthly charge shall be the highest one of the following charges as determined for the consumer in question:

1. The minimum monthly charge specified in the contract for service.
2. A charge of \$0.75 per KVA of installed transformer capacity, or \$0.75 per horsepower of connected load.

Schedule 4 - Continued

Delayed Payment Charge:

The above rates are net, the gross rates being five percent (5%) higher on the first \$25.00 and two percent (2%) on the remainder of the bill. In the event the current monthly bill is not paid within ten (10) days from the due date of the bill, the gross rates shall apply.

Metering:

Necessary metering equipment will be furnished and maintained by the Cooperative, which shall have the option of metering service supplied hereunder at either primary or secondary voltage.

Special Rules and Conditions:

1. Motors having a rated capacity in excess of seven and one-half horsepower (7 1/2 H.P.) must be three-phase unless written permission has been obtained from the Seller.
2. All wiring, pole lines, and other electrical equipment beyond the metering point, shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.
3. Service hereunder will be furnished at one location. If the consumer desires to purchase energy from the Cooperative at two or more locations, each location shall be metered and billed separately from the other under the above rates.
4. When lighting is installed under the above rate, the lighting load shall not exceed ten percent (10%) of the maximum power load. All equipment necessary to provide lighting shall be installed, owned, and maintained by the Consumer.
5. All motors in excess of ten horsepower (10 H.P.) rating shall have reduced voltage starters.

CLASSIFICATION OF SERVICE

Schedule 5

Outdoor Lighting Service - Individual Consumers

RATE  
PER UNIT

Applicable:

Entire territory served.

Availability of Service:

Available to consumers who abide by the rules, regulations and by-laws of the Cooperative and will sign a contract agreement for service in accordance with the special terms and conditions set forth herein.

Character of Service:

This rate schedule covers electric lighting service to outdoor equipment for the illumination of streets, driveways, yards, lots, and other outdoor areas. Cooperative will provide, own, and maintain the lighting equipment, as hereinafter described and will furnish the electrical energy to operate such equipment. Service under this rate will be available on an automatically controlled dusk-to-dawn every-night schedule of approximately 4000 hours per year. Units installed shall be security light type or units as specified herein.

Rates:

175 Watt, Mercury Vapor Unit per month	\$3.80
400 Watt, Mercury Vapor Unit per month	4.90
400 Watt, Mercury Vapor Flood Light per month	5.45

(I)  
|  
(I)

State and Federal Tax will be added to above rate when applicable.

Terms of Payment:

Accounts not paid when due may incur a delinquent charge for collection, a disconnect and reconnect fee of \$3.00.

RULES AND REGULATIONS

Schedule 5 - Continued

Special Terms and Conditions:

1. Cooperative will furnish and install the lighting unit complete with lamp, fixture or luminaire, control device, and mast arm. The above rates contemplate installation on an existing pole in Cooperative's system. If the location of an existing pole is not suitable for the installation of a lighting unit, the Cooperative will extend its secondary conductor one span, not to exceed 150 feet, and install an additional pole for the support of such unit and the member shall pay an additional charge of \$0.25 per pole per month per pole installed. If more than one pole is required, the member agrees to pay the actual cost of construction beyond the first pole and first 150 feet.
2. All lighting units, poles and conductors installed in accordance herewith shall be the property of Cooperative, and Cooperative shall have access to the same for maintenance, inspection and all other proper purposes. Cooperative shall have the right to make other attachments to the poles and to further extend the conductors installed in accordance herewith when necessary for the further extension of its electric service. Lighting units will be removed at the request of the member on 30 days notice upon the anniversary date of the signed agreement in any year. The minimum such period shall be one year; and shall continue from month to month thereafter until terminated by either party giving 30 days notice to the other, for which the member agrees to pay the rates as set forth herein.
3. When it becomes necessary to install the lighting unit on the load side of the member's meter, at the member's request, the KWH consumption will be included in the regular meter reading; and billed in the regular monthly electric bill. In which case the rental charge only for the specific unit or units installed, including pole rental, if any, will be added to the member's monthly bill.

RULES AND REGULATIONS

Schedule 5 - Continued

- 4. This schedule covers service from overhead circuits only, with installation on wood poles; provided however, that when feasible, flood lights served hereunder may be attached to existing metal street lighting standards supplied from overhead or underground circuits. If any permit is required from municipal or other governmental authority with respect to the installation and use of any of the lighting units served hereunder, it will be the responsibility of the member to obtain such permit.
- 5. The member further agrees that the units, together with the poles and conductors, may be removed at any time by the Cooperative upon failure to pay the charges set forth herein in accordance with the Cooperative's established rules and regulations for billing and collecting of electric accounts.
- 6. The member agrees to exercise proper care to protect the property of the Cooperative on its premises and in the event of loss or damage to the Cooperative's property arising from negligence of the member to care for same, the cost of necessary repair or replacement shall be paid by the member.
- 7. All servicing and maintenance will be performed only during regular scheduled working hours of the Cooperative. The member shall be responsible for reporting outages or other operating faults. The Cooperative will make a diligent effort to service the unit at the earliest possible date or within 48 hours after notice is received. No reduction will be made to members monthly charges for service interruption time due to lamp failure, or other causes beyond control of the Cooperative.
- 8. In the event that service hereunder is applied for by subdivision developers or other parties whose interest may be temporary, Cooperative may require reasonable contractual assurance that the service will be continued after the interest of such developer or other party has terminated.

Schedule 6 - Continued

Special Terms and Conditions:

1. Cooperative will furnish and install the lighting unit complete with lamp, fixture or luminaire, control device and mast arm. The rates stated herein contemplate installation on an existing pole in the Cooperative's system. If the location of an existing pole is not suitable for the installation of a lighting unit, the Cooperative will extend its conductor and install additional poles necessary for the lighting system; and the customer will be charged eight percent (8%) per year on the additional construction required for the lighting system only. The additional annual charge will be computed and one twelfth (1/12) of the total annual charge for additional construction, so computed, will be added to the customer's monthly bill.
2. All lighting units, poles and conductors installed in accordance herewith shall be the property of Cooperative, and Cooperative shall have access to the same for maintenance, inspection and all other proper purposes. Cooperative shall have the right to make other attachments to the poles and to further extend the conductors installed in accordance herewith when necessary for the further expansion of its electric service.
3. This schedule covers service from overhead circuits only, with installation on wood poles; provided, however, that when feasible, flood lights served hereunder may be attached to existing metal street lighting standards supplied from overhead or underground circuits. If any permit is required from municipal or other governmental authority with respect to the installation and use of any of the lighting units served hereunder, it will be the responsibility of the customer to obtain such permit.
4. All servicing and maintenance will be performed only during regular scheduled working hours of the Cooperative. The customer shall be responsible for reporting outages or other operating faults. The Cooperative will make diligent effort to service the lighting equipment within 48 hours after such notification by the customer.
