RESALE INTEREXCHANGE TELECOMMUNICATIONS SERVICE TARIFF

2. REGULATIONS

2.1 Definitions

Certain terms used generally throughout this tariff for interexchange resale communications service furnished by Company are defined below.

Accounting Code Service

An arrangement whereby Company, by means of four-digit Accounting Code associated with an access billing number, provides the customer with the capability to allocate Company usage costs to separate cost centers. A monthly call detail report for each Accounting Code is included in the service. A separate list is generated for each Access Code number to which Accounting Code Service applies. A maximum of 100 account codes is allowed per access code.

Authorized User

The term, authorized user, denotes a person, firm or corporation who is authorized by the member to utilize the Company.

Business Line

A communication service provided by a telephone operating company which allows a subscriber of Company access to the telephone dial network.

Central Office End

The term "Central Office End" denotes that end of a foreign exchange channel at which subscriber has a dial access to a telephone company central office.

2.1 Definitions (cont'd.)

Travel Access

Travel Access to the Company network can be utilized whenever a member is at a location that cannot access a Company switch site on a toll free basis. Company Travel Access feature uses AT&T and Kentucky Bell provided 800 lines to access the Company network from any of the lower 48 states, Puerto Rico, and/or the Virgin Islands.

Travel Access utilization is exactly the same as local network utilization with respect to procedures. Rates for Travel Access service vary from dial-up service only in the per minute rate. (See Section 3.4). Usage charges for Travel Access are rounded to the next highest minute.

Universal Termination Wats (UTW)

This is a Company service offering where members pay one per minute per call regardless of the distance being called. UTW billing is not mileage sensitive but all other Dial-Up regulations apply.

Transparent Access

As used by Company, transparent access means that users access the Company network as they would AT&T with 1+ Area Code and number called only, omitting both the access and security code numbers in their manual dialing routine.

2.4 Company Liability (cont'd.)

- .4 Company shall be indemnified and held harmless by the member against:
 - A. Claims for libel, slander, infringement of copyright or unauthorized use of any trademark, trade name or service mark arising out of the material, data, information, or other content transmitted by the customer over the Company facilities; and
 - B. Claims for patent infringement arising from combining or connecting the Company facilities with apparatus and systems of the customer; and
 - C. All other claims arising out of any act or omission of the customer in connection with any service provided by Company.
- .5 Company will make no refund of overpayments by a member unless the claim for such overpayment together with proper evidence is submitted within one (1) year from the date of alleged overpayment unless billing records prepared by Company can be produced which would justify a credit beyond one year.
- .6 Approval of the above tariff language by the Kentucky Public Service Commission does not constitute a determination by the Commission that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

2.12 Disconnection of Service

Company may disconnect service at any time following the minimum service requirement as described in Section 2.7. Written notification to the member will be required 30 days prior to the disconnection of monthly fixed charges.

2.13 Interruption of Service

It shall be the obligation of the member to notify Company, under this tariff is interrupted for sixty (60) continuous minutes or more for Dedicated Dial-Up Service, credit is allowed on demand to Company, computed as set forth below, provided such interruption is not shown by Company, to have been caused by the negligence or willful act of the member, or anyone at a member terminal location, or is not caused by the failure of the member's equipment or power supply.

Credit is computed by multiplying the monthly rate for the service by the ratio that the number of hours (including fractional parts calculated to the nearest tenth of an hour) in the period of interruption bears to 720. (For the purpose of this computation, each month shall be considered to have 720 hours). The monthly bill on which the credit will be based for private line service shall be the actual billing for the month during which the interruption occurred. The monthly bill on which the credit will be based for message service shall be the non-usage sensitive billing for the month during which the interruption occurred. An interruption is measured from the time Company, detects trouble, or the member notified Company, of the interruption by an expeditious means, until the trouble is cleared. Each interruption is considered separately for purposes of establishing credit allowance. Interruptions shall be accumulated to the nearest half hour period.

2.16 Trouble Shooting at Member's Premises

A trouble shooting charge is levied to cover the cost to Company, of a visit to the member's premises to determine what equipment is the cause of a malfunction. This charge applies in cases where Company identifies the trouble to be caused by member-provided equipment, and is unrelated to any malfunction of Company's service. The charge applies from the time Company personnel are dispatched until the problem is identified.

A charge also applies when the local telephone company at Company's request, makes the trouble shooting visit to member's premises and determines that the trouble is caused by member-provided equipment. The member will be billed directly by the local telephone company.

The member may also be responsible for any charges when Company, acting as the member's agent, requests that the vendor of the member-provided equipment make a trouble shooting visit of the member-provided equipment.

3.1 General Description of Service and Rates (cont'd.)

- .7 At no additional cost, each Dial-Up service member can use the free optional accounting code service that requires the member to dial two extra digits after each long-distance number for cost or accounting allocations. The monthly Company bill will separate the calls according to the 6-digit access number and/or the accounting codes.
- .8 Under each of the above service options, the member's total monthly charges for use of the network facilities are based upon the total time the member utilizes such facilities as well as other specific charges, discounts and/or features applicable to each individual service option. When a call is established in one time-of-day rate application period and ends in another, the rate in effect when the network is accessed applies to the entire call. For example, a 10-minute call which if initiated at 7:55 a.m. will be charged for the full 10 minutes at the night rate. A specific description of each of the Dial-Up Service options and its recurring and nonrecurring charges, features, applicable discounts, and service availability is contained in the following sections.

3.10 Determination of Mileage

- a. Calls are measured from the rate center of the Subscriber's terminal or switch location to the rate center of the destination of the call.
- b. The distance between the rate centers of the Subscriber's switch and destination point is calculated by using the vertical ("V") and horizontal ("H") coordinates found in AT&T Tariff FCC No. 10, in the following manner:

- Step 1 - Obtain the "V" and "H" coordinates for the Subscriber's switch and the destination point.
- Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.
- Step 3 - Square the difference obtained in Step 2.
- Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 - Divide the sum of the squares obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the rate centers.
