TARIFF FORMAT

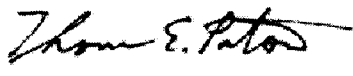

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Consult the Check Sheet for the sheet currently in effect.
- C. Check Sheets - When a tariff filing is made with the PSC KY, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (*).

EXECUTIVE DIRECTOR

Effective Date: July 2, 2003

1. DEFINITIONS

Certain terms used generally throughout this tariff are defined below.

Accessories: Devices that are mechanically attached to, or used with, the facilities furnished by the Company and that is independent of and not electrically, acoustically or inductively connected to the communications path of the telecommunications system.

Advance Payment: Part or all of a payment required before the start of service.

Applicant: A person, firm, partnership, corporation, etc., requesting service from the Company.

Authorized Protecting Connecting Module "Protector": A unit provided by the Company for the interconnection between customer-provided equipment and Company's facilities that provides a level of protection to the Company equipment and facilities.

Authorized User: A person, firm or entity other than the customer who may communicate over the services of the customer.

Automatic Number Identification ("ANI"): Allows the automatic transmission of a caller's billing account telephone number to a local exchange company, Interexchange carrier or a third party subscriber. The primary purpose of ANI is to allow for billing of toll calls.

Base Rate: A schedule rate for any form of exchange service or equipment that does not include mileage charges.

Base Rate Area: A specific area within an exchange service area as defined by Company Tariffs within which service is furnished at a uniform rate without additional mileage charges.

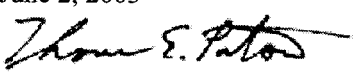

Bit: The smallest unit of information in the binary system of notation.

BY 
EXECUTIVE DIRECTOR

1. DEFINITIONS (Cont'd)

Building (Same): A structure under one roof or two or more structures under separate roofs but connected by enclosed passageways in which wires or cables of the company can be safely run provided, however, that the plant facilities are comparable to what would be required if the buildings were under one roof. Should the plant facilities for multiple buildings not be comparable then the term "same building" will apply to each individual structure.

Call: An attempted or completed communication.

Cancellation Charge: A charge under certain conditions when an application for service is cancelled prior to the completion of work involved.

Central Office: A switching unit in a telephone system located in a building or outdoor cabinet that provides service to the general public that has the necessary equipment and arrangements for terminating and interconnecting customer lines and trunks or trunks only. There may be more than one central office in an exchange.

Central Office Line: See "Exchange Line"

Certificate: A certificate of Public Convenience and Necessity issued by the Commission of Telephone Utilities.

Channel: A path for communications between two or more utility offices furnished in such a manner as the carrier may elect that may or may not be a single physical facility or route.

Class of Service: A description of telephone service furnished to a subscriber that describes the nature of the service provided. Such description may include the character of the service (residential or business), billing type (flat or usage variable), dialing method, etc.

1. DEFINITIONS (Cont'd)

Commission: The Kentucky Public Service Commission.

Communication Services: The Company's intrastate toll and local exchange switched telephone services.

Communications Systems: Channels or other facilities that are capable, when not connected to the telecommunications systems, of two-way communications between customer-provided terminal equipment or stations.

Company: Foothills Rural Telephone Cooperative Corp., Inc., the issuer of this tariff.

Competitive Local Exchange Carrier (CLEC): Denotes any individual, partnership, association, joint-stock company, trust or corporation engaged in providing switched communications services in an exchange in competition with the incumbent local exchange provider.

Connecting Company: A telephone company operating one or more exchanges and with which telecommunications services are interchanged.

Construction Charge: a separate non-recurring charge made to compensate for the construction of facilities in excess of those contemplated under the rates quoted in the Company's Tariff.

Contract: The arrangement between the customer and Company whereby services and facilities are provided pursuant to the applicable provisions of the Tariff.

1. DEFINITIONS (Cont'd)

Customer or Subscriber: The person, firm or corporation that orders service and is responsible for the payment of charges and compliance with the Company's regulations.

Customer-Provided Equipment ("CPE") or Terminal Equipment: Devices, apparatus, accessories, and their associated wiring provided by the customer that are connected pursuant to the terms of this Tariff with the Company's network.

Demarcation Point: The point at which the Company's facilities end and customer owned and / or maintained facilities begin.

Dial Pulse ("DP"): The pulse type employed by rotary dial station sets.

Direct Inward Dial ("DID"): A service attribute that routes incoming calls directly to stations, bypassing a central answering point.

Direct Outward Dial ("DOD"): A service attribute that allows individual station users to access and dial outside numbers directly.

Drop Wire: Wires or cables used to connect the circuits of aerial, buried or underground distribution facilities to the point where connection is made with the inside wiring.

Dual Tone Multi-Frequency ("DTMF"): The pulse type employed by tone dial station sets.

Duplex Service: Service that provides for simultaneous transmission in both directions.

Exchange: A determination established by the telephone utility for the administration of telecommunications service within a specific area to which a rate schedule applies.

Exchange Line: See "Network Access Line".

COOPERATIVE CORPORATION, INC.
LOCAL EXCHANGE TARIFF**

**PSC KY TARIFF 2
SECTION 1**

First Revised Sheet No. 8
Replaces Original Sheet No. 8

1. DEFINITIONS (Cont'd)

Exchange Service: The general telephone service rendered pursuant to Tariff provisions.

Exchange Service Area: The territory served by an exchange within which local telephone service is furnished at applicable exchange rates.

Extended Area Service: A type of telephone service whereby customers of a given exchange may complete or receive calls without the application of long distance message charges, pursuant to tariff(s).

Facilities: All property, means, and instruments owned, operated, leased, licensed, used, furnished, or supplied for, by or in connection with the rendition of telephone service.

Fiber Optic Cable: A thin filament of glass with a protective outer coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver, which translates the message.

Household Any individual or group of individuals who are living together at the same address as one economic unit. A household may include related and unrelated persons. An "economic unit" consists of all adult individuals contributing to and sharing in the income and expenses of a household. An adult is any person eighteen years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be considered part of the same household. Children under the age of eighteen living with their parents or guardians are considered to be part of the same household as their parents or guardians.

(N)

(N)

Hunting: Routes a call to an idle station line in a prearranged group when the called station line is busy.

Initial Service Period: The minimum length of time for which a customer is obligated to pay for service, facilities, and equipment.

Installation Charge: A separate, non-recurring charge applied for the provision of service in addition to service connection charges.

Intercepting Service: A service arrangement where a person calling a disconnected or discontinued telephone number is informed of the change.

In Only: A service attribute that restricts outward dial access and routes incoming calls to a designated answer point.

Issue Date: May 2, 2012

Effective Date: April 2, 2012

Issued by: /s/ Ruth Conley
Ruth Conley, General Manager
Issued under Authority Administrative Case No. 2012-00146

1. DEFINITIONS (Cont'd)

Joint User: A person, firm or corporation that is designated by the Customer as a user of services furnished to the Customer by the Company and to whom a portion of the Charges for the service will be billed under a joint user arrangement as specified herein.

Kentucky Relay Center: The Kentucky Relay Center permits hearing and speech impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

Kbps: Kilobits per second, denotes thousands of bits per second.

LATA: A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

(D)
(D)

Local Calling Area: An area within which telecommunications service is furnished under a specific schedule without long distance charges.

Local Exchange Carrier ("LEC"): Denotes any individual, partnership, association, joint-stock company, trust or corporation engaged in providing switched communication within an exchange.

Issue Date: May 2, 2012

Effective Date: April 2, 2012

Issued by: /s/ Ruth Conley
Ruth Conley, General Manager
Issued under Authority Administrative Case No. 2012-00146

1. DEFINITIONS (Cont'd)

Local Exchange Service: Telecommunications service provided within local exchange service areas in accordance with the tariffs.

Local Message: A completed call between customer locations within the same exchange or local calling area.

Long Distance Message Service: The furnishing of telecommunications between persons in different local service areas for which additional charges, pursuant to tariff, may apply.

Mbps: Megabits, denotes millions of bits per second.

Message: A communication between two stations.

Mileage Charge: A charge applied for the use of all or part of a channel. Mileage charges are applied between specific points, per the tariff, and are measured on an airline measurement, i.e., point-to-point; or on route miles, i.e., the actual length of the circuit.

Minimum Contract Period: The minimum length of time for which a customer is obligated to pay for a service or facilities regardless of whether or not the service is retained by the customer for that minimum length of time.

Miscellaneous Common Carriers: carriers as defined by part 21 of FCC rules that are not engaged in the business of providing either a public landline message telephone or public message telegraph service.

Mobile Telephone Service: A communication service provided by means of radio frequencies through land radiotelephone base stations. Such communications can be between a landline and wire line telephone or between two wire line telephones.

1. DEFINITIONS (Cont'd)

Multi-Frequency ("MF"): An inter-machine pulse-type used for signaling between telephone switches or between telephone switches and PBX/key systems.

PBX Trunk: A network access line that terminates in a PBX switchboard or switching equipment.

Plant: Property necessary to provide service to the public as set forth in various fixed capital accounts of the Uniform System of Accounts in telephone companies.

Premises: The building or buildings together with the surrounding land at which service is provided that is not intersected by public corridor or the property of a farm operated as a single farm regardless of whether the property is intersected by a public corridor.

Private Line Service: Lines and equipment furnished between subscribers for the exchange of communications without the involvement of the company's exchange switching network.

Private Right-of-Way: A facility route granted to the Company over private property.

Rate Centers: Points upon which the airline distance for the determination of message toll telephone rates are based.

1. DEFINITIONS (Cont'd)

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, that continue for the agreed upon duration of the service.

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use. If the Customer refuses to accept service due to nonconformity of the service to standards agreed upon pursuant to the Service Order and this tariff, the Service Commencement Date is the date of the Customer's acceptance. The Company and Customer may mutually agree on a substitute Service Commencement Date.

Service Connection Charge: A nonrecurring charge applied to the establishment of basic telephone service and the addition of certain subsequent additions to existing service.

Service Order: The written request for Network Services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

Shared: A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Shared Tenant Service: Shared Tenant Service is a shared service arrangement that allows Business Basic Flat Local Exchange Service to be resold subject to regulations specified in this tariff.

Subscriber: Any person, firm, partnership, corporation, municipality, cooperative organization or governmental agency furnished communication service by the Company under the provisions and regulation of its tariff.

SECTION 1
Original Sheet No. 13**

1. DEFINITIONS (Cont'd)

Switch: A unit of dial switching equipment that provides interconnection between lines or trunks.

Tariff: The rates, charges, rules and regulations adopted and filed by the Company and accepted by the Kentucky Public Service Commission.

Telephone Number: A designation assigned to network access lines necessary for placing calls to the telephone or PBX for identification purposes.

Temporary Disconnection: An arrangement whereby service is discontinued or suspended without terminating the contract or removing the telephone equipment.

Temporary Service: For the purpose of distinguishing between permanent and temporary service, temporary service is "any" service provided by the Company, that (1) does not fulfill the requirements of a minimum service contract, (2) would create an unusual expense for the Company caused by the short duration of service.

Termination Charge: A charge that applies for the discontinuance of an item of service or equipment prior to the expiration of the initial service period.

Toll Center: A telephone switching center at which the operations (manual or dial) function (message timing, switching, and recording) takes place in connection with the provision of toll message service.

2. REGULATIONS

2.1 Application of Tariff

The General Rules and Regulations contained in this Section apply to the service and facilities provided by the Company in the Commonwealth of Kentucky. These General Rules and Regulations are in addition to those contained in the Switched and Special Access Service Tariff that the Company may either issue or concur in. (T) (T)

The regulations covering the connection of equipment, accessories or facilities provided and maintained by the customer are contained in other sections of this tariff.

1. In the event of a conflict between any rate, rule, regulation or provision contained in this tariff and any rate, rule, regulation or provision contained in the tariffs of Companies' in which the Company concurs, the rate, rule, regulation or provision contained in this tariff shall prevail.
2. This Tariff cancels and supersedes all other tariffs of the Company issued and effective prior to the effective date shown on the individual sheets of this tariff.
3. Should there be any conflict between this Tariff and the General Rules and Regulations of the Public Service Commission of Kentucky (the Commission), the Commission's rules shall apply unless otherwise established by the courts.
4. When service and facilities are provided in part by the Company and in part by other connecting companies, the regulations of the Company apply to the portion of the service or facilities furnished by the Company.
5. Failure on the part of the customer to observe these General Rules and Regulations after due notice of such failure, gives the Company the right to discontinue service to that customer.

Issue Date: October 31, 2019
Effective Date: December 1, 2019

Issued by: /s/ Ruth Conley
Ruth Conley, General Manager

2. REGULATIONS (Cont'd)

2.2 Availability of Equipment or Facilities

1. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required of the sole discretion of the Company.
2. The Company reserves the right to limit or to allocate the use of existing facilities, or of additional facilities offered by the Company, when necessary because of lack of facilities, or due to some other cause beyond the Company's control.
3. The economical operation of the telephone business, for the benefit of the all customers of the Company and to the business itself may require changes in the wire center and base rate area boundaries. The rates for service furnished to customers affected when such changes take place will be recalculated based on the application of the approved tariff methods of applying charges and the customer will be informed of any increase or decrease in rates at the time of the change.

2. REGULATIONS (Cont'd)

2.3 Undertaking of the Company

2.3.1 General

1. The Company undertakes to furnish communications service pursuant to the terms of this Tariff in connection with one-way and /or two-way information transmission between points within the Commonwealth of Kentucky.
2. The Company will not transmit messages, but offers the use of its facilities, when available, and will not be liable for errors in the transmission or for failure to establish connections.
3. Where the Company transmits messages through the Kentucky Relay Center, the Company shall not be liable for errors in translating, transmitting, receiving, or delivering messages by telephone, TDD or any other instrumentality over the facilities of the Company, connecting utilities or through the Kentucky Relay Center, in the absence of gross negligence or willful misconduct.
4. Customers and users may use services and facilities provided under this tariff to obtain access to services offered by other service providers. The Company is responsible under this Tariff only for the services and facilities provided hereunder. The Company assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own customers.

2.3 Undertaking of the Company (cont'd)

2.3.2 Liability of the Company

1. The liability of the Company for damages arising out of the furnishing of its Services, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services or arising out of the failure to furnish the service, whether caused by acts or omission, shall be limited to the extension of allowances for interruption as set forth in 2.6.6. The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to Customer as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company's employees or agents.

2. The Company shall not be liable for any delay or failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood, explosion or other catastrophes; any law, order, regulation, direction, action, or request of the United States Government, or of any other government, including state and local governments having or claiming jurisdiction over the Company, or of any department agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or of any civil or military authority; national emergencies; insurrections; riots; wars; unavailability of rights-of-way or materials; or strikes, lock-outs, work stoppages, or other labor difficulties.

2.4.3 Unlawful Purpose

The customer will not use any service the Company offers for any unlawful purpose or for any use that the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.

2.4.4 Attachments or Connections

1. The customer will not permit equipment, accessories, apparatus, circuit or device to be attached to or connected with the Company's facilities except as provided in this Tariff.
2. In case any unauthorized attachment or connection is made, the Company shall have the right to remove or disconnect the same, to suspend service during the continuance of the unauthorized attachment or connection or to disconnect service. The customer shall be responsible for the cost of correcting any impairment of service caused by the use if such attachments or connections and shall be billed for each service call made to premises because of such attachments or connections.
3. Where a maintenance or repair visit is made to the subscriber's premises and the difficulty or trouble report results from the use of unauthorized attachments or connections, the "Maintenance of Service Charge" as specified in Section 3 of the Tariff shall be applied.

2. REGULATIONS (Cont'd)

2.4 Obligations of the Customer (cont'd)

2.4.5 Transmission Interference

The customer, upon notification from the Company, will immediately shut down its transmission of signals if said transmission is causing interference to others.

2.4.6 Assignment or Transfer by Customer

The customer or other authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit the Customer to transfer the customer's existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated communications services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charges as stated in this Tariff will apply.

2.4.7 Payment for Service

The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer and to all users authorized by the Customer, regardless of whether those services are used by the Customer itself or are resold to or shared with other persons.

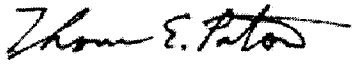

2.4.8 Taxes

The Customer is responsible for payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges or surcharges (however designated) (excluding taxes on Company's net income) imposed on or based upon the provision, sale or use of Network Services.

The customer may broadcast a recording of a telephone conversation provided that, in the interest of protecting the privacy of telephone service, the recording is made in accordance with the regulations governing connection with subscriber-provided voice recording equipment as specified in this Tariff, and pursuant to applicable law.

2.4.10 Recorded Public Announcements

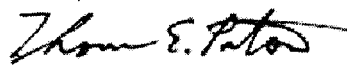

Use of Company facilities or service in connection with automatic announcement service, automatic answering and recording service, or miscellaneous devices for recorded public announcements are subject to the following conditions:

- a. For purposes of identification, subscribers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for the service and the address at which the service is provided, unless the address of the organization or individual named in the announcement is shown in the currently distributed telephone directory.
- b. Private telephone numbers will not be furnished for use with recorded public announcements.
- c. Failure to comply with the provisions of this Tariff shall be cause of termination of service.

2.5.2 Application of Residential Rates

Any customer requesting service must indicate the service classification. Service is classified as either residential or business service. Classification is reflected in rates charged in Section 5 in this Tariff. Residential rates apply to service furnished:

- a. In private homes or apartments (including all parts of the customer's domestic establishment) for domestic use and not for substantial occupational use.
- b. For service provided to individual members of the clergy at a church when business service is already established at the church and the purpose for the residential service is for personal use.
- c. In college fraternity or sorority houses, convents and monasteries for domestic, rather than occupational use.
- d. To the residential portion of a location used for both residential and business purposes, where the use of the service is for domestic purposes and where the business use is occasional.
- e. To a volunteer fire department or other entity eligible for aid under KRS 95A.262.

2.5.5 Subscriber Billing

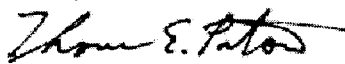

1. The subscriber is responsible for the payment of all charges in conjunction with the service furnished to the subscriber including, but not limited to, toll charges that have been accepted at the subscriber's location.
2. Monthly recurring charges are billed in advance and usage-based charges are billed in arrears.
3. Special billing arrangements may be established for services provided to Government agencies.
4. Bills are due when rendered unless otherwise specified on the bill and may be paid at any business office of the Company or at any agency authorized to receive such payments.
5. For billing purposes each month is presumed to have 30 days.
6. Retroactive billing adjustments will not be made for a period exceeding three years, unless sufficient proof is available to support an adjustment for a period exceeding three years.
7. A sample subscriber invoice is included in this Tariff.
8. Billing of the Customer by the Company will begin on the Service Commencement Date. The Commencement Date is the day on which the Company notifies the Customer that the service or facility is available for use.

BY 
EXECUTIVE DIRECTOR

2. REGULATIONS (Cont'd)

2.5 Establishment and Furnishing of Service (cont'd)

2.5.5 Subscriber Billing (cont'd)

9. The Service Commencement Date may be postponed by mutual agreement of the parties or if the service or facility does not conform to standards set forth in this tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.
10. If service is disconnected by the Company and later restored, restoration of service will be subject to all applicable installation charges.
11. A late payment charge of 1.0 percent applies to each customer's bill for any undisputed amount from a previous month's bill when that amount has not been paid in full prior to the due date shown on the bill. The late payment percentage is applied to all new charges on a customer's previous month's bill that were not paid prior to the next billing date. State agencies subject to KRS 45.454 shall be assessed late payment charges in accordance with that statute.

2.5.8 Termination of Service at the Subscriber's Request

1. Service may be terminated at any time upon reasonable notice from the subscriber to the Company. Upon such termination the subscriber shall be responsible for the payment of all charges due for the period service has been rendered plus any unexpired portion of an initial service period or application termination charges, or both.
2. In the case of directory listings where the listing has appeared in the directory charges apply through the end of the directory period. In the following cases, however, charges will be continued only to the date of termination of the extra listing, subject, however, to a minimum charge of one month.
 - a. The contract for the main service is terminated.
 - b. The listed party becomes a subscriber to some class of exchange service.
 - c. The listed party moves to a new location.
 - d. The listed party dies.
3. Contracts for periods of longer than one months for services requiring line extension may be terminated upon payment of all charges that would accrue to the end of the contract period; or, the contract will be transferred to a new applicant who is to occupy the same premises and will subscribe to the service effective on the day following termination by the original subscriber.

2.5.9 Suspension of Business or Residence Service

1. Upon request, a subscriber to business or residence service may arrange for the temporary suspension of such service unless otherwise specified in other sections of this Tariff. Suspension of service is available on the subscriber's complete service or on such portion thereof as can be suspended.
2. When the period of suspension is less than one month, the regular charges for the full month of service shall apply.
3. In connection with complete suspension of service, local or long distance service is not furnished during the period of suspension. At the request of the subscriber, inward calls to a party at which service is suspended may be referred to the call number of another party in the same or a distant exchange by subscribing to Remote Call Forward Service.
4. The charge for the total suspension period may be collected in advance.
5. There is no reduction in the charge for foreign central office line mileage and foreign exchange line mileage during the period of suspension.
6. In connection with service at a concession rate, the charge for service during the period of suspension is 50 percent of the rate regularly charged for service without concession, except in the case the concession is 50 percent or more, then the charge during the period of suspension is the rate regularly charged for the concession service.
7. The charge for Network Access Service during the period of suspension is 50 percent of the rate regularly charged, except as specified in 2.5.9 (1) preceding.

2.5.10 Transfer of Service Between Subscribers

Service previously furnished one subscriber may be assumed by a new subscriber upon due notice of cancellation, provided there is not lapse in the rendition of service. Such transfers are subject to service connection charge regulations and may be arranged for under the following condition:

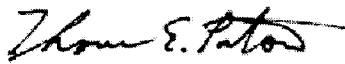

1. If the new subscriber, fully understanding the regulations governing the service and the status of the account and willingly assumes all obligation there under, then future bills will be rendered to him without an adjustment to or from any particular date, with the Company arranging for the requested change in billing and directory listing.
2. Under transfer of service the reassignment of the old telephone number to the service of the new party is arranged for only after the former subscriber has given his consent to its use, and then only when, in the judgment of the Company there exists no relationship, business or otherwise, between the old and new subscriber, and when in the judgment of the Company a change in the telephone number is not required.
3. When a relationship exists, business or otherwise, between the old and new subscribers, the reassignment of the old telephone number will not be permitted unless all charges due under the current account have been paid, and then only when in the judgment of the Company a change in the telephone number is not required.
4. Service order Charges as specified in Section 3 apply for all transfers of service unless otherwise noted.

2. REGULATIONS (Cont'd)

2.5 Establishment and Furnishing of Service (cont'd)

2.5.12 Equipment and Facilities – Provision and Ownership (cont'd)

5. Facilities of an electric power company or oil, oil products or natural gas pipe line company, or railroad company, that are not used for resale, provided primarily to communicate with point located along a right-of-way (including premises of such company anywhere in cities, towns or villages along the right-of-way) owned or controlled by such company and extending between or beyond exchange areas of the Company, may be connected with Private Branch Exchange instrument, or private line facilities furnished by the Company subject to the conditions stated in this Tariff.

2.5.13 Maintenance and Repairs

1. All ordinary expenses of maintenance and repairs of regulated facilities, unless otherwise specified in this Tariff, are borne by the Company on Company provided leased equipment.
2. In case of damage, loss, theft, or destruction of any of the Company's property due to the negligence or willful act of the subscriber or other persons authorized to use the service, and not due to ordinary wear and tear or causes beyond the control of the subscriber, the subscriber shall be required to pay the expense incurred by the Company in connection with the replacement of the property damaged, lost, stolen, or destroyed, or the expense incurred in restoring it to its original conditions.

2.5.14 Company Facilities at Hazardous or Inaccessible Locations

1. Where service is to be established at a location that would involve undue hazards, or where accessibility is impracticable, to employees of the Company, the subscriber may be required to install and maintain the Company's equipment and facilities in a manner satisfactory to the Company.

2.5.14 Company Facilities at Hazardous or Inaccessible Locations (cont'd)

2. Where service is to be established at a location that would involve undue hazards, or where accessibility is impracticable, to employees of the Company, the subscriber may be required to install and maintain the Company's equipment and facilities in a manner satisfactory to the Company.
3. All customer-provided equipment and facilities must be constructed and maintained in a manner satisfactory to the Company and must be in compliance with all the regulations set out in this Tariff for the connection of customer-provided terminal equipment and communications systems. Failure of the customer to comply with these regulations will result in the disconnection of the service.

2.5.15 Work Performed Outside Regular Working Hours

The rates and charges specified in this Tariff contemplate that all work in connection with furnishing or rearranging service be performed during regular working hours. Whenever a subscriber requests that work necessarily required in the furnishing or rearranging of his service be performed outside the Company's regular working hours or that work once begun be interrupted, so that the Company incurs costs that would not otherwise have been incurred, the subscriber may be required to pay, in addition to the other rates and charges specified in this Tariff, the amount of additional costs incurred by the Company as a result of the subscriber's special requirements.

2.6 Payment Arrangement and Credit Allowances

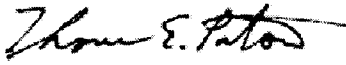

2.6.1 Establishment of Credit

1. In accordance with Kentucky Public Service Commission rules, the Company is not obligated to furnish service to any individual or firm that owes for service previously rendered at the same or a difference address, until arrangements have been made to liquidate such previous indebtedness to the Company.
2. In order to insure the payment of all charges due for its service, the Company may require a subscriber to establish and maintain his credit in one of the following ways:
 - a. By furnishing reference suitable to the Company;
 - b. By providing a suitable guarantee in writing, in form prescribed by the Company;
 - c. By means of cash deposit;
 - d. By having been a satisfactory subscriber of the Company.

2.6.2 Advanced Payments

1. At the time an application for service is made, an applicant may be required to pay an amount equal to at least one month's service and /or installation charge as applicable, and any applicable taxes or franchise fees in addition to any special construction and installation charges that may also apply.
2. The amount of the advance payment is credited to the subscriber's account on the first bill rendered.
3. Federal, state or Municipal governmental agencies may not be required to make advance payments.

2.6.6 Allowances for Interruptions in Service

1. Interruptions in service that are not due to the negligence of, or noncompliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as set forth in this section for the part of the service that the interruption affects.
2. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative.
3. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired but not interrupted.
4. For calculating credit allowances, every month is considered to have 30 days.
5. A credit allowance for fixed recurring fees only is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.
6. A daily credit allowance will be given upon request from the Customer for interruptions in excess of 24 hours from the time it is reported to the Company to time service is operative.

Ruth Conley, General Manager

By Authority of Order of the Public Service Commission in
Case No. 2016-00059 dated August 31, 2017.

2. REGULATIONS (Cont'd)

2.9 Kentucky Telecommunications Relay Service for Hearing-Impaired or Speech-Impaired Persons in Kentucky

Pursuant to KPSC Administrative Case No. 333 and 372, a monthly surcharge shall be imposed on all local exchange access lines to fund the Kentucky Telecommunications Relay Service. This service provides telephone communications between deaf and hearing / speech-impaired customers who use telecommunications devices for the deaf and customers who use standard voice telephones.

2.9.1 Regulations

1. Recovery of state costs associated with the Telephone Relay Service (“TRS”) and Telecommunications Access Program (“TAP”) is based on a fixed monthly charge per access line.
2. For purposes of application of the surcharge, access lines are defined as facilities that provide access to and from the telecommunications network for toll service and for local calling. WATS, Remote Call Forwarding, Radio Common Carriers, InterLATA Foreign Exchange Lines, Private Line Services, Mobile, Other Common Carriers, and Company Official Accounts are excluded from this category.
3. The monthly surcharge will appear in customer invoices labeled “TRS/TAP Surcharge.”

2.9.2 Surcharge Amount
Per access line

	<u>Monthly Recurring Charge</u>
TRS	\$0.01 (R)
TAP	<u>\$0.02</u>
TRS / TAP Surcharge	\$0.03 (R)

2. REGULATIONS (Cont'd)

2.10 Special Promotions

The Company may offer approved special promotions of new or existing services upon thirty (30) days notice to the Commission. These promotions are a temporary waiver of certain recurring, nonrecurring and/or usage charges or a one-time credit to a customer's account. Promotions will be offered on a non-discriminatory basis to all customers meeting the eligibility requirements for the promotion offered. Eligibility requirements may include class of service, serving area or other such determinations by the Company. Promotion notification will include terms and conditions and the time period in which the promotion is in effect.

3. SERVICE CHARGES

Service Charges are in addition to all other rates and charges that may be applicable for services provided by the Company. Service Charges apply in addition to installation and construction charges incurred because of unusual costs encountered in the provision of service.

3.1 Categories of Service Charges

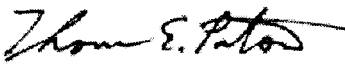

The work functions required to establish, add to, move or change telephone service for a business or residence class of service customer are classified by type of service charge as follows:

- 3.1.1 Line Assignment Charge – a charge for work or programming establishing or changing the assignment of line switch equipment, cable pairs, or equivalent equipment for services.
- 3.1.2 Line Connection (Equipment) Charge – a charge for work or programming establishing the necessary connections for line switching equipment, cable pairs or equivalent equipment.
- 3.1.3 Line Connection (Premise) Charge – a charge for work to install service wire (drop) and/or Network Interface/Protector from Company distribution facilities to the customer premise.
- 3.1.4 Premises Visit Charge - applies when a Company employee makes a field trip (including but not limited to the customer's premises) to perform requested work by the customer, other than disconnect work.
- 3.1.5 Service Order Charge - a charge for work performed in connection with receiving, recording, and processing a customer request for service to be performed or provided at the same time, on the same account and on the same premises. One Service Order Charge is applicable per access line or channel.
- 3.1.6 Restoral Service Charge – a charge for work performed to reconnect service following temporary disconnect, either at customer's request or disconnect for non-payment (DNP).

3. SERVICE CHARGES (Cont'd)

3.1 Categories of Service Charges (cont'd)

3.1.7 Maintenance of Service Charge – a charge for dispatching a technician to a customer premise for maintenance of service in which the reported trouble is isolated to customer-owned equipment or facilities. Requests for repair of customer owned equipment or facilities may be completed by the Company at the request of the customer on a time and materials basis.

3.1.8 Returned Check Charge - a charge made to the customer for each returned check or moneys not honored by a bank or depository.

3.1.9 Mobile Connection Charge – a charge because of the temporary nature or additional costs involved in a mobile home “type” structures.

3.2 Application of Charges

3.2.1 General

1. Charges specified in this Section do not apply to services furnished under the concurrence provisions of this tariff. These services may include, but are not limited to, WATS access lines and access line extensions, and all private line services and channels and access services provided. Nonrecurring charges for these services are stated as exceptions or additions to concurring provisions of this Tariff.
2. Changes in the locations of existing services to different premises, or to additional points of termination or to points outside the customer's premises are considered new installations for purposes of this tariff.
3. Payment of service charges at the time of application for service may be required.

3.2.1 General (cont'd)

4. Additional installation charges indicated elsewhere in this Tariff may be required.
5. The service charges described in this tariff are not applicable for:
 - a. Normal maintenance and repair of the Company's equipment and service.
 - b. Connection of telephone sets or other terminal equipment by the customer when no line connection or central office access work is required.
 - c. Changing directory address listing or billing address.
 - d. Changing the primary listing of a residential customer to the name of the remaining spouse in the event of death or divorce of the spouse currently listed.
 - e. Conversion of existing service to Lifeline.
 - f. The establishment of new service at same location or temporary service at another location when the original premises is made uninhabitable due to a disaster such as fire, tornado, etc.
 - g. Changing telephone numbers when in the judgment of the Company such changes are necessary for continuation of satisfactory service.

3. SERVICE CHARGES (Cont'd)

3.2 Application of Charges (cont'd)

3.2.2 Line Connection (Equipment) Charge

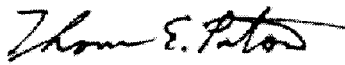

1. The Line Connection (Equipment) Charge is applicable for work performed by the Company in the central office. The Line Connection (Equipment) Charge will apply for:
 - a. Connection or reconnection of local exchange access lines, local private lines, and off premise access lines.
 - b. The connection of each line between the appropriate general distribution cable terminals serving different premises in the same building or serving different buildings on the customers same premises.
 - c. A move when the telephone service at the new location is established prior to disconnection at the old location, or discontinued at the old location prior to establishment at the new location.
2. When two or more segments of a local private line or off premise access line are bridged in the central office, one Line Connection (Equipment) Charge will apply for each line.
3. The Line Connection (Equipment) Charge does not apply when service and facilities are assumed prior to discontinuance of service and without lapse in service.

3.2 Application of Charges

3.2.4 Service Order Charge

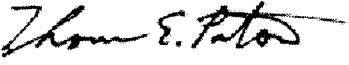

A Service Order charge applies per line or account per order under the following conditions:

1. For requests to establish an account for initial connection of service. An account is each service for which a separate access line is established;
2. For connection of additional local exchange access lines, private lines, or off premise access lines to an established service;
3. For restoration of service disconnected for nonpayment (DNP). Disconnected service will be restored upon payment of charges due.
4. For subsequent requests for service, number change, restoration of service at customer's request and change in class of service;
5. For additional service ordered after an initial service order has been issued and the additional service request cannot be included on the initial pending service order, including the addition of calling features;
6. For additions, moves and changes of lines in the same building or in different buildings on the same premises;

3.2.5 Restoral Service Charge

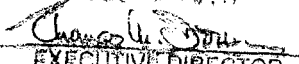

Restoral of Service Charge applies for reconnecting service and facilities of suspended due to non-payment of any charge due or failure to make cash deposit to establish credit.

4.3 Charges for Unusual Circumstances

4.3.1 Underground Service

When underground service connections are desired by the customer as initial installation in places where aerial or buried drop wires would ordinarily be used to reach the customer's premises, or when aerial or buried facilities are used to provide service or channels to a customer and subsequently the customer desires that such facilities be placed underground, the following regulations apply:

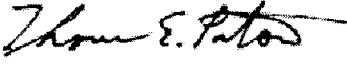

1. Underground service entrances may be provided at the customer request as special construction in connection with either existing or new services in lieu of the usual aerial or buried drop wire.
2. Aerial or buried service entrance facilities will be furnished without a construction charge where aerial or buried service wire or aerial or buried cable would normally be provided by the Company for service entrance; unless agreements between the Company and a contractor or customer have been made prior to land development.
3. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition, the customer shall pay the cost of the underground service including the cost of installing less the estimated cost to the Company of installing such aerial or buried facilities as would be (or are) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Company.
4. The duct or ducts required in the underground conduit by the company to furnish service shall be reserved for its exclusive use.

5. Where armored cable is laid in a trench, the trench shall be constructed and back-filled by or at the expense of the customer. In addition, the customer shall pay the cost of the armored cable, including the cost of installation, less the estimated cost of installing such aerial or buried drop as would be required to furnish the same service.
6. Where facilities are changed from aerial or buried to underground in addition to the above, the customer is charged the cost of dismantling and removing the aerial or buried facilities.

4.4 Special Services and Facilities

Special services and facilities, not ordinarily used in the furnishing of service and not otherwise mentioned in, or provided for or contemplated by the tariff of the Company, may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon provided such special service or facility does not interfere with the telephone service furnished by the Company.

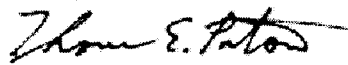

In the event any such service or facility or the use made thereof interferes with, or the facilities used in furnishing such special service or facility are needed for the furnishing of telephone service by the Company, it may terminate such contract and cease to furnish such special service and facility after thirty days written notice to the customer and provided further that the Public Service Commission may terminate such contract whenever, in its opinion, public interest requires such termination.

4.5 Moves or Changes of Existing Construction

When the Company shall move or change existing construction or equipment for which no specific charge is quoted in this Tariff, the person who requests the move or change is made may be required to bear the cost of such move or change.

4.6 Construction in Developments

4.6.1 Definitions

Single family development: Five or more adjoining lots in a recorded plan for the construction of single family residences, including mobile homes, intended for year round occupancy.

Duplex development: Three or greater acre lots in a recorded plan for the construction of dual family residence intended for year round occupancy.

Multi-family development: One or more lots in a recorded plan with three or more units planned for each lot, and intended for year round occupancy. Included in this category are apartment complexes, apartment buildings and condominiums.

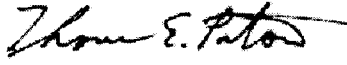

Speculative development: Development of a tract of land, where distribution facilities of the Company have to be extended in conjunction with the development of the tract prior to its completion either at the convenience of the developer or the Company, and where dwellings are being constructed without a sales contract or lease. The intent of the term speculative is defined as a situation where the Company is requested to make facility investments with no firm guarantee of a timely return on that investment.

Non-speculative development: Development of a tract of land where facilities of the Company exist or where the development of the tract permits distribution extension as the customer requires service, and necessary cable facilities can be provided at the Company's convenience. The term non-speculative is intended to mean that investment to plant can be made with firm guarantees of a timely return on investments.

4.6 Construction in Developments (cont'd)

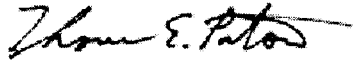

4.6.2 General Conditions

1. Where requests are made of the Company by the developer of a residential development, the company will require the developer, at the developer's own expense, to do the following:
 - a. Provide the Company with a detailed subdivision plan, showing detailed surveys of each lot in the plan, street location, and a key map showing all other specific locations;
 - b. Provide the Company with easement satisfactory to the Company for occupancy and maintenance of and related facilities, except service lines in public places the Company has the right to occupy;
 - c. Clear easements for the afore mentioned facilities clear of tree stumps and other obstructions.
2. Should the developer make changes in the plot plan after the Company has completed engineering or begun construction that creates additional expense for the Company, the developer shall bear the cost of these additional expenses.
3. Before the construction of Company facilities, the developer is responsible for identifying all underground facilities of others. Should in the course of construction of its facilities, the Company damages the facilities of others that were not identified by the developer, the developer will bear all expense in the repair of said facilities.

4. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS (Cont'd)

4.6 Construction in Residential Development (cont'd)

4.6.2 General Conditions (cont'd)

4. At any time during the completion of construction of Company facilities, and prior to completion of the development, the developer shall bear the cost of damage to the Company's facilities caused by the developer and others. This includes all distribution and service lines costs herein defined as labor, material and applicable charges at the time of damage. This liability is only to those areas where lots or buildings have not been sold or occupied by tenants and is still under construction, or where development of lots have been completed and sold to a contractor operating independently of the developer.

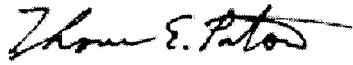

4.6.3 Conditions - Speculative Development

If the development in the sole opinion of the Company is speculative, the following conditions apply in addition to those specified in Section 4.6.2.

1. After the developer has supplied the Company with a subdivision plan, the company will prepare an estimate of costs involved in supplying distribution cable and service wires.
2. The developer will be required to post an amount (non-interest bearing) equal to the construction estimate.
3. The Company will then begin work on detailed engineering and construction of facilities required by the developer.
4. Once construction has been completed and the actual cost of construction has been determined, the developer will be refunded any difference should the cost be less than the amount originally posted, or to pay the balance if the costs exceed the amount originally posted.
5. These funds will then be considered payment for construction of facilities. These facilities shall be owned and maintained by the Company.

4. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS (Cont'd)

4.6 Construction in Residential Development (cont'd)

4.6.3 Conditions - Speculative Development (cont'd)

6. As each dwelling unit is occupied and its occupant accepts service from the Company, the Company will refund the developer or his designate the pro rata share of the construction cost. Dividing the total number of lots and dwelling units in the total development by the total cost of construction will determine the prorated amount.
7. From the date of completion of the Company's facilities, the Company is liable to refund construction costs for a period not to exceed three years, subject to the conditions specified herein.

4.7 Franchise and Municipality Taxes

4.7.1 General

When any municipality charges, collects or receives from the Company any license, occupation, privilege, inspection or other similar tax or fee or any franchise fee or payment, or any fee or payment similar in nature thereto, for the use of the streets or other public places or any concession for Tariff Rates on its telephone service, whether such taxes, fees or payment be expressed as a lump sum, or a flat rate, or based on receipts, or based on poles, wires, conduits, or other facilities, or otherwise, so much of the aggregate amount of such payments and concessions as exceeds three (3) per cent of the recurring local service revenues received from subscribers located within such municipality will be billed or may be billed if less than three (3) per cent, insofar as practical, pro rata to the subscribers receiving exchange service within the municipality.

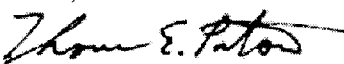

4.7.2 Commission Approval

Except for state, county or municipal taxes, all pro ration of fees and other charges mentioned in the above paragraph will be approved by the Commission before being applied to the subscriber bill as a line item.

5. BASIC LOCAL EXCHANGE SERVICE

5.1 Exchange Service

The Company provides one-party service throughout its service area.

5.1.1 Description of Service

Local Exchange Service provides a Customer with a telephonic connection to, and a unique telephone number address on the public switched telecommunications network. Each Exchange Access Service is available on a "Full" service basis, whereby service is delivered to a demarcation/connection block ("protector") at the Customer's premises.

Each Exchange Access Service enables users to:

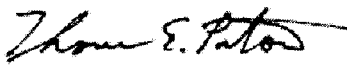

- 1 Receive calls from other stations on the public switched telecommunications network;
- 2 Access other services offered by the Company as set forth in this tariff;
- 3 Access (at no additional charge) the Company's local numbers for repair or business offices for service related assistance;
- 4 Access (at no additional charge) emergency services by dialing 0- or 9-1-1; and
- 5 Access services provided by other common carriers that purchase the Company's Switched Access services as provided under the Company's Federal and State tariffs, or that maintain other types of traffic exchange arrangements with the Company.

5.3 Basic Exchange Line Service

5.3.1 Description

Basic Line Service provides a Customer with a single, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Basic Lines are provided for connection of Customer-provided single station sets or facsimile machines to the public switched telecommunications network. Each Basic Line may be configured into a rotary line hunt group with other Company-provided Basic Lines.

All Basic Exchange lines are equipped with caller number feature capability. Residential Exchange lines are equipped with Three-way Calling and Call Waiting as standard features.

5.3.2 Rates

Rates do not include a charge for instrument or other customer premises' wiring or equipment. Rates for additional services, including installation charges, are shown elsewhere in this Tariff.

	<u>Monthly</u>

5. BASIC LOCAL EXCHANGE SERVICE (Cont'd)

5.4 Lifeline

5.4.1 Description of Service

1. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in CC Docket 97-157, which adopts the Federal-State joint Board recommendation in CC Docket 96-45, which complies with the Telecommunications Act of 1996. Specific terms and conditions are as prescribed by the Kentucky Public Service Commission and are as set forth in this tariff.
2. Lifeline is supported by the federal and state universal service support mechanisms.

(D)
—
(D)

3. Federal baseline support is available for each Lifeline service and is passed through to the subscriber. In addition state support is available for each Lifeline service and is passed through to the subscriber. The total amount of the eligible credit will not exceed the sum of the state and federal subscriber support or the charge for local service, which includes the access line, the Subscriber Line Charge and local usage.

5.4 Lifeline (cont'd)

5.4.2 Regulations

1. (D)
2. One low- income credit is available per household and is applicable to the primary residential connection only.
3. A Lifeline customer may subscribe to any local service offering available to other residence customers.
4. Full Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.
5. The deposit requirement is not applicable to a Lifeline customer who subscribes to full toll blocking. If a Lifeline customer removes full toll blocking prior to establishing an acceptable credit history, a deposit may be required. When applicable, advance payments will not exceed the connection and local service charges for one month.
6. The federal primary inter-exchange carrier charge (PICC) will not be billed to Lifeline customers who subscribe to full toll blocking and do not pre-subscribe to a long distance carrier(s).

5. BASIC LOCAL EXCHANGE SERVICE (Cont'd)

5.4 Lifeline (cont'd)

5.4.2 Regulations (cont'd)

7. A Lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local and miscellaneous service in accordance with Section 2 of this Tariff. Access to toll service may be denied for non-payment of regulated tolls. A Lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges.

8. Lifeline is not available for resale.

5.4.3 Eligibility

To be eligible for a Lifeline credit, a customer must be a current recipient of any one of the following programs **(T)** or have income at or below 135 percent of the Federal Poverty Guidelines [Note 1].

1. Supplemental Security Income (SSI)
2. Supplemental Nutrition Assistance Program
3. Medicaid
4. Federal public housing / Section 8
5. Veterans Pension Benefits **(C)**
6. Survivor Pension Benefits **(C)**
7. **(D)**

All applications for service are subject to verification with the state agency responsible for administration of the qualifying program.

[Note 1] This provision is effective June 1, 2012.

5. BASIC LOCAL EXCHANGE SERVICE (Cont'd)

5.4 Lifeline (cont'd)

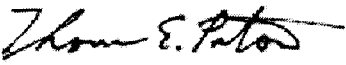

5.4.4 Certification

1. Proof of eligibility in any of the qualifying low-income programs should be provided to the company at the time of application for service. The Lifeline credit will not be established until the Company has received proof of eligibility. If the customer requests installation prior to the company's receipt of proof of eligibility, the requested service will be provided without the Lifeline credit. When eligibility documentation is provided subsequent to installation, the Lifeline credit will be provided on a going forward basis.
2. Proof of eligibility shall be in the form of an affidavit, certifying under penalty of perjury, that the subscriber is receiving benefits under one of the qualifying programs. It is the customer's responsibility to notify the company when the customer is no longer participating in any of the qualifying programs.
3. The company reserves the right to periodically audit its records, working in conjunction with the appropriate state agencies, for the purpose of determining continuing eligibility. Information obtained during such audit will be treated as confidential information to the extent required under State and Federal law. The use or disclosure of information concerning enrollees will be limited to purposes directly connected with the administration of the Lifeline plan.
4. When a customer is determined to be ineligible as a result of an audit, the company will contact the customer. If the customer cannot provide eligibility documentation, the Lifeline credit will be discontinued.

5.5 Basic Exchange Trunk Service

5.5.1 Description

Basic Exchange Trunk Service provides a Business or Residence Customer with a single, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Basic Exchange Trunks are provided for connection of Customer-provided key systems (KEY) or private branch exchange (PBX) to the public switched telecommunications network. The type of trunk service furnished is based on FCC Administration Number and/or type of equipment of Customer-provided equipment. Each Trunk is provided with touch-tone signaling.

5.5.2 Tie Lines

Tie Lines connect two PBX or equivalent equipment and are furnished at rates specified in Section 15 Private Line Service of this Tariff.

5.5.3 Monthly Service Rates

Rates do not include a charge for instrument or other customer premises wiring or equipment. Rates for additional services are shown elsewhere in this Tariff.

	<u>Monthly Rate</u>

5.6 Direct-Inward-Dialing DID Trunk Service

5.6.1 Rules and Regulations

1. DID service permits calls incoming to a PBX or other customer premises equipment from the network to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate company intra- and inter- exchange rates.
2. Rates are in addition to the rates shown for Basic Exchange Trunk Service and other Company tariffs for the services and equipment with which this offering is associated.
3. The service includes central office switching equipment necessary for inward dialing from the network directly to station lines associated with customer premises switching equipment.
4. The service must be provided on all trunks in a group arranged for inward service. Each trunk group shall be considered a separate service. Grouping Service will not be provided between separate trunk groups.
5. Facilities and operational characteristics of interface signals between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the company considers necessary to maintain proper standards of service.
6. One primary directory listing will be furnished without charge for each separate trunk group. Additional listings ~~can be obtained~~ as specified in Section 6 of this tariff.

5.8 Shared Tenant Service

5.8.1 General

1. Basic Local Exchange Service is furnished for the exclusive use of the subscriber, and the subscriber's family, guests, employees, agents, or representatives. Resale of Basic Local Exchange Service is permitted only under the specific conditions described in this Tariff. For the purpose of this Tariff section, "sharing" of Basic Local Exchange Service is considered synonymous with "resale" of Basic Local Exchange Service.
2. When in the judgment of the Company it is deemed necessary, or when the projected number of clients is five or more, the customer must apply in writing to resell exchange services provided by the Company and may be required to submit layout maps defining the intended geographic resale area and anticipated development plan in terms of new or existing buildings. All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the reseller's communication system will be the responsibility of the reseller (customer of record)/owner. The reseller will be the single point of contact for all shared tenant services provided in the resale service area. Customers who choose to obtain service directly from the Company may subscribe to any local exchange service available. Nothing in this Tariff section impairs the Company's franchise or ability to operate in the state. This Tariff is not intended, nor does it, enfranchise or certify the recipients of this service as a telecommunications company.

5. BASIC LOCAL EXCHANGE SERVICE (Cont'd)

5.8 Shared Tenant Service (cont'd)

5.8.1 General (cont'd)

3. Resale is permitted where facilities permit and within the confines of specifically identified continuous property areas under the control of a single owner or within a common development with a single name identity, such as multi-tenant office buildings, apartment complexes, condominium complexes, commercial malls, campus complexes, and office and industrial parks. Areas designated for resale may be intersected or transversed by public thoroughfares provided that the adjacent property segments created by intersecting or transversing thoroughfares would be contiguous in the absence of the thoroughfare. If the designated resale service area is located within the confines of more than one exchange boundary, the serving central office will be determined by the Company. A resale area may be served by only one central office.
4. The premises definition as applies to resale of Basic Local Exchange Service is a resale area as defined by layout maps, if appropriate.
5. Private line services may be provided to tenants of resellers under the rules and regulations specified in the applicable sections of this Tariff. Resellers may obtain private lines for security purposes such as fire, burglary, etc.
6. Private interconnection of resale service areas within an exchange local calling area and LATA is prohibited. Tie Lines are restricted to the private use of a single resale client and cannot be used to access Local Exchange Service via Sharing and Resale trunks or lines.
7. All other rules and regulations specified in other sections of this tariff will apply.

5. BASIC LOCAL EXCHANGE SERVICE (Cont'd)

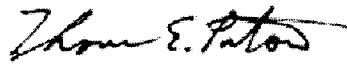

5.8 Shared Tenant Service (cont'd)

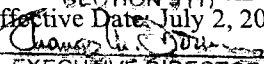

5.8.2 Regulations and Application of Rates

1. Resale of Basic Local Exchange Service is available on a business flat rate basis. Other business services will be provided at the rates specified in other sections of this tariff.
2. The client of the reseller is defined as a different business, firm, corporation, company, subsidiary, association, associate or a residence. Listings for Shared Tenant Service Clients may be obtained under the conditions and rates specified in the directory listings portion of this Tariff. Charges for Listings will not be separately billed.
3. The service establishment charge shown in 5.8.3 applies for all resale service applications processed under this Tariff and is in addition to all other applicable nonrecurring and recurring charges.
4. Whether the tenants included in a resale service area are residence or business, such tenants may be served by the reseller and the same business rates specified in this and other Tariffs will apply to the reseller.
5. The minimum period of service is 36 months with a Service Cancellation Fee (SCF) applicable at the date of termination based on the exchange rates in effect. The Service Cancellation Fee is reduced by 1/36 per month and will be an amount equal to the business rates being billed at the time of termination. A nine-month notice is required prior to termination of service by the reseller. If a nine-month notice is not received, the reseller will be required to continue to provide access services until the Company can provide individual access facilities. But, in no event shall this requirement extend beyond nine months from the date the notice of termination is received.

6. DIRECTORY LISTINGS

6.1 Regulations

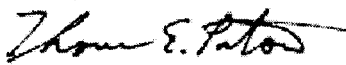

1. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying subscriber's telephone numbers and as an aid to the use of telephone service.
2. The Telephone Company will furnish to its subscribers, without charge, one directory per access line/trunk or as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.
3. The Telephone Company shall have the right to make a charge for subsequent directories issued in replacement of directories destroyed, defaced, or mutilated while in the possession of the subscriber.
4. The listing of subscribers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. The Company bears no responsibility in any dispute that may arise as a result of the publication or non-publication of such listings in its directories.
5. Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its judgment such listings would tend to delay or impede the use of the service.
6. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its sole judgment the clearness of the listing and the identification of the subscriber is not impaired thereby.

6. DIRECTORY LISTINGS (Cont'd)

6.1 Regulations (cont'd)

10. Whenever any question arises to the authorization of a subscriber to list the name of a business or to use a listing that includes the trade name of another business, the Company, at its discretion, may require the subscriber to provide proof of such authorization. Such proof may include, but is not limited to, written authorization from the owner of such name addressed to the Company specifically to permit the listing requested by the subscriber. The Company may refuse or delete a listing when the owner either does not provide appropriate written authorization or withdraws previous authorization in a written letter to the Company.
11. The length of contract period for directory listings is from the time the listing is appears in information records to the end of the directory period. The directory period is from the day the directory is published to the day the succeeding directory is published. When the listing appears in information records only, the period is one month.

6.2 Primary Listings

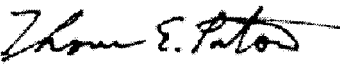

1. A primary listing is provided without charge as follows for each separate access line/trunk for Residence, Business, Key, PBX and one primary listing for each ISDN BRI/PRI service group, one way DID Trunk group, or Remote Call Forwarding service.
2. When two or more access lines or KEY or PBX trunks are operated with rotary line service, the first number of the group is considered the primary listing. When two or more access lines/trunks are in a rotary hunt group, a primary listing may be made for each access line/trunk if requested by customer without charge.

6.2 Primary Listings (cont'd)

3. Additional primary listings will be indented under the main primary list for residence or business customer located at same location. Name of other person at same premise or word phrase is permitted on the indented listing.

4. Examples:

Doe John 123 Main St, Staffordsville555-2222
Teen Line.....555-4444

South Lumber Co 123 Main St.....555-1234
FAX.....555-4444

6.3 Unlisted Number Service

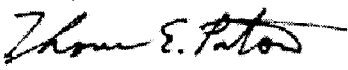

1. Unlisted number service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the directory assistance operator. Subscribers requesting such arrangements agree to hold the Company harmless from any damages that might result from the unlisted number including the failure to receive calls.
2. The Company is not liable for damages resulting from the inadvertent listing of an unlisted number in a telephone directory.
3. Unlisted number service does not preclude the Company from supplying the customer's name, address and telephone number to the 911-service administrator or name and number for Calling Number Delivery or Calling Name Delivery Service.

7 MISCELLANEOUS SERVICES

7.1 Touch-Tone / Pushbutton Telephone Service

Touchtone calling service provides for the origination of telephone calls through the use of push buttons in lieu of rotary dial.

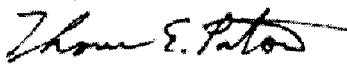

Touchtone calling service requires special central office equipment and will be provided only from those central offices where the central office has been equipped for touchtone service.

Effective 12/1/96, Foothills Rural Telephone Coop will include touch calling service in basic local service. Touch calling service will be mandatory for new services or moves of existing service to new locations. Touch calling service will continue to be optional to existing rotary access line customers while they maintain service at their current address.

7.2 Custom Calling Features

7.2.1 General

1. Call Waiting with Cancel Call Waiting

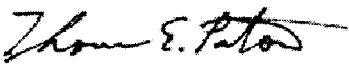

Call Waiting - Provides the user, busy on a call, with a private signal that alerts him to an unanswered call waiting to be completed to his number. The user may, then, hold the existing call, answer the incoming call and alternately talk on both calls until one has been terminated.

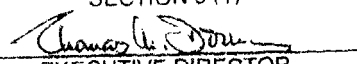

Cancel Call Waiting (CCW) - Allows the Customer to cancel the Call Waiting feature on an in-bound call on a per call basis. This can be done before the Customer places a call. If customer also subscribes to 3 Way Calling it can be done during a conversation. Furnished at no charge for all customers with Call Waiting features.

7.2 Custom Calling Features (cont'd)

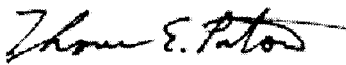

7.2.1 General (cont'd)

2. Call Forwarding All Calls (CFAC)
Provides for transferring incoming calls to another telephone number by dialing a code and the telephone number of the service to which calls are to be transferred. Satisfactory transmission levels cannot be assured on calls forwarded outside of the local calling area.
3. Three-Party Conference (3PC)
Permits an existing call to be held, and by dialing a second telephone, call can be established and added to the connection. Two toll points may be connected on Three-Way Calling. Normal transmission performance cannot be assured on all calls.
4. Speed-Calling (SC8 & SC30)
Provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. The arrangement available has an eight (8-code) and thirty (30-code) number capacity.
5. Call Forwarding Busy (CFB)
This CFB feature provides for calls terminating to a customer's busy number to be forwarded to another number. The customer can control via dialing codes the activation or deactivation of the service or reprogram the forward to number.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 Advanced Calling Features

Advanced Calling Services is a family of incoming and outgoing call management services offered in addition to basic telephone service that allow business and residential subscribers to screen, redirect or return selected calls.

7.3.1 Feature Description

Repeat Dialing – By dialing an activation code (AC), a subscriber directs the switch to recall the dial number of the last outgoing call from his set. The switch will set up the call to that dial number whether or not the called party answered the original call. Therefore, without having to redial the dial number, the subscriber can use AC either to contact a party he has been unable to reach or continue an interrupted discussion if the called line is busy, the switch queues the AC request and delays processing of the call until both the called and calling parties are idle. Once both lines are idle, the switch first applies distinctive ringing to the calling line to alert the subscriber that the requested call back is ready to be set up.

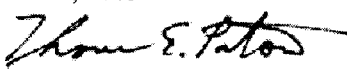

When the calling subscriber goes off-hook in response to the distinctive ring the switch processes the call and applies normal ringing to the called line. An AC request is removed from the queue when the switch successfully sets up the call (i.e., rings the called party) or when the request times out (after 30 minutes) or cancel callback code is dialed.

Call Return - This feature enables a customer to automatically return the last incoming call whether it is answered or not. Upon activation of the feature, the customer receives an automated voice response message stating the number of the party who called and is given the option of returning the call. If the called line is found to be busy, a 30-minute queuing process begins.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 Advanced Calling Features (cont'd)

7.3.1 Feature Description (cont'd)

Call Return (cont'd)

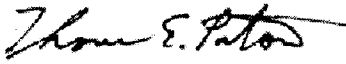

The customer is given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of both parties until both of the lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the called party is alerted with a distinctive ring signifying that the call may now be completed.

Preferred Call Forwarding – Preferred Call Forwarding allows the customer to transfer selected incoming calls to another telephone number. A screening list containing up to twelve (12) numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded only if the calling number can be obtained and is found to match a number on the screening list.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 Advanced Calling Features (cont'd)

7.3.1 Feature Description (cont'd)

Special Call Acceptance – Allows the customer to accept calls from a list of up to twelve (12) calling numbers. Callers not on the list (or of unknown origination) will be routed to a recording that the caller is not accepting calls and the call will be rejected. The Company will specify the number of calling numbers allowed on the list.

Call Screening – This feature allows the subscriber to have the switch automatically reject calls from dial numbers on the customer's pre-designated screening list when a call is placed to the customer's number from a number on the screening list. The caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls. The maximum number of dial numbers permitted on the list is twelve.

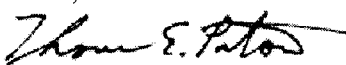

Priority Ringing – This feature provides special treatment for calls received from up to twelve (12) customer-specified telephone numbers. The customer creates a screening list containing a Company-specified number of dial number's through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers the customer is alerted with a distinctive ringing pattern or call waiting tone, for subscribers with call waiting service. Calls from telephone numbers not include on the screening list will produce a normal ringing pattern or call waiting tone.

Call Trace – Call Trace allows a subscriber to initiate a trace of a harassing or obscene call without first having to obtain legal authorization or telephone company assistance. The subscriber starts the trace by dialing the activation code. The switch retrieves the dial number of the last incoming call. The switch immediately outputs the dial number to a terminal at local Telephone Company. An announcement will be provided to the subscriber informing him of the successful trace.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 Advanced Calling Features (cont'd)

7.3.1 Feature Description (cont'd)

Call Trace (cont'd)

The customer using this feature is required to have contacted their servicing law enforcement agency and presented to the Telephone Company a Court Order (police order/bureau report) authorizing results of traces initiated by the customer to be released directly to the proper legal authorities for legal handling. There is a charge to the customer for each annoyance call-bureau report provided. The customer acknowledges his understanding that under no circumstances will trace results be provided directly to the customer.

Caller I.D. - With Caller I.D. the subscriber can view the Directory Number (DN) of an incoming call before answering. After the first ring to alert the subscriber, the switch sends the ten-digit calling dial number and the current month, day, hour, and minute.

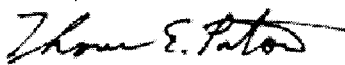

The Called ID feature requires a terminal capable of recognizing and displaying the calling dial number sent from the switch.

Any customer subscribing to Caller I.D. will be responsible for the provision of a display device that will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

Caller I.D. is not available on operator-handled calls.

If the incoming call originates from a multi-line group, the telephone number transmitted will always be the main number of the hunt group unless the calling number is a telephone number identified within the group.

SECTION 9(1)

BY 
EXECUTIVE DIRECTOR

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 Advanced Calling Features (cont'd)

7.3.1 Feature Description (cont'd)

Caller I.D. on Call Waiting - Calling Identify on Call Waiting is a terminating class feature which allows a subscriber engaged in an active call to receive an audible call waiting indication followed by having the waiting party's name and/or number displayed on associated class customer premise equipment. This enables the (CIDCW) subscriber to make an "informed" decision as to how to handle. *Answer or Ignore the Waiting Call*. This feature is offered on a flat rate subscription basis to both residential and business subscribers.

Calling Name/Number Delivery (CNAM) - Calling Name Delivery displays the name and ten digit telephone number associated with an incoming call as well as the date and time on the telephone set or adjunct unit after the first ringing cycle. The first fifteen characters of the customer's name will be displayed, beginning with the last name. This service will be offered in conjunction with Calling Number Delivery. Name/Number display allows the subscriber to answer the call with a personalized greeting. With this service, the subscriber has more specific information upon which to base the decision to answer or not.

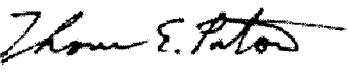

CNAM requires a telephone set or an adjunct to the set, capable or displaying an alphanumeric set of characters.

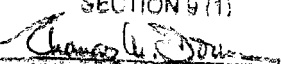

Any customer subscribing to any of the services that requires a display device or any adjunct piece of equipment which will be located on the customer's premise, will be responsible for that equipment. The installation, repair and technical capability of that equipment to function in conjunction with these features specified herein will be the responsibility of the customer. The company assumes no reliability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

7 MISCELLANEOUS SERVICES (Cont'd)

7.3 Advanced Calling Features (cont'd)

7.3.1 Feature Description (cont'd)

Caller I.D. Blocking (Per Call) - For outgoing calls, a calling number blocking subscriber can prevent delivery of his dial number to the called party. On a per-call basis the subscriber blocks display of his dial number by dialing the blocking activation code. Upon receiving the code, the switch returns dial tone again, and the subscriber enters the dial number to be called. If the call is completed (i.e., the called party's line is rung), the terminating CLASS office sends a "P" (indicating private number) to the called party's terminal in place of the calling dial number.

This feature will be available without pre-subscription and at no charge.

Operator services, Customer Originated Trace (COT) and 9-1-1 service takes precedence over Calling Number Delivery Blocking - Per Call and Per Line service with all calling numbers available regardless of the privacy status.

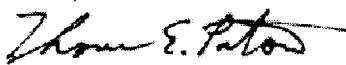

Caller I.D. Blocking (Per line) - This feature enables a customer to make all calls with the delivery of their calling number marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the pre-assigned activation code for Caller I.D. Blocking-Per-Line is dialed on the line, the calling number may be delivered.

This service is only available upon request to residential customers of non-published services and the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Nonprofit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies; (b) federal, state and local law enforcement agencies.

7.3 Advanced Calling Features (cont'd)

7.3.1 Feature Description (cont'd)

Operator services, Customer Originated Trace (COT) and 9-1-1 service takes precedence over Calling Number Delivery Blocking - Per Call and Per Line service with all calling numbers available regardless of the privacy status.

Calling Number Delivery Blocking - Per Call and Per Line - allows Customer to prevent his/her number from appearing on the called party's Caller ID telephone or display unit. Calls from users with Calling Number Delivery Blocking activated will appear as "private" in the calling party's display unit.

Calling Number Delivery Blocking is available on either a per call or per line basis.

Per call blocking of Calling Number Delivery Blocking is available to all Company subscribers without presubscription. Customers with Calling Number Delivery Blocking activated on a per line basis may deactivate that blocking should per call activation be attempted.

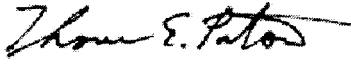

Per Line blocking of Calling Number Delivery Blocking is available only to those customers of non-published listing services and/or the following entities and their employees / volunteers for lines over which the official business of the entity is conducted: a) Non-profit, tax exempt private and public social welfare agencies, and b) federal, state, and local law enforcement agencies.

Use of Calling Number Delivery Blocking will not prevent disclosure of calling information to E911 services or the serving end office of the calling party. The called party may have the ability to activate ACR, call trace, and call screening capabilities.

7.3 Advanced Calling Features (cont'd)

7.3.1 Feature Description (cont'd)

Anonymous Call Rejection (ACR) – Allows the subscriber to automatically reject calls from lines which have the calling number information blocked. Anonymous callers will receive a recorded announcement directing them to unblock the line to complete the call.

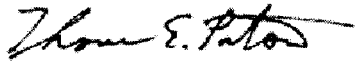

Call Transfer – Allows a subscriber to transfer an incoming call to another telephone number by hook flash, getting dial tone, dialing the number that call is to be transferred to and then hang up if desired. This feature requires subscriber to have three-way calling assigned to their line.

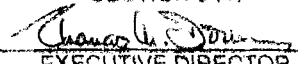

Music on Hold - This feature provides those subscribers, who have the ability to place a call on hold, the option of providing music and/or a recorded announcement instead of silence to the held party during the holding period. The music source is defined as a continuous broadcast of music or a recorded announcement. Recorded announcement shall be supplied by the customer in whatever form that is acceptable to telephone central office equipment and external music source device connected to the central office via an analog trunk.

7.3.2 Regulations and Limitations of Service

1. The services are provided subject to the availability of facilities and technical limitations and limited to central offices specifically equipped to provide such service. Also, feature-screening lists can only contain telephone numbers of subscribers served out of the company's properly equipped offices.
2. Advanced Calling Services are available to single party and multi-line resident and business customers who have rotary dial or touchtone service.
3. Advanced Calling Services will not be provisioned on company provided public and semi-public telephone service.
4. Operator-assisted calls are designed to override the feature calls for emergency purposes.
5. Advanced Calling Services are not available for tie trunks, i.e. business groups that exist in multiple offices interconnected by tie trunks.
6. Caller I.D. Blocking – Per Line is available upon request, at no charge, as set forth in Section of the Tariff.
7. The Company will deliver all numbers, subject to technical limitations.

7.3.3 Rates

2. Service and Installation Charges

- a. Installation charges for Advanced Calling Services are listed in Section 3.
- b. As part of the Company's special introductory promotion, installation charges will not be applicable to customers who subscribe to Advanced Calling Service during a selected period after the effective date of each Advanced Calling Service feature. Installation charges for Custom Call or Touch Calling services will not be applicable when these services are provided at the same time as the establishment of Advanced Calling Service during this introduction period. The monthly recurring charge will be waived for the initial month for each Advanced Calling Service feature customers subscribe to during the special introductory promotional period.
- c. During selected periods of a special promotion of Advanced Calling Service, Custom Call or Touch Calling Service, the installation charge (premise visit not required) does not apply to any order on which any of these services are being established and for which that charge is the only service charge that would have normally applied on the order. If other work that would have normally required the application of any other service charge(s) is requested on the same order, then all normally applicable charges apply.

Notice stating the length of the special promotion period shall be given to all subscribers to whom the specially promoted services are normally available. Notice shall be given in time to allow each customer a minimum of one month in which to subscribe to the services during the special promotion period.

7.4 Off Premise Line

7.4.1 Definitions

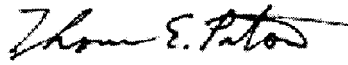

1. For the purposes of definition, off-premise line is any line extended off-premise by use of service wire or cable pair or equivalent, but does not interconnect or "bridge" with other cable pairs or equivalent in the central office. Should bridging be necessary, rates for bridging service are in addition to off-premise service rates.
2. Bridging is used to connect two separate cable pairs or equivalent to the same line at the central office.

7.4.2 Regulations

1. Off-premise and bridged service can be furnished provided facilities are available and technical limitations in each specific case permit.
2. May be located on the premise of other customer provided the other customer has own separate service and is same class of service. In no case shall residential and business services be provided to the same premises.
3. Business off-premise line may be provided at residence location of the same customer where residence main stations service is also provided. May be provided without requiring a residence line if conditions of "same premise" Section 1 of this Tariff are met.
4. Residence off-premise lines may be provided at a business location of the same customer where business main station service is also provided and also meets the conditions of "same premise" Section 1 of this Tariff.
5. Mileage charge will be based upon the route measurement mileage between locations of the main station and off-premise station or central office if bridging is required.

7.9 Seasonal and Vacation Service

7.9.1 General

Seasonal and Vacation Service is basic local exchange service temporarily suspended at the request of the subscriber. This service is provided to customers in all the Company's exchanges, except Public Telephone Access lines, KEY, PBX and ISDN customers.

7.9.2 Conditions

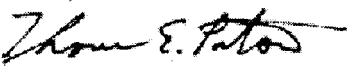

Seasonal and vacation service will be furnished at the Company's discretion under the following conditions:

1. Service is available where the usage is of a seasonal nature.
2. During the period when the customer is billed at the reduced rate, no installation, moves, changes or maintenance will be provided by the Company.

7.9.3 Rates

1. The monthly rate will be 50% of the total Local Exchange Service including all optional services and features billable at the point of conversion to seasonal / vacation service.
2. Service may be suspended for a minimum of thirty (30) days and a maximum of one hundred and eighty (180) days.
3. Regular service charges will apply for the suspension and subsequent reconnection of service.

7.11 Rotary Line Service

7.11.1 General

Any individual lines/trunks arranged for rotary, level hunting or similar service which allows an incoming call to a line/trunk that is called to be completed over another line/trunk by means of central office equipment will be classed as rotary lines. DID trunks to PBX or other switching systems are not classed as rotary lines. Rotary main service is restricted to a single premise.

7.11.2 Rate

per Rotary Line/Trunk

Monthly Rate
\$32.00 (C)

7.12 Toll and Customized Code Restriction (CCR)

7.12.1 General

Customized Code Restriction CCR is a service that enables customers to restrict certain types of outgoing/incoming calls from being placed over their exchange lines/trunks. This capability is provided only by means of recorded announcement restriction. It is offered with options containing various sets of codes to be restricted, and is available to basic exchange customers with individual line residence or business service or PBX trunks.

Toll Control with PIN allows feature subscribers who are assigned Toll Restriction the ability to dial an authorization code and override the Toll Restriction on a per call basis. Subscribers who are assigned this feature are allowed to access the Toll network through the use of a feature access code and special 1-7 digit pin (Personal Identification Number) number. This feature does not affect incoming and local calls. When a toll call is attempted on the subscriber's line prior to dialing the access code and PIN, the call completion will be denied. Toll control with PIN subscribers have ability to change their PIN by dialing a PIN change access code, the old PIN, and then, the new PIN.

7.12 Toll and Customized Code Restriction (CCR) (cont'd)

7.12.2 Regulations

1. Customers may subscribe to whichever option meets their needs, but only one option may be provided on a line/trunk or group of lines/trunks.
2. CCR is furnished only from central offices where facilities permit.
3. Unless otherwise indicated, CCR does not provide restriction of non-chargeable calls to company numbers, such as repair service, public emergency service numbers (911), or 1+800 calling.
4. Subscribing to CCR does not relieve customers of responsibility for calls charged to their numbers.
5. Customers who subscribe to CCR options that restrict operator access are required to notify all station users of their service that an operator cannot be reached.
6. The company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes specified.
7. The codes shown for CCR options are not to be considered all-inclusive. Codes may be changed and new or different codes may be added as deemed appropriate by the Company.

7.16 Remote Call Forwarding (RCF)

7.16.1 General

Remote Call Forwarding (RCF) automatically redirects an incoming call to a Customer's number to a pre-designated terminating number. Forwarding is always activated and not controlled by customer. No access line is associated with the dialed number from which the forwarding occurs. Customer specifies the forwarded-to number at the time the order for service is placed and a service order is required to change it.

7.16.2 Provision of Service

1. The RCF service is offered subject to the availability of suitable facilities.
2. Remote Call Forwarding (RCF) is provided on the condition that the customer subscribe to sufficient features and facilities to adequately handle the calls to the terminating number without interfering with or impairing any services offered by the Company. If, in the opinion of the Company, additional RCF features or facilities are required to support the forwarding of calls, the customer will, where appropriate, be required to subscribe to such features/facilities. If the customer refuses to do so and/or until adequate facilities are added, said customer's RCF service shall be subject to termination.
3. Where calls are forwarded to phone service other than that of the RCF customer, it shall be responsibility of the RCF customer to obtain permission of that customer and to determine a mutually acceptable number of access paths with that customer and the company.

7.17 Third Number and Collect Call Block

7.17.1 General

Third and collect number blocking service is for subscribers who do wish to prevent the authorization of collect and third party call charges to their exchange line. This service is provided by the Company through the addition of an indicator to the subscriber's line record in the line information database ("LIDB"). Exchange and interexchange carriers who seek to charge collect or third party billed charges to the line will be instructed that such charges are not approved by the blocking subscriber.

The operation of the blocking service is contingent upon the caller's carrier performing a LIDB query. The Company does not guarantee the completion or honoring of such queries by exchange or interexchange carriers.

Purchase of this service does not relieve the subscriber for payment of any charges to his exchange line. The Company assumes no liability for charges that may be assessed to subscribers to this service.

The Company retains the right to refuse to remove the block from a line absent a written request but is under no obligation to do so. The Company may refuse to honor a request to remove blocking service if it suspects that the removal order is fraudulent or unauthorized or if the number of addition and removal of blocking requests becomes excessive.

7.17.2 Regulations

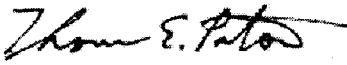

Rates are applied per order placed to activate the blocking service. If both blocking services are ordered at the same time a single non-recurring charge applies. There is no charge for the removal of blocking.

8 CONNECTIONS WITH CERTAIN FACILITIES AND/OR EQUIPMENT OF
OTHERS

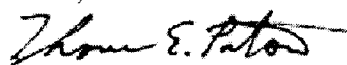

8.1 Regulations

1. Customer-provided terminal equipment or wiring may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases the customer-provided equipment or wiring will be constructed, maintained and operated to work satisfactorily with the facilities of the Company, and to meet all published standards of the Federal Communications Commission (FCC).
2. Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus, equipment or wiring of the Company except upon the consent of the Company.
3. Where telecommunications service is available under this Tariff for use in connection with customer-provided equipment and wiring, the operating characteristics of such equipment or wiring shall not interfere with any of the service offered by the Company. Such use is subject to the further provision that the customer-provided equipment or wiring does not endanger the safety of the Company's employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's service. Upon notice from the Company that the customer-provided equipment or wiring is causing or is likely to cause such hazard to interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Company charge in Section 3, "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or wiring.

8 CONNECTIONS WITH CERTAIN FACILITIES AND/OR EQUIPMENT OF
OTHERS (Cont'd)

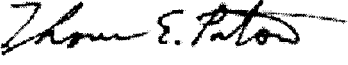

8.1 Regulations (cont'd)

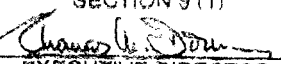

4. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems. Telecommunications service is not represented as adapted to the use of customer-provided equipment or systems. When such equipment or facilities are connected to the Company facilities, the Customer is responsible for telecommunications service and the maintenance and operation of customer provided facilities in a manner proper for telecommunications service. Subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or system.
5. The Company shall not be responsible to the customer if changes in the criteria outlined herein or in any of the facilities or procedures of the Company render any customer-provided equipment or communications systems inoperable or otherwise affect its use or performance.
6. The Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or connection with the use of facilities of customers and not caused solely by the negligence of the Company.
7. Where any customer-provided equipment or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. Following the receipt of written notice from the Company, the customer shall either discontinue use of the equipment or system or correct the violation. Confirmation of corrective action must be provided in writing to the Company within 10 days. Failure of the customer to take corrective action and provide written confirmation to the Company within the time stated above may result in termination of the customer's service.

8.2 Network Protection Criteria

To protect the telecommunications network and the services furnished to the general public by the Company from harmful effects, the signal from the customer-provided communications system to the long distance message telecommunications network must comply with the following minimum network protection criteria:

8.2.1 Customer Premises Requirements

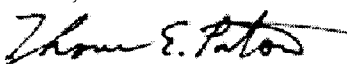

Where the customer-provided communications system is connected, the customer-provided communications systems must comply with the following criteria:

1. To prevent excessive noise and cross talk in the network, the power of the signal at the central office must not exceed 12 db below one milliwatt when averaged over any three-second interval. To permit each customer, independent of distance from the central office, to supply signal power that approximates the 12 db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment located on the customer's location, but in no case shall it exceed one milliwatt.
2. To protect other services the signal that is applied by the customer-provided equipment located on the customer's premises must meet the following limits:
 - a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified in 8.2.1 (1).
 - b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.

8.3 Customer-Provided Communications Systems

Customer-provided systems may be connected, at a service point of the customer, on a voice grade basis with telecommunications service furnished by the Company, through customer-provided equipment which affects such connections externally to the Company by means of physical connection for transmitting and/or receiving. The customer-provided system shall comply with the minimum network protection criteria contained in Section 8.2

8.4 Entrance Facilities

All connections of entrance facilities to customer-provided communications systems shall be made through connecting arrangements approved by the Company. Customer, by use of its own equipment, but only within the normal transmission characteristics of the grade of channel ordered, may not create additional channels from the channels provided for entrance facilities. The charges for entrance facilities and the connecting arrangements will be based on cost as specified in the Tariffs of the Company.

8.5 Connection of Customer-Provided Communications Systems with Instruments
Furnished by the Company

The Company does not provide instruments solely for use on customer-provided communications systems.

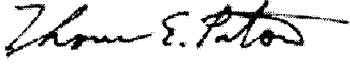

8.6 Maintenance Service Charge

The customer shall be responsible for the payment of the charges indicated in Section 3 "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or facilities.

12. ISDN PRI/BRI

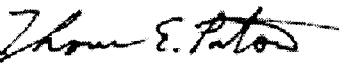

12.1 Description of Service

PRI (23B+1D)

ISDN PRI service provides a method of access to the telephone network called Primary Rate Interface (PRI). Primary Rate Interface is an ISDN based, DS1 access link to the telecommunications network and provides integration of multiple voice and data transmission channels on the same line. The basic channel structure for PRI is twenty three (23) 64 Kbps bearer channels (B channels) and one (1) 64 Kbps data channel (D channel). These B channels may be used to connect the Customer's premise equipment to the Public Circuit Switched Network (e.g. outward, inward and two-way trunks, and WATS/800 Service access lines).

ISDN PRI service is a service for the transmission of digital signals only. Clear Channel Capability and Extended Superframe Format are inherent to the service. The user is responsible for providing Customer Premise Equipment (CPE) that is compatible with the ISDN PRI service interface. The Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of ISDN PRI service render any facilities provided by the Customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance. Digital transmission rates at speeds less than those indicated may be accomplished as a function of the particular CPE furnished by the user. Suspension of service is not allowed. Individual Case Basis pricing will be available for on-network Customers or for Customer agreeing to term plans. Busy line verification and Emergency Interrupt service is not available for ISDN PRI services.

EXECUTIVE DIRECTOR

12. ISDN PRI/BRI

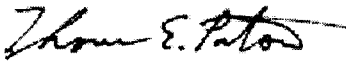

12.1 Description of Service (cont'd)

BRI (2B+1D)

Basic rate Interface (BRI) consists of one or two 64 Kbps (B) channels and one 16 Kbps (D) channel at the service delivery point.

B-channel circuit switched services offer up to 64 Kbps intra-office transmissions of voice or data. This option permits the user to utilize either circuit voice or data transmission paths on a per call selection basis. Transmission on the B-channel will be circuit switched at 64 Kbps within the switch and/or equipped facilities between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56Kbps.

EXECUTIVE DIRECTOR

12. ISDN PRI/BRI (Cont'd)

12.2 Regulations

1. ISDN BRI services include up to two phone numbers. A single primary directory number is included with PRI service. Additional numbers and DN listings are available pursuant to terms of this tariff. (C)
2. ISDN transmission cannot be completed to central offices that are connected by trunks that are not compatible to transmitting ISDN services. (C)
3. ISDN transmission cannot be completed to central offices that are not equipped to provide ISDN services.
4. The Company will provide ISDN services to the Network Interface Device (NID) normally located outside the customer premises. It is the customer's responsibility to provide inside wire and compatible customer premise equipment (CPE).
5. ISDN BRI will be provided where local 2-wire copper loops do not exceed 14,000 feet in length or a maximum total loss of 34db as measured at the customer's premises. Where these loop conditions cannot be met, the customer must subscribe to ISDN Individual Line Loop Extension. Individual Line Loop Extension is restricted to one per line and to the copper loop beyond 14,000 feet but within 34,000 feet. Availability of Line Loop Extension service is subject to network limitations and may not be available to all subscribers.
6. Outside loop modifications to accommodate ISDN services (removal of load coils, loop extension installation, etc.) may require longer installation time than for other services.
7. Other services (Custom calling features, CLASS, etc.) can be ordered with ISDN pursuant to other sections of this tariff except Optional Calling Plans unless an operational conflict exists. In the event that such a conflict exists, the Company will notify the customer accordingly.

Issue Date: March 13, 2007

Effective Date: April 2, 2007

Issued by: 
Thomas E. Preston, General Manager/CEO

12. ISDN PRI/BRI (Cont'd)

12.2 Regulations (cont'd)

- 8. Customer-requested suspension of service as shown in Section 2.5.9 of this Tariff will not apply to ISDN services. (T)
- 9. All rules and regulations shown elsewhere in this tariff will apply to ISDN services. In the event that a conflict exists, regulations in this section will supercede the regulation in conflict. (T)
- 10. Due to the complexity of ISDN installation, standard installation intervals do not apply.
- 11. (D)
(D)
- 12. Basic Rate Interface (BRI) operates over a two-wire copper and / or equivalent facilitates from the company BRI central office.
- 13. PRI operates over four-wire or equivalent digital facilities utilizing 1.544 high capacity digital transport technologies for connection from the designed Company ISDN-PRI serving central office to the customer serving central office and to the local digital loop facilities serving the customer. Rates for PRI Loop service are found in this section. (C)
- 14. Customers requesting service from end offices not supporting ISDN can receive ISDN on a foreign exchange basis. Additional charges apply based on the airline mileage between the ISDN-capable central office and the Customer's serving wire center pursuant to rates found in this Section. (C)

12. ISDN PRI/BRI (Cont'd)

12.3 Application of Charges

1. ISDN-PRI Facility and Local Loop (T)

Local Loop (T)

The ISDN-PRI Term applies for each PRI connection between the Customer's premises and serving wire center regardless of the number of ISDN active channels provisioned.

Facility

Facility charges apply if the customer's serving wire center is not ISDN capable and additional transport between the serving wire center and the Company-designated ISDN serving-office are required in addition to the ISDN-PRI Term charge.

2. ISDN-PRI Access

The ISDN-PRI Access provides the switch termination for the ISDN-PRI Facility. PRI Access is required to terminate to an ISDN-PRI serving central office. ISDN-PRI Access typically provides twenty-three (23) individual "B" channels and one (1) "D" channel. All PRI services are equipped with a single D channel signaling channel per arrangement. The customer may choose to have up to 23 "B" channels activated on a signal PRI. Customers purchasing less than 23 active channels will be billed based on the number of active channels requested. All fractional PRI services require a "D" channel in addition to subscriber-requested "B" channel capacity.

(C)
(C)

3. Caller Name Delivery

The Caller Name Delivery charge applies per PRI for full service PRI or per active channel for Fractional PRI. All channels within a PRI must be equipped to either receive or not receive this feature.

Issue Date: May 2, 2013
Effective Date: May 3, 2013

Issued by: /s/ Ruth Conley
Ruth Conley, General Manager

12. ISDN PRI/BRI (Cont'd)

12.4 Term Discount Plan

The ISDN PRI Term Discount Plan offers reduced monthly recurring and installation rates for PRI services subscribed to under a term commitment. Rates for discount options are shown in Section 12.5.

1. Term Discounts

To be eligible for an ISDN PRI Term Discount Plan, the subscriber must complete a written application to the Company. For new services, the customer may specify the length of the service commitment period at the time the service is ordered. Existing services may be converted to a Term Discount Plan through the submission of a service order and written application. Non-recurring charges, as specified in 12.5, do not apply to existing ISDN PRI services that are converted as is to a Term Discount Plan.

For customers that subscribe to the ISDN PRI Term Discount Plan, rates shown in 12.5 of this tariff will not be increased during the period of the Term. Rate reductions initiated during an applicable term period will be automatically applied to existing services charges for the remainder of the current Term Discount period.

Customers who subscribe to a Fractional PRI service under a Term Discount Plan and update to either a Full or higher quantity PRI service during the current Term Discount period, will have the increase in quantity included in the current Term Discount period. Upgrades in PRI service will be subject to non-recurring charges shown in Section 12.4.

For purposes of complying with Term Date, Term Discounts begin at the later of order completion date or Customer requested installation or conversion date.

Issue Date: May 2, 2013
Effective Date: May 3, 2013

Issued by: /s/ Ruth Conley
Ruth Conley, General Manager

12. ISDN PRI/BRI (Cont'd)

12.4 Term Discount Plan (cont'd)

2. Discontinuation

- (N)
- a) With 60 days of the end of the current Term Discount period, the customer must notify the Company of its desire to either i) terminate service in its entirety; ii) convert to month-to-month service; or iii) subscribe to a new Term Discount plan. If the customer does not notify the Company within 60 days of the end of the current Term Discount period, the service will remain at its current rate but automatically renew for a 12-month period. Should the service be subject to Auto renewal, the 12-month Auto renewal Term will become the current Term Discount period.
 - b) Unless discontinued as specified in (a) above discontinuance charges, as described below, will apply to the portion of the service being discontinued when the customer chooses to disconnect all or a portion of its service prior to the expiration of the current Term Discount period.
 - c) Should the customer choose to discontinue a Term Discount plan prior to the completion of the current Term Discount period, discontinuance charges will apply. Discontinuance charges will be based on the remaining unfulfilled months of service times the Term Discount rates times 50 percent.

By way of example: Customer pays \$300 for a 36-month Term Agreement but chooses to terminate service prior to Month 28. The Discontinuance charge will be calculated as $36 - 28 = 9$ months, unfulfilled, times $\$300 \times 50\%$ equals \$1,350.

13. PUBLIC TELEPHONE SERVICE

The Company provides Public Telephone Access Line Service for the provision of Public Telephone Service to Payphone Services Providers ("PSPs") including the non-regulated operations of the Company.

13.1 General

1. Public Telephone Access Line Service is provided for use with PSP provided coin or non-coin operated Public Telephones.
2. Third number and collect calls to Public Telephone Access Line Service for PSP Public Telephones are not allowed.
3. The operator cannot perform coin-collecting functions.
4. The multi-line business subscriber line charge, found in the interstate access tariff, is applicable to all Public Telephone access lines.
5. Public Telephone Access Line Service is provided on a flat-rate basis with touchtone feature.
6. PSP Public Telephones must be connected to the Company network in compliance with Part 68 of FCC Rules and Regulations.
7. Public Telephone Service is provided subject to the condition that all applicable regulations in this Tariff will be adhered to.
8. Public Telephone Service is provided for use by the subscriber but may be used by others when so authorized by the subscriber, provided that all such usage is subject to the provisions of this Tariff.
9. Public Telephone Service is not subject to concessions.
10. Public Telephone Service may not be suspended at a reduced rate.

12. The Company is not responsible for refunds of coins deposited in PSP Public Telephones.
13. PSP Public Telephones may not be attached to other types of access lines.
14. The subscriber to Public Telephone Service will be responsible for any and all toll charges billed to the subscriber's account.
15. PSPs shall post on or near the Public Telephone the name and phone number of the owner of the instrument.
16. PSPs shall post on or near the Public Telephone the operating instructions for the instrument.
17. PSPs shall provide and post on or near the instrument a cost-free method for reporting complaints and obtaining refunds.
18. PSPs that accept coins shall accept coins of various denominations and shall be capable of returning unused coins.
19. PSPs shall not charge for calls not completed.
20. PSPs shall provide access to 911 Emergency Service (where available) free and without the use of a coin.
21. PSP instruments shall be FCC registered, hearing aid compatible, meet federal requirements for size of digits on the instrument, and the use of letterless keypads is prohibited.

13. PUBLIC TELEPHONE SERVICE (Cont'd)

13.2 Service Options

At the request of the subscriber, certain options may be added to the access line for Public Telephone Service and will be billed at the approved tariff rate. All options must be compatible with the hardware and software in use by the existing Telephone Company switching equipment.

13.2.1 Coin Supervision Additive Service

The Company will provide Coin Supervision Additive Service to PSPs who order Access Line Service for the provision of Public Telephone Service and where the Public Telephone equipment connected to the Access Line Service requires central office coin supervision capability.

Coin Supervision Additive Service provides the capability of central office line equipment to pass signals and/or tones from the Access line Service to a trunk terminating at the PSPs operator service provider. These signals enable an operator service provider to recognize coin deposits and return coins to the Public Telephone user. Coin Supervision Additive Service also permits a suitable equipped operator service provider to automatically ring back the originating access line upon completion of a call.

This option requires a special central office line card that differs from the standard access line card and will be provided where facilities exist.

13.2.2 Public Telephone Screening/Blocking

Screening/Blocking for Public Telephone access lines includes Company provided services necessary to coordinate with operator connections or block subscribers from making specific types of calls. This service includes software translations done at the Company's facilities and also includes coordination between the Company and connecting Company databases.

16. FOREIGN EXCHANGE (FX) SERVICES

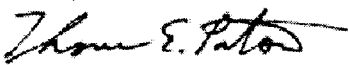

16.1 Regulations

1. Foreign exchange service is exchange service furnished to a subscriber from an exchange other than the one from which he would normally be served.
2. Foreign exchange service is offered in connection with flat rate individual line main station service and flat rate PBX service only.
3. Other services, equipment or facilities used in connection with foreign exchange service, except as otherwise indicated in this tariff, are furnished subject to the rates and regulations applying in the foreign exchange from which the subscriber is served.
4. Foreign exchange service is furnished subject to the same restrictions as to the use of the service by other than the subscriber and his representatives, as apply in connection with other classes of service.
5. Subscribers to foreign exchange service are not required to subscribe to other service in the exchange from which they would normally be served except where the normal exchange has extended area service with the foreign exchange.
6. When the foreign exchange from which service is requested has more than one exchange and/or central office in its local calling area, the Co-op shall determine from which of the exchanges and central offices service will be furnished.

NOTE: When two or more companies are involved in furnishing the service, such determination may be made only with the consent of the company that operates the exchange from which the service will be furnished.

7. Foreign exchange service is not in accord with the general plan of furnishing telephone service and such service is furnished only under special conditions where warranted by the circumstances involved and provided facilities are available.

16.2 Rates and Charges

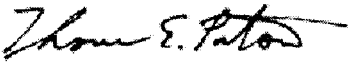

The rate for foreign exchange service is the nonrecurring and monthly rate for flat rate individual line main station service or PBX flat rate trunk line applicable within the base rate area of the serving foreign exchange, plus mileage charges as follows for each circuit:

1. Where the applicant for foreign exchange service is so located that it would be more economical to the Co-op to provide the foreign exchange service direct from the foreign exchange to the applicant's location by the extension or utilization of existing plant:

For the distance from the applicant's location to the rate center of the foreign exchange area from which service is to be furnished, a mileage charge of \$4.25 per mile or fraction thereof, airline measurement, will apply.

2. Where the applicant for foreign exchange service is so located that it is not economical for the company to provide the foreign exchange service direct from the foreign exchange to the applicant's location by the extension or utilization of existing plant:
 - a. For the distance between the rate center of the exchange from which the subscriber normally would be served and the rate center of the foreign exchange are from which service is to be furnished a mileage charge of \$4.25 per mile or fraction thereof, airline measurement, per month, will apply except as follows:
 - b. In case the subscriber is located outside the base rate area of the exchange from which he normally would be served, mileage charges for normal service will apply as set out in existing tariffs.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.1 General

1. This section contains regulations and charges applicable to the provision of attachment space for Attachers on poles of the Company.
2. The terms and conditions contained herein apply where the Attacher, as a customer of the Company, desires Pole Attachments on the Poles of the Company.
3. Communications Between Company and Attachers. Information regarding Company contacts for attachment requests, technical assistance, payment of invoices, pole attachment standards and certificate of compliance may be found on the Company's website at:

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.2 Definitions

1. Attacher – a cable television system operator, telecommunications carrier, broadband internet provider, or governmental unit requesting to attach new or upgraded facilities or who is legally attached to a pole owned or controlled by the Company. Attacher does not include a utility with an applicable joint use agreement with the utility that owns or controls the pole to which it is seeking to attach or a person seeking to attach macro cell facilities.
2. Attachment – any attachment by a cable television system operator, telecommunications carrier, broadband internet provider, or governmental unit to a pole owned or controlled by the Company.
3. Make-ready – the modification or replacement of the Company pole, or of the lines or equipment on the Company pole, to accommodate additional facilities on the Company pole.
 - (a) Complex Make-ready – any Make-ready that is not Simple Make-ready, such as the replacement of the Company pole; splicing of any communication attachment or relocation of existing wireless attachments, even within the communications space; and any transfers or work relating to the attachment of wireless facilities.
 - (b) Simple Make-ready – Make-ready in which existing attachments in the communications space of a pole could be rearranged without any reasonable expectation of a service outage or facility damage and does not require splicing of any existing communication attachment or relocation of an existing wireless attachment.
4. Poles – All references to “poles” of the Company shall mean poles which are either solely owned by the Company, are jointly owned by the Company and another, or are owned by another who has granted the Company exclusive use and control of space upon its poles.
5. Pole Attachment – This term means any attachment by an Attacher firm to a pole owned or controlled by the Company.
6. Joint User – All references herein to “joint user” shall mean a utility company or municipality which, together with the Company, jointly provides poles for common use in the provision of service of the respective entities, and shall also include a utility company or municipality which, together with the Company, owns a percentage of a pole, or which owns a pole upon which the Company has obtained exclusive use and control of specified space.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.2 Definitions (cont'd)

7. Red Tagged Pole – a pole that the Company owns or controls the pole that:
- i) Is designated for replacement based on the pole's non-compliance with an applicable safety standard;
 - ii) Is designated for replacement within two (2) years of the date of its actual replacement for any reason unrelated to a new Attacher's request for attachment; or
 - iii) Would have needed to be replaced at the time of replacement even if the new attachment were not made.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.3 Scope

1. Subject to the terms and conditions contained in this tariff, the Company will provide Attacher pole attachments and permit an Attacher, for the purpose of furnishing Attacher service, to install its equipment upon the Company's poles.
2. The Attacher shall secure from the proper franchising authority, a franchise to erect and maintain its equipment within public streets, highways and other thoroughfare, provided such franchising authority exists and shall secure any and all consents, permits, licenses, easements or rights-of-way that may be legally required for its operation hereunder. The Attacher shall additionally provide to the Company a map depicting the franchised area in which pole attachments may be applied for by the Attacher.
3. The Attacher shall assist in, and bear the expense of securing any additional consents, permits, or licenses that may be required by the Company because of Attacher pole attachments.
4. The franchises, consents, permits, licenses, easements and rights-of-way of the Company are for its own facilities and the provision of its other services. No rights in such franchises, consents, permits, licenses, easements or rights-of-way are conferred upon any Attacher hereunder.

17.4 Attachment Specifications

The Attacher, at its own cost and expense, shall construct, maintain and replace its attachments on the Company's poles in accordance with (1) such requirements and specifications as the Company shall prescribe and have on file with the Commission, (2) reserved for future use, (3) the requirements and specifications of the National Electrical Safety Code, as currently accepted by the KY Public Service Commission, (4) and Rural Utility Service Specifications and Standards, and (5) in compliance with any rules or orders now in effect or that hereafter may be issued by the Public Service Commission of Kentucky or other authority having jurisdiction. The Attacher shall comply, at its sole risk and expense, with changes and revisions in the above specifications and requirements.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.5 Rights of Way and Legal Authority

1. Upon application for attachment, the Attacher shall submit evidence satisfactory to the Company of its authority to erect and maintain its equipment within public streets, highways, and other thoroughfares and shall secure any necessary franchise, license, permit, consent, easement or rights-of-way from Federal, State or Municipal authorities or owners of property now or hereafter required to construct and maintain such equipment at the location of facilities of the Company which it desires to use. In the event any such franchise, license, permit, consent, easement or right-of-way is revoked or is thereafter denied to the Attacher for any reason, permission to attach to Company poles so affected shall immediately terminate, the Attacher shall forthwith remove its equipment from Company facilities.

2. Upon notice from the telephone company to the Attacher that the removal or cessation of the use of any pole has been requested or directed by Federal, State, or Municipal authorities, or property owners, permission to attach to such pole shall immediately terminate and the Attacher shall forthwith remove its equipment there from.

17.6 Protection against Claims from Libel and Slander, Copyright and Patent Infringement

The Attacher shall indemnify, protect, and hold harmless the Company from and against any and all claims for libel and slander, copyright, and/or patent infringement arising by reason of attachment of Attacher equipment to Company poles pursuant to this tariff.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.7 Limitations

1. No use, however extended, of the Company's poles under this tariff shall create or vest in the Attacher any ownership or property right in said poles. Nothing herein contained shall be construed to compel the Company to maintain any of its facilities for a period longer than that demanded by its other service requirements.
2. The Company reserves to itself, its successors and assigns the right to maintain its poles and to locate and operate its facilities in such manner as will best enable it to fulfill its other public service requirements. The Company shall not be liable to the Attacher for any interruption to the service of the Attacher or for any interference with the operation of the equipment of the Attacher, if such interruptions are beyond the control of the Company.
3. The Company reserves the right to provide pole attachment to more than one Attacher and to make such space available to other entities. This tariff shall not limit the rights and privileges previously granted to others to use any poles covered by this tariff, and the privileges provided by this tariff shall at all times be subject to such previously granted rights.
4. Failure to enforce or insist upon compliance with any of the terms or conditions of this tariff shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in effect.
5. In order to assure confident coverage of the indemnity and insurance requirements, the Attacher shall not assign, transfer or sublet any rights to make pole attachments hereunder without notification to the Company.
6. The Company may deny access to any pole, duct, conduit, or right-of-way on a nondiscriminatory basis if there is insufficient capacity or for reasons of safety, reliability, or generally applicable engineering purposes.
7. The Company shall not be required to provide access to any pole that is used primarily to support outdoor lighting.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.7 Limitations (cont'd)

8. The Company shall not be required to secure any right-of-way, easement, license, franchise, or permit required for the construction or maintenance of attachments or facilities from a third party for or on behalf of a person or entity requesting access pursuant to this administrative regulation to any pole, duct, conduit, or right-of-way owned or controlled by the Company.
9. A request for access to the Company's poles, ducts, conduits or rights-of-way shall be submitted to the Company in writing, either on paper or electronically, as established by this tariff or a special contract between the Company and person requesting access.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.8 Indemnities and Insurance

1. The Attacher shall indemnify, protect, and hold harmless the Company and other joint-users of said poles from and against any and all loss, costs, claims, demands, damage and/or expense arising out of any demand, claim, suit or judgment for damages to property and injury to or death of persons, including the officers, agents and employees of the Attacher, the Company and any joint-user, including payment made under any Workmen's Compensation Law or under any plan for employees' disability and death benefits which may arise out of or be caused by the installation, maintenance, presence, use or removal of said equipment or by the proximity of Attacher equipment to the cables, wires, apparatus and appliances of the Company or any joint user, or arising out of any act, omission or negligence or alleged act, omission or negligence of the Attacher or the joint negligence of the Attacher and the Company and /or any joint users. The Company shall not be held harmless merely because of Attacher attachments to its poles.

2. The Attacher shall maintain in full force and effect the following insurance policies or bond in lieu thereof providing an equivalent protection: (1) Workers' Compensation and Occupational Disease covering the Attacher's full liability under the Worker's Compensation Laws of the Commonwealth of Kentucky. This shall include Employer's Liability insurance in the amount of \$500,000. (2) Comprehensive General Liability insurance, in the amounts of \$1,000,000 Combined Single Limits or \$1,000,000 each occurrence, and \$1,000,000 aggregate for any accident resulting in bodily injuries to or the death of one or more persons and the consequential damages arising there from together with Property Damage Liability in the amount of \$500,000 each occurrence, with an aggregate total limit of \$500,000.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.8 Indemnities and Insurance (Cont'd)

3. All policies of insurance shall contain written endorsements to the effect that the amount of coverage of the insurance provided thereby will not be reduced or terminated without thirty (30) days written notice first being given to the Company. Certificates of insurance, incorporating the above described endorsement, shall be delivered to a designated officer of the Company and shall be approved by the Company before the Attacher firm is permitted to perform any work authorized pursuant to this tariff. Failure of the Attacher to provide notice of renewals, changes in carrier, or a reduction in or termination of insurance coverage will be just cause for the Company to terminate the Attacher's right to continue its pole attachments. If renewal premiums are not paid by the Attacher prior to said 30-day notice, the Company shall have the right to pay said premiums and be reimbursed by the Attacher upon demand.
4. The Attacher shall promptly notify the Company of all claims and potential claims relating to damage to property or death of persons arising or alleged to have arisen in any manner by or associated with, directly or indirectly, the presence or use of the Attacher's equipment upon any facility of the Company.
5. The Attacher shall exercise special precautions to avoid damage to facilities of the Company on said poles and hereby assumes all responsibility for any and all loss for such damage. The Attacher shall make an immediate report to the telephone company of the occurrence of any such damage and shall reimburse the Company for the expense incurred in making repairs necessitated thereby.

(C)

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.9 Surety

The Attacher shall furnish a bond for each individual Attacher system utilizing pole attachments under this tariff to guarantee the payment of any sum which may become due to the Company for rental and penalty charges pursuant to this tariff, for the benefit of the Attacher or as a result of default or forfeiture by the Attacher. The amount of such bond shall be based upon the following:

- (1) For attachments to 500 poles or less, a bond of \$5,000 shall be furnished, except as provided in (3) below.
- (2) For attachments to poles in excess of 500, further surety in the amount of \$5,000 for each additional 500 poles, or any increment thereof, shall be furnished except as provided in (3) below.
- (3) After one year following the completion of construction of an individual Attacher system and its placement into operation, the Attacher may request that the required amount of bond be reduced. Upon the Company's receipt of satisfactory evidence that all mechanics, workmen, and material men who furnished services, labor or materials in the construction of such Attacher system, and all taxing authorities, have been paid all amount due them, the Company will reduce the amount of bond required to the following:
 - (a) For attachments to 500 poles or less, a bond of \$2,000 shall be furnished.
 - (b) For attachments to poles in excess of 500, further surety in the amount of \$2,000 for each 500 poles, or any increment thereof, shall be furnished.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.10 Payment of Bills

All amounts payable by the Attacher to the Company under the provision of this tariff shall, unless otherwise specified, be payable within thirty (30) days after presentation of bills. Non-payment of any such amount when due shall constitute grounds for termination of the pole attachment usage rights under this tariff.

17.11 Termination of Attachments

1. Unless otherwise permitted pursuant 807 KAR 5:015, Section 6(1)(b), if the Attacher shall fail to comply with any of the provisions of this tariff, including compliance with the specifications previously referred to, the maintenance of required insurance coverage and surety bond requirements, and the timely payment of any amounts due, and shall fail for sixty (60) days after written notice from the Company to correct such non-compliance, the Company, at its option, may terminate the Attacher's right to continue any or all use of poles provided under this tariff and may act to remove the Attacher equipment at the Attacher's sole risk and expense. The Company shall be responsible for its own negligence in the event such action becomes necessary.
2. Upon valid objection being made by or on behalf of any governmental authority properly asserting jurisdiction, the Company may without notice, or, where circumstances permit, upon five (5) days written notice to the Attacher, terminate the provision of pole attachment space as provided in this tariff.
3. The Attacher may at any time remove its equipment attached to any pole or poles of the Company and shall immediately give the Company written notice of such removal.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.12 Notices

Any notice required or authorized by this tariff to be given by the Company or the Attacher to the other party shall be deemed to have been fully given when made in writing and deposited in the United States mail, postage prepaid, and addressed to such other party's principal business address last furnished by such party.

17.13 Rental Charges

1. The Attacher shall pay to the Company, annually in advance, the rental charges specified below.
2. From the effective date of the permit for previously unbilled attachments which shall be the date when the Company's facilities are made available for use by the Attacher, to the date of the next annual billing, the annual rental rate shall be payable on a prorated basis with such fractional amount submitted with the application for attachment.

17.14 Penalty Charges

Where pole attachments have been made without receipt of authorization from the Company, a penalty charge of twice the amount of the annual rate, from the date of the last previous physical inventory of pole attachments or inspection required pursuant to the rules of the Kentucky Public Service Commission, whichever is most recent. Additionally, a special "make-ready" charge, equal to twice the amounts that would have been due and applicable if the attachment or usage had been properly authorized, shall apply.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.15 Overlashing

1. No less than thirty (30) days prior to a planned overlash, the existing Attacher shall provide advance notice to the Company of its intent to allow overlashing of its Attachments. The Notice shall include at a minimum, the name and address of the proposed overlasher, the specific routes / poles being sought for overlashing, and the equipment / cable that shall be overlashed onto the existing Attacher. The advance notice must also include confirmation that the overlasher has met its insurance requirements under this tariff.
2. Subject to paragraphs 3 and 4 below, the Company shall not require prior approval for an existing Attacher that overlashes its existing wires on a pole; or a third party overlashing of an existing Attachment that is conducted with the permission of an existing Attacher.
3. The Company shall not prevent an attacher from overlashing because another existing Attacher has not fixed a preexisting violation unless failing to fix the preexisting violation would create a capacity, safety, reliability, or engineering issue.
4. If, after receiving advance notice, the Company determines that an overlash would create a capacity, safety, reliability, or engineering issue, it shall provide specific documentation of the issue to the party seeking to overlash within the thirty (30) day advance notice period and the party seeking to overlash shall address any identified issues before continuing with the overlash either by modifying its proposal or by explaining why, in the party's view, a modification is unnecessary.
5. A party that engages in overlashing shall be responsible for its own equipment and shall ensure that it complies with reasonable safety, reliability, and engineering practices.
6. If damage to a pole or other existing attachment results from overlashing or overlashing work causes safety or engineering standard violations, then the overlashing party shall be responsible at its expense for any necessary repairs.

17.15 Overlapping (cont'd)

7. Notices and Inspections / Correction of Completed Overlashes. An overlapping party shall notify the Company within fifteen (15) days of completion of the overlash on a particular pole.
- (a) The notice shall provide the Company at least ninety (90) days from receipt in which to inspect the overlash.
 - (b) The Company shall have fourteen (14) days after completion of its inspection to notify the overlapping party of any damage or code violations to its equipment caused by the overlash.
 - (c) If the Company discovers damage or code violations caused by the overlash on equipment belonging to the Company, then the Company shall inform the overlapping party and provide adequate documentation of the damage or code violations.
 - (d) At its sole discretion the Company shall either (i) Complete any necessary remedial work and bill the overlapping party for the reasonable costs related to fixing the damage or code violations; or (ii) require the overlapping party to fix the damage or code violations at its expense within fourteen (14) days following notice from the Company.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.16 Procedure for New Attachers to Request Pole Attachments. Timelines provided herein are subject to change should conditions outlined in Section 17.20 exist.

1. Application Review

- a) All requests for Pole Attachments must be made in writing by the new Attacher and include payment of the per pole Survey Charge provided if applicable. The Company shall review a new Attacher's pole attachment application for completeness before reviewing the application on its merits and shall notify the new Attacher within ten (10) business days after receipt of the new Attacher's pole attachment application if the application is incomplete.
- b) The Company shall not require a new attacher to submit a survey or pole loading analysis as a filing requirement for an application.
- c) The Company shall complete a review of an application of 500 poles or less within ten (10) business days after receipt of the application. The Company shall have an additional one (1) business day to complete its review for each additional 500-pole increment in an application.
- d) If the Company notifies a new Attacher that its attachment application is not complete, then it shall state all reasons for finding it incomplete, including lack of applicable fees.
- e) If the Company rejects an application the rejection shall state the reason for the denial and shall include specific citations to this regulation and the utility's tariff that form the basis of the rejection.
- f) If the Company does not respond within the time prescribed in subparagraph c. of this paragraph after receipt of the application, or if the Company rejects the application as incomplete but fails to state any reasons in the Company's response, then the application shall be deemed complete and the time for the Company's next procedural step begins to run.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.16 Procedure for New Attachers to Request Pole Attachments (cont'd)

1. Application Review (cont'd)

g) A new Attacher, if it submits an application while a previous application is still under review, may prioritize the order in which the Company shall review the applications. Prioritizing a new application resets the respective review time period of the new attacher's deprioritized applications currently under review over which the new application is being prioritized. (C)

2. Survey and Application Review on the Merits

a) A new attacher may submit a survey with an application of 500 poles or less, which the Company shall accept if the new attacher used an approved contractor listed on the Company's website and the survey was conducted no longer than thirty (30) days prior to submission. The Company shall conduct the survey for applications exceeding 500 poles. (C)

b) The Company shall complete a survey of poles for which access has been requested within forty-five (45) days of receipt of a complete application to attach facilities to its poles for the purpose of determining if the attachments may be made and identifying any Make-ready to be completed to allow for the Attachment.

c) The Company shall use commercially reasonable efforts to provide the new and existing Attachers with advance notice of not less than five (5) business days of any field inspection as part of the survey and shall provide the date, time, and location of the inspection, and name of the contractor, if any, performing the inspection. The Company shall allow the new Attacher and any existing Attachers on the affected poles to be present for any field inspection conducted as part of the Company's survey.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.16 Procedure for New Attachers to Request Pole Attachments (cont'd)

2. Survey and Application Review on the Merits (cont'd)

- c) If a new Attacher has conducted a survey pursuant to Section 17.21, or a new Attacher has otherwise conducted and provided a Survey, after giving existing Attachers notice and an opportunity to participate in a manner consistent with notices contained in Section 17.22, the Company may elect to satisfy survey obligations established in this paragraph by notifying affected attachers of the intent to use the survey conducted by the new Attacher and by providing a copy of the survey to the affected attachers within the time period established in Section 17.22.
- d) Based on the results of the applicable survey and other relevant information, the Company shall respond to the New Attacher either by granting access or denying access within forty-five (45) days of receipt of a complete application to attach facilities to its poles.
- e) The Company's denial of a New Attacher's pole attachment application shall be specific, shall include all relevant evidence and information supporting the denial, and shall explain how the evidence and information relate to a denial of access for reasons of lack of capacity, safety, reliability, or engineering standards.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.16 Procedure for New Attachers to Request Pole Attachments (cont'd)

3. Payments

- a) Survey Charges. The new Attacher shall be responsible for the costs of surveys made to review the New Attacher's pole attachment application even if the new Attacher decides not to go forward with the attachments.
- b) Payment of Make-Ready Estimates. Within fourteen (14) days of providing a response granting access pursuant to Section 17.16(2)(ed), the Company shall send a new Attacher whose application for access has been granted a detailed, itemized estimate in writing, on a pole-by-pole basis if requested and reasonably calculable of charges to perform all necessary make-ready.
 - 1) The Company shall provide documentation that is sufficient to determine the basis of all estimated charges, including any projected material, labor, and other related costs that form the basis of the estimate.
 - 2) The Company may withdraw an outstanding estimate of charges to perform make-ready beginning fourteen (14) days after the estimate is presented.
 - 3) A new Attacher may accept a valid estimate and make payment any time after receipt of an estimate, except a new Attacher shall not accept the estimate after the estimate is withdrawn.
- c) Invoices for estimates shall clearly identify the application or project for which payment is requested.
- d) Payment for the estimate shall clearly identify the application(s) or project(s) for which payment is made.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.17 Make-Ready

Upon receipt of payment for survey costs owed pursuant to the Company's tariff and the estimate specified in Section 17.16 (3) the Company shall, as soon as practical but in no case more than seven (7) days, notify all known entities with existing attachments in writing that could be affected by the make-ready.

1. For make-ready in the communications space, the notice shall:

- State where and what make-ready will be performed;
- State a date for completion of make-ready in the communications space that is no later than forty-five (45) days after notification is sent (or up to 105 days in the case of larger orders as established in 17.20.)
- State that any entity with an existing attachment may modify the attachment. Modification shall be consistent with the specified make-ready before the date established for completion;
- State that, if make-ready is not completed by the completion date established in this paragraph 1, the new Attacher may complete the make-ready, which shall be completed as specified pursuant to this paragraph 1; and
- State the name, telephone number, and email address of a person to contact for more information about the make-ready procedure.

(C)

2. For make-ready above the communications space, the notice shall:

- State where and what make-ready will be performed;
- State a date for completion of make-ready that is no later than ninety (90) days after notification is sent (or 135 days in the case of larger orders, as established in Section 17.20.
- State that any entity with an existing attachment may modify the attachment. Modification shall be consistent with the specified make-ready before the date established for completion;
- State that the Company may assert its right to up to fifteen (15) additional days to complete make-ready;
- State that if make-ready is not completed by the completion date established in this paragraph 2 (or, if the Company has asserted its fifteen (15) day right of control, fifteen (15) days later), the new Attacher may complete the make-ready, which shall be completed as specified in this paragraph 2; and
- State the name, telephone number, and email address of a person to contact for more information about the make-ready procedure.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.17 Make-ready (cont'd)

3. Once the Company provides the notices required in paragraphs 1 or 2 of this Section, it shall provide the new Attacher with a copy of the notices and the existing Attachers' contact information and address where the utility sent the notices. The new Attacher shall be responsible for coordinating with existing Attachers to encourage completion of make-ready by the dates established by the Company pursuant paragraph 1 for communications space attachments or paragraph 2 for attachments above the communications space.
4. The Company shall complete its make-ready in the communications space by the same dates established for existing Attachers in paragraph 1 or its make-ready above the communications space by the same dates for existing Attachers in paragraph 2 (or if the Company has asserted its fifteen (15) day right of control, fifteen (15) days later).
5. An attacher shall, within fifteen (15) business days following completion of all attachments within an application, provide written notice the Company in the manner and form listed on its website per 17.1.3 of this tariff.

(C)

(C)

17.18 Final invoice

1. Within a reasonable period, not to exceed 120 days after the Company completes its make-ready, the Company shall provide the new Attacher:
 - A detailed, itemized final invoice of the actual survey charges incurred if the final survey costs for an application differ from any estimate previously paid for the survey work or if no estimate was previously paid; and
 - A detailed, itemized final invoice, on a pole-by-pole basis if requested and reasonably calculable, of the actual make-ready costs to accommodate attachments if the final make-ready costs differ from the estimate provided pursuant to Section 17.16.3(b).
2. To the extent that the final invoice indicates an overpayment of survey charges and / or make-ready costs, such overpayment shall be refunded to the attacher.

17.19 Limitations on Make Ready Charges

1. The Company shall not charge a new Attacher, as part of any invoice for make-ready, to bring poles, attachments, or third-party or Company equipment into compliance with current published safety, reliability, and pole owner construction standards if the poles, attachments, or third-party or Company equipment were out of compliance because of work performed by a party other than the new Attacher prior to the new attachment.
2. The Company shall not charge a new Attacher, as part of any invoice for make-ready, the cost to replace any Red Tagged pole with a replacement pole of the same type and height.
3. If a Red Tagged pole is replaced with a pole of a different type or height, then the new Attacher shall be responsible, as part of any invoice for make-ready, only for the difference, if any, between the cost for the replacement pole and the cost for a new utility pole of the type and height that the Company would have installed in the same location in the absence of the new Attachment.
4. The make-ready cost, if any, for a pole that is not a red tagged pole to be replaced with a new Pole to accommodate the new Attacher's attachment shall be charged the Company's cost in accordance with the Company's tariff or a special contract regarding pole attachments between the Company and the new Attacher.

1. Deviations in Applications Due to Volume of Poles (continued)

- (C)
- e) The special contract, at a minimum, shall contain:
 - a. An agreement for a prepaid account from the new attacher to cover the cost of the request;
 - b. Direction from the new attacher regarding make ready work that the utility can complete without further direction from the new attacher including;
 - c. The maximum cost per pole;
 - d. The total cost for make ready work for each project or line of each project;
 - e. The new attacher's prioritization of projects if the new attacher has submitted multiple requests for attachment;
 - f. Contact information, including phone numbers and email addresses, for all necessary utility and new attacher personnel;
 - g. The cadence, location, and necessary personnel for each project; and
 - h. The timing of surveys and make ready.
 - f) If a special contract identified in paragraph (e) of this subsection cannot be agreed to within fifteen (15) business days from submission of a formal written request to engage from the attacher, the new attacher may file a complaint with the commission, with a copy served contemporaneously to the utility, on which the commission shall rule within twenty (20) business days of filing of the complaint.

17.20 Deviations from Established Timelines (cont'd)

2. Deviations from Make-ready Timeline

- a) The Company may deviate from the time limits specified in this section before offering an estimate of charges if the new Attacher failed to satisfy a condition in this tariff.
- b) The Company may deviate from the time limits established in this section during performance of make-ready for good and sufficient cause that renders it infeasible for it to complete make-ready within the time limits established in Section 17.20. The Company that so deviates shall immediately notify, in writing, the new Attacher and affected existing Attachers and shall identify the affected poles and include a detailed explanation of the reason for the deviation and a new completion date. The Company shall deviate from the time limits established in this section for a period no longer than necessary to complete make-ready on the affected poles and shall resume make-ready without discrimination once the Company returns to routine operations.
- c) An existing Attacher may deviate from the time limits established in this section during performance of complex make-ready for reasons of safety or service interruption that renders it infeasible for the existing Attacher to complete complex make-ready within the time limits established in this section. An existing Attacher that so deviates shall immediately notify, in writing, the new Attacher and other affected existing Attachers and shall identify the affected poles and include a detailed explanation of the basis for the deviation and a new completion date, which shall not extend beyond sixty (60) days from the completion date provided in the notice specified in subsection (4) of this section as sent by the Company (or up to 105 days in the case of larger orders specified in Section 17.20. The existing Attacher shall not deviate from the time limits established in this section for a period for longer than necessary to complete make-ready on the affected poles.

SECTION 17 – POLE ATTACHMENTS (cont'd)

17.21 Self-help Remedy

1. Surveys. If the Company fails to complete a survey as established in Section 17.16, then a new Attacher may conduct the survey in place of the Company by hiring a contractor to complete a survey, which shall be completed as specified in Section 17.23.
 - a) A new Attacher shall use commercially reasonable efforts to provide the Company and existing Attachers with advance notice of not less than five (5) business days of a field inspection as part of any survey the Attacher conducts and shall include the date and time of the survey, a description of the work involved, and the name of the contractor being used by the new Attacher.
 - b) A new Attacher shall allow the Company and existing Attachers to be present for any field inspection conducted as part of the new Attacher's survey.
2. Make-ready. If make-ready is not complete by the applicable date established in Section 17.16, then a new Attacher may conduct the make-ready in place of the Company and existing Attachers by hiring a contractor to complete the make-ready, which shall be completed as specified in Section 17.23. The make-ready shall be performed in compliance with this administrative regulation, the Company's tariff, and the construction standards listed on the Company's website per 17.1.3 of this tariff.
 - a) A new Attacher shall use commercially reasonable efforts to provide the Company and existing Attachers with advance notice of not less than seven (7) days of the impending makeready and shall include the date and time of the make-ready, a description of the work involved, and the name of the contractor being used by the new Attacher
 - b) A new Attacher shall allow the affected utility and existing Attachers to be present for any make-ready.
3. The new Attacher shall notify the Company or existing Attacher immediately if make-ready damages the equipment of the Company or an existing Attacher or causes an outage that is reasonably likely to interrupt the service of the Company or existing Attacher.
4. Pole replacements. Self-help shall not be available for pole replacements.

17.22 One-touch make-ready option. For Attachments involving Simple Make-ready, new Attachers may elect to proceed with the process established in this subsection in lieu of the attachment process established in Section 17.16.

1. Attachment Application. A new Attacher electing the one-touch make-ready process shall elect the one-touch make-ready process in writing in its attachment application and shall identify the simple makeready that it will perform. It is the responsibility of the new Attacher to ensure that its contractor determines if the make-ready requested in an attachment application is simple.
2. Application completeness
 - a) The Company shall review the new Attacher's attachment application for completeness before reviewing the application on its merits and shall notify the new Attacher within ten (10) business days after receipt of the new Attachers attachment application whether or not the application is complete.
 - b) An attachment application shall be considered complete if the application provides the Company with the information necessary to make an informed decision on the application.
 - c) If the Company notifies the new Attacher that an attachment application is not complete, then the Company shall state all reasons for finding the application incomplete.
 - d) If the Company fails to notify a new Attacher in writing that an application is incomplete within ten (10) business days of receipt, then the application shall be deemed complete.

17.22 One-touch Make Ready Option (cont'd)

3. Application review on the merits. The Company shall review on the merits a complete application requesting one-touch make-ready and respond to the new Attacher either granting or denying an application within fifteen (15) days of the Company's receipt of a complete application (or within thirty (30) days in the case of larger orders as established in Section 17.20 or within a time negotiated in good faith for requests equal to or larger than those established in Section 17.20.)
4. If the Company denies the application on its merits, then the Company's decision shall be specific, shall include all relevant evidence and information supporting its decision, and shall explain how the evidence and information relate to a denial of access.
5. Within the fifteen (15) day application review period (or within thirty (30) days in the case of larger orders as established in Section 17.20 or within a time negotiated in good faith for requests equal to or larger than those established in Section 17.20, the Company or an existing Attacher may object to the designation by the new Attacher's contractor that certain make-ready is simple.
6. An objection made pursuant to paragraph 5 shall be specific and in writing, include all relevant evidence and information supporting the objection, be made in good faith, and explain how the evidence and information relate to a determination that the make-ready is not simple.
7. If the Company's or the existing Attacher's objection to the new Attacher's determination that make-ready is Simple complies with paragraph 6, then the make-ready shall be deemed to be complex and the new Attacher shall not proceed with the affected proposed one-touch make-ready.

17.23 Contractors for Survey and Make-ready

1. Contractors for Self-help Complex and above the communications space Make-ready. The Company shall make available and keep up-to-date a reasonably sufficient list of contractors the Company authorizes to perform Self-help Surveys and Make-ready that is Complex and Self-help Surveys and Make-ready that is above the communications space on the Company's poles. The new Attacher shall use a contractor from this list to perform self-help work that is complex or above the communications space. new and existing Attachers may request the addition to the list of any contractor that meets the minimum qualifications in paragraph 4 and the Company shall not unreasonably withhold its consent.
2. Contractors for Surveys and Simple Make-ready work. The Company may keep up-to-date a reasonably sufficient list of contractors the Company authorizes to perform surveys and simple make-ready. If the Company provides this list, then the new Attacher shall choose a contractor from the list to perform the work. New and existing Attachers may request the addition to the list of any contractor that meets the minimum qualifications in paragraph 4 and the Company shall not unreasonably withhold its consent.
3. Contractors Not Already Approved by the Company
 - a) If the Company does not provide a list of approved contractors for Surveys or Simple Makeready or no Company-approved contractor is available within a reasonable time period, then the new Attacher may choose its own qualified contractor that shall meet the requirements in paragraph 4.
 - b) If choosing a contractor that is not on the Company-provided list, the new Attacher shall certify to the Company that the Attacher's contractor meets the minimum qualifications established in paragraph 4 upon providing notices required by this tariff.
 - c) The Company may disqualify any contractor chosen by the new Attacher that is not on the Company-provided list, but a disqualification shall be based on reasonable safety or reliability concerns related to the contractor's failure to meet any of the minimum qualifications established in paragraph 4 or to meet the Company's publicly available and commercially reasonable safety or reliability standards.
 - d) The Company shall provide notice of the Company's objection to the contractor within the notice periods established by the new Attacher in this tariff and in the Company's objection must identify at least one available qualified contractor.

4. Contractor minimum qualification requirements. Companies shall ensure that contractors on the Company-provided list, and new Attachers shall ensure that contractors selected pursuant to paragraph 3 meet the minimum requirements established in paragraphs this subsection.
 - a. The contractor has agreed to follow published safety and operational guidelines of the Company, if available, but if unavailable, the contractor shall agree to follow National Electrical Safety Code (NESC) guidelines as approved by the Kentucky Public Service Commission.
 - b. The contractor has acknowledged that the contractor knows how to read and follow licensed-engineered pole designs for make-ready, if required by the Company.
 - c. The contractor has agreed to follow all local, state, and federal laws and regulations including the rules regarding Qualified and Competent Persons under the requirements of the Occupational and Safety Health Administration (OSHA) rules and Rural Utility Service Specifications and Standards.
 - d. The contractor has agreed to meet or exceed any uniformly applied and reasonable safety and reliability thresholds established by the Company, if made available.
 - e. The contractor shall be adequately insured or shall establish an adequate performance bond for the make-ready the contractor will perform, including work the contractor will perform on facilities owned by existing Attachers.

5. In the event of a dispute over work to be performed by contractors pursuant to this Section, a consulting representative of the Company may make final determinations, on a nondiscriminatory basis, if there is insufficient capacity and for reasons of safety, reliability, and generally applicable engineering purposes.

17.25 Transfer of Attachments to New Poles

1. Unless an applicable tariff or special contract or Section 4 of this administrative regulation establishes a different timeframe, existing Attachers shall transfer their attachments within sixty (60) days of receiving written notice from the Company pole owner.
2. Existing attachers may deviate from the time limit established in paragraph 1 of this subsection for good and sufficient cause that renders it infeasible for the existing Attacher to complete the transfer within the time limit established. An existing Attacher that requires such a deviation shall immediately notify, in writing, the Company and shall identify the affected poles and include a detailed explanation of the reason for the deviation and the date by which the attacher shall complete the transfer. An existing Attacher shall deviate from the time limits established in paragraph 1 of this subsection for a period no longer than is necessary to complete the transfer.
3. If an existing Attacher fails to transfer its attachments within the timeframe established in paragraph 1 of this subsection and the existing Attacher has not notified the Company of good and sufficient cause for extending the time limit pursuant to paragraph 1 of this subsection, the Company pole owner may transfer attachments and the transfer shall be at the existing Attacher's expense.
4. The Company pole owner may transfer an existing Attacher's attachment prior to the expiration of any period established by paragraphs 1 or 2 of this subsection if an expedited transfer is necessary for safety or reliability purposes.

SECTION 9 (1)

BY: 
EXECUTIVE DIRECTOR

18. LOCAL OPERATOR AND CALLING CARD SERVICES

18.1 General

1. Local Operator and Calling Card Services allow customers to dial the "0" operator assistance in making a call or to dial direct and bill to a calling card.
2. The appropriate service charge, as specified in this tariff, will be applicable only if the call is completed within the local service area.
3. The person originating the call must either dial the telephone number or give the "0" operator the telephone number of the called party. If the caller dials the operator and does not know the telephone number, the "0" operator will have the caller connected to Local Directory Assistance Service. The Directory Assistance "0" operator surcharge, as specified, will be applied for the operator handling such a call.

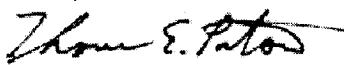

18.2 Application of Charges

1. The appropriate service charge, as specified herein, will be applied to each completed call except the following:
 - a. emergency calls to agency type telephone numbers, such as to those agencies of the federal, state or local government which have the capability and legal authority to provide aid in emergency situations, and to any emergency medical number; and
 - b. calls exempted, pursuant to this tariff.
2. Person-to-Person or a Station-to-Station local operator-assisted call may be billed to the originating main station line (except from pay telephones), calling card number, third number, collect or any other Company-approved identification number.
3. In addition to applicable service charge(s), each local non-sent paid call originating from a payphone service provider line and utilizing the Company's operator handling service will be rated at \$0.25.
