WATER SHORTAGE RESPONSE PLAN

Section 1. PURPOSE: The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of Corinth Water Districts voluntary and mandatory Water conservation measures throughout the Utility's service area in the event a shortage is declared.

Section 2. DEFINITIONS: These terms are applicable for this plan unless specifically noted.

- A. "Customer" shall mean any person or entity using water for any purpose from the utility's water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- B. "Raw Water Supplies" shall mean all water potentially available to persons in the Utility's service area.
- C. "Treated Water Supplies" shall mean water that has been introduced by the City of Williamstown into Corinth Water Districts distribution system. Uses of treated water are classified as follows:

Class 1--Essential Water Uses:

The following uses of water, listed by site or user type are essential.

Domestic:

Water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

Patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

Sales of domestic use where not reasonably available elsewhere.

Public Use:

Fire Fighting.

Health and public protection purposes, if specifically approved by health officials.

Class 2- Socially or Economically Important Uses:

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

Personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

Non-domestic, when other sources are not reasonably available elsewhere.

Commercial & Civic Use:

Commercial car & truck washes.

Laundromats.

Restaurants, clubs and other eating places.

Schools, churches, motels/hotels and other similar commercial establishments.

Outdoor Non-Commercial Watering:

Minimal watering of vegetable gardens.

Minimal watering of trees where necessary for life.

Outdoor Commercial or Public Watering, (using conservative methods and when other sources of water are not available or feasible to use):

Agricultural irrigation for the production of food and fiber or the maintenance of livestock.

Watering by arboretums and public gardens of state, national, regional or community significance where necessary to preserve specimens.

Watering by commercial nurseries at a minimum level to maintain stock.

Watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings require pursuant to law or regulation.

Watering of woody plants where necessary to preserve them, minimal watering of golf course greens.

Recreational:

Operation of municipal swimming pools & residential pools that serve more than 25 dwelling units.

Air Conditioning:

Refilling for startup at the beginning of cooling season.

Makeup of water during the cooling season.

Refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Class 3: Non Essential Uses:

Any waste of water, as defined herein, is non essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

Use of fire hydrants, excluding Class 1 and Class 2 uses, including use of sprinkler caps, testing fire apparatus and fire department drills.

Flushing of sewers and hydrants, except as needed to ensure public health and safety as approved by health officials.

Commercial & Civic Use:

Serving water in restaurants, clubs or other eating places, except by customer request.

Failure to repair a controllable leak.

Increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount that is required to support fish and wildlife.

Ornamental Purposes:

Of fountains, reflecting pools and artificial waterfalls.

Outdoor Non Commercial Watering:

Use of water for dirt control or compaction.

Watering of annual or non woody plants, lawns, parks golf course fairways, playing fields, and other recreational areas.

Washing sidewalks, walkways, driveways, parking lots tennis courts, or other hard surface areas.
Washing down buildings or structures for purposes other than immediate fire protections.
Flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

Expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping except when required by a site design review process.

Use of water for dirt control or compaction.

Watering of lawns, parks, golf course fairways, playing fields and other recreational areas.

Washing down buildings or structures for purposes other than immediate fire protection.

Flushing gutters or permitting water to run or accumulate in any gutter or street.

Recreational Uses Other Than Those Specified Class 2

Non-Commercial washing of motor and other vehicles:

Air Conditioning (see also Class 2 Purposes):

Refilling cooling towers after draining.

- D. "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.
- E. "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.
- F. "Curtailment: shall mean the reduction in entitlement by some percentage to meet anticipated water shortage
- G. Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw and or treated water supply shortages.

"alert" shall mean the raw or treated water supplies are consistently below seasonal averages, & if they continue to decline, may not be adequate to meet normal demands.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet the normal needs and that serious shortages exist.

"Rationing" shall mean the procedures must be established to provide for the equitable distribution of critically limited raw or treated water supplies, in order to balance demand limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

- Section 3. Applicability: The provisions of this plan shall apply to all retail and wholesale customers of the Utility, then implemented, this plan becomes the Utility's Water Shortage Response Regulation.
- Section 4. Entitlements: Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.
- Section 5: Determination of Water Shortage: Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration on the conservation program implemented. Official declaration of a Water Shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Utility's Board.
- Section 6. Term of Water Shortage Declaration: Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Utility's Chairman and Water Manager.

Section 7. Water Shortage State, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

1. Criteria. A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to 5 per cent below demand; there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies; the State Division of Water issues a Water Shortage Watch that includes the areas from which the Utility draws or receives water; or the Utilities sources of purchasing treated water are substantially curtailed or reduced.
2. Conservation & Curtailment Measures:
 - (a) Declare a Water Shortage Advisory.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Request voluntary conservation of all non essential (Class 3) water use.
 - (e) Request wholesale customers also issue a request for voluntary conservation by their customers of all non essential Class 3 water use

B. Alert Stage:

1. Criteria: A water alert shall be declared when the amount of treated water available is project to be up to 10 per cent below demand, OR RAW water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. Additional conditions may be added based on local condition
2. Conservation & curtailment Measures:

- (a) Declare Water Shortage Alert.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 Non-Essential uses of water
- (e) Curtail entitlements to all customers by the same percentage as the projected shortage.
- (f) Begin billing all customers water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$3.00 per thousand gallons of water.

C. Emergency Stage:

1. Criteria. A Water Emergency Stage shall be declared when the amount of treated water available is projected to be up to 20 per cent below demand, OR there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies are below the level necessary to meet normal needs. Additional conditions may be added based on local conditions.
2. Conservation & Curtailment Measures:
 - (a) Declare Water Shortage Emergency.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Prohibit all Class 3 uses of water.
 - (e) Prohibit all Class 2 uses of water except domestic uses for kitchens, bathrooms & laundries.
 - (f) Curtail all industrial & commercial entitlements (except health care facilities) by 100 per cent.
 - (g) Curtail residential entitlements by the same percentage as the projected shortage.
 - (h) Curtail entitlements to all wholesale customers by the same percentage as the projected shortage.
 - (i) Begin billing all customers water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$7.00 per 1000 gal.

D. Rationing Stage:

1. Criteria: Treated water available is greater than 25% below demand, or raw water supplies are below the level necessary to meet essential need and in the opinion of the Utility, mandatory rationing is required to ensure adequate water is available to maintain public health & safety.
2. Conservation & Curtailment Measures:
 - (a) Declare Water Shortage Rationing.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Prohibit all Class 3 and Class 2 uses water.
 - (e) Curtail all commercial and industrial entitlement (except health care facilities) by 100 per cent.
 - (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.
 - (g) Implement service interruptions to portions of the system in accordance with approved published schedule. The schedule shall be provided to all local news media.
 - (h) Begin billing customers water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$15.00 per 1000 gallons.

Section 8. Enforcement of Water Restriction:

Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibility imposed by this plan, or who impedes or interferes with any action undertaken or ordered pursuant to this plan shall be subject to the following:

- A. If the Utility official charged with implementation and enforcement of this plan learns of any violation of any water use restriction imposed, a written notice of the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours.

- B. The notice will inform the customer of his or her right to appeal by requesting a hearing before the Utilities Designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should be continued or should be terminated.
- C. Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved connection fee prior to reconnection of service.
- D. The excess usage charge billing provisions of this plan shall not be put in effect if a county or a City ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception:

- A. Exception for water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the Utility for an exception. For these purposes, "extraordinary hardship shall be defined as a condition that may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users". If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission of KY.
- B. Exception to Curtailment Surcharge:

Exceptions to excess use charges shall not be considered or granted.
