- (d) "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.

- (e) "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.
- (f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages, based upon, but not limited to, type of customers, class of service, type of usage and phase of water shortage.

(g) Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

- (h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the Association, when implemented, this Plan becomes the Garrard County Water Association's Water Shortage Response Regulation. BY: *[Signature]*  
 PUBLIC SERVICE COMMISSION MANAGER

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Board of Directors of the

Garrard County Water Association.

(Note: The Board of Directors of the Association shall consult with, have a member on, and receive advise from the Garrard County Water Shortage Management Task Force in determining the placing of or removal of any stage of its Water Shortage Response Plan.)

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies or service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Board of Directors of the Garrard County Water Association.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

- (1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to 10% below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the Association draws water.
- (2) Conservation and Curtailment Measures:
  - (a) Declare a Water Shortage Advisory.
  - (b) Provide proper notice to all customers and to all local news media.
  - (c) Eliminate all water leaks.
  - (d) Request voluntary conservation of all non-essential (Class 3) water use.

B. Alert Stage:

- (1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 20% below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs.
- (2) Conservation and Curtailment Measures:
  - (a) Declare Water Shortage Alert.

- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all non-essential (Class 3) water uses.

C. Emergency Stage:

1. Criteria: A Water Emergency shall be declared when the amount of treated water available is projected to be up to 40% below demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies below the level necessary to meet normal needs.
2. Conservation and Curtailment Measures:
  - (a) Declare Water Shortage Emergency.
  - (b) Provide proper notice to all customers and to all local news media.
  - (c) Eliminate all water leaks.
  - (d) Prohibit all Class 3 uses of water.
  - (e) Prohibit all Class 2 uses of water except Domestic uses for kitchens, bathrooms and laundries.
  - (f) Curtail Residential entitlements by the same percentage as the projected shortage.
  - (g) Curtail all commercial and industrial entitlements (except Health Care Facilities and the maintenance of livestock) by the same percentage as the projected shortage.
  - (h) Discontinue the placing of new water services until the water shortage is abated.
  - (i) Begin billing customers a drought surcharge of \$3.00 per thousand or portion thereof on all water used (both metered and bulk sales). Metered customers will be entitled to 2,000 gallons per month before applying the surcharge.

D. Rationing Stage:

1. Criteria: Treated water available is greater than 50% below demand or raw water supplies are below the level necessary to meet essential needs, and in

the opinion of the Board of Directors, mandatory rationing is required to insure adequate water is available to maintain public health and safety.

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Rationing.
- (b) Provide proper notice to all customers of their individual allotment as well as notifying the general public by local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlement (except Health Care Facilities and the maintenance of livestock) by the same percentage as the projected shortage.
- (f) Curtail all residential entitlements by the same percentage as the projected shortage.
- (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
- (h) Discontinue the setting of new water services until the water shortage is abated.
- (i) Close all public loading (bulk sales) stations.
- (j) Institute an excess use charge to be applied to any water use above an individual's allotment. The excess use charge shall be applied as follows:

Excess Usage Per Month  
First 2,000 gallons or portion thereof  
Each 1,000 gallons or portion thereof, thereafter

Charge for Excess

Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours.
- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee written forty eight (48) hours from time of issuance of written notice. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard with his or her counsel present at the appellee's own discretion before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.
- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception.

- (a) Exception to water use restrictions compliance with any curtailment measure of water use herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the Association for an exception. For these purposes "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Procedures for taking appeal shall be the same as those wherein violations are appealed and shall conform to all time and notice provisions of violation procedures. Any person aggrieved by the decision may file a complaint with the Public Service Commission.
- (b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its

applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.
