WHEREAS, by resolution duly adopted on February 13, 2012 by the Seller's City Council, this Agreement was approved and the Seller's Mayor was authorized to execute this Agreement for and on behalf of the Seller; and

2. **Quantity of Water.** The Seller shall furnish to the Purchaser, at the points of delivery hereinafter specified, such quantities of water as the Purchaser may require, but not to exceed, however, 6.0 million gallons per month.

3. **Minimum Purchases.** The Purchaser agrees to purchase from the Seller a minimum of 1.5 million gallons per month. The Purchaser shall pay for the minimum monthly quantity of water even if not used by Any

surplus amount used by the Purchaser during a particular month shall not be carried over to the next month.

4. Quality of Water. All water furnished to the Purchaser by the Seller during the term of this Agreement, or any renewal or extension thereof, shall be potable, treated water meeting applicable purity standards of all appropriate state and federal regulatory agencies. The water shall also be of the same quality furnished to the Seller's retail customers.

5. Delivery Points. The Seller shall deliver the water to the Purchaser at the existing points of delivery shown below and at such additional or substitute points of delivery which may be agreed upon in writing by both parties:

- a. Intersection of Leafdale Road and US Highway 31E;
- b. LaRue County Industrial Park at the intersection of Commerce Drive and Lincoln Parkway;
- c. Emergency connection at the intersection of Kentucky Highway 84/357 and Kentucky Highway 224; and
- d. Emergency connection at the intersection of Miller Road and Lincoln Farm Road.

The water shall be furnished at the points of delivery at a minimum pressure of thirty (30) pounds per square inch. The Seller shall use reasonable care and diligence in the operation and maintenance of its water system to prevent and avoid abnormal interruptions and fluctuations of supply and pressure. Should greater pressures than that available at a point of delivery be required to meet the needs of the Purchaser, it

shall be Purchaser's responsibility, at its own expense, to provide within its system such booster pumping, storage or other facilities as may be required to develop and maintain additional pressures within the Purchaser's system.

Emergency failures of water supply due to main supply line breaks, power failure, flood, fire and use of water to fight fire, earthquake or other catastrophe shall excuse the Seller from this provision for such reasonable period of time as may be necessary to restore service.

6. Operation of System. The Seller shall, at all times, operate and maintain its water system in an efficient manner and shall take such action as may be reasonably necessary to perform its obligations under this Agreement. Temporary or partial failures to deliver water shall be remedied with all possible dispatch. The Seller shall immediately inform the Purchaser by telephone, by e-mail, or by facsimile transmission of the nature and extent of such temporary or partial failure to deliver water.

7. Point of Delivery Equipment. The Purchaser shall furnish, operate and maintain, at its own expense, at the points of delivery, in a building or pit, the necessary metering equipment. Title and ownership of the buildings, meter pits and metering equipment shall continue to vest in the Purchaser.

8. Testing of Master Meters and Adjustments. The Purchaser shall be responsible for testing the master meters at least as often as the _____ forth

in 807 KAR 5:066, Section 16 (e.g. 2-inch meter to be tested every 4 years). A meter registering not more than two percent (2%) above or below the actual flow rate during testing shall be deemed to be accurate. If the meter registers more than two percent (2%) above or below the actual flow rate during testing, it shall be deemed to be inaccurate. If inaccurate, the previous readings of the meter shall be corrected for the three (3) months previous to such test in accordance with the percentage of inaccuracy found by such test. If any meter fails to register for any period, the amount of water furnished during such period shall be deemed to be the amount of water delivered in the corresponding period immediately prior to the failure, unless Seller and Purchaser shall agree upon a different amount. The metering equipment shall be read on or about the 15th day of each month.

9. Billing and Payment Procedure. The Seller shall furnish the Purchaser not later than the first business day of each month with an itemized statement of the amount of water furnished the Purchaser at each of the points of delivery during the preceding month and the cost thereof. The Purchaser shall pay those charges not later than the 20th day of each month.

10. Initial Rate. The initial wholesale rate shall be **\$2.10** per 1,000 gallons of water purchased. The initial volumetric wholesale rate shall remain in effect until at least December 31, 2015. This volumetric wholesale rate is based

upon the Seller's actual cost of providing water service to the points of delivery described in paragraph 5 of this Agreement.

11. Rate Modification. Commencing after January 1, 2016, the Seller shall have the right, on an annual basis, to adjust or modify the volumetric rate to reflect changes in the Seller's cost of providing water service to the Purchaser. Any increase or decrease in the wholesale rate shall be based on a demonstrable increase or decrease in the costs of performance hereunder.

12. Advance Notice of Rate Modification. Except for the Initial Rate, the Seller shall notify the Purchaser in writing of the proposed rate adjustment or modification at least thirty (30) days before it is to be adopted as the actual rate. This will enable the Purchaser to review and comment on the proposed rate before it is actually adopted by the Seller.

At the expiration of the thirty (30) day review period, the Seller may establish and adopt the actual rate to be charged the Purchaser and shall immediately notify the Purchaser in writing of the new rate.

13. Effective Date of Rate Modification. The effective date of the new rate shall be at least sixty (60) days after the Seller adopts the new rate. This will provide the Purchaser sufficient time to obtain a Purchased Water Adjustment from the Kentucky Public Service Commission (the "PSC").
