RULES AND REGULATIONS

NON-RECURRING CHARGES:

1. The utility will collect for non-recurring charges to recover customer specific costs incurred, which would otherwise result in monetary loss to the utility or increased rates to other customers to whom no benefits accrue from the service provided or action taken. The utility may establish or change any non-recurring charge by applying for Public Service Commission approval of such charge in accordance with the provisions of 807 KAR 5:011, Section 10.
2. Non-recurring charges will be applied uniformly throughout the area served by the utility. Such charges will relate directly to the service performed or action taken and only yield enough revenue to pay the expenses incurred in rendering the service.
3. The utility will assess a charge for the following non-recurring services:
 - a. Connection/Turn-on Charge: Will be assessed for new service turn-ons, seasonal turn-ons, temporary service, or transfer of service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
 - b. Reconnection Fee: Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of utility or Public Service Commission rules and regulations.
 - c. Field Collection Charge: Will be assessed when a utility representative visits the premises of the service connection to terminate service, and the customer is on-site and pays the bill to avoid termination of service. This fee may only be charged once per billing period.

- d. Meter Reading Recheck Fee: Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.
- e. Meter Test Request: Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy, and the test shows the customer's meter is not more than two percent (2%) fast.
- f. Returned Check Fee: Will be assessed when a customer's check/bank draft is returned, either due to insufficient funds or other reason due to customer fault.
- g. After Due Date Penalty Charge: Will be assessed on the delinquent amount of the bill, less taxes.
- h. Broken Meter Lock Fee: Will be assessed when a utility customer tampers with lock or locking device.
- i. Meter Valve Replacement Charge: Will be assessed when a utility customer damages or breaks due to misuse or vandalism.
- j. Meter Relocation Charge: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting a change must reimburse the utility for the actual costs incurred, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.

RULES AND REGULATIONS

NON-RECURRING CHARGES <CONTINUED>

k. Service Call Investigation Charge: Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem, and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer.

l. Credit / Debit Cards : All customers may pay their bill by credit or debit card. This method of payment may be made in person at the Marion County Water District office or online through the District's website.

(N)

If on the bill due date an attempt to pay the credit card or debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late after that date. All late charges and penalties will be applied. If a customer is paying on our disconnect day and the card is denied, the same rules as above apply, in addition to service being disconnected.

When a customer makes a payment by credit card, the utility will assess a fee equal to that charged to the utility by the credit or debit card processing company to process the transaction. This fee is generally calculated using a formula applied to the balance of the amount charged to the credit or debit account but may be a flat fee per transaction. Prior to processing the transaction, the customer will be informed of the fee amount and, upon request by the customer, the formula employed to arrive at this fee amount.

RULES AND REGULATIONS

This schedule of Rules and Regulations governs the furnishing of water service by the Marion County Water District hereinafter referred to as the Utility and applies to all service received from the Utility. No employee or individual director of the Utility is permitted to make an exception to Rates, Rules or Regulations. All Rules and Regulations are to be in effect so long as they are not in conflict with Public Service Commission Rules and Regulations. The Utility is further subject to all Rules and Regulations of the Commission even though not contained herein.

REVISIONS

These Rules and Regulations may be revised, amended, supplemented or otherwise changed from time to time subject to approval of the Public Service Commission, and shall have the same force as the present Rules and Regulations.

SERVICE AREA

The Utility furnishes water service to Marion County and a Southern portion of Nelson County located at Lebanon, Kentucky, in Marion County, Kentucky.

AVAILABILITY

Water service is available to any domestic, commercial or industrial consumer within the Utility's area where water lines are in place.

WATER FAILURE

The Utility is responsible for water failure only when in control of the Utility's employees. No consumer is paid damages for equipment unless such damages are specifically found to be caused by an act of negligence on the part of the Utility or its employees.

PROTECTION BY CONSUMER

Consumer shall protect the equipment of the Utility on his premises and shall not interfere with Utility's property or permit interference except by duly authorized representatives of the Utility.

RULES AND REGULATIONS

NOTICE OF TROUBLE

Consumer shall give immediate notice to the Utility of any irregularities or unsatisfactory service and of any defects known to consumer

MAINTENANCE

The Utility may at any time deem necessary, suspend water service to any consumer or consumers for the purpose of making repairs, changes or improvements upon any part of its system. The Utility shall give reasonable notice of such suspension of service to the consumer when practical and feasible.

The Utility shall be responsible for the maintenance of that portion of the service line installed by the Utility and the consumer shall be responsible for the maintenance of that portion thereof installed by the consumer.

EXTENSION OF SERVICE

Extension of service shall be in accordance with 807 KAR 5:066, Section 11.

LINE RELOCATIONS

When necessary to move or relocate facilities, the cost will be paid by party or parties requesting such relocation.

BILLING, COLLECTION, PENALTIES

There will be two (2) different billing cycles for the Utility. Bills for water service will be issued on the fifteenth (15th) day of each month for customers included on the first billing cycle. Customers included on the second billing cycle will have bills issued on the thirtieth (30th) day of each month. The day the bills are actually issued may vary slightly from month to month due to weekends and holidays. Bills are due and payable within fifteen (15) days from the date of issuance.

DISCONTINUANCE OF SERVICE FOR NON-PAYMENT AND OTHER REASONS

- A. The District may refuse or terminate service to a customer under any of the following conditions.
1. For the violation or noncompliance of any rule or regulation set forth in this Tariff;
 2. For noncompliance with the rules and regulations of the Kentucky Public Service Commission;
 3. If a dangerous condition exists on a customer's premises;
 4. For refusal to provide reasonable access;
 5. For illegal use or theft of service;
 6. For non-payment of bills;
 7. For non-payment of any other indebtedness owed to the District;
 8. For tampering with the meter, meter seal, lock, shut-off valve, or any other part of the District's system or permitting such tampering by others;
 9. Cross-connection of any separate water source with the water service provided by the District;
 10. For connecting more than one residence to a meter; or;
 11. Residence is deemed not fit for human occupancy by local, state, or federal health departments.

DISCONTINUANCE OF SERVICE FOR NON-PAYMENT & OTHER REASONS <CONT>

- B. If water service is terminated for non-payment of a bill, the customer shall be given at least five (5) days written notice, separate from the original bill, of the District's intent to terminate. Service shall not be terminated before twenty (20) days after the mailing of the original unpaid bill, unless, prior to discontinuance, a residential customer presents to the District a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may not be effected until the affected resident can make other living arrangements or until not less than thirty (30) days elapse from the date of the District's termination date. The District shall not be responsible for a customer who does not receive their bill as long as the billing address is correct.
- C. The District may deny service to an applicant who is a member of a delinquent household where the delinquent customer continues to live and use the service in the household.

Marion County Water District

RULES AND REGULATIONS

WATER LINE EXTENSION POLICY

The District shall determine the total cost of the proposed water main extension (exclusive of the meter connections) and the total length of the extension. The District shall pay that portion of the cost of the water main extension equal to 50 feet for each applicant for service. That part of the cost not covered by the District's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the District's approved "Tap-on-fee" for a meter connection to the main extension.

For a period of five years after the original construction of the main extension, each additional customer directly connected to each particular extension will be required to contribute to the cost of that water main extension based on a recomputation of both the District's portion of the total cost and each customer's contribution as set out above. The District shall refund to those customers that have previously contributed to the cost of each main extension itself that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers directly connected to each main extension for a five-year period after it is placed in service are to contribute equally to cost of construction of the water main extension itself. In addition each customer must pay the approved "Tap-on-fee" applicable at the time of their application for the meter connection. The "Tap-on-fee" is not part of the refundable cost of the extension and may be changed during the refund period. After the five-year refund period expires, any additional customer applying for service on each main extension must be connected for the amount of the approved "Tap-on-fee" only. Also, after the five-year refund period expires, the District will be required to make refunds for an additional five-year period in accordance with 807 KAR 5:066 Section 12(b).

SECURITY DEPOSITS

The District may require a minimum cash deposit or other guaranty to secure payment of bills.

Service may be refused or discontinued for failure to pay the requested deposit. Interest accrued pursuant to KRS 278.460 shall be credited to the customer's bill on an annual basis.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history. In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the District. If the customer has no previous history with the District, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.
5. Whether the customer has filed bankruptcy proceedings within the last seven years.

If a deposit has been waived and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The District may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage.

RULES & REGULATIONS

MONITORING OF CUSTOMER USAGE

On a monthly basis the District will monitor the usage of each customer according to the following procedure:

1. The customer's monthly usage will be compared with the average monthly usage for the 12 months immediately preceding that period.
2. If the usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the monthly usage differs by 100 percent or more and cannot be attributed to a readily identified common cause, the District will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the District will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.

In addition to the annual monitoring, the District will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.

RULES AND REGULATIONS

1. Classification of Water Service for Purposes of Determining Exemptions from Sales and Use Tax.

A. Residential Classification

1. Use of dwelling unit constituting a separate independent housekeeping establishment which is separately metered and occupied by one or more persons as a single housekeeping unit shall be deemed residential use. The name in which an account is established or billed is a non-determining factor and the structure to which service is to be provided may be under construction, occupied or unoccupied.
2. Agricultural use when provided through the same water meter utilized by the dwelling structure on the property shall be deemed residential use.
3. Water meter service installed on property that is intended for future residential use, whether the customer's service line is connected initially or planned to be connected in the future, shall be deemed residential use.

B. Non-residential Classification

1. Any use other than a residential use as defined in Section A including specifically, but not by way of limitation, industrial and business usage.
2. Mobile home parks served by a single meter.
3. Multiple dwelling units within one structure when all dwelling units are served by a single meter.

C. Determination of Usage

The determination of usage as to whether residential or nonresidential is based upon the principal purpose for which the water service when it was initially installed or for which the structure is being or has been constructed until the District has been notified by the owner in writing that the purpose for which the water service was installed has changed.

RULES AND REGULATIONS

II. Usage from a Water Meter

- A. No more than one residence, including mobile homes may connect to one meter.
- B. A residence and any agricultural usage (with the exception of usage by a tenant dwelling or rental dwelling) may be supplied from the same water meter. A tenant dwelling or rental dwelling is considered a separate residence and must be supplied from a separate water meter.
- C. Where multiple apartment buildings under separate roofs are built on the same lot, each building must have one water meter.
- D. Each commercial, industrial, or any other entity must have a separate water meter. Excluding residential and apartment complexes, where a commercial, industrial, or other entity involves more than one structure on a single lot (lot approved by the local Planning Commission), which will be operated as one entity under one entity name, such property can be served by one water meter.
 - 1. Should such property cease to be operated as one entity it will be required that separate water meters be paid for by the owner of each lot and the service line(s) from the meter(s) to the point of use be installed and paid for by the respective property owner(s).
- E. Where multiple residential, commercial, industrial or other such units are under one roof, one meter and service line is all that is required.
- F. Mobile home parks on a single parcel of land, approved by the local Planning Commission as a mobile home park, are considered one business and may be served by one meter.

RULES AND REGULATIONS

LEAK ADJUSTMENTS

A customer may make a request for a bill adjustment in the event of a leak under the following conditions:

1. The customer must request a leak adjustment in writing to the utility.
2. In order to qualify for a leak adjustment, the customer must meet the following:
 - a. The excess usage for residential customers must be at least 50,000 gallons above average usage. (T)
 - b. The excess usage for commercial customers, schools and multi-family dwellings must be ten percent above average usage.
 - c. If repair work is performed for hire, a copy of the billing invoice must be submitted at the office.
 - d. If the homeowner performs repair work, a copy of the receipt for purchased parts must be submitted at the office.
3. If it is determined by the District that the increase in usage was due to negligence by the customer, an adjustment shall not be granted.
4. A swimming pool, fishpond or other items deemed explainable by the District shall not be used as a reason for an adjustment.
5. The District shall determine the excess usage by comparing the usage during the period while there was a leak with the customer's average usage. The customer's average usage will be determined by computing the customer's average usage for the twelve (12) months billing period immediately prior to the leak. If a twelve (12) month usage history is not available, the District will use the available usage history and other relevant factors to determine a reasonable estimate of the customer's average usage. The difference between the usage while there was a leak and the average usage is the excess usage. The excess usage will be charged at the per thousand gallon leak adjustment rate.
6. Only one (1) leak adjustment will be made per twelve-month period.
7. The Leak Adjustment Rate shall be the purchase cost per 1,000 gallons of water from Lebanon Water Works, Co. Inc. or Campbellsville Municipal Water & Sewer System.

RULES & REGS

FIRE DEPARTMENTS:

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any User that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water. A User shall submit a monthly report even if it withdraws no water for fire protection or training purposes.

A non-reporting User's usage shall be presumed to be 0.3 percent of the utility's total water sales for the calendar month. A non-reporting User may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and shall adjust the presumed usage amount accordingly.

The non-reporting User shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting User shall also be assessed a penalty of \$ 50.00 for each failure to submit a report in a timely manner.

RULES AND REGULATIONS

Private Fire Service Line & Sprinkler Systems

Any customer that requests this service must install a post-indicator valve vault.

The vault must meet Marion County Water District's specifications and must contain but not limited to the following:

1. Shall have a post-indicator and valve
2. Shall be of concrete construction
3. Contain isolation and check valves
4. Shall be plumbed for domestic metering and a bypass for meter. The size of the meter shall be based on customer's usage requirements.
5. Inlet and outlet pipe size shall be no smaller than 6 inch and shall be ductile iron

The cost of the construction and installation of the vault shall be the sole responsibility of the customer. After installation, said vault becomes the property of the Marion County Water District and shall be maintained by the District.

The District will make the connection to its mains at the cost and expense of the customer.

The District shall not be considered in any manner an insurer of property or persons, or to have undertaken to extinguish fires, or to protect any persons or property against loss or damage by fire, or otherwise. Unless otherwise stated in writing, the District offers no guarantee or assurances that its facilities can supply the quantity of water at the necessary pressures to support fire protection or fire fighting activities or to extinguish any fire.

TITLE Manager

BY AUTHORITY OF ORDER OF THE PUBLIC SERVICE COMMISSION
IN CASE NO. _____ DATED _____

CONTRACT FOR RESIDENTIAL/COMMERCIAL WATER SERVICES

THIS CONTRACT made and entered into this _____ day of _____,

between _____ Telephone No. _____

Service address _____

Mailing address _____

party of the FIRST PART, and MARION COUNTY WATER DISTRICT, P. O. Box 528, Lebanon, KY 40033,
party of the SECOND PART.

The party of the FIRST PART agrees to pay the tap-on fee \$ _____, at the time of signing this contract to connect to the water system and to pay the minimum monthly bill, even if no water is used, as well as charges for any water used that is above the gallons included in the minimum monthly bill. The billing will begin as soon as the meter is installed by the District and water is made available to the meter, regardless of whether the party of the FIRST PART connects to the system.

It is understood and agreed that the party of the SECOND PART reserves the right to determine the size of service connection to be used to supply water to the party of the FIRST PART. A 3/4" x 5/8" meter will be used unless the party of the FIRST PART contracts for a larger meter. All other meters will be actual cost.

A separate meter must be installed for each residence. The party of the FIRST PART agrees not to resell water purchased hereunder.

The party of the FIRST PART agrees to permit the District to lay, maintain, repair, remove and disconnect a service line and meter, and read meters at a point on customer's property to be designated by the District for each signed connection with the right of ingress and egress on property, and to grant an easement for installation of water lines where required.

The party of the FIRST PART agrees that no other present or future source of water will be connected to any water lines served by the District's water lines and will disconnect from their present water supply prior to connecting to and switching to the District's system and shall eliminate their present or future cross-connections in their system. The party of the FIRST PART shall apply for a plumbing construction permit at the local health department in the county where the service address is located.

The party of the FIRST PART shall install and maintain at their own expense a service line which shall begin at the meter and extend to the dwelling or place of use. The party of the FIRST PART shall install their own cut-off valve in their service line.

The party of the FIRST PART agrees to comply with and be bound by the Articles, Bylaws, Rules and Regulations of the District now in force, or as hereafter duly and legally supplemented, amended or changed. The District may terminate service to any customer for violating a District Regulation.

The failure of the party of the FIRST PART to pay water charges duly imposed shall result in the automatic imposition of the following penalties:

- A. Non-payment within fifteen days from the due date will be subject to a penalty of ten percent of the delinquent account.
- B. Non-payment within twenty days from the due date will result in the water being shut off from the party of the FIRST PART'S property.
- C. In the event it becomes necessary for the District to shut off the water from the party of the FIRST PART'S property, a fee set by the District in its rate schedule will be charged for a reconnection of the service.
