Re: Tariff/Contract No. C63-1366
Water Purchase Contract - North Marshall Water District

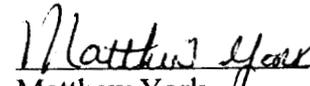

Dear Sir:

The contract rate for the sale of water to Jonathan Creek Water District should be the rate contained in North Marshall Water District approved tariffs and that rate is \$1.92/thousand gallons. This letter and the rate correction has been discussed with the Assistant General Counsel Gerald Wuetcher. Please attach this letter, which authorizes the correction in the contract rate, to the contract previously submitted.
